Version: As Introduced

Primary Sponsors: Reps. Baker and Hoops

Local Impact Statement Procedure Required: No

Ryan Sherrock, Senior Economist

Highlights

- The Ohio Department of Health (ODH), Ohio Department of Aging (ODA), and the Commission on Minority Health will realize minimal administrative costs to comply with the bill's provisions regarding Alzheimer's disease and dementia awareness.

Detailed Analysis

The bill requires the Ohio Department of Health (ODH), in coordination with the Ohio Department of Aging (ODA), the Commission on Minority Health, and community organizations, to incorporate Alzheimer's disease and dementia awareness information into relevant public health outreach that ODH conducts. The bill also requires those entities to design information to educate and increase awareness and understanding among health care providers, community organizations, and the public regarding specified topics related to cognitive impairment, Alzheimer's disease, and other dementia.

There could be administrative costs to coordinate among the entities specified in the bill and design the informational resources. If ODH needs to incorporate any of these changes into its public outreach, there might be costs as well. These costs are expected to be minimal.
