

Afternoon,

Thank you for allowing me to submit my testimony. My name is Jennifer Casto and I strongly oppose State Bill 34. This bill would allow school districts to display the Ten Commandments inside public schools, which violates the First Amendment concept of church and state separation. Similar laws in other states have been struck down as unconstitutional. If commandments are allowed to be posted in public schools, imagine the fights that would follow about which Commandments to honor. Please do not allow this bill to move forward. Thanks for your consideration.

Best,
Jennifer Casto
