

AN ACT

To amend sections 319.301, 323.32, 5705.01, 5705.03, 5705.194, and 5709.92 and to enact sections 5705.195, 5705.196, and 5705.197 of the Revised Code to generally include fixed-sum levies in the calculation of a school district's millage floor and to authorize, with limitations, school district fixed-sum levies.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 319.301, 323.32, 5705.01, 5705.03, 5705.194, and 5709.92 be amended and sections 5705.195, 5705.196, and 5705.197 of the Revised Code be enacted to read as follows:

Sec. 319.301. (A) The reductions required by division (D) of this section do not apply to any of the following:

(1) Taxes levied at whatever rate is required to produce a specified amount of tax money, including a tax levied under section 5705.199 or 5748.09 of the Revised Code, or an amount to pay debt charges;

(2) Taxes levied within the one per cent limitation imposed by Section 2 of Article XII, Ohio Constitution;

(3) Taxes provided for by the charter of a municipal corporation.

(B) As used in this section:

(1) "Real property" includes real property owned by a railroad.

(2) "Carryover property" means all real property on the current year's tax list except:

(a) Land and improvements that were not taxed by the district in both the preceding year and the current year;

(b) Land and improvements that were not in the same class in both the preceding year and the current year.

(3) "Effective tax rate" means with respect to each class of property:

(a) The sum of the total taxes that would have been charged and payable for current expenses against real property in that class if each of the district's taxes were reduced for the current year under division (D)(1) of this section without regard to the application of division (E)(3) of this section divided by

(b) The taxable value of all real property in that class.

(4) "Taxes charged and payable" means the taxes charged and payable prior to any reduction required by section 319.302 of the Revised Code.

(C) The tax commissioner shall make the determinations required by this section each year,

without regard to whether a taxing district has territory in a county to which section 5715.24 of the Revised Code applies for that year. Separate determinations shall be made for each of the two classes established pursuant to section 5713.041 of the Revised Code.

(D) With respect to each tax authorized to be levied by each taxing district, the tax commissioner, annually, shall do both of the following:

(1) Determine by what percentage, if any, the sums levied by such tax against the carryover property in each class would have to be reduced for the tax to levy the same number of dollars against such property in that class in the current year as were charged against such property by such tax in the preceding year subsequent to the reduction made under this section but before the reduction made under section 319.302 of the Revised Code. In the case of a tax levied for the first time that is not a renewal of an existing tax, the commissioner shall determine by what percentage the sums that would otherwise be levied by such tax against carryover property in each class would have to be reduced to equal the amount that would have been levied if the full rate thereof had been imposed against the total taxable value of such property in the preceding tax year.

(2) Certify each percentage determined in division (D)(1) of this section, as adjusted under division (E) of this section, and the class of property to which that percentage applies to the auditor of each county in which the district has territory. The auditor, after complying with section 319.30 of the Revised Code, shall reduce the sum to be levied by such tax against each parcel of real property in the district by the percentage so certified for its class. Certification shall be made by the first day of September except in the case of a tax levied for the first time, in which case certification shall be made within fifteen days of the date the county auditor submits the information necessary to make the required determination.

(E)(1) As used in division (E)(2) of this section, "pre-1982 joint vocational taxes" means, with respect to a class of property, the difference between the following amounts:

(a) The taxes charged and payable in tax year 1981 against the property in that class for the current expenses of the joint vocational school district of which the school district is a part after making all reductions under this section;

(b) Two-tenths of one per cent of the taxable value of all real property in that class.

If the amount in division (E)(1)(b) of this section exceeds the amount in division (E)(1)(a) of this section, the pre-1982 joint vocational taxes shall be zero.

As used in divisions (E)(2) and (3) of this section, "taxes charged and payable" has the same meaning as in division (B)(4) of this section and excludes any tax charged and payable ~~in 1985 or thereafter from a tax levied under sections 5705.194 to 5705.197 or section 5705.194 or 5705.199, 5705.213, 5705.219, or 5748.09 of the Revised Code that is approved by electors at an election held before January 1, 2026, until the first tax year, starting in tax year 2026, that section 5715.24 applies in a county that includes territory of the school district.~~

(2) If in the case of a school district other than a joint vocational or cooperative education school district any percentage required to be used in division (D)(2) of this section for either class of

property could cause the total taxes charged and payable for current expenses to be less than two per cent of the taxable value of all real property in that class that is subject to taxation by the district, the commissioner shall determine what percentages would cause the district's total taxes charged and payable for current expenses against that class, after all reductions that would otherwise be made under this section, to equal, when combined with the pre-1982 joint vocational taxes against that class, the lesser of the following:

(a) The sum of the rates at which those taxes are authorized to be levied;

(b) Two per cent of the taxable value of the property in that class. The auditor shall use such percentages in making the reduction required by this section for that class.

(3) If in the case of a joint vocational school district any percentage required to be used in division (D)(2) of this section for either class of property could cause the total taxes charged and payable for current expenses for that class to be less than two-tenths of one per cent of the taxable value of that class, the commissioner shall determine what percentages would cause the district's total taxes charged and payable for current expenses for that class, after all reductions that would otherwise be made under this section, to equal that amount. The auditor shall use such percentages in making the reductions required by this section for that class.

(4) If a school district is affected by division (E)(2) or (3) of this section for either class of property, and additional current expense taxes are levied or are included in the definition of taxes charged and payable, then, for the first tax year those taxes are levied or included, the reduction computed under division (D) of this section for that district shall be computed as though the sums of current expenses taxes levied for the district and charged against that class in the preceding tax year were equivalent to two per cent or two-tenths of one per cent, respectively, of the taxable value of all real property in that class.

(F) No reduction shall be made under this section in the rate at which any tax is levied.

(G) The commissioner may order a county auditor to furnish any information the commissioner needs to make the determinations required under division (D) or (E) of this section, and the auditor shall supply the information in the form and by the date specified in the order. If the auditor fails to comply with an order issued under this division, except for good cause as determined by the commissioner, the commissioner shall withhold from such county or taxing district therein fifty per cent of state revenues to local governments pursuant to section 5747.50 of the Revised Code or shall direct the department of education and workforce to withhold therefrom fifty per cent of state revenues to school districts pursuant to Chapter 3317. of the Revised Code. The commissioner shall withhold the distribution of such revenues until the county auditor has complied with this division, and the department shall withhold the distribution of such revenues until the commissioner has notified the department that the county auditor has complied with this division.

(H) If the commissioner is unable to certify a tax reduction factor for either class of property in a taxing district located in more than one county by the last day of November because information required under division (G) of this section is unavailable, the commissioner may compute and certify

an estimated tax reduction factor for that district for that class. The estimated factor shall be based upon an estimate of the unavailable information. Upon receipt of the actual information for a taxing district that received an estimated tax reduction factor, the commissioner shall compute the actual tax reduction factor and use that factor to compute the taxes that should have been charged and payable against each parcel of property for the year for which the estimated reduction factor was used. The amount by which the estimated factor resulted in an overpayment or underpayment in taxes on any parcel shall be added to or subtracted from the amount due on that parcel in the ensuing tax year.

A percentage or a tax reduction factor determined or computed by the commissioner under this section shall be used solely for the purpose of reducing the sums to be levied by the tax to which it applies for the year for which it was determined or computed. It shall not be used in making any tax computations for any ensuing tax year.

(I) In making the determinations under division (D)(1) of this section, the tax commissioner shall take account of changes in the taxable value of carryover property resulting from complaints filed under section 5715.19 of the Revised Code for determinations made for the tax year in which such changes are reported to the commissioner. Such changes shall be reported to the commissioner on the first abstract of real property filed with the commissioner under section 5715.23 of the Revised Code following the date on which the complaint is finally determined by the board of revision or by a court or other authority with jurisdiction on appeal. The tax commissioner shall account for such changes in making the determinations only for the tax year in which the change in valuation is reported. Such a valuation change shall not be used to recompute the percentages determined under division (D)(1) of this section for any prior tax year.

Sec. 323.32. As used in this section, "railroad note" means a note issued pursuant to a court order in the reorganization of a railroad company under section 77 of the Bankruptcy Act.

Notwithstanding any other provision of law to the contrary, with respect to all payments received in settlement of claims arising from delinquent property tax charges and ordered to be paid by a railroad company under a plan of reorganization as ordered by a federal district court in accordance with provisions of Chapter VIII of the "Federal Bankruptcy Act," 11 U.S.C.A. 201-208, the following provisions shall apply:

(A) Except as provided in division (H) of this section, all of such payments shall be made payable, and delivered, to the county in which the taxing district sharing in a claim for delinquent taxes is located. Any notes included in such payment shall be issued to such county treasurer, who shall be the custodian of all of said notes, and who shall be liable therefor upon the treasurer's bond until such time as said notes mature, are sold, or otherwise lawfully pass from the treasurer's custody.

(B) Upon receipt of a payment by cash or check, the county treasurer shall immediately cause such funds to be paid into the county treasury and credited to a special fund established for this purpose, which shall be known as the "undivided bankruptcy claims fund." All of such moneys

so received, including any earned interest, shall be credited to said fund.

(C) When the total claim for each county has been satisfied by the receipt of cash or notes, or both, the county auditor shall remit from the tax list and duplicate of real and public utility property in each county, all charges appearing thereon in the name of the railroad company for which such payment has been made, which are delinquent and unpaid from any year previous to the tax year 1977.

(D) At any time that funds are present in the undivided bankruptcy claims fund, either upon initial settlement or at any later time, the county auditor shall, forthwith, distribute by auditors' warrant, such funds to the various taxing districts of the county, in which the property taxes, from which the claim in bankruptcy has derived, were originally charged. The funds so distributed shall be apportioned among the various taxing authorities within each taxing district in the same proportions as the said taxes were originally levied, taking into account the various rates of taxation levied for different purposes for each year in which such taxes were charged and remained unpaid, and any unpaid special assessments, including compound interest thereon at the rate of six per cent per annum to January 1, 1978.

In making such distribution, the auditor shall, first, deduct an amount equal to one per cent of the total amount to be distributed, as fees for services of the county auditor and treasurer in making collection and distribution of the claim in bankruptcy. Such deduction shall be in lieu of all fees provided for in sections 319.54 and 321.26 of the Revised Code. The amount so deducted shall be credited to the general fund of the county.

If any funds received pursuant to this section represent taxes which, if collected, would have resulted from any ~~general or emergency~~ levy which has since expired, such funds may be credited to the general operating fund and expended as though they are proceeds from a current levy, and if any of such funds represent taxes from any current general bond retirement levy or one which has since expired, said funds may be credited to the current bond retirement fund and used to service any current bond indebtedness, or may be credited to the general operating fund of the district, if so designated by a majority of the members of the taxing authority of the taxing district.

(E) Except as provided in division (H) of this section, when, as a part of the settlement of a claim in bankruptcy of a reorganized railroad company a county receives notes on behalf of a taxing authority in partial payment of said claim, the county treasurer shall, within a reasonable length of time, notify the taxing authority of each taxing district sharing in the claim that such notes are in the treasurer's custody. Within sixty days of receipt of such notice, each taxing authority shall decide by a resolution approved by a majority of its members whether:

(1) The notes shall remain in custody of the county treasurer, as issued, and allowed to mature according to the terms presented on their face with the proceeds to be distributed upon maturity pursuant to division (D) of this section; or

(2) The railroad notes shall be exchanged for several new notes in denominations equal to the proportionate share, or portion thereof, of the taxing district having a share in the claim in

bankruptcy as determined in division (D) of this section. The new notes shall be distributed, upon receipt, to each taxing authority in full satisfaction of its claim or in full satisfaction of the portion of its claim represented by the notes so received. If notes cannot be issued in denominations equal to the taxing district's proportionate share, the treasurer shall certify to the taxing authority of the district the amount of notes held by the treasurer on behalf of the district and for which notes cannot be issued pursuant to the taxing authority's decision under this subdivision. Upon receipt of such certification, the taxing authority may borrow money and issue notes against such certification in the same manner as is provided by division (F) of this section.

If a taxing authority elects the option provided under division (E)(1) of this section, it may at any subsequent time elect instead the option provided under division (E)(2) of this section by resolution approved by a majority of its members. The election of the option provided under division (E)(2) of this section becomes final upon receipt by the taxing authority of the new notes or certification distributed by the county treasurer under such division.

Each taxing authority shall certify a copy of any resolution adopted under this division to the county treasurer who shall take appropriate action as directed by each taxing authority.

(F) A taxing authority having possession of any railroad note or a treasurer's certification issued under division (E)(2) of this section may, by approval of a majority of its members, borrow money and issue its note in anticipation of the revenue payable on maturity of the railroad note and pledge the railroad note or the proceeds thereof. Such anticipation note shall mature no later than the railroad note and shall be in an amount no greater than seventy per cent of the face amount of said railroad note. By like action a taxing authority may sell any railroad note in its possession at public or private offering for not less than the prevailing market price. Such a sale or borrowing shall be exempt from all other requirements and limitations of the Revised Code, including the requirements of the Uniform Bond Law.

(1) If a taxing authority desires to issue delinquent tax bonds pursuant to section 131.23 of the Revised Code prior to either receipt of any payment from a railroad in bankruptcy or utilization of the authority granted in this section, the taxing authority may determine whether or not the net amount of delinquent taxes unpledged for purposes of division (B)(5) of section 131.23 of the Revised Code shall include all or part of the delinquent taxes owed by a railroad, or, if notes have been received pursuant to this section, the unpaid principal amount of such notes. If the taxing authority determines that any such railroad delinquencies or note amount shall be included under section 131.23 of the Revised Code, the amount which may be borrowed pursuant to this section may not exceed seventy per cent of the total face amount of railroad notes remaining after deducting the amount so included.

(2) If a taxing authority desires to issue delinquent tax bonds pursuant to section 131.23 of the Revised Code after utilization of the authority granted in this section, the net amount of delinquent taxes unpledged for purposes of division (B)(5) of section 131.23 of the Revised Code may not include the principal amount of railroad notes which have been borrowed against or sold

pursuant to this section.

(G) When a taxing authority receives a railroad note, the face amount of such note shall not be considered as revenue for any purpose in the year in which the note is received. Upon sale or maturity of the note, any proceeds not pledged pursuant to division (F) of this section shall be considered as unanticipated revenue from a new source and all of the provisions of law pertaining to such revenue, including section 5705.36 of the Revised Code, shall apply.

(H) When there are present in a county nonrepresented taxing districts as provided in amended substitute house bill 336 of the 112th general assembly, all of the provisions of this section shall apply to such districts, except as follows:

(1) Payments by cash or check may be made payable, and delivered, directly to the treasurer of the taxing district. Any notes included in the settlement of the district's claim may be issued, and delivered, directly to said treasurer.

Upon receipt of any of such payments, the treasurer of the taxing district shall certify, to the county treasurer of the county in which the district is located, the fact of such receipt and the amounts so received.

(2) If the claim of a nonrepresented taxing district is not paid directly to the treasurer of the district but is included with payments for the remainder of the county, cash payments included in the initial settlement shall be distributed as provided in divisions (B) and (D) of this section. Any notes received as payment shall be exchanged and distributed to nonrepresented taxing districts upon receipt.

(2) If property is transferred from one district to a previously existing district, the amount of the total resources, current expense allocation, and non-current expense allocation that shall be transferred to the recipient district shall be an amount equal to the total resources, current expense allocation, and non-current expense allocation of the transferor district times a fraction, the numerator of which is the number of pupils being transferred to the recipient district, measured, in the case of a school district, by formula ADM as defined in section 3317.02 of the Revised Code or, in the case of a joint vocational school district, by formula ADM as defined for a joint vocational school district in that section, and the denominator of which is the formula ADM of the transferor district.

(3) After December 31, 2010, if property is transferred from one or more districts to a district that is newly created out of the transferred property, the newly created district shall be

deemed not to have any total resources, current expense allocation, total allocation, or non-current expense allocation.

(4) If the recipient district under division (G)(2) of this section or the newly created district under division (G)(3) of this section is assuming debt from one or more of the districts from which the property was transferred and any of the districts losing the property had fixed-sum levy losses, the department of education and workforce, in consultation with the tax commissioner, shall make an equitable division of the reimbursements for those losses.

(H) The payments required by divisions (C), (D), (E), (F), and (I) of this section shall be distributed periodically to each school and joint vocational school district by the department of education and workforce unless otherwise provided for. Except as provided in division (D) of this section, if a levy that is a qualifying levy is not charged and payable in any year after 2014, payments to the school district or joint vocational school district shall be reduced to the extent that the payments distributed in fiscal year 2015 were attributable to the levy loss of that levy.

(I) For fiscal years 2022 through 2026, if the total amount to be received under divisions (C) and (E) of this section by any school district that has a nuclear power plant located within its territory is less than the amount the district received under this section in fiscal year 2017, the district shall receive a supplemental payment equal to the difference between the amount to be received under those divisions for the fiscal year and the amount received under this section in fiscal year 2017.

SECTION 2. That existing sections 319.301, 323.32, 5705.01, 5705.03, 5705.194, and 5709.92 of the Revised Code are hereby repealed.

SECTION 3. The amendment by this act of section 319.301 of the Revised Code applies to tax year 2026 and every tax year thereafter.
