

There are a lot of bedroom communities and hospitals on Ohio where staying in a hotel is not a convenient option.

Having Air B N B options for travelers is good for the entire community, enhancing stay in our small communities and bring business to them, and creating a home like environment for those going through hospital stays/visits and funerals.

I hope you will support these entrepreneurs and encourage them to continue providing these amenities on behalf of all business owners in Ohio, to bring commerce and comfort to all who come to our great state!

Sincerely,

Sheila Westfall-Preston
