

Hello Chair O'Brien,

We live in rural southern ohio, the modest airbnb we have(single wide trailer next door) has made helped to make ends meet for my family this past 2 yrs when my husband's work slowed to a near halt. Its given me income and independence id not had otherwise. The friendships and unique people and even their pets have been the best. We hosted until workers out of town in an area that has little accommodation bringing revenue to the shops that are here. I pay county tourism tax of 3% and feel it definitely benefits more than my and family but the community as a whole.

Sincerely,

Tammi Mincher

Tammi
