

Dear Representative Roemer,

I am a registered Ohio voter and am writing to voice my opposition to HB355. While I understand the need for property tax relief, this bill will harm first responders, schools, and local governments to the point of no longer being able to provide essential services. I am deeply concerned about the effects this will have in my local community and across the state. I am asking for this bill to be stopped in committee.

Sincerely,
Lori Neben
