

Written Testimony of Jennifer Valley

SB 107

November 17, 2025

Chair Roegner, Ranking Member Blackshear, and esteemed members of the Senate General Government Committee, please support the passage of SB 107.

It's vital to the well-being of individuals and our society that voters are well-informed.

By providing voters with the party affiliation of school board candidates, you will provide valuable information in the interest of informed decision-making.

While I don't think party loyalty should enter the picture, knowing a person's party affiliation provides a general picture of their worldview. This may often be the most telling and reliable information a voter has regarding candidates, especially candidates with no record.

Without this provision, voters may inadvertently vote for candidates they would not support had they known their party affiliation and, therefore, their political approaches to governing.
