

Testimony on SFY 26/27 Operating Budget Senate Finance Committee

Chairman Cirino, Vice-Chair Chavez, Ranking Member Hicks-Hudson, and esteemed committee members,

I want to thank you for the opportunity to testify before you today.

My name is Roy Cherry and I am the CEO of The Epilepsy Center of Northwest Ohio, we are headquartered in Maumee, Ohio and serve Lucas and Wood County. We provide residential, day programing, vocational services plus transportation for individuals with intellectual/developmental disabilities. In addition, we are representative payee for 600 individuals with intellectual/developmental disabilities in Ohio. All of these services are administered by the Department of Developmental Disabilities (DODD). Our team of 144 employees are proud to provide these essential services to over 50 people in residential program, over 50 in our adult day/vocational program and as mentioned, 600 receiving representative payee services.

First, I want to express our deep gratitude for the much-needed investment in developmental disability services in the last state budget. The funding increase helped providers like us recover from a decade-long crisis that led to devastating workforce shortages. Thanks to your support, we have been able to **[choose 3 or 4 of these to include]**:

- Reduce turnover stabilizing our workforce and improving continuity of care.
- Increase applicants, allowing us to fill critical positions and provide more reliable services.
- Reduce overtime costs, which are necessary for coverage but are not reimbursed by Medicaid.
- Increase wages, with our current average Direct Support Professional (DSP) wage at \$18.00 per hour.

I want to express my appreciation to Governor DeWine and Director Hauck for honoring the commitment made in the last General Assembly by using General Revenue Funds (GRF) to maintain the rate increases that were funded in part with ARPA dollars. This investment provides much-needed stability for providers and the people they serve. However, the budget does not include any additional funding to further boost direct support professional wages, despite the continued workforce crisis and rising costs. The last rate increase took effect in July 2024, and without action from this body, providers face a nearly four-year gap in rate adjustments—putting us right back in the crisis we just emerged from.

To ensure Ohioans with disabilities and their families have access to the care they need, **we urge the Senate to:**

1. **Maintain the Governor's investment** in ICFs, Multi-System Youth, and Technology First initiatives.
2. **Include a rate increase for DODD HCBS waiver providers** to keep up with inflation and workforce demands.
3. **Establish a mechanism for ongoing rate increases** to prevent future funding crises.

Investing in these services is not just about providers—it's about ensuring Ohioans with disabilities receive the care and support they need to live full, independent lives in their communities. We look forward to working with you to build on the progress you've made and keep Ohio moving forward.

Thank you again for the opportunity and privilege to bring my concerns before you and if I can ever be of any help in this process, please let me know.

Sincerely,

Roy J. Cherry, CEO

The Epilepsy Center of Northwest Ohio
