

Hello Chair O'Brien,

I purchased a property which was distressed and righted a lot of wrongs with the property. I created 2 housing opportunities from a single property. The main house is rented with a family and is a 3 year tenant so far. The guesthouse, or ADU(Accessory Dwelling Unit), offers an opportunity to provide short -term rental for those who need intermittent housing. I have had guests stay for a weekend to enjoy a concert at one of Columbus' concert venues. I have had a senior citizen visting one of our local hospitals to get a knee replacement and stay for 4 weeks as she receives physical therapy. I believe that I rescued a house which was in need of many repairs which pleased the neighborhood. I fill a void in providing a housing opportunity that is beneficial to folks who visit the area. The neighborhood has expressed their gratitude and continue welcome my guests who visit.

Sincerely,

Barbara White
