

Chair O'Brien,

I hope this email finds you well! I wanted to send a quick message to you, imploring you to please vote "yes" on SB 104.

As a new mom, I rely heavily on Airbnb hosting income so I can stay home and raise my new baby girl. If my ability to host were to go away, I would be forced to put my child in full time daycare and work 2 jobs just to make ends meet. I wouldn't be able to afford the house payment either, even if I were to make the home a long term rental.

Over the past 2 years, my home has hosted weddings, funerals, cancer patients seeking local treatment and countless traveling nurses, construction workers, and so much more. The home serves our local Ohio population and provides an unforgettable experience no hotel could copy.

Please allow us to serve our local Ohio families and, in turn, provide for ours.

Thank you,

Sincerely,

Moriah Phillip
