

Hello Chair O'Brien,

I am a single grandma who uses Airbnb to pay my mortgage of my family home. I live in the house and rent my spare bedrooms out to respectful honest people for multiple reasons often they are traveling nurses, or interns at our hospitals, sometimes workers coming to our state starting a new life at one of our new employers, or construction workers here temporarily to build those places of opportunity. They are not party people but good honest people who bring money and tax dollars into our community. I also pay taxes but it allows me to upkeep my house as it was built in 1955. I love my house and living here and this is the way for me to afford to stay in it. Thanks Donna Pagano Superhost 9 years.

Sincerely,

Donna Pagano
