

Proponent Testimony for SB 56 Revise medical and adult-use marijuana laws; levy marijuana taxes

Honorable Huffman,

I am in favor of the above bill and am happy to see more clarification and limits that this bill will provide. I voted no for this ballot initiative however the public voted for it. Anything that can limit the use of recreational cannabis would be better than nothing. I would opt to have this removed from the Ohio constitution if that would be possible.

Please respond to this so I am sure you received this.
