HB249 Judiciary Committee Hearing Opponent Testimony.

Mr. Chairman, Ranking member, and members of the Judiciary committee,

I request that my state government stop these unnecessary bans of personal freedoms in the name of "protecting children." Ohio has plenty of obscene laws that can handle any real situation making HB249 nothing but targeted bigotry.

News reports constantly are showing who is the real threat to children and the criminals are clearly not drag performers.

Please stop wasting my tax dollars with these ridiculous hearings disguising bigotry and work on the real problem facing Ohioans like Property Tax and Healthcare

Sincerely,

James Powel
