Senate Bill 423 Proponent Testimonials
May 13, 2026
Ohio Senate Health Committee

"Working through Shiftkey has been a complete game-changer for me. It allows me to have more freedom over my schedule to enjoy more time with my family. I am able to choose my hours, location, pay scale, even how I would like to be paid. No more missed school functions and sporting events, no pressure to work more hours, no mandating. I can actually take time off when I need it and work when I need to grind. Shiftkey helped me love nursing again!"

- Jeannette Burton, LPN in Crawford County, Ohio

"The ShiftKey platform is very helpful because it is user-friendly and easy to navigate. The onboarding process is straightforward, allowing you to quickly upload required documents, complete profile information, and stay organized in one place. The platform also makes it simple to pay for background checks and drug screens directly through the app, which helps streamline the hiring process. Overall, ShiftKey provides a convenient and efficient experience for managing shifts, credentials, and onboarding requirements."

- Crystal Silva, LPN in Wood County, Ohio
