Dear Representative Justin Pizzulli,

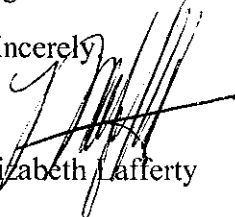

I am writing in support of HB 540 and the needed change in how tax-exempt organizations are exempted from tax revenue liability. Even the Adams County Board of Developmental Disabilities is not “totally” tax exempt. We lease out office space in our building and this space is considered revenue by law and property tax must be paid.

The Adams County Board of Developmental Disabilities is funded annually through property tax revenue. Our entity is only one of multiple county agencies that rely on tax revenue for annual funding to operate our departments. The DD board is a mandated agency by the State of Ohio to provide services to eligible individuals with disabilities.

My current research in the tax-exempt acreages in Adams County is right at 41,646. There are even exempt entities that own property with a tax exemption of “hospital” with nothing on the land. This does make one wonder why and how this is allowed and who is monitoring the status of such acreages. The Nature Conservancy owns over 17,000 acres and employees 2-3 people. They are obviously wealthy enough to buy all of this premium land, but have to be exempted from the land tax?? The Ohio Department of Natural Resources is another entity that owns over 9,000 acres, Shawnee Forest over 9,000 acres and the land owned by all of these entities is everywhere in Adams County. The count of townships effected by tax exemption status is too numerous to mention. The uncollected property tax revenue loss for Adams County over the course of years is absolutely in the millions of dollars.

I have attached a print out of all the property owned by the above-mentioned tax exempted organizations. HB 540 is long overdue for one of the poorest counties in the State of Ohio.

Sincerely,

Lizabeth Lafferty

Superintendent, Adams CBDD
