

Hello Chair O'Brien,

I own a short-term rental property in German Village in Columbus, Ohio. I love the home, which is right down the street from the Ohio Statehouse. I am so happy to be an ambassador for our state. I have hosted people from all over this country and visitors from other countries.

Please vote YES on SB104 and support host entrepreneurs. My home is not very busy during the winter, but it is busy during the summer, and people always say they have fun touring the city of Columbus.

I only own this additional property. I enjoy hosting people in my home. I would like to continue earning additional money by renting this short-term property. I am a senior citizen, and I love the ability to take care of myself. Please vote yes on SB 104.

Sincerely,

Amanda Walker
