Quiz to help you start your search

Purpose of this Quiz:

This quiz is intended to help individuals who are in the process of considering whether a nursing home or an assisted living facility may be the right place to start their search for care for themselves or a loved one. This tool is meant to assist you or your loved one on this journey by introducing several important factors that might lead you toward resources and possible questions that might be asked of either type of care setting. The tool can be used as a means of focusing your search using this Navigator's other features, although this Navigator should not be substituted for the advice or recommendations of trusted medical professionals.

MAY BE THE APPROPRIATE CARE SETTING TO START YOUR SEARCH

Based on the selections you made for yourself or your loved one, the assistance required on a daily basis may best be provided through a nursing home. By starting your search with nursing homes, you may be able to address your individual needs through a comparison of nursing homes in your area. Your trusted medical provider may also be able to assist you or your loved one as options are considered.

A network of Programs for All Inclusive Care of the Elderly (PACE) programs are expanding throughout Ohio and may be an option to consider. For more information on Ohio's PACE Programs, contact your local Area Agency on Aging or the Ohio Department of Aging for more information. Your trusted medical provider may also be able to assist you or your loved one as options are considered.
