

Dear Senator Sandra O'Brien, as a community member I would like to express my respect for what you do. I would like to ask that we have a fair chance to have regulator measure put in place for all vacation rental entrepreneur families. As this income helps families as ours to be able to sustain our property and save money for our future and our family. This also helps to build community and support the local tourism in our area which is important to the local economy. Thank you for your time.

Sincerely,

Mary Vidmar
