

Hello Chair O'Brien,

Please keep AirBnb alive in our community! I just started renting my home during the summer months last year and have had guests appreciate that they can have a family stay close to the national park, blossom music center and all the other wonderful attractions here in Cuyahoga Falls. Many have appreciated having a big house to stay in at a reasonable price and have come here for so many great stays. There are not many places like this to stay in our area and I have quickly reached super host status due to the pride I take in my home.

Sincerely,

Laura Gentiluomo

Laura
