Dear Representatives,

It is important that all votes made prior to or on election day are counted, regardless of whether or not mailed in ballots arrive by election day. As we know, the postal service is under stress and mistakes get made, sometimes mail gets caught up in the machine. None of these should disqualify a vote from counting.

Please spend your time and energy on issues that we care about, not on things like this bill which aim to restrict valid votes. As an Ohio voter and taxpayer, there are a great many things I care about that are NOT this bill. So in supporting a bill like this, you are losing me and many other voters twice: once for wasting your time on a bill like SB 293, and once for ignoring issues we actually care about.

Thank you for your time in reading this.

Sincerely,  
Lori Kumler
