(25) The extent to which licensing ensures that practitioners have occupational skill sets or competencies that are substantially related to protecting consumers from present, significant, and substantiated harms that threaten public health, safety, or welfare, and the impact that those criteria have on applicants for a license, particularly those with moderate or low incomes, seeking to enter the occupation or profession;	178 179 180 181 182 183 184 185
(26) The extent to which the requirement for the occupational license stimulates or restricts competition, affects consumer choice, and affects the cost of services;	186 187 188
(27) An assessment of whether or not changes are needed in the enabling laws of the board in order for it to comply with the criteria suggested by the considerations listed in division (C) of this section;	189 190 191 192

(B) The superintendent of rescue stations, with the 560
approval of the chief of the division of mineral resources 561
management, shall, at each rescue station provided for in 562
section 1561.25 of the Revised Code, train and employ rescue 563
crews of six members each, one of whom shall hold a mine 564

work at explosions, mine fires, and other emergencies. 572

A captain of mine rescue crews shall receive for service 573
as captain the sum of twenty-four dollars per month, and each 574
member shall receive the sum of twenty dollars per month, all 575
payable on requisition approved by the chief. When engaged in 576
rescue work at explosions, mine fires, or other emergencies away 577
from their station, the members of the rescue crews and captains 578
of the same shall be paid the sum of six dollars per hour for 579
work on the surface, which includes the time consumed by those 580
members in traveling to and from the scene of the emergency when 581
the scene is away from the station of the members, and the sum 582
of seven dollars per hour for all work underground at the 583
emergency, and in addition thereto, the necessary living 584
expenses of the members when the emergency is away from their 585
home station, all payable on requisition approved by the chief. 586

Each member of a mine rescue crew shall undergo an annual 587
medical examination. The chief may designate to perform an 588
examination any individual authorized by the Revised Code to do 589

chief, the report indicates that the member is physically unfit 596
for further services, the chief shall relieve the member from 597
further duty. The fee charged by the examiner for the 598
examination shall be paid in the same manner as fees are paid to 599
doctors employed by the industrial commission for special 600

The chief may remove any member of a rescue crew for any 602
reason. Such crews shall be subject to the orders of the chief, 603
the superintendent, and the deputy mine inspectors when engaged 604
in actual mine rescue work. Mine rescue crews shall, in case of 605
death or injury when engaged in rescue work, wherever the same 606
may occur, be paid compensation, or their dependents shall be 607
paid death benefits, from the workers' compensation fund, in the 608
same manner as other employees of the state. 609

(C) In addition to the training of rescue crews, each 610
assistant superintendent of rescue stations, with the approval 611
of the superintendent, shall provide for and conduct safety, 612
first aid, and rescue classes at any mine or for any group of 613
miners who make application for the conducting of such classes. 614
The chief may assess a fee for safety and first aid classes for 615
the purpose of covering the costs associated with providing 616
those classes. The chief shall establish a fee schedule for 617
safety and first aid classes by rule adopted in accordance with 618
Chapter 119. of the Revised Code. Fees collected under this 619
section shall be deposited in the mining regulation and safety 620
fund created in section 1513.30 of the Revised Code. 621

The superintendent shall prescribe and provide for a 622
uniform schedule of conducting such safety and rescue classes as 623
will provide a competent knowledge of modern safety and rescue 624
methods in, at, and about mines. 625

(D) No member of a mine rescue crew who performs mine rescue at an underground coal mine and no operator of a mine whose employee participates as a member of such a mine rescue crew is liable in any civil action that arises under the laws of this state for damage or injury caused in the performance of rescue work at an underground coal mine. However, a member of such a mine rescue crew may be liable if the member acted with malicious purpose, in bad faith, or in a wanton or reckless manner.

This division does not eliminate, limit, or reduce any immunity from civil liability that is conferred on a member of such a mine rescue crew or an operator by any other provision of the Revised Code or by case law.

Sec. 1563.24. In all mines generating methane in such quantities as to be considered a gaseous mine under section 1563.02 of the Revised Code, the mine foreperson of such a mine shall:

(A) Employ a sufficient number of competent persons holding foreperson of gaseous mines ~~or fire boss certificates~~, except as provided in section 1565.02 of the Revised Code, to examine the working places whether they are in actual course of working or not, and the traveling ways and entrances to old workings with approved flame safety lamps, all of which shall be done not more than three hours prior to the time fixed for the employees to enter the mine;

(B) Have all old parts of the mine not in the actual course of working, but that are open and safe to travel, examined not less than once each three days by a competent person who holds a foreperson of gaseous mines ~~or a fire boss certificate~~;

(C) See that all parts of the mine not sealed off as 656
provided in section 1563.41 of the Revised Code are kept free 657
from standing gas, and upon the discovery of any standing gas, 658
see that the entrance to the place where the gas is so 659
discovered is fenced off and marked with a sign upon which is 660
written the word "danger," and the sign shall so remain until 661
the gas has been removed; 662

(D) Have the mine examined on all idle days, holidays, and 663
Sundays on which employees are required to work therein; 664

(E) If more than three hours elapse between shifts, have 665
the places in which the succeeding shift works examined by a 666
competent person who holds a foreperson of gaseous mines ~~or fire~~ 667
~~boss certificate~~; 668

(F) See that this chapter and Chapters 1561., 1565., and 669
1567. and applicable provisions of Chapter 1509. of the Revised 670
Code, with regard to examination of working places, removal of 671
standing gas, and fencing off of dangerous places, are complied 672
with before the employees employed by the mine foreperson for 673
this particular work are permitted to do any other work; 674

(G) Have a report made on the blackboard provided for in 675
section 1567.06 of the Revised Code, which report shall show the 676
condition of the mine as to the presence of gas and the place 677
where such gas is present, if there is any, before the mine 678
foreperson permits the employees to enter the mine; 679

(H) Have reports of the duties and activities enumerated 680
in this section signed by the person who makes the examination. 681
The reports so signed shall be sent once each week to the deputy 682
mine inspector of the district in which the mine is located on 683
blanks furnished by the division of mineral resources management 684

for that purpose, and a copy of the report shall be kept on file 685
at the mine. 686

(I) Have the fire boss record a report after each 687
examination, in ink, in the fire boss' record book, which book 688
shall show the time taken in making the examination and also 689
clearly state the nature and location of any danger that was 690
discovered in any room, entry, or other place in the mine, and, 691
if any danger was discovered, the fire boss shall immediately 692
report the location thereof to the mine foreperson. 693

No person shall enter the mine until the fire bosses 694
return to the mine office on the surface, or to a station 695
located in the mine, where a record book as provided for in this 696
section shall be kept and signed by the person making the 697
examination, and report to the oncoming mine foreperson that the 698
mine is in safe condition for the employees to enter. When a 699
station is located in any mine, the fire bosses shall sign also 700
the report entered in the record book in the mine office on the 701
surface. The record books of the fire bosses shall at all times 702
during working hours be accessible to the deputy mine inspector 703
and the employees of the mine. 704

In every mine generating explosive gas in quantities 705
sufficient to be detected by an approved flame safety lamp, when 706
the working portions are one mile or more from the entrance to 707
the mine or from the bottom of the shaft or slope, a permanent 708
station of suitable dimensions may be erected by the mine 709
foreperson, provided that the location is approved by the deputy 710
mine inspector, for the use of the fire bosses, and a fireproof 711
vault of ample strength shall be erected in the station of 712
brick, stone, or concrete, in which the temporary record book of 713
the fire bosses, as described in this section, shall be kept. No 714

person, except a mine foreperson of gaseous mines, and in case 715
of necessity such other persons as are designated by the mine 716
foreperson, shall pass beyond the permanent station and danger 717
signal until the mine has been examined by a fire boss, and the 718
mine or certain portions thereof reported by the fire boss to be 719
safe. 720

This section does not prevent a mine foreperson or 721
foreperson of gaseous mines from being qualified to act and 722
acting in the capacity of fire boss. The record book shall be 723
supplied by the division and purchased by the operator. 724

No mine foreperson or person delegated by the mine 725
foreperson, or any operator of a mine, or other person, shall 726

with three or more workers, shall employ a certified mine 730
foreperson. In gaseous underground mines, only a holder of a 731
mine foreperson of gaseous mines certificate that contains a 732
notation by the chief of the division of mineral resources 733
management showing the holder to be at least twenty-three years 734
of age and have at least five years' actual practical experience 735
in gaseous mines shall be employed as the mine foreperson. ~~In~~ 736

~~contains a notation by the chief showing the holder to be at~~ 739
~~least twenty-one years of age and have at least three years'~~ 740
~~actual practical experience in mines.~~ All such underground mines 741
shall have at least one certified foreperson on duty at all 742
times when workers are employed in the loading or mining of coal 743
underground. Each active working area of a surface coal mine and 744

each active surface installation of an underground coal mine 745
shall be examined for hazardous conditions, at least once during 746
each working shift or more often if necessary for safety, by a 747
certified mine foreperson who is designated by the operator to 748
conduct such examinations. Any hazardous conditions noted during 749
the examinations shall be reported to the operator and shall be 750
corrected by the operator. A certified mine foreperson may 751
conduct the examination that is required during each shift at 752
multiple mine sites, provided that the sites are within a ten- 753
mile radius. 754

No operator of a mine shall refuse or neglect to comply 755
with this section. 756

Sec. 1565.05. The operator of a mine shall keep on file a 757
copy of the certificate of each mine foreperson, ~~and~~ foreperson, 758
~~and fire boss~~ in the operator's employ or under the operator's 759
control. Such certificate shall be exhibited to the chief of the 760
division of mineral resources management, or any deputy mine 761

~~fire boss~~ a noncertificate person who is within six months of 778
possessing the necessary actual practical experience to qualify 779
to take the examination for certification for the position to 780
which the person is temporarily appointed. Upon appointment of a 781
noncertificate person, the operator shall forward the name, 782
social security number, and brief summary of the person's actual 783
practical experience to the chief, and the chief shall issue the 784
person a temporary certificate for the position to which the 785
person has been temporarily appointed. A temporary certificate 786
issued under this division is valid for six months or until such 787
time thereafter as an examination is held under section 1561.13 788
of the Revised Code for the position to which the person has 789
been temporarily appointed. 790

Sec. 3704.14. (A) (1) If the director of environmental 902
protection determines that implementation of a motor vehicle 903
inspection and maintenance program is necessary for the state to 904
effectively comply with the federal Clean Air Act after June 30, 905
2025, the director may provide for the implementation of the 906
program in those counties in this state in which such a program 907
is federally mandated. Upon making such a determination, the 908
director of environmental protection may request the director of 909
administrative services to extend the terms of the contract that 910
was entered into under the authority of H.B. 33 of the 135th 911
general assembly. Upon receiving the request, the director of 912
administrative services shall extend the contract, beginning on 913
July 1, 2025, in accordance with this section. The contract 914
shall be extended for a period of up to twenty-four months with 915
the contractor who conducted the motor vehicle inspection and 916
maintenance program under that contract. 917

(2) Prior to the expiration of the contract extension that 918
was authorized by division (A) (1) of this section under the 919
authority of H.B. 33 of the 135th general assembly, the director 920
of environmental protection shall request the director of 921

administrative services to enter into a contract with a vendor 922
to operate a decentralized motor vehicle inspection and 923
maintenance program in each county in this state in which such a 924
program is federally mandated through June 30, 2027. The 925
contract shall ensure that the decentralized motor vehicle 926
inspection and maintenance program achieves an equivalent amount 927
of emission reductions as achieved by the program operated under 928
the authority of the contract that was extended under division 929
(A) (1) of this section under the authority of H.B. 33 of the 930
135th general assembly. The director of administrative services 931
shall select a vendor through a competitive selection process in 932
compliance with Chapter 125. of the Revised Code. 933

(3) Notwithstanding any law to the contrary, the director 934
of administrative services shall ensure that a competitive 935
selection process regarding a contract to operate a 936
decentralized motor vehicle inspection and maintenance program 937
in this state incorporates the following, which shall be 938
included in the contract: 939

(a) For purposes of expanding the number of testing 940
locations for consumer convenience, a requirement that the 941
vendor utilize established local businesses, auto repair 942
facilities, or leased properties to operate state-approved 943
inspection and maintenance testing facilities; 944

(b) A requirement that the vendor selected to operate the 945
program provide notification of the program's requirements to 946
each owner of a motor vehicle that is required to be inspected 947
under the program. The contract shall require the notification 948
to be provided not later than sixty days prior to the date by 949
which the owner of the motor vehicle is required to have the 950
motor vehicle inspected. The director of environmental 951

protection and the vendor shall jointly agree on the content of 952
the notice. However, the notice shall include at a minimum the 953
locations of all inspection facilities within a specified 954
distance of the address that is listed on the owner's motor 955
vehicle registration. 956

(c) A requirement that the vendor comply with testing 957
methodology and supply the required equipment approved by the 958
director of environmental protection as specified in the 959
competitive selection process in compliance with Chapter 125. of 960
the Revised Code. 961

(4) A decentralized motor vehicle inspection and 962
maintenance program operated under this section shall comply 963
with division (B) of this section. The director of environmental 964
protection shall administer the decentralized motor vehicle 965
inspection and maintenance program operated under this section. 966

(B) The director shall establish a decentralized motor 967
vehicle inspection and maintenance program as authorized by this 968
section and, at a minimum, the director shall ensure that the 969
program does all of the following: 970

(1) Complies with the federal Clean Air Act; 971

(2) Provides for the issuance of inspection certificates 972
and alternative emissions certificates as specified in rules 973
adopted under division (C) (2) of this section; 974

(3) Provides for a new car exemption for motor vehicles 975
six years old or newer and provides that a new motor vehicle is 976
exempt for six years regardless of whether legal title to the 977
motor vehicle is transferred during that period; 978

(4) Provides for an exemption for battery electric motor 979
vehicles; 980

(5) Provides for an exemption for hybrid motor vehicles 981
seven years old or newer and provides that a hybrid motor 982
vehicle is exempt for seven years regardless of whether legal 983
title to the motor vehicle is transferred during that period. 984

(C) (1) The director of environmental protection shall 985
adopt rules in accordance with Chapter 119. of the Revised Code 986
that the director determines are necessary to implement this 987
section. The director may continue to implement and enforce 988
rules pertaining to the motor vehicle inspection and maintenance 989
program previously implemented under former section 3704.14 of 990
the Revised Code as that section existed prior to its repeal and 991
reenactment by Am. Sub. H.B. 66 of the 126th general assembly, 992
provided that the rules do not conflict with this section. 993

(2) The rules adopted under division (C) (1) of this 994
section shall provide for the issuance of inspections 995
certificates and alternative emissions certificates. Under the 996
rules, an inspection certificate shall be issued to the owner or 997
lessee of a motor vehicle when the motor vehicle passes an 998
emissions inspection conducted in accordance with the motor 999
vehicle inspection and maintenance program established under 1000
this section. In lieu of obtaining an inspection certificate, 1001
the rules shall establish a system by which the owner or lessee 1002
of a motor vehicle may request an alternative emissions 1003
certificate from the director. 1004

(a) The rules providing for the issuance of alternative 1005
emissions certificates shall require an owner or lessee of a 1006
motor vehicle to do the following in order to receive the 1007
certificate: 1008

(i) Complete and submit an attestation form created by the 1009
director that includes a statement that reads substantially as 1010

follows: 1011

"I, _____, attest that, to the best of my knowledge, the 1012
motor vehicle concerning which I am the owner or lessee complies 1013
with all laws of Ohio and the United States governing motor 1014
vehicle emissions. I, _____, am aware that a false statement on 1015
this form is not permitted." 1016

(ii) Sign and date the form either manually or 1017
electronically; 1018

(iii) Submit the form to the director either by regular 1019
mail, certified mail, or electronically. 1020

(b) The rules shall require the director to include both 1021
of the following additional information on the attestation form: 1022

(i) A provision that allows the owner or lessee of a motor 1023
vehicle to specify one of the following methods by which the 1024
owner or lessee may request delivery of the alternative 1025
emissions certificate: certified mail, noncertified mail, or 1026
electronically; 1027

(ii) A provision that allows the owner or lessee of a 1028
motor vehicle to specify the vehicle identification number, 1029
make, model, and year of the relevant motor vehicle and the date 1030
the attestation form is submitted to the director. 1031

(c) Subject to division (C)(2)(d) of this section, the 1032
rules shall require the director to deliver an alternative 1033
emission certificate to the owner or lessee of a motor vehicle 1034
who complies with rules adopted under division (C)(2)(a) of this 1035
section. The director shall deliver the certificate within 1036
thirty business days after the director's receipt of the 1037
attestation form or, if the owner or lessee submits the form 1038
electronically, within five business days after receipt of the 1039

form. The director shall confirm the receipt of the attestation 1040
form if the director receives it by electronic means. 1041

(d) The rules shall require the director to reject an 1042
attestation form for any of the following reasons: 1043

(i) The motor vehicle that is the subject of the 1044
attestation form was in an accident or collision within the two 1045
years prior to the date of submission of the form, and the 1046
accident or collision caused substantial damage to the internal 1047
structure of the motor vehicle. 1048

(ii) The owner or lessee of the motor vehicle that is the 1049
subject of the attestation form has received a ticket, citation, 1050
or summons with regard to that motor vehicle within the two 1051
years prior to the date of submission of the form for a 1052
violation of section 4513.22 of the Revised Code or 1053
substantially equivalent municipal ordinance. 1054

(iii) The information in the attestation form is 1055
determined by the director to be false. 1056

If the director rejects an attestation form under division 1057
(C) (2) (d) (iii) of this section, the director shall provide 1058
notice to the owner or lessee that the attestation form was 1059
determined to be false. The notice shall inform the owner or 1060
lessee that the owner or lessee may submit a corrected form to 1061
the director within thirty days of the receipt of the notice. If 1062
the owner or lessee submits a corrected attestation form that 1063
complies with rules adopted under division (C) (2) of this 1064
section within that thirty-day period, the director shall issue 1065
an alternative emissions certificate to the owner or lessee. If 1066
the owner or lessee fails to correct the attestation form, the 1067
director shall require the owner or lessee to complete an 1068

emissions inspection and obtain an inspection certificate in 1069
accordance with rules adopted under this section. 1070

If the director rejects an attestation form under division 1071
(C) (2) (d) (i) or (ii) of this section, the director shall require 1072
the owner or lessee to complete an emissions inspection and 1073
obtain an inspection certificate in accordance with rules 1074
adopted under this section. 1075

(e) In adopting rules under division (C) (2) of this 1076
section, the director shall ensure that the owner or lessee of a 1077
motor vehicle who falsifies an attestation form receives a 1078
notice that includes a statement that reads substantially as 1079
follows: "You have falsified an attestation form for your 1080
vehicle under the E-Check/motor vehicle emissions testing 1081
program. Your vehicle is registered in one of [insert the number 1082
of counties] counties in this state that has federal emission 1083
mandates imposed on it that the State of Ohio is required, under 1084
threat of penalty, to enforce. This letter serves as Ohio's only 1085
penalty for falsification of an attestation form. You have 1086
thirty days from the date of this notice to amend your 1087
attestation form and submit the amended form to the 1088
Environmental Protection Agency. However, if you choose not to 1089
submit an amended attestation form, you must have a motor 1090
vehicle emissions inspection conducted for your vehicle in 1091
accordance with section 3704.14 of the Revised Code and rules 1092
adopted under it." 1093

(f) No penalties apply to a person who the director has 1094
determined to have falsified an attestation form, other than the 1095
issuance of the notice required under division (C) (2) (e) of this 1096
section. 1097

(D) There is hereby created in the state treasury the auto 1098

emissions test fund, which shall consist of money received by 1099
the director from any cash transfers, state and local grants, 1100
and other contributions that are received for the purpose of 1101
funding the program established under this section. The director 1102
of environmental protection shall use money in the fund solely 1103
for the implementation, supervision, administration, operation, 1104
and enforcement of the motor vehicle inspection and maintenance 1105
program established under this section. Money in the fund shall 1106
not be used for either of the following: 1107

(1) To pay for the inspection costs incurred by a motor 1108
vehicle dealer so that the dealer may provide inspection 1109
certificates to an individual purchasing a motor vehicle from 1110
the dealer when that individual resides in a county that is 1111
subject to the motor vehicle inspection and maintenance program; 1112

(2) To provide payment for more than one free passing 1113
emissions inspection or a total of three emissions inspections 1114
for a motor vehicle in any three-hundred-sixty-five-day period. 1115
The owner or lessee of a motor vehicle is responsible for 1116
inspection fees that are related to emissions inspections beyond 1117
one free passing emissions inspection or three total emissions 1118
inspections in any three-hundred-sixty-five-day period. 1119
Inspection fees that are charged by a contractor conducting 1120
emissions inspections under a motor vehicle inspection and 1121
maintenance program shall be approved by the director of 1122
environmental protection. 1123

(E) The motor vehicle inspection and maintenance program 1124
established under this section expires upon the termination of 1125
all contracts entered into under this section and shall not be 1126
implemented beyond the final date on which termination occurs. 1127

(F) As used in this section "battery electric motor 1128

vehicle" and "hybrid motor vehicle" have the same meanings as in 1129
section 4501.01 of the Revised Code. 1130

(G) On June 30, 2025, the director shall immediately begin 1131
procedures to submit to the United States environmental 1132
protection agency the alternative emissions certification 1133
program for approval as part of the Ohio state implementation 1134
plan. If the United States environmental protection agency 1135
approves the modification of the decentralized motor vehicle 1136
inspection and maintenance program as providing sufficient air 1137
pollution reductions to meet the federal Clean Air Act 1138
requirements for a vehicle inspection and maintenance program 1139
and modifies the Ohio state implementation plan, the director 1140
shall immediately begin to modify the Ohio environmental 1141
protection agency rules to implement the alternative emissions 1142
certification program. Nothing in this division requires the 1143
Ohio environmental protection agency to take action to implement 1144
the alternative emissions certification program until the United 1145
States environmental protection agency approves the alternative 1146
program as part of the Ohio state implementation plan. 1147

(H) If the United States environmental protection agency 1148
determines that the motor vehicle inspection and maintenance 1149
program implemented in accordance with this section is not 1150
necessary for the state or any area of the state to comply with 1151
the federal Clean Air Act, the director shall immediately 1152
discontinue the program and take any actions necessary to 1153
effectuate the termination of the program. If the director 1154
discontinues the motor vehicle inspection and maintenance 1155
program in this state in accordance with this division, the 1156
director shall immediately rescind any rule associated with the 1157
program, including rules that govern both of the following: 1158

<u>(1) The certification of inspectors under the program;</u>	1159
<u>(2) The certification of repair technicians, including</u>	1160
<u>waiver repair technicians, under the program.</u>	1161

monitoring are necessary at the site following the termination 1189
of the licensed operation. 1190

(D) "Decommissioning" means to safely remove any licensed 1191

radiation unless possession is solely for the purpose of 1223
transportation. 1224
