Section 357.41. For all reappropriations in this act from the Higher Education Improvement Fund (Fund 7034) or the Higher Education Improvement Taxable Fund (Fund 7024) that require

local funds to be contributed by any state-supported or state- 808
assisted institution of higher education, the Department of 809
Higher Education shall not recommend that any funds be released 810
until the recipient institution demonstrates to the Department 811
of Higher Education and the Office of Budget and Management that 812
the local funds contribution requirement has been secured or 813
satisfied. The local funds shall be in addition to the 814
reappropriations in this act. 815

Section 357.42. None of the capital reappropriations in 816
this act for state-supported or state-assisted institutions of 817
higher education shall be expended until the particular 818
appropriation has been recommended for release by the Department 819
of Higher Education and released by the Director of Budget and 820
Management or the Controlling Board. Either the institution 821
concerned, or the Department of Higher Education with the 822
concurrence of the institution concerned, may initiate the 823

Controlling Board for the release of the particular 825
appropriation. 826

Section 357.43. (A) No capital reappropriations in this 827
act made from the Higher Education Improvement Fund (Fund 7034) 828
or the Higher Education Improvement Taxable Fund (Fund 7024) 829
shall be released for planning or for improvement, renovation, 830
construction, or acquisition of capital facilities if the 831
institution of higher education or the state does not own the 832
real property on which the capital facilities are or will be 833
located. This restriction does not apply in any of the following 834
circumstances: 835

(1) The institution has a long-term (at least twenty 836
years) lease of, or other interest (such as an easement) in, the 837

real property. 838

(2) The Department of Higher Education certifies to the 839
Controlling Board that undue delay will occur if planning does 840
not proceed while the property or property interest acquisition 841
process continues. In this case, funds may be released upon 842
approval of the Controlling Board to pay for planning through 843
the development of schematic drawings only. 844

(3) In the case of a reappropriation for capital 845
facilities that, because of their unique nature or location, 846

Section 509.07. AUTHORIZATION OF THE DIRECTOR OF BUDGET 1808
AND MANAGEMENT 1809

The Director of Budget and Management shall authorize both 1810
of the following: 1811

(A) The initial release of moneys for projects from the 1812
funds into which proceeds of direct obligations of the state are 1813
deposited; and 1814

(B) The expenditure or encumbrance of moneys from funds 1815
into which proceeds of direct obligations are deposited, only 1816
after determining to the Director's satisfaction that either of 1817
the following applies: 1818

(1) The application of such moneys to the particular 1819
project will not negatively affect any exclusion of the interest 1820
or interest equivalent on obligations issued to provide moneys 1821
to the particular fund from the calculation of gross income for 1822

federal income tax purposes under the "Internal Revenue Code of 1823
1986," 100 Stat. 2085, 26 U.S.C. 1, as amended. 1824

(2) Moneys for the project will come from the proceeds of 1825
federally taxable obligations, the interest on which is not so 1826
excluded from the calculation of gross income for federal income 1827
tax purposes and which have been authorized and issued on that 1828
basis by their issuing authority. 1829

In the event the Director determines that the condition 1830
set forth in division (B) (1) of this section does not apply, and 1831
that there is no existing fund in the state treasury to enable 1832
compliance with the condition set forth in division (B) (2) of 1833
this section, the Director may create a fund in the state 1834
treasury for the purpose of receiving proceeds of federally 1835
taxable obligations. The Director may establish capital 1836
appropriation items in that taxable bond fund that correspond to 1837
the preexisting capital appropriation items in the associated 1838
tax-exempt bond fund. The Director also may transfer capital 1839
appropriations in whole or in part between the taxable and tax- 1840
exempt bond funds within a particular purpose for which the 1841
bonds have been authorized. 1842

location, will be owned or be part of facilities owned by a	1867
separate nonprofit organization and made available to the state	1868
agency for its use or benefit, the nonprofit organization either	1869
owns or has a long-term (at least as long as the obligations	1870
that financed the project) lease of the real property or other	1871
capital facility to be improved, renovated, constructed, or	1872
acquired and has entered into a joint or cooperative use	1873
agreement, with and approved by the state agency that meets the	1874
requirements of division (B) of this section.	1875
(B) In the case of capital facilities referred to in	1876
division (A)(2) of this section, the joint or cooperative use	1877
agreement shall include, as a minimum, provisions that:	1878
(1) Specify the extent and nature of that joint or	1879
cooperative use, extending for not shorter than the length of	1880

the obligations that financed the project, with the value of 1881
such use or right to use to be, as determined by the parties and 1882
approved by the approving department, reasonably related to the 1883
amount of the appropriation; 1884

(2) Provide for pro rata reimbursement to the state should 1885
the arrangement for joint or cooperative use by a state agency 1886
be terminated; and 1887

(3) Provide that procedures to be followed during the 1888
capital improvement process will comply with appropriate 1889
applicable state statutes and rules, including the provisions of 1890
this act. 1891

Fund (Fund 7100), or the School Building Program Assistance Fund 1897
(Fund 7032). 1898

**Section 509.12. REAPPROPRIATION OF UNEXPENDED ENCUMBERED 1899
BALANCES OF CAPITAL APPROPRIATIONS 1900**

(A) (1) Notwithstanding the original year of appropriation 1901
or encumbrance, the unexpended balance of a capital 1902
appropriation or reappropriation that a state agency has 1903
lawfully encumbered prior to the close of the fiscal year 2025- 1904
2026 capital biennium is hereby reappropriated for the fiscal 1905
year 2027-2028 capital biennium from the fund from which it was 1906
originally appropriated or was reappropriated and shall be used 1907
only for the purpose of discharging the encumbrance. For those 1908
encumbered appropriations or reappropriations, any Controlling 1909

Board approval previously granted and referenced by the 1910
encumbering document remains in effect until the encumbrance is 1911
discharged or until the encumbrance expires at the end of the 1912
fiscal year 2027-2028 capital biennium. 1913

(2) During the fiscal year 2027-2028 capital biennium, the 1914
Director of Budget and Management may cancel an encumbrance that 1915
was reappropriated pursuant to division (A) (1) of this section 1916
if the Director determines that the encumbrance is no longer 1917
needed to complete the project for which it was reappropriated 1918
or appropriated. 1919

(B) If during the fiscal year 2027-2028 capital biennium, 1920

correct an accounting error, the Director of Budget and 1922
Management reestablishes an encumbrance that was reappropriated 1923
pursuant to division (A) of this section, the amount 1924
representing the encumbrance canceled in error is reappropriated 1925
in accordance with division (A) of this section. 1926

Section 509.13. PREVIOUSLY RELEASED REAPPROPRIATIONS 1927

Capital reappropriations in this act that have been 1928
released by the Controlling Board or the Director of Budget and 1929
Management between July 1, 2024, and June 30, 2026, do not 1930
require further approval or release prior to being encumbered. 1931
Funds reappropriated in excess of such prior releases shall be 1932
released in accordance with applicable provisions of this act. 1933

Section 509.14. REAPPROPRIATION OF UNENCUMBERED BALANCES 1934
OF CAPITAL APPROPRIATIONS 1935

The reappropriations made in this act represent the 1936
unencumbered balances of prior years' capital improvements 1937
appropriations estimated to be available on June 30, 2026. 1938

Notwithstanding the foregoing, unless otherwise specified, the
actual unencumbered balances on June 30, 2026, for the
appropriation items in this act identified as reappropriations
are hereby reappropriated. Additionally, there is hereby
reappropriated the actual unencumbered balances on June 30,
2026, of any appropriation items either appropriated or

appropriated in S.B. 54 of the 135th General Assembly, H.B. 434
of the 136th General Assembly, H.B. 184 of the 136th General
Assembly, or H.B. 96 of the 136th General Assembly, and not
otherwise listed in this act, or created by the Controlling
Board pursuant to section 127.15 of the Revised Code, if the
Director of Budget and Management determines that such balances
are needed to complete the projects for which they were
reappropriated or appropriated. The appropriation items and
amounts that are reappropriated by this act shall be reported to
the Controlling Board within 30 days after the effective date of
this section.
