Opponent Testimony

HB 292 is bad for Ohio.

All interest from Israel Bonds would go into a "Defense Fund" with the state of Israel as the lone benefactor. Israel has too much control in US policies, already. Let's curb foreign interest and control in Ohio.

With going funds allocated to Jobs Ohio, Ohioans would have no access to oversight or accountability as to how funds are spent. Money could be distributed to private contractors for unsavory projects not agreeable to Ohioans such as warfare, including AI warfare and surveillance.

Keep Ohio for Ohioans and not foreign entities. Defeat HB 292
