

To Whom It May Concern:

I am a director of the Logan County Land Trust. I support the restoration of the following provision, "Increases the percentage of oil and gas severance taxes credited to the Geological Mapping Fund (Fund 5110), from 10% to 14%, and decreases the percentage to the Oil and Gas Well Fund (Fund 5180), from 90% to 86%."

The protection of aquatic ecosystems and public water systems relies on aggregate resource mapping and groundwater aquifer studies.

Best Regards,
Bruce Smith
