To urge the President of the United States to support the Ohio Department of Medicaid's request to implement work requirements for certain Medicaid recipients.

WHEREAS, H.B. 49 of the 132nd General Assembly required the Medicaid Director to seek approval from the United States Centers for Medicare and Medicaid Services (CMS) to impose work requirements for

certain Medicaid recipients; and

WHEREAS, The Ohio Department of Medicaid and Medicaid Director submitted to CMS in April 2018 a "Group VIII Work Requirement and Community Engagement 1115 Demonstration Waiver Application" to authorize the state to require all new adult expansion group beneficiaries, ages 19 through 49, with certain exemptions, to participate in and timely report 80 hours per month of qualifying community engagement activities, such as employment, education, or job skills training, as a condition of continued Medicaid eligibility; and

To urge the U.S. Congress to support the provision of prompt and comprehensive mental health treatment to military personnel and veterans who are suffering from post-traumatic stress disorder and other service-related stress disorders.

WHEREAS, According to the National Institutes of Health, the most common mental health problems faced by returning troops are, in order, depression, post-traumatic stress disorder (PTSD), substance use disorder, anxiety disorder, and serious mental illness such as schizophrenia or bipolar disorder; and

WHEREAS, The wars in Afghanistan and Iraq were the longest combat operations since Vietnam, and the stress of being in a war zone or long-term naval deployment combined with the stress of being away from home for long periods of time can increase the chance of having PTSD or other mental health problems; and

WHEREAS, According to research conducted at Brown University's Watson Institute for International and Public Affairs, 30,177 active duty personnel and veterans who served in the military after the September 11, 2001, terrorist attacks have died by suicide compared to the 7,057 service

members killed in combat in those same 20 years; and

WHEREAS, According to the United Service Organizations, Inc., suicide rates among active-duty military members in 2021 were at an all-time high since recordkeeping began after September 11, 2001, and had been increasing over the previous five years at an alarmingly steady pace; and

WHEREAS, Several recommendations made by the U.S. Government Accountability Office to the U.S. Department of Defense have not yet been fully implemented to ensure that PTSD and traumatic brain injuries are appropriately considered prior to separating certain service members from the military for misconduct, thereby placing both the earned benefits due to veterans and the mental health of some service members and veterans in jeopardy; and

WHEREAS, The service members who willingly sacrifice their safety for the freedom of all Americans deserve to have access to all the resources and support services necessary for them to reintegrate into society; and

WHEREAS, According to the U.S. Department of Veterans Affairs, a person who served in the active military, naval, or air service and who was discharged or released under conditions other than dishonorable may qualify for VA health care benefits including qualifying Reserve and National Guard

members; now therefore be it

RESOLVED, That we, the members of the Ohio Senate of the 136th General Assembly, urge the United States Congress to support the provision of prompt and comprehensive mental health diagnosis and treatment to all military personnel and veterans who are suffering from PTSD and other service-related stress disorders; and be it further

RESOLVED, That the Clerk of the Senate transmit duly authenticated copies of this resolution to the President of the United States, the Secretary of Veterans Affairs, the Speaker and Clerk of the U.S. House of Representatives, the President Pro Tempore and Secretary of the U.S. Senate, the members of the Ohio Congressional delegation, and the news media of Ohio.
