

Hello Chair O'Brien,

We have saved our entire lives to be in a position to own several Airbnb's in locations near tourist activities. This is our entire retirement plan and over the years we have seen government overreach, pop-up charging arbitrary fees and making it increasingly difficult. I implore you to vote with your constituents and against government overreach as it relates to property owners rights. Your constituents voted on a national level for less government and more individual rights and we hope you choose to be on our side as it relates to this matter.

Sincerely,

Michael Smith
