Bluebird Organic Farm

Failures and the allure of ^{Harrison} Cadiz Ethanol LLC

Plain Star Properties vs Farmers Ethanol
Cattle milks to be fed on
the by products
of the plant

Applied Energy Report

Not Sustainable

Water used and contaminated

45Q Tax Credit

More energy needed to do EOR process

\$1.2 billion

Public Subsidies to give energy companies more money
for the problems that they create

Extending fossil fuel extraction

2nd largest source of CO₂

30% more energy used to CCS

35 cancelled projects

Southern Co. 7.5 billion

Shortfall of plants

Energy used to grow corn for ethanol

1.2 Expensive

effectiveness is untested and unproven

Limited liability of projects

Account's Perspectives Pipeline Safety

Rupture no warning
no detection

Dry Ice
Settles in low lying areas

Impurities can cause reaction on pipeline
water + H_2S (Hydrogen Sulfide)
↳ carbonic acid eats carbon steel

The history of the expansion of natural gas
there is no natural to gas

What is a farmer to do?

Harrison City Timber and Gas the beginning

Coal Mining

The Gas Savior

Next Carbon Capture

All myths of sustainability

The pipelines will steal more land

Create more threats to farm land

Create more risk for human animal + vegetable
