

Hello Chair O'Brien,

I'm writing to you as a constituent from Cincinnati, OH 45209 to share my support for SB 104 and ask for your "Yes" vote on this important bill. As a host in Ohio, I've seen how hosting benefits my family and our Cincinnati community, and I believe this legislation is crucial for people like me.

I host in Oakley, a friendly neighborhood known for its cozy charm and easy access to places like Hyde Park Square, where visitors love soaking up Cincinnati's laid-back vibe and exploring local spots like Oakley Pub & Grill. Hosting has been a lifeline for me—it's helped me cover unexpected car repairs and save a little extra for my family's future. My guests often stop by Aglamesis Bro's for ice cream or grab coffee at Deeper Roots, which keeps our local businesses buzzing.

If I could no longer host, I'd lose that extra income, making it harder to keep up with rising costs and maintain my home. I haven't faced tough local regulations yet, but I've heard about hosting restrictions in other cities—SB 104 would give me confidence that I can keep going without interference.

This bill is personal because it creates a fair playing field for Ohioans, protects my property rights, and supports tourism while helping hosts like me make ends meet. It keeps my household running and brings new faces to Oakley. Please vote "Yes" on SB 104 to stand with host entrepreneurs across the state.

Thank you for your time and for considering my story. I appreciate your service to our district and your support for policies that empower Cincinnatians like me.

Sincerely,

Shannon Feick

Cincinnati, OH 45209

Sincerely,

Shannon Feick
