Addendum to Fiscal Note for H.B. 162

Version: In House Health

Fiscal Effect of AM0871

Jacquelyn Schroeder, Senior Budget Analyst

Amendment summary: The amendment removes a requirement that a health care provider maintain a minor's health records in such a manner that separates records relating to care that the minor received without parent or guardian consent and care received with parent or guardian consent if necessary to ensure parent or guardian access to medical records under the bill.

Fiscal effect: This amendment would eliminate any potential costs to government-owned hospitals to update electronic health records systems in order to enable the separation of records based on parental consent. Any costs to provide staff training related to this eliminated provision would also no longer be realized.
