

Hello Chair O'Brien,

My wife was involved in a serious accident and I have three children under 6. I am very reliant upon God to help me in difficult times and one of the ways He had done this is through providing me with opportunities for work from home. I am writing this to you in the hopes that you will seriously consider voting yes on SB 104, so that others like me who rely on this for our income, can continue to do so without any problems. Praying for your leadership in our state.

Sincerely,

Joshua Richards
