Sec. 3345.28. A board of trustees or managing authority that establishes such a program shall, by rule, adopt a definition of "academic years of teaching service" and of "full-time faculty member."

No such board or authority shall pay any faculty member for or during a period of professional leave any salary exceeding the amount that would have been paid to such faculty member for performing the faculty member's regular duties during the period of the leave. No faculty member shall, by virtue of being on professional leave, suffer a reduction or termination of the faculty member's regular employee retirement or insurance benefits or of any other benefit or privilege being received as a faculty member at the college, university, or branch where the faculty member is employed. Whenever such a benefit would be reduced because of a reduction in the faculty member's salary during the period of professional leave, the faculty member shall be given a chance to have the benefit increased to its normal level, in accordance with rules adopted by the board of trustees or the managing authority. A faculty member who has been granted professional leave shall complete another seven years of service at the college, university, or branch at which

Each grant of professional leave shall be in accordance with a professional improvement policy for professional leaves that has been approved by the board of trustees or the managing authority. No professional leave shall be granted that requires a compensating addition to the permanent faculty or staff of the college, university, or branch. No professional leave shall be approved unless a specific plan for the professional improvement of the faculty member while on leave has been submitted to and accepted by the president of the university, college, or branch. At the completion of the leave, the faculty member shall submit to the president a report detailing the attainments of the faculty member under this professional improvement plan.

(6)(a) The statements required to be filed under this section shall specify the balance in the hands of the campaign committee, political action committee, legislative campaign fund, political party, or political contributing entity and the disposition intended to be made of that balance.

(b) The secretary of state shall prescribe the form for all statements required to be filed under this section and shall furnish the forms to the boards of elections in the several counties. If, in the opinion of the secretary of state, training in these areas is necessary, the secretary of state shall arrange for the provision of voluntary training programs for candidates, campaign committees, political action committees, legislative campaign funds, political parties, or political contributing entities, for individuals, partnerships, and other entities, for persons making disbursements to pay the direct costs of producing or airing electioneering communications, or for treasurers of transition funds, as appropriate.

(b) The secretary of state shall not accept for filing a designation of treasurer of a political action committee or political contributing entity if, in the opinion of the secretary of state, the name of the political action committee or political contributing entity would lead a reasonable person to believe that the political action committee or political contributing entity acts on behalf of or represents a county political party, unless the designation is accompanied by a written statement, signed by the chairperson of the county political party's executive committee, granting the political action committee or political contributing entity permission to act on behalf of or represent the county political party.

A legislative campaign fund is authorized to receive contributions and make expenditures for the primary purpose of furthering the election of candidates who are members of that political party to the house of the general assembly with which that legislative campaign fund is associated. Each legislative campaign fund shall be administered and controlled in a manner designated by the caucus. The statement shall indicate the total amount of contributions received and the total amount of expenditures made during those combined reporting periods.

(2) In the case of a successful candidate at a primary election, if either the total contributions received by or the total expenditures made by the candidate's campaign committee during the preprimary, postprimary, pregeneral, and postgeneral election periods combined equal more than five hundred dollars, the campaign committee may file the statement under division (H)(1) of this section only for the primary election. (ii) The owner or operator has entered into a binding contractual obligation to undertake and complete within a reasonable period of time a continuing program of installation or modification of the air contaminant source during the eighteen-month period.

(iii) The director has extended the date by which the air contaminant source that is the subject of the installation permit must be installed or modified.

(iv) The installation permit is the subject of an appeal by a party other than the owner or operator of the air contaminant source that is the subject of the installation permit, in which case the date of termination of the permit is not later than eighteen months after the effective date of the permit plus the number of days between the date in which the permit was appealed and the date on which all appeals concerning the permit have been resolved.

(v) The installation permit has been superseded by a subsequent installation permit, in which case the original installation permit terminates on the effective date of the superseding installation permit.

Division ~~(F)(2)(b)~~ (E)(2)(b) of this section applies to an installation permit that has not terminated as of October 16, 2009.

~~The director may adopt rules in accordance with Chapter 119. of the Revised Code for the purpose of establishing additional requirements that are necessary for the implementation of division (F)(2)(b) of this section.~~

(3) Not later than two years after August 3, 2006, the director shall adopt a rule in accordance with Chapter 119. of the Revised Code specifying that a permit to install is required only for new or modified air contaminant sources that emit any of the following air contaminants:

(a) An air contaminant or precursor of an air contaminant for which a national ambient air quality standard has been adopted under the federal Clean Air Act;

(b) An air contaminant for which the air contaminant source is regulated under the federal Clean Air Act;

(c) An air contaminant that presents, or may present, through inhalation or other routes of exposure, a threat of adverse human health effects, including, but not limited to, substances that are known to be, or may reasonably be anticipated to be, carcinogenic, mutagenic, teratogenic, or neurotoxic, that cause reproductive dysfunction, or that are acutely or chronically toxic, or a threat of adverse environmental effects whether through ambient concentrations, bioaccumulation, deposition, or otherwise, and that is identified in the rule by chemical name and chemical abstract service number.

The director may modify the rule adopted under division ~~(F)(3)(c)~~ (E)(3)(c) of this section for the purpose of adding or deleting air contaminants. For each air contaminant that is contained in or deleted from the rule adopted under division ~~(F)(3)(c)~~ (E)(3)(c) of this section, the director shall include in a notice accompanying any proposed or final rule an explanation of the director's determination that the air contaminant meets the criteria established in that division and should be added to, or no longer meets the criteria and should be deleted from, the list of air contaminants. The explanation shall include an identification of the scientific evidence on which the director relied in making the determination. Until adoption of the rule under division ~~(F)(3)(c)~~ (E)(3)(c) of this section, nothing shall affect the director's authority to issue, deny, modify, or revoke permits to install under this chapter and rules adopted under it.

(4)(a) Applications for permits to install new or modified air contaminant sources shall contain sufficient information regarding air contaminants for which the director may require a permit to install to determine conformity with the environmental

protection agency's document entitled "Review of New Sources of Air Toxics Emissions, Option A," dated May 1986, which the director shall use to evaluate toxic emissions from new or modified air contaminant sources. The director shall make copies of the document available to the public upon request at no cost and post the document on the environmental protection agency's web site. Any inconsistency between the document and division ~~(F)(4)~~(E)(4) of this section shall be resolved in favor of division ~~(F)(4)~~(E)(4) of this section.

(b) The maximum acceptable ground level concentration of an air contaminant shall be calculated in accordance with the document entitled "Review of New Sources of Air Toxics Emissions, Option A." Modeling shall be conducted to determine the increase in the ground level concentration of an air contaminant beyond the facility's boundary caused by the emissions from a new or modified source that is the subject of an application for a permit to install. Modeling shall be based on the maximum hourly rate of emissions from the source using information including, but not limited to, any emission control devices or methods, operational restrictions, stack parameters, and emission dispersion devices or methods that may affect ground level concentrations, either individually or in combination. The director shall determine whether the activities for which a permit to install is sought will cause an increase in the ground level concentration of one or more relevant air contaminants beyond the facility's boundary by an amount in excess of the maximum acceptable ground level concentration. In making the determination as to whether the maximum acceptable ground level concentration will be exceeded, the director shall give consideration to the modeling conducted under division ~~(F)(4)(b)~~(E)(4)(b) of this section and other relevant information

submitted by the applicant.

(c) If the modeling conducted under division ~~(F)(4)(b)~~ (E)(4)(b) of this section with respect to an application for a permit to install demonstrates that the maximum ground level concentration from a new or modified source will be greater than or equal to eighty per cent, but less than one hundred per cent of the maximum acceptable ground level concentration for an air contaminant, the director may establish terms and conditions in the permit to install for the air contaminant source that will require the owner or operator of the air contaminant source to maintain emissions of that air contaminant commensurate with the modeled level, which shall be expressed as allowable emissions per day. In order to calculate the allowable emissions per day, the director shall multiply the hourly emission rate modeled under division ~~(F)(4)(b)~~ (E)(4)(b) of this section to determine the ground level concentration by the operating schedule that has been identified in the permit to install application. Terms and conditions imposed under division ~~(F)(4)(c)~~ (E)(4)(c) of this section are not federally enforceable requirements and, if included in a Title V permit, shall be placed in the portion of the permit that is only enforceable by the state.

(d) If the modeling conducted under division ~~(F)(4)(b)~~ (E)(4)(b) of this section with respect to an application for a permit to install demonstrates that the maximum ground level concentration from a new or modified source will be less than eighty per cent of the maximum acceptable ground level concentration, the owner or operator of the source annually shall report to the director, on a form prescribed by the director, whether operations of the source are consistent with the information regarding the operations that was used to conduct the modeling with regard to the permit to install

application. The annual report to the director shall be in lieu of an emission limit or other permit terms and conditions imposed pursuant to division ~~(F)(4)~~(E)(4) of this section. The director may consider any significant departure from the operations of the source described in the permit to install application that results in greater emissions than the emissions rate modeled to determine the ground level concentration as a modification and require the owner or operator to submit a permit to install application for the increased emissions. The requirements established in division ~~(F)(4)(d)~~(E)(4)(d) of this section are not federally enforceable requirements and, if included in a Title V permit, shall be placed in the portion of the permit that is only enforceable by the state.

(e) Division ~~(F)(4)~~(E)(4) of this section and the document entitled "Review of New Sources of Air Toxics Emissions, Option A" shall not be included in the state implementation plan under section 110 of the federal Clean Air Act and do not apply to an air contaminant source that is subject to a maximum achievable control technology standard or residual risk standard under section 112 of the federal Clean Air Act, to a particular air contaminant identified under 40 C.F.R. 51.166, division (b)(23), for which the director has determined that the owner or operator of the source is required to install best available control technology for that particular air contaminant, or to a particular air contaminant for which the director has determined that the source is required to meet the lowest achievable emission rate, as defined in 40 C.F.R. part 51, Appendix S, for that particular air contaminant.

(f)(i) Division ~~(F)(4)~~(E)(4) of this section and the document entitled "Review of New Sources of Air Toxics Emissions, Option A" do not apply to parking lots, storage

piles, storage tanks, transfer operations, grain silos, grain dryers, emergency generators, gasoline dispensing operations, air contaminant sources that emit air contaminants solely from the combustion of fossil fuels, or the emission of wood dust, sand, glass dust, coal dust, silica, and grain dust.

(ii) Notwithstanding division ~~(F)(4)(f)(i)~~ (E)(4)(f)(i) of this section, the director may require an individual air contaminant source that is within one of the source categories identified in division ~~(F)(4)(f)(i)~~ (E)(4)(f)(i) of this section to submit information in an application for a permit to install a new or modified source in order to determine the source's conformity to the document if the director has information to conclude that the particular new or modified source will potentially cause an increase in ground level concentration beyond the facility's boundary that exceeds the maximum acceptable ground level concentration as set forth in the document.

~~(iii) The director may adopt rules in accordance with Chapter 119. of the Revised Code that are consistent with the purposes of this chapter and that add to or delete from the source category exemptions established in division (F)(4)(f)(i) of this section.~~

(5) Not later than one year after August 3, 2006, the director shall adopt rules in accordance with Chapter 119. of the Revised Code specifying activities that do not, by themselves, constitute beginning actual construction activities related to the installation or modification of an air contaminant source for which a permit to install is required such as the grading and clearing of land, on-site storage of portable parts and equipment, and the construction of

foundations or buildings that do not themselves emit air contaminants. The rules also shall allow specified initial activities that are part of the installation or modification of an air contaminant source, such as the installation of electrical and other utilities for the source, prior to issuance of a permit to install, provided that the owner or operator of the source has filed a complete application for a permit to install, the director or the director's designee has determined that the application is complete, and the owner or operator of the source has notified the director that this activity will be undertaken prior to the issuance of a permit to install. Any activity that is undertaken by the source under those rules shall be at the risk of the owner or operator. The rules shall not apply to activities that are precluded prior to permit issuance under section 111, section 112, Part C of Title I, and Part D of Title I of the federal Clean Air Act.

~~(G)~~ (F) Adopt, modify, suspend, and rescind rules prohibiting the operation or other use of any new, modified, or existing air contaminant source unless an operating permit has been obtained from the director or the director's authorized representative~~, or the air contaminant source is being operated in compliance with the conditions of a variance issued pursuant to division (H) of this section~~. Applications for operating permits shall be accompanied by such plans, specifications, and other pertinent information as the director may require. Operating permits may be issued for a period determined by the director not to exceed ten years, are renewable, and are transferable. The director shall specify in each operating permit that the permit is conditioned upon payment of the applicable fees as required by section 3745.11 of the Revised Code and upon the right of the director's authorized

representatives to enter upon the premises of the person to whom the permit has been issued, at any reasonable time and subject to safety requirements of the person in control of the premises, for the purpose of determining compliance with this chapter, the rules adopted thereunder, and the conditions of any permit, variance, or order issued thereunder. Operating permits may be denied or revoked for failure to comply with this chapter or the rules adopted thereunder. An operating permit shall be issued only upon a showing satisfactory to the director or the director's representative that the air contaminant source is being operated in compliance with applicable emission standards and other rules or upon submission of a schedule of compliance satisfactory to the director for a source that is not in compliance with all applicable requirements at the time of permit issuance, provided that the compliance schedule shall be consistent with and at least as stringent as that contained in any judicial consent decree or administrative order to which the air contaminant source is subject. The rules shall provide for the issuance of conditional operating permits for such reasonable periods as the director may determine to allow the holder of an installation permit, who has constructed, installed, located, or modified a new air contaminant source in accordance with the provisions of an installation permit, to make adjustments or modifications necessary to enable the new air contaminant source to comply with applicable emission standards and other rules. Terms and conditions of operating permits issued pursuant to this division shall be federally enforceable for the purpose of establishing the potential to emit of a stationary source and shall be expressly designated as federally enforceable. Any such federally enforceable restrictions on a source's potential to emit shall include both an annual limit and a short-term limit of not more than thirty

days for each pollutant to be restricted together with adequate methods for establishing compliance with the restrictions. In other respects, operating permits issued pursuant to this division are enforceable as state law only. No application shall be denied or permit revoked or modified without a written order stating the findings upon which denial, revocation, or modification is based. A copy of the order shall be sent to the applicant or permit holder by certified mail.

~~(H) Adopt, modify, and rescind rules governing the issuance, revocation, modification, or denial of variances that authorize emissions in excess of the applicable emission standards.~~

(G) No variance shall be issued except pursuant to ~~those rules~~rule. The rules shall ~~prescribe conditions and criteria in furtherance of the purposes of this chapter and consistent with the federal Clean Air Act governing eligibility for issuance of variances, which shall include~~ establish all of the following:

(1) Provisions requiring consistency of emissions authorized by a variance with timely attainment and maintenance of ambient air quality standards;

(2) Provisions prescribing the classes and categories of air contaminants and air contaminant sources for which variances may be issued;

(3) Provisions defining the circumstances under which an applicant shall demonstrate that compliance with applicable emission standards is technically infeasible, economically unreasonable, or impossible because of conditions beyond the control of the applicant~~;~~

~~(4) Other provisions prescribed in furtherance of the~~

~~goals of this chapter~~.

The rules shall prohibit the issuance of variances from any emission limitation that was applicable to a source pursuant to an installation permit and shall prohibit issuance of variances that conflict with the federal Clean Air Act.

Applications for variances shall be accompanied by such information as the director may require. In issuing variances, the director may order the person to whom a variance is issued to furnish plans and specifications and such other information and data, including interim reports, as the director may require and to proceed to take such action within such time as the director may determine to be appropriate and reasonable to prevent, control, or abate the person's existing emissions of air contaminants. The director shall specify in each variance that the variance is conditioned upon payment of the applicable fees as required by section 3745.11 of the Revised Code and upon the right of the director's authorized representatives to enter upon the premises of the person to whom the variance has been issued, at any reasonable time and subject to safety requirements of the person in control of the premises, for the purpose of determining compliance with this chapter, the rules adopted thereunder, and the conditions of any permit, variance, or order issued thereunder.

The director may hold a public hearing on an application for a variance or renewal thereof at a location in the county where the variance is sought. The director shall give not less than twenty days' notice of the hearing to the applicant by certified mail or another type of mail accompanied by a receipt. The director also shall cause at least one publication of notice in a newspaper with general circulation in the county where the

variance is sought or may instead provide public notice by publication on the environmental protection agency's web site. The director shall keep available for public inspection at the principal office of the environmental protection agency a current schedule of pending applications for variances and a current schedule of pending variance hearings. The director shall make a complete stenographic record or electronic record of testimony and other evidence submitted at the hearing. The director shall make a written determination to issue, renew, or deny the variance and shall enter the determination and the basis therefor into the record of the hearing. The director shall issue, renew, or deny an application for a variance or renewal thereof, or issue a proposed action upon the application pursuant to section 3745.07 of the Revised Code, within six months of the date upon which the director receives a complete application with all pertinent information and data required by the director.

Any variance granted pursuant to rules adopted under this division shall be for a period specified by the director, not to exceed three years, and may be renewed from time to time on such terms and for such periods, not to exceed three years each, as the director determines to be appropriate. A variance may be revoked, or renewal denied, for failure to comply with conditions specified in the variance. No variance shall be issued, denied, revoked, or modified without a written order stating the findings upon which the issuance, denial, revocation, or modification is based. A copy of the order shall be sent to the applicant or variance holder by certified mail.

~~(I)~~ (H) Require the owner or operator of an air contaminant source to install, employ, maintain, and operate such emissions, ambient air quality, meteorological, or other monitoring devices

or methods as the director shall prescribe; to sample those emissions at such locations, at such intervals, and in such manner as the director prescribes; to maintain records and file periodic reports with the director containing information as to location, size, and height of emission outlets, rate, duration, and composition of emissions, and any other pertinent information the director prescribes; and to provide such written notice to other states as the director shall prescribe. In requiring monitoring devices, records, and reports, the director, to the extent consistent with the federal Clean Air Act, shall give consideration to technical feasibility and economic reasonableness and allow reasonable time for compliance. For sources where a specific monitoring, record-keeping, or reporting requirement is specified for a particular air contaminant from a particular air contaminant source in an applicable regulation adopted by the United States environmental protection agency under the federal Clean Air Act or in an applicable rule adopted by the director, the director shall not impose an additional requirement in a permit that is a different monitoring, record-keeping, or reporting requirement other than the requirement specified in the applicable regulation or rule for that air contaminant except as otherwise agreed to by the owner or operator of the air contaminant source and the director. For sources where no specific monitoring requirement is specified for a particular air contaminant from a particular air contaminant source in an applicable regulation adopted by the United States environmental protection agency under the federal Clean Air Act or in an applicable rule adopted by the director, the director shall not impose a monitoring requirement in a permit that requires community air monitoring, except as otherwise agreed to by the owner or air operator of the air contaminant source and the director. If two or more regulations

or rules impose different monitoring, record-keeping, or reporting requirements for the same air contaminant from the same air contaminant source, the director may impose permit terms and conditions that consolidate or streamline the monitoring, record-keeping, or reporting requirements in a manner that conforms with each applicable requirement. To the extent consistent with the federal Clean Air Act and except as otherwise agreed to by the owner or operator of an air contaminant source and the director, the director shall not require an operating restriction that has the practical effect of increasing the stringency of an existing applicable emission limitation or standard.

~~(J)~~ (I) Establish, operate, and maintain monitoring stations and other devices designed to measure air pollution and enter into contracts with any public or private agency for the establishment, operation, or maintenance of such stations and devices, except that the director shall not enter into contracts with any private agency for the establishment, operation, or maintenance of community air monitoring where the intended use of the data produced by such monitoring stations and other devices would violate ~~divisions~~ division (B) or (C) of section 3704.09 of the Revised Code;

~~(K)~~ (J) By rule adopt procedures for giving reasonable public notice and conducting public hearings on any plans for the prevention, control, and abatement of air pollution that the director is required to submit to the federal government;

~~(L)~~ (K) Through any employee, agent, or authorized representative of the director or the environmental protection agency, enter upon private or public property, including improvements thereon, at any reasonable time, to make

inspections, take samples, conduct tests, and examine records or reports pertaining to any emission of air contaminants and any monitoring equipment or methods and to determine if there are any actual or potential emissions from such premises and, if so, to determine the sources, amounts, contents, and extent of those emissions, or to ascertain whether there is compliance with this chapter, any orders issued or rules adopted thereunder, or any other determination of the director. The director, at reasonable times, may have access to and copy any such records. If entry or inspection authorized by this division is refused, hindered, or thwarted, the director or the director's authorized representative may by affidavit apply for, and any judge of a court of record may issue, an appropriate inspection warrant necessary to achieve the purposes of this chapter within the court's territorial jurisdiction.

~~(M)~~ (L) Accept and administer gifts or grants from the federal government and from any other source, public or private, for carrying out any of the functions under this chapter;

~~(N)~~ (M) Obtain necessary scientific, technical, and laboratory services;

~~(O)~~ (N) Establish advisory boards in accordance with section 121.13 of the Revised Code;

~~(P)~~ (O) Delegate to any city or general health district or political subdivision of the state any of the director's enforcement and monitoring powers and duties, other than rule-making powers, as the director elects to delegate, and in addition employ, compensate, and prescribe the powers and duties of such officers, employees, and consultants as are necessary to enable the director to exercise the authority and perform duties imposed upon the director by law. Technical and other services

shall be performed, insofar as practical, by personnel of the environmental protection agency.

~~(Q)~~ (P) Certify to the government of the United States or any agency thereof that an industrial air pollution facility is in conformity with the state program or requirements for control of air pollution whenever such certificate is required for a taxpayer pursuant to any federal law or requirements;

~~(R)~~ (Q) Issue, modify, or revoke orders requiring abatement of or prohibiting emissions that violate applicable emission standards or other requirements of this chapter and rules adopted thereunder, or requiring emission control devices or measures in order to comply with applicable emission standards or other requirements of this chapter and rules adopted thereunder. Any such order shall require compliance with applicable emission standards by a specified date and shall not conflict with any requirement of the federal Clean Air Act. In the making of such orders, the director, to the extent consistent with the federal Clean Air Act, shall give consideration to, and base the determination on, evidence relating to the technical feasibility and economic reasonableness of compliance with such orders and their relation to benefits to the people of the state to be derived from such compliance. If, under the federal Clean Air Act, any such order shall provide for the posting of a bond or surety to secure compliance with the order as a condition of issuance of the order, the order shall so provide, but only to the extent required by the federal Clean Air Act.

~~(S)~~ (R) To the extent provided by the federal Clean Air Act, adopt, modify, and rescind rules providing for the administrative assessment and collection of monetary penalties,

not in excess of those required pursuant to the federal Clean Air Act, for failure to comply with any emission limitation or standard, compliance schedule, or other requirement of any rule, order, permit, or variance issued or adopted under this chapter or required under the applicable implementation plan whether or not the source is subject to a federal or state consent decree. The director may require the submission of compliance schedules, calculations of penalties for noncompliance, and related information. Any orders, payments, sanctions, or other requirements imposed pursuant to rules adopted under this division shall be in addition to any other permits, orders, payments, sanctions, or other requirements established under this chapter and shall not affect any civil or criminal enforcement proceedings brought under any provision of this chapter or any other provision of state or local law. This division does not apply to any requirement of this chapter regarding the prevention or abatement of odors.

~~(T)~~ (S) Require new or modified air contaminant sources to install best available technology, but only in accordance with this division. With respect to permits issued pursuant to division ~~(F)~~ (E) of this section beginning three years after August 3, 2006, best available technology for air contaminant sources and air contaminants emitted by those sources that are subject to standards adopted under section 112, Part C of Title I, and Part D of Title I of the federal Clean Air Act shall be equivalent to and no more stringent than those standards. For an air contaminant or precursor of an air contaminant for which a national ambient air quality standard has been adopted under the federal Clean Air Act, best available technology only shall be required to the extent required by rules adopted under Chapter 119. of the Revised Code for permit to install applications

filed three or more years after August 3, 2006.

Best available technology requirements established in rules adopted under this division shall be expressed only in one of the following ways that is most appropriate for the applicable source or source categories:

(1) Work practices;

(2) Source design characteristics or design efficiency of applicable air contaminant control devices;

(3) Raw material specifications or throughput limitations averaged over a twelve-month rolling period;

(4) Monthly allowable emissions averaged over a twelve-month rolling period.

Best available technology requirements shall not apply to an air contaminant source that has the potential to emit, taking into account air pollution controls installed on the source, less than ten tons per year of emissions of an air contaminant or precursor of an air contaminant for which a national ambient air quality standard has been adopted under the federal Clean Air Act. In addition, best available technology requirements established in rules adopted under this division shall not apply to any existing, new, or modified air contaminant source that is subject to a plant-wide applicability limit that has been approved by the director. Further, best available technology requirements established in rules adopted under this division shall not apply to general permits issued prior to January 1, 2006, under rules adopted under this chapter.

For permits to install issued three or more years after August 3, 2006, any new or modified air contaminant source that has the potential to emit, taking into account air pollution

controls installed on the source, ten or more tons per year of volatile organic compounds or nitrogen oxides shall meet, at a minimum, the requirements of any applicable reasonably available control technology rule in effect as of January 1, 2006, regardless of the location of the source.

~~(U) Consistent with section 507 of the federal Clean Air Act, adopt, modify, suspend, and rescind rules for the establishment of a small business stationary source technical and environmental compliance assistance program as provided in section 3704.18 of the Revised Code;~~

~~(V)~~ (T) Provide for emissions trading, marketable permits, auctions of emission rights, and economic incentives that would reduce the cost or increase the efficiency of achieving a specified level of environmental protection;

~~(W)~~ (U) Provide for the construction of an air contaminant source prior to obtaining a permit to install pursuant to division ~~(F)~~ (E) of this section if the applicant demonstrates that the source will be installed to comply with all applicable emission limits and will not adversely affect public health or safety or the environment and if the director determines that such an action will avoid an unreasonable hardship on the owner or operator of the source. Any such determination shall be consistent with the federal Clean Air Act.

~~(X) Exercise all incidental powers, including adoption of rules, required to carry out this chapter.~~

The environmental protection agency shall develop a plan to control air pollution resulting from state-operated facilities and property.

Sec. 3704.031. (A) Except as provided in division (B) of

this section, prior to issuance or renewal of a permit or a variance under division ~~(F), (G),~~(E) or ~~(H)~~(F) of section 3704.03 of the Revised Code, the director of environmental protection may require the applicant to install such equipment and conduct such tests and analyses as the director finds reasonable and necessary to determine adequately the amount and content of any emissions from such sources, the ambient air quality at the proposed site and in areas that may be affected by emissions from such sources, and any violation or potential violation of Chapter 3704. of the Revised Code, or the regulations or orders promulgated thereunder.

(B) Prior to the issuance or renewal of a permit or a variance under division ~~(F), (G),~~(E) or ~~(H)~~(F) of section 3704.03 of the Revised Code, the director shall not require an applicant to conduct community air monitoring.

Sec. 3704.034. (A) Within sixty days after the director of environmental protection or the director's agent or authorized representative receives an application for the issuance of an initial permit to operate, or for the modification or renewal of such a permit, pursuant to rules adopted under division ~~(G)~~(F) of section 3704.03 of the Revised Code, the director shall determine whether the application is substantially complete or materially deficient and, in writing, shall notify the applicant of the director's determination. If the director fails to make such a completeness determination and provide written notice of the determination to the applicant within sixty days after the application was submitted, the applicant may submit a written request to the director for the making of such a completeness determination.

(B) Within thirty days after receiving a written request

for the making of a completeness determination on an application under division (A) of this section, the director shall determine whether the application is substantially complete or materially deficient and, in writing, notify the applicant of the determination. If the director fails to make a completeness determination and provide written notice of the director's determination to the applicant within thirty days after receiving the applicant's written request for the making of the determination, the application shall be deemed to have been complete in all material respects at the time that it was submitted to the director or the director's agent or authorized representative.

(C) If, within the time prescribed in division (A) and, if applicable, division (B) of this section, the director determines that an application is materially deficient, the director shall return the application to the applicant together with the written notice of material deficiency. The running of the time prescribed under division (A) and, if applicable, division (B) of this section ceases at the time that the determination is made. If the applicant subsequently resubmits the application to the director, the time prescribed in division (A) of this section and, if applicable, division (B) of this section shall resume running at the time that the application is resubmitted. The resubmission of the application constitutes a request for the making of a completeness determination on the application. The director shall do one of the following within the time remaining pursuant to division (A) and, if applicable, division (B) of this section at the time that the application is resubmitted:

(1) Make a completeness determination on the application and, in writing, notify the applicant of the determination;

(2) Issue or deny or propose to issue or deny the permit, modification, or renewal.

(D) The director shall include in each written notice of the completeness of an application provided under division (A), (B), or (C)(1) of this section the date on which the application was determined to be complete.

(E) The director shall issue or deny or propose to issue or deny an initial permit to operate, or a modification or renewal of such a permit, pursuant to rules adopted under division ~~(G)~~ (F) of section 3704.03 of the Revised Code within one hundred eighty days after the date that the application for the permit, modification, or renewal was determined to be complete as that date is set forth in the written notice of the determination of the completeness of the application provided under division (A), (B), or (C)(1) of this section or within one hundred eighty days after the application is deemed to be complete under division (B) of this section, as appropriate. If the director fails to issue or deny or propose to issue or deny the permit, modification, or renewal within the appropriate one-hundred-eighty-day period, the applicant may bring a mandamus action to obtain a judgment that orders the director to take a final action on the application.

(F) The director, upon the director's own motion or upon the written request of the applicant and in writing, may extend the time provided under division (E) of this section for issuing or denying or proposing to issue or deny the permit, modification, or renewal for an additional sixty days if a public informational meeting or public hearing was held on the application for the permit, modification, or renewal.

(G) Upon the written request of the applicant, the

director, in writing, may extend the time provided under division (E) of this section for issuing or denying or proposing to issue or deny the permit, modification, or renewal for the additional time specified in the applicant's request for the extension.

(H) Upon the written request of the person responsible for a facility, the director may consolidate or group applications for the issuance of permits pursuant to rules adopted under division ~~(G)~~ (F) of section 3704.03 of the Revised Code, or modifications or renewals of those permits, for individual air contaminant sources located at the facility in order to reduce the unnecessary paperwork and administrative burden to the applicant and the director in connection with the issuance of those permits, modifications, and renewals. Fees payable to the director under section 3745.11 of the Revised Code shall not be reduced by reason of any such consolidation or grouping of applications for permits, modifications, or renewals.

Sec. 3704.035. (A) There is hereby created in the state treasury the Title V clean air fund. Except as otherwise provided in division (K) of section 3745.11 of the Revised Code, all moneys collected under division (B) of that section, and any gifts, grants, or contributions received by the director of environmental protection for the purposes of the fund, shall be credited to the fund.

The director shall expend all moneys credited to the fund solely to administer and enforce the Title V program pursuant to the federal Clean Air Act, this chapter, and rules adopted under it, except as costs relating to enforcement are limited by the federal Clean Air Act. The director shall establish separate and distinct accounting for all such moneys.

(B) There is hereby created in the state treasury the non-Title V clean air fund. All money collected under section 3710.15 and divisions (D), (F), (G), (H), (I), and (J) of section 3745.11 of the Revised Code shall be credited to the fund. In addition, any gifts, grants, or contributions received by the director for the purposes of the fund shall be credited to the fund.

The director shall expend money in the fund exclusively to pay the cost of administering and enforcing the laws of this state pertaining to the prevention, control, and abatement of air pollution, the prevention, control, and abatement of asbestos, rules adopted under those laws, and terms and conditions of permits, variances, and orders issued under those laws, and asbestos abatement licensure and certification issued under those laws. However, the director shall not expend money credited to the fund for the administration and enforcement of the Title V permit program established under this chapter and rules adopted under it or motor vehicle inspection and maintenance programs established under sections 3704.14, ~~3704.141,~~ 3704.16, 3704.161, and 3704.162 of the Revised Code.

(C) The director shall report biennially to the general assembly the amounts of fees and other moneys credited to the funds under this section and the amounts expended from them for each of the various air pollution control programs.

Sec. 3704.036. (A) The director of environmental protection shall develop and administer a federally approvable Title V permit program and shall take all necessary and appropriate action to implement, through the issuance of Title V permits, applicable requirements of the federal Clean Air Act. Title V permits shall be required only for major sources and

affected sources, as defined in 40 C.F.R. 70.2, and solid waste incineration units required to obtain a permit under section 129 (e) of the federal Clean Air Act unless the administrator extends the obligation to obtain a Title V permit to other sources.

The Title V permit program does not apply to research and development sources whose emissions do not exceed the requirements of 40 C.F.R. 70.3 (a)(1) or any facility or air contaminant source authorized by 40 C.F.R. 70.3 (b) to be exempt from the obligation to obtain a Title V permit. A source that obtains a Title V permit shall not be required to obtain any other operating permit under this chapter and rules adopted under it.

Federally enforceable requirements shall be identified separately in Title V permits. The director may include in those permits reasonable and lawful terms and conditions necessary to ensure compliance with this chapter and rules adopted under it that are not federally enforceable requirements, provided that those terms and conditions are clearly separated from federally enforceable requirements and the Title V permits state that those terms and conditions are not federally enforceable.

(B) The director shall adopt, and may amend, suspend, and rescind, the rules ~~to facilitate the implementation, supervision, administration, and operation of~~ described under this division for the Title V permit program ~~that are~~ . The rules shall be consistent with, and no more stringent than, the requirements of Title V of the federal Clean Air Act and 40 C.F.R. part 70. The rules shall establish ~~at least~~ all of the following:

(1) Definitions of the following terms, which shall be

consistent with and no more stringent than the definitions in 40 C.F.R. part 70: "administrative permit amendment," "affected source," "applicable requirement," "emergency," "emissions unit," "fugitive emissions," "major source," "major stationary source," "potential to emit," "regulated air pollutant," and "stationary source;"

(2) Provisions for minor modifications and operational flexibility that minimize administrative burdens on a source and ensure maximum operational flexibility consistent with the federal Clean Air Act and regulations adopted under it;

(3) Provisions for administrative Title V permit amendments. The rules shall require the director to approve or disapprove an administrative permit amendment in accordance with all of the following:

(a) The director shall take not more than sixty days from receipt of a request for an administrative permit amendment to issue a final action on the request in accordance with the procedures specified in 40 C.F.R. 70.7 (d).

(b) Chapter 119. and sections 3704.04 and 3745.07 of the Revised Code do not apply to administrative permit amendments under division (B)(3) of this section.

(c) The director's determination under division (B)(3) of this section is a final action appealable to the environmental review appeals commission under section 3745.04 of the Revised Code.

(4) Provisions for exemption of insignificant air contaminant sources from inclusion in the Title V permit program. To the extent consistent with the federal Clean Air Act, the exemptions shall include, at a minimum, all source

categories that are excluded from the requirements to obtain installation permits and operating permits pursuant to divisions ~~(F)~~ (E) and ~~(G)~~ (F) of section 3704.03 of the Revised Code and any source categories specifically exempted under 40 C.F.R. part 70 and also shall include, to the extent consistent with the federal Clean Air Act, any air contaminant sources with the potential to emit not more than five tons per year of a federally regulated air pollutant other than hazardous air pollutants and not more than twenty per cent of an applicable major source threshold under the federal Clean Air Act.

(5) Provisions to implement the permit shield permitted by the Federal Clean Air Act to the extent consistent with that act and regulations adopted under it, including at least provisions by which a Title V permit applicant may request the director to make a determination whether a provision or class of requirements of that act is applicable to the applicant's air contaminant source. Any such determination made by the director shall be specified in the applicant's Title V permit.

~~The director may adopt, amend, suspend, and rescind such other rules as are necessary for a federally approvable Title V permit program, which shall be consistent with, and no more stringent than, the requirements of Title V of the federal Clean Air Act and 40 C.F.R. part 70.~~

(C) Applications for initial Title V permits shall be submitted not less than one year after the director adopts rules under division (B) of this section for the implementation of the Title V permit program. New facilities that are required to obtain a Title V permit shall submit a complete Title V permit application not later than one year after the date of commencement of operation.

Title V permits shall not become effective prior to approval of the Title V permit program by the administrator pursuant to section 502 of the federal Clean Air Act.

Title V permits, except for permits that contain acid rain provisions pursuant to Title IV of the federal Clean Air Act and permits issued for solid waste incineration units combusting municipal waste that are subject to section 129 (e) of the federal Clean Air Act, may be issued for a period determined by the director not to exceed five years, are renewable, and are transferable. Title V permits that contain acid rain provisions pursuant to Title IV of the federal Clean Air Act shall be issued for a fixed term of five years. Title V permits for solid waste incineration units combusting municipal waste that are subject to section 129 (e) of the federal Clean Air Act may be issued for a period to be determined by the director not to exceed twelve years and are renewable. If such permits are issued for a period longer than five years, they shall be reviewed by the director at least once every five years to determine compliance with the permit requirements and to incorporate any new requirements established during the previous five years.

(D) A complete Title V permit application is one that contains all the information, consistent with 40 C.F.R. 70.5 (c), needed to begin processing the application and a certification by a responsible official of the truth, accuracy, and completeness of the information in the application, based upon information and belief formed after reasonable inquiry by the responsible official. Unless the director determines within sixty days after receipt of the application that the application is not complete, the application shall be deemed to be complete.

If, during the processing of an application before or after it has been determined or deemed to be complete, the director determines that additional information is necessary in order to evaluate or take final action on the application, the director may request that information in writing from the applicant. Any such request by the director shall identify the information requested with reasonable specificity and shall provide a reasonable time, not less than fifteen days, for the applicant's submission of the requested information.

If an applicant fails to make a good faith and timely response to a request for additional information under this division with regard to an application that the director believes to be incomplete, the director shall offer to meet with the applicant within seven days after issuance of a letter for failure to submit the requested information. If the meeting or meeting offer fails to obtain a complete application from the applicant, the director, without prior hearing, shall make a final determination that the application is not complete. Any such determination shall not become effective until twenty days after notice of the determination is sent to the applicant by certified mail. An incompleteness determination by the director may be appealed in accordance with section 3745.04 of the Revised Code, except that if the notice of appeal is timely filed and is accompanied by an application for stay, the stay shall become effective upon filing and shall continue until such time as the environmental review appeals commission rules on the merits of the stay. The commission shall conduct an immediate hearing and determination on the application for stay without interruption by continuances, other than for unavoidable circumstances. If the commission grants the stay, it immediately shall conduct the hearing on the merits and determine the appeal

without interruption by continuances, other than for unavoidable circumstances.

(E) The director expressly shall include permit shield provisions for each Title V permit in accordance with the following requirements:

(1) Except as provided in this section, the director shall expressly include in a Title V permit a provision stating that compliance with the conditions of the permit shall be deemed to be compliance with any applicable requirements as of the date of permit issuance, provided that either:

(a) The applicable requirements are included and are specifically identified in the permit;

(b) The director, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the facility, and the permit includes the determination or a concise summary of it.

(2) Nothing in division (E) of this section or in any Title V permit shall alter or affect any of the following:

(a) The provisions of section 303 of the federal Clean Air Act, including the authority of the administrator under that section;

(b) The liability of an owner or operator of a facility for any violation of applicable requirements prior to or at the time of permit issuance;

(c) The applicable requirements of the acid rain program, consistent with section 408 (a) of the federal Clean Air Act;

(d) The ability of the administrator to obtain information

from a facility pursuant to section 114 of the federal Clean Air Act.

(F)(1) Title V permit applications shall be acted upon by the director in accordance with Chapters 119. and 3745. of the Revised Code and with 40 C.F.R. 70.8. If a Title V permit expires after a complete and timely renewal application has been filed with the director, all provisions and authorizations of the expired permit shall remain in effect until the director's final action on the pending renewal application. The director's failure to take action on a Title V permit application or permit renewal or modification application within the deadlines specified in the federal Clean Air Act or in 40 C.F.R. part 70 shall be a final action appealable to the environmental review appeals commission under section 3745.04 of the Revised Code.

(2) The director shall not issue a Title V permit if the administrator timely objects to its issuance under 40 C.F.R. 70.8 (c) or (d).

(3) The director may modify, revoke, or revoke and reissue a Title V permit for cause. The director shall modify, revoke, or revoke and reissue a Title V permit if requested to do so by the administrator under 40 C.F.R. 70.8 (d).

(G) A Title V permit applicant may request a single permit for a stationary source with multiple Title V emissions units or may request separate permits for any one or more emissions units at the same stationary source required to have a Title V permit. The director shall honor all such requests.

Upon written request of a Title V permit applicant, the director shall make a determination of the applicability or inapplicability of any provision or class of requirements under

the federal Clean Air Act to an emissions unit or stationary source and shall include that determination or a concise summary of it in the applicant's Title V permit.

(H) A Title V permit applicant may request a permit that accommodates multiple operating scenarios and anticipated changes in emissions during the term of a permit at a specified facility. The director shall include in a Title V permit all operating scenarios and anticipated changes in emissions for which an application has been made unless the operating scenarios or emissions are prohibited by federally enforceable requirements. The director may include in a Title V permit such monitoring and recordkeeping requirements as may be reasonably necessary to verify that any authorized operating scenario complies with federally enforceable requirements. In imposing any such requirements, the director shall consider and minimize, to the extent practicable, the administrative burdens that the monitoring will impose on the source.

(I) The director, by rule or order on a class of similar permit applications, may issue a general permit covering numerous similar facilities or air contaminant sources. Any such general permit shall comply with all substantive requirements applicable to conventional Title V permits. A general permit shall apply to the owner or operator of a facility or air contaminant source only upon application of the owner or operator to the director.

(J) The director may issue a single Title V permit authorizing emissions from similar operations at multiple temporary locations within the state, provided that the permit ensures compliance with all federally enforceable requirements and with 40 C.F.R. 70.6 (e) at all authorized locations. Any

such permit shall require the owner or operator to notify the director in advance of each change in location.

(K) A Title V permit shall address all existing federally enforceable requirements applicable to the permitted facility and shall not impose new substantive requirements beyond the federally enforceable requirements except for terms and conditions that are identified as not federally enforceable as provided in division (A) of this section. A Title V permit shall specify the regulatory citation for federal requirements addressed in the permit and shall identify any difference in form as compared to the federally enforceable requirement on which it is based.

If the applicant for a Title V permit proposes an alternative emission limit as provided under division ~~(E)~~ (D) of section 3704.03 of the Revised Code, and if the director determines that the alternative emission limit is equivalent to an emission limit adopted under that division, the alternative emission limit shall be included in the Title V permit together with provisions to ensure that any resulting emission limit has been demonstrated to be quantifiable, accountable, enforceable, and based on replicable procedures. Any such alternative emission limit shall not take effect if the administrator timely objects to it in accordance with division (F)(2) of this section.

(L) The director shall take all necessary and appropriate action to do both of the following:

(1) Issue Title V permits for affected sources consistent with the requirements of Title IV of the federal Clean Air Act;

(2) Implement, through Title V permits, applicable

requirements of section 112 of the federal Clean Air Act.

(M) The director shall develop procedures for the Title V permit program such that the program shall minimize procedural burdens and maximize source operational flexibility to the extent consistent with the federal Clean Air Act.

(N) A Title V permit shall not apply to a physical, operational, or other change that is not a change within a permitted facility. A Title V permittee shall provide simultaneous written notice to the director and the administrator of each such off-permit change that is not addressed or prohibited by the federally enforceable portion of the Title V permit, except that no notice is required for off-permit changes that qualify as insignificant under rules adopted under division (B)(4) of this section.

(O) The director shall adopt rules doing both of the following:

(1) Establishing procedures under which any air contaminant source may assume federally enforceable restrictions on its emissions rates, operating rates, hours of operation, or other parameters that are more stringent than those limitations that ordinarily would apply to the source in order to limit the potential of the source to emit;

(2) To the maximum extent possible consistent with federal law, allowing such a source to impose the limitations described in division (O)(1) of this section on its operations unilaterally without further action by the director or approval from the United States environmental protection agency and otherwise minimizing the time required to effectuate such federally enforceable limits.

Until the director adopts rules under division (O) of this section, the owner or operator of an air contaminant source or sources may submit an application for a permit or permit modification pursuant to division ~~(G)~~ (F) of section 3704.03 of the Revised Code with federally enforceable terms and conditions to limit the potential to emit of the source or sources to less than the major source emission thresholds defined in 40 C.F.R. 70.2. The application shall identify both an annual limit and a short-term limit of not more than thirty days for each pollutant to be restricted together with adequate methods for establishing compliance with the limits. Upon submission of the application, the limits shall be federally enforceable against the applicant. The application shall be signed by a responsible official and submitted simultaneously to the director and the administrator. The director shall act on the application in accordance with Chapters 119. and 3745. of the Revised Code.

Sec. 3704.037. (A) The director of environmental protection shall formulate and implement a tiered permitting system for air contaminant sources that categorizes, prioritizes, and expedites review of, and final action on, applications for installation permits and operating permits issued pursuant to divisions ~~(F)~~ (E) and ~~(G)~~ (F) of section 3704.03 of the Revised Code, respectively. The tiered permitting system shall include at least exemptions, registration status, permits-by-rule, and general permits. The director may issue general permits to install and permits to operate, and permits-by-rule, containing terms and conditions that apply to types of air contaminant sources specified by the director that have sufficiently similar characteristics to warrant substantially identical installation permits and operating permits.

(B) Any person may petition the director to exempt a

certain source category from obtaining an installation permit or operating permit pursuant to division ~~(F)~~(E) or ~~(G)~~(F) of section 3704.03 of the Revised Code, respectively, or both. The petition shall contain all of the technical support necessary to justify the exemption, including the estimated emissions levels, the impact on air quality including the impact of any hazardous or toxic emission, and the effect that granting the exemption would have on ambient air quality standards. Sources regulated by the United States environmental protection agency under the new source performance standards or the hazardous air pollutant standards established pursuant to the federal Clean Air Act are not eligible for exemption through petition.

Not later than one hundred eighty days after receiving a petition, the director shall notify the petitioner in writing if the petition has been accepted or rejected and, if rejected, the basis of the rejection. At least once every two years, the director shall propose rules containing the exemptions that have been accepted through the petition process.

Sec. 3704.038. (A) The director of environmental protection shall maintain and make readily available to the public a best available technology information clearinghouse.

(B) The director shall make readily available to the public interpretive guidelines and technical guidance in order to effect technically sound, consistent, and efficient permit processing under this chapter and rules adopted under it.

(C) The director shall develop a training course on the requirements for the completion of applications for installation permits and the determination of best available technology pursuant to division ~~(F)~~(E) of section 3704.03 of the Revised Code. The training course shall be available to employees of the

environmental protection agency, personnel from local air pollution control agencies, regulated industry, small businesses, environmental advocacy organizations, and other interested persons. The director may charge a fee for the training course in an amount necessary to cover only the actual cost of the training.

Sec. 3704.039. Not later than the first day of March each year, the director of environmental protection shall prepare and submit to the governor and the general assembly a report on the timeliness of the issuance of installation permits pursuant to division ~~(F)~~ (E) of section 3704.03 of the Revised Code for the immediately preceding year. The report shall include indicators to monitor the processing of installation permits by the environmental protection agency and a comparison of the performance of the two previous years. The report also shall identify the measures that have been taken during the immediately preceding year to improve the efficiency and timeliness of the issuance of installation permits and what ~~acitivities~~activities are planned in the year in which the report is issued to improve that issuance.

Sec. 3704.04. The adoption, modification, and repeal of rules and the issuance, revocation, modification, and denial of permits and variances under this chapter shall be in accordance with Chapter 119.~~,~~ and Chapter 3745.~~, and division (H) of section 3704.03~~ of the Revised Code.

Sec. 3704.05. (A) No person shall cause, permit, or allow emission of an air contaminant in violation of any rule adopted by the director of environmental protection under division ~~(E)~~ (D) of section 3704.03 of the Revised Code unless the person is the holder of a variance that is ~~issued under division (H) of~~

~~that section and~~ consistent with the federal Clean Air Act permitting the emission of the contaminant in excess of that permitted by the rule or the person is the holder of an operating permit that includes a compliance schedule issued pursuant to rules adopted under division ~~(G)~~ (F) of section 3704.03 of the Revised Code.

(B) No person who is the holder of a variance ~~issued under division (H) of section 3704.03 of the Revised Code~~ shall cause, permit, or allow emission of an air contaminant or contaminants listed therein in violation of the conditions of the variance or fail to obey an order of the director issued under authority of that division.

(C) No person who is the holder of a permit issued under division ~~(F)~~ (E) or ~~(G)~~ (F) of section 3704.03 of the Revised Code shall violate any of its terms or conditions.

(D) No person shall fail to install and maintain monitoring devices or to submit reports or other information as may be required under division ~~(I)~~ (H) of section 3704.03 of the Revised Code.

(E) No person to whom a permit or variance has been issued shall refuse entry to an authorized representative of the director or the environmental protection agency as provided in division ~~(L)~~ (K) of section 3704.03 of the Revised Code or hinder or thwart the person in making an investigation.

(F) No person shall fail to submit plans and specifications as required by section 3704.03 of the Revised Code.

(G) No person shall violate any order, rule, or determination of the director issued, adopted, or made under

this chapter.

(H) No person shall do any of the following:

(1) Falsify any plans, specifications, data, reports, records, or other information required to be kept or submitted to the director by this chapter or rules adopted under it;

(2) Make any false material statement, representation, or certification in any form, notice, or report required by the Title V permit program;

(3) Render inaccurate any monitoring device required by a Title V permit.

Violation of division (H)(1), (2), or (3) of this section is not also falsification under section 2921.13 of the Revised Code.

(I) No person shall knowingly falsify an inspection certificate submitted to another under section 3704.14 or Chapter 4503. of Revised Code. Violation of this division is not also falsification under section 2921.13 of the Revised Code.

(J) No person shall do either of the following:

(1) With regard to the Title V permit program, fail to pay any administrative penalty assessed in accordance with rules adopted under division ~~(S)~~ (R) of section 3704.03 of the Revised Code or any fee assessed under section 3745.11 of the Revised Code;

(2) Violate any applicable requirement of a Title V permit or any permit condition, except for an emergency as defined in 40 C.F.R. 70.6 (g), or filing requirement of the Title V permit program, any duty to allow or carry out inspection, entry, or monitoring activities, or any rule adopted or order issued by

the director pursuant to the Title V permit program.

(K) On and after the three hundred sixty-sixth day following the administrator's final approval of the Title V permit program, or on and after the three hundred sixty-sixth day following the commencement of operation of a new major source required to comply with section 112(g) or part C or D of Title I of the federal Clean Air Act, whichever is later, no person shall operate any such source that is required to obtain a Title V permit under section 3704.036 of the Revised Code or rules adopted under it unless such a permit has been issued authorizing operation of the source or unless a complete and timely application for the issuance, renewal, or modification of a Title V permit for the source has been submitted to the director under that section.

Sec. 3704.11. (A) Sections 3704.01 to 3704.11 of the Revised Code do not limit the authority a political subdivision of the state has to adopt and enforce ordinances or regulations relative to the prevention, control, and abatement of air pollution, except that every such local ordinance or regulation shall be consistent with Chapter 3704. of the Revised Code, and shall include emission standards and other regulations which are not less stringent than the emission standards and other regulations adopted pursuant to division ~~(E)~~ (D) of section 3704.03 of the Revised Code. Nothing in this section shall prohibit any such local law from controlling any air contaminant or source of air contamination which is not subject to control under regulations of the director of environmental protection.

(B) No local air pollution control authority shall issue any enforcement order, grant any permit or variance, or institute any system or program that conflicts with, or is in

any way inconsistent with any general plan, orders, or regulations of the director.

(C)(1) Notwithstanding any other provision of Chapter 3704. of the Revised Code or any rule adopted pursuant thereto, any municipal corporation or township may issue permits to contractors engaged in the construction of buildings for the open burning of construction debris only on the construction site, lot, or recorded plat referred to in the permit application, if such burning is supervised by an employee at all times. Construction debris which may be burned under this section shall be limited to natural wood, lumber, paper, cardboard, and wooden boxes but not including any product having a rubber or petroleum base. A municipal corporation or township may make rules applicable to issuance and use of permits as are reasonably necessary to guarantee the public health and safety and necessary to ensure the efficient operation of the permit system, and such rules may contain a schedule of fees for the permits. A municipal corporation or township may revoke a permit for violation of any provision of this section or any rule adopted by the municipal corporation or township pursuant thereto. Annually, in accordance with a schedule specified by the director of environmental protection, all municipal corporations and townships shall report to the director the number of permits issued, renewed, and revoked for the preceding calendar year.

(2) No contractor shall burn construction debris under a permit issued pursuant to division (C)(1) of this section during an air pollution alert, warning, or emergency for the area of the construction site.

Sec. 3704.13. The governor may do all things necessary on

behalf of the state, except the adoption of rules, to secure the full benefits available to the state under the federal Clean Air Act. The governor may, in accordance with the federal Clean Air Act, exercise all powers permitted by the federal Clean Air Act to be exercised by a governor, including, but not limited to, powers pertaining to the issuance of orders; ~~adoption of rules;~~ designation of officials; emergency suspension of any part of an implementation plan adopted by the state; and redesignation of air quality control regions.

Sec. 3704.14. (A)(1) If the director of environmental protection determines that implementation of a motor vehicle inspection and maintenance program is necessary for the state to effectively comply with the federal Clean Air Act after June 30, 2025, the director may provide for the implementation of the program in those counties in this state in which such a program is federally mandated. Upon making such a determination, the director of environmental protection may request the director of administrative services to extend the terms of the contract that was entered into under the authority of H.B. 33 of the 135th general assembly. Upon receiving the request, the director of administrative services shall extend the contract, beginning on July 1, 2025, in accordance with this section. The contract shall be extended for a period of up to twenty-four months with the contractor who conducted the motor vehicle inspection and maintenance program under that contract.

(2) Prior to the expiration of the contract extension that was authorized by division (A)(1) of this section under the authority of H.B. 33 of the 135th general assembly, the director of environmental protection shall request the director of administrative services to enter into a contract with a vendor to operate a decentralized motor vehicle inspection and

maintenance program in each county in this state in which such a program is federally mandated through June 30, 2027. The contract shall ensure that the decentralized motor vehicle inspection and maintenance program achieves an equivalent amount of emission reductions as achieved by the program operated under the authority of the contract that was extended under division (A)(1) of this section under the authority of H.B. 33 of the 135th general assembly. The director of administrative services shall select a vendor through a competitive selection process in compliance with Chapter 125. of the Revised Code.

(3) Notwithstanding any law to the contrary, the director of administrative services shall ensure that a competitive selection process regarding a contract to operate a decentralized motor vehicle inspection and maintenance program in this state incorporates the following, which shall be included in the contract:

(a) For purposes of expanding the number of testing locations for consumer convenience, a requirement that the vendor utilize established local businesses, auto repair facilities, or leased properties to operate state-approved inspection and maintenance testing facilities;

(b) A requirement that the vendor selected to operate the program provide notification of the program's requirements to each owner of a motor vehicle that is required to be inspected under the program. The contract shall require the notification to be provided not later than sixty days prior to the date by which the owner of the motor vehicle is required to have the motor vehicle inspected. The director of environmental protection and the vendor shall jointly agree on the content of the notice. However, the notice shall include at a minimum the

locations of all inspection facilities within a specified distance of the address that is listed on the owner's motor vehicle registration.

(c) A requirement that the vendor comply with testing methodology and supply the required equipment approved by the director of environmental protection as specified in the competitive selection process in compliance with Chapter 125. of the Revised Code.

(4) A decentralized motor vehicle inspection and maintenance program operated under this section shall comply with division (B) of this section. The director of environmental protection shall administer the decentralized motor vehicle inspection and maintenance program operated under this section.

(B) The director shall establish a decentralized motor vehicle inspection and maintenance program as authorized by this section and, at a minimum, the director shall ensure that the program does all of the following:

(1) Complies with the federal Clean Air Act;

(2) Provides for the issuance of inspection certificates and alternative emissions certificates as specified in rules adopted under division ~~(C)(2)~~ (C) of this section;

(3) Provides for a new car exemption for motor vehicles six years old or newer and provides that a new motor vehicle is exempt for six years regardless of whether legal title to the motor vehicle is transferred during that period;

(4) Provides for an exemption for battery electric motor vehicles;

(5) Provides for an exemption for hybrid motor vehicles

seven years old or newer and provides that a hybrid motor vehicle is exempt for seven years regardless of whether legal title to the motor vehicle is transferred during that period.

~~(C)(1)~~ (C) The director of environmental protection shall adopt rules in accordance with Chapter 119. of the Revised Code that ~~the director determines are necessary to implement this section. The director may continue to implement and enforce rules pertaining to the motor vehicle inspection and maintenance program previously implemented under former section 3704.14 of the Revised Code as that section existed prior to its repeal and reenactment by Am. Sub. H.B. 66 of the 126th general assembly, provided that the rules do not conflict with this section.~~

~~(2) The rules adopted under division (C)(1) of this section shall~~ provide for the issuance of inspections certificates and alternative emissions certificates. Under the rules, an inspection certificate shall be issued to the owner or lessee of a motor vehicle when the motor vehicle passes an emissions inspection conducted in accordance with the motor vehicle inspection and maintenance program established under this section. ~~In lieu of obtaining an inspection certificate, the rules shall establish a system by which the owner or lessee of a motor vehicle may request an alternative emissions certificate from the director.~~

~~(a)~~ (1) The rules providing for the issuance of alternative emissions certificates shall require an owner or lessee of a motor vehicle to do the following in order to receive the certificate:

~~(i)~~ (a) Complete and submit an attestation form created by the director that includes a statement that reads substantially as follows:

"I, _____, attest that, to the best of my knowledge, the motor vehicle concerning which I am the owner or lessee complies with all laws of Ohio and the United States governing motor vehicle emissions. I, _____, am aware that a false statement on this form is not permitted."

~~(ii)~~ (b) Sign and date the form either manually or electronically;

~~(iii)~~ (c) Submit the form to the director either by regular mail, certified mail, or electronically.

~~(b)~~ (2) The rules shall require the director to include both of the following additional information on the attestation form:

~~(i)~~ (a) A provision that allows the owner or lessee of a motor vehicle to specify one of the following methods by which the owner or lessee may request delivery of the alternative emissions certificate: certified mail, noncertified mail, or electronically;

~~(ii)~~ (b) A provision that allows the owner or lessee of a motor vehicle to specify the vehicle identification number, make, model, and year of the relevant motor vehicle and the date the attestation form is submitted to the director.

~~(c)~~ (3) Subject to division ~~(C)(2)(d)~~ (C)(4) of this section, the rules shall require the director to deliver an alternative emission certificate to the owner or lessee of a motor vehicle who complies with rules adopted under division ~~(C)(2)(a)~~ (C)(1) of this section. The director shall deliver the certificate within thirty business days after the director's receipt of the attestation form or, if the owner or lessee submits the form electronically, within five business days after

receipt of the form. The director shall confirm the receipt of the attestation form if the director receives it by electronic means.

~~(d)~~ (4) The rules shall require the director to reject an attestation form for any of the following reasons:

~~(i)~~ (a) The motor vehicle that is the subject of the attestation form was in an accident or collision within the two years prior to the date of submission of the form, and the accident or collision caused substantial damage to the internal structure of the motor vehicle.

~~(ii)~~ (b) The owner or lessee of the motor vehicle that is the subject of the attestation form has received a ticket, citation, or summons with regard to that motor vehicle within the two years prior to the date of submission of the form for a violation of section 4513.22 of the Revised Code or substantially equivalent municipal ordinance.

~~(iii)~~ (c) The information in the attestation form is determined by the director to be false.

If the director rejects an attestation form under division ~~(C)(2)(d)(iii)~~ (C)(4)(c) of this section, the director shall provide notice to the owner or lessee that the attestation form was determined to be false. The notice shall inform the owner or lessee that the owner or lessee may submit a corrected form to the director within thirty days of the receipt of the notice. If the owner or lessee submits a corrected attestation form that complies with rules adopted under division ~~(C)(2)~~ (C) of this section within that thirty-day period, the director shall issue an alternative emissions certificate to the owner or lessee. If the owner or lessee fails to correct the attestation form, the

director shall require the owner or lessee to complete an emissions inspection and obtain an inspection certificate in accordance with rules adopted under this section.

Your vehicle is registered in one of [insert the number of counties] counties in this state that has federal emission mandates imposed on it that the State of Ohio is required, under threat of penalty, to enforce. This letter serves as Ohio's only penalty for falsification of an attestation form. You have thirty days from the date of this notice to amend your attestation form and submit the amended form to the Environmental Protection Agency. However, if you choose not to submit an amended attestation form, you must have a motor vehicle emissions inspection conducted for your vehicle in accordance with section 3704.14 of the Revised Code and rules adopted under it."

~~(f)~~ (6) No penalties apply to a person who the director has determined to have falsified an attestation form, other than the issuance of the notice required under division ~~(C)(2)(e)~~ (C)(5) of this section.

(D) There is hereby created in the state treasury the auto emissions test fund, which shall consist of money received by the director from any cash transfers, state and local grants, and other contributions that are received for the purpose of funding the program established under this section. The director of environmental protection shall use money in the fund solely for the implementation, supervision, administration, operation, and enforcement of the motor vehicle inspection and maintenance program established under this section. Money in the fund shall not be used for either of the following:

(1) To pay for the inspection costs incurred by a motor vehicle dealer so that the dealer may provide inspection certificates to an individual purchasing a motor vehicle from the dealer when that individual resides in a county that is subject to the motor vehicle inspection and maintenance program;

(2) To provide payment for more than one free passing emissions inspection or a total of three emissions inspections for a motor vehicle in any three-hundred-sixty-five-day period. The owner or lessee of a motor vehicle is responsible for inspection fees that are related to emissions inspections beyond one free passing emissions inspection or three total emissions inspections in any three-hundred-sixty-five-day period. Inspection fees that are charged by a contractor conducting emissions inspections under a motor vehicle inspection and maintenance program shall be approved by the director of environmental protection.

(E) The motor vehicle inspection and maintenance program established under this section expires upon the termination of all contracts entered into under this section and shall not be implemented beyond the final date on which termination occurs.

(G) On June 30, 2025, the director shall immediately begin procedures to submit to the United States environmental protection agency the alternative emissions certification program for approval as part of the Ohio state implementation plan. If the United States environmental protection agency approves the modification of the decentralized motor vehicle inspection and maintenance program as providing sufficient air pollution reductions to meet the federal Clean Air Act requirements for a vehicle inspection and maintenance program and modifies the Ohio state implementation plan, the director shall immediately begin to modify the Ohio environmental protection agency rules to implement the alternative emissions certification program. Nothing in this division requires the Ohio environmental protection agency to take action to implement the alternative emissions certification program until the United States environmental protection agency approves the alternative program as part of the Ohio state implementation plan.

(H) If the United States environmental protection agency determines that the motor vehicle inspection and maintenance program implemented in accordance with this section is not necessary for the state or any area of the state to comply with the federal Clean Air Act, the director shall immediately discontinue the program and take any actions necessary to effectuate the termination of the program.

Sec. 3704.161. (A) The director of environmental protection shall enforce sections 3704.16 to 3704.162 of the Revised Code and the rules adopted under them. In doing so, the

The director may order the person to whom a variance is issued to take such action within such time as the director may determine to be appropriate and reasonable to prevent the creation of a nuisance or a hazard to the public health or safety or the environment. Applications for variances shall contain such detail plans, specifications, and information regarding objectives, procedures, controls, and other pertinent data as the director may require. The director shall grant a variance only if the applicant demonstrates to the director's satisfaction that construction and operation of the solid waste facility in the manner allowed by the variance and any terms or conditions imposed as part of the variance will not create a nuisance or a hazard to the public health or safety or the environment. In granting any variance, the director shall state the specific provision or provisions whose terms are to be varied and also shall state specific terms or conditions imposed upon the applicant in place of the provision or provisions.

The director may hold a public hearing on an application for a variance or renewal of a variance at a location in the county where the operations that are the subject of the application for the variance are conducted. The director shall give not less than twenty days' notice of the hearing to the

applicant by certified mail or by another type of mail accompanied by a receipt. The director shall publish at least one notice of the hearing in a newspaper with general circulation in the county where the hearing is to be held or may instead provide public notice by publication on the environmental protection agency's web site. The director shall make available for public inspection at the principal office of the environmental protection agency a current list of pending applications for variances and a current schedule of pending variance hearings. The director shall make a complete stenographic record or electronic record of testimony and other evidence submitted at the hearing.

Within ten days after the hearing, the director shall make a written determination to issue, renew, or deny the variance and shall enter the determination and the basis for it into the record of the hearing. The director shall issue, renew, or deny an application for a variance or renewal of a variance within six months of the date upon which the director receives a complete application with all pertinent information and data required. No variance shall be issued, revoked, modified, or denied until the director has considered the relative interests of the applicant, other persons and property affected by the variance, and the general public. Any variance granted under this division shall be for a period specified by the director and may be renewed from time to time on such terms and for such periods as the director determines to be appropriate. No application shall be denied and no variance shall be revoked or modified without a written order stating the findings upon which the denial, revocation, or modification is based. A copy of the order shall be sent to the applicant or variance holder by certified mail or by another type of mail accompanied by a

receipt.

(B) The director shall prescribe and furnish the forms necessary to administer and enforce this chapter. The director may cooperate with and enter into agreements with other state, local, or federal agencies to carry out the purposes of this chapter. The director may exercise all incidental powers necessary to carry out the purposes of this chapter.

(C) Except as provided in this division and divisions (N)(2) and (3) of this section, no person shall establish a new solid waste facility or infectious waste treatment facility, or modify an existing solid waste facility or infectious waste treatment facility, without submitting an application for a permit with accompanying detail plans, specifications, and information regarding the facility and method of operation and receiving a permit issued by the director, except that no permit shall be required under this division to install or operate a solid waste facility for sewage sludge treatment or disposal when the treatment or disposal is authorized by a current permit issued under Chapter 3704. or 6111. of the Revised Code.

No person shall continue to operate a solid waste facility for which the director has disapproved plans and specifications required to be filed by an order issued under division (A)(3) of section 3734.05 of the Revised Code, after the date prescribed for commencement of closure of the facility in the order issued under division (A)(4) of that section denying the permit application or approval.

On and after the effective date of the rules adopted under division (A) of this section and division (D) of section 3734.12 of the Revised Code governing solid waste transfer facilities, no person shall establish a new, or modify an existing, solid

waste transfer facility without first submitting an application for a permit with accompanying engineering detail plans, specifications, and information regarding the facility and its method of operation to the director and receiving a permit issued by the director.

No person shall establish a new compost facility or continue to operate an existing compost facility that accepts exclusively source separated yard wastes without submitting a completed registration for the facility to the director in accordance with rules adopted under divisions (A) and (N)(3) of this section.

This division does not apply to a generator of infectious wastes that does any of the following:

(1) Treats, by methods, techniques, and practices established by rules adopted under division (B)(2)(a) of section 3734.021 of the Revised Code, any of the following:

(a) Infectious wastes that are generated on any premises that are owned or operated by the generator;

(b) Infectious wastes that are generated by a generator who has staff privileges at a hospital as defined in section 3727.01 of the Revised Code;

(c) Infectious wastes that are generated in providing care to a patient by an emergency medical services organization as defined in section 4765.01 of the Revised Code.

(2) Holds a license or renewal of a license to operate a crematory facility issued under Chapter 4717. and a permit issued under Chapter 3704. of the Revised Code;

(3) Treats or disposes of dead animals or parts thereof,

or the blood of animals, and is subject to any of the following:

(a) Inspection under the "Federal Meat Inspection Act," 81 Stat. 584 (1967), 21 U.S.C.A. 603, as amended;

(b) Chapter 918. of the Revised Code;

(c) Chapter 953. of the Revised Code.

(D) Neither this chapter nor any rules adopted under it apply to single-family residential premises; to infectious wastes generated by individuals for purposes of their own care or treatment; to the temporary storage of solid wastes, other than scrap tires, prior to their collection for disposal; to the storage of one hundred or fewer scrap tires unless they are stored in such a manner that, in the judgment of the director or the board of health of the health district in which the scrap tires are stored, the storage causes a nuisance, a hazard to public health or safety, or a fire hazard; or to the collection of solid wastes, other than scrap tires, by a political subdivision or a person holding a franchise or license from a political subdivision of the state; to composting, as defined in section 1511.01 of the Revised Code, conducted in accordance with section 1511.022 of the Revised Code; or to any person who is licensed to transport raw rendering material to a compost facility pursuant to section 953.23 of the Revised Code.

(E)(1) As used in this division:

(a) "On-site facility" means a facility that stores, treats, or disposes of hazardous waste that is generated on the premises of the facility.

(b) "Off-site facility" means a facility that stores, treats, or disposes of hazardous waste that is generated off the premises of the facility and includes such a facility that is

also an on-site facility.

(c) "Satellite facility" means any of the following:

(i) An on-site facility that also receives hazardous waste from other premises owned by the same person who generates the waste on the facility premises;

(ii) An off-site facility operated so that all of the hazardous waste it receives is generated on one or more premises owned by the person who owns the facility;

(iii) An on-site facility that also receives hazardous waste that is transported uninterruptedly and directly to the facility through a pipeline from a generator who is not the owner of the facility.

(2) Except as provided in division (E)(3) of this section, no person shall establish or operate a hazardous waste facility, or use a solid waste facility for the storage, treatment, or disposal of any hazardous waste, without a hazardous waste facility installation and operation permit issued in accordance with section 3734.05 of the Revised Code and subject to the payment of an application fee not to exceed one thousand five hundred dollars, payable upon application for a hazardous waste facility installation and operation permit and upon application for a renewal permit issued under division (H) of section 3734.05 of the Revised Code, to be credited to the hazardous waste facility management fund created in section 3734.18 of the Revised Code. The term of a hazardous waste facility installation and operation permit shall not exceed ten years.

In addition to the application fee, there is hereby levied an annual permit fee to be paid by the permit holder upon the anniversaries of the date of issuance of the hazardous waste

facility installation and operation permit and of any subsequent renewal permits and to be credited to the hazardous waste facility management fund. Annual permit fees totaling forty thousand dollars or more for any one facility may be paid on a quarterly basis with the first quarterly payment each year being due on the anniversary of the date of issuance of the hazardous waste facility installation and operation permit and of any subsequent renewal permits. The annual permit fee shall be determined for each permit holder by the director in accordance with the following schedule:

A hazardous waste disposal facility that disposes of hazardous waste by deep well injection and that pays the annual permit fee established in section 6111.046 of the Revised Code is not subject to the permit fee established in this division

for disposal facilities using deep well injection unless the director determines that the facility is not in compliance with applicable requirements established under this chapter and rules adopted under it.

In determining the annual permit fee required by this section, the director shall not require additional payments for multiple units of the same method of storage, treatment, or disposal or for individual units that are used for both storage and treatment. A facility using more than one method of storage, treatment, or disposal shall pay the permit fee indicated by the schedule for each such method.

The director shall not require the payment of that portion of an annual permit fee of any permit holder that would apply to a hazardous waste management unit for which a permit has been issued, but for which construction has not yet commenced. Once construction has commenced, the director shall require the payment of a part of the appropriate fee indicated by the schedule that bears the same relationship to the total fee that the number of days remaining until the next anniversary date at which payment of the annual permit fee is due bears to three hundred sixty-five.

The director, by rules adopted in accordance with Chapters 119. and 3745. of the Revised Code, shall prescribe procedures for collecting the annual permit fee established by this division ~~and may prescribe other requirements necessary to carry out this division~~.

(3) The prohibition against establishing or operating a hazardous waste facility without a hazardous waste facility installation and operation permit does not apply to either of the following:

(a) A facility that is operating in accordance with a permit renewal issued under division (H) of section 3734.05 of the Revised Code, a revision issued under division (I) of that section as it existed prior to August 20, 1996, or a modification issued by the director under division (I) of that section on and after August 20, 1996;

(b) Except as provided in division (J) of section 3734.05 of the Revised Code, a facility that will operate or is operating in accordance with a permit by rule, or that is not subject to permit requirements, under rules adopted by the director. In accordance with Chapter 119. of the Revised Code, the director shall adopt, and subsequently may amend, suspend, or rescind, rules for the purposes of division (E)(3)(b) of this section. Any rules so adopted shall be consistent with and equivalent to regulations pertaining to interim status adopted under the "Resource Conservation and Recovery Act of 1976," 90 Stat. 2806, 42 U.S.C.A. 6921, as amended, except as otherwise provided in this chapter.

If a modification is requested or proposed for a facility described in division (E)(3)(a) or (b) of this section, division (I)(7) of section 3734.05 of the Revised Code applies.

(F) No person shall store, treat, or dispose of hazardous waste identified or listed under this chapter and rules adopted under it, regardless of whether generated on or off the premises where the waste is stored, treated, or disposed of, or transport or cause to be transported any hazardous waste identified or listed under this chapter and rules adopted under it to any other premises, except at or to any of the following:

(1) A hazardous waste facility operating under a permit issued in accordance with this chapter;

(2) A facility in another state operating under a license or permit issued in accordance with the "Resource Conservation and Recovery Act of 1976," 90 Stat. 2806, 42 U.S.C.A. 6921, as amended;

(3) A facility in another nation operating in accordance with the laws of that nation;

(4) A facility holding a permit issued pursuant to Title I of the "Marine Protection, Research, and Sanctuaries Act of 1972," 86 Stat. 1052, 33 U.S.C.A. 1401, as amended;

(5) A hazardous waste facility as described in division (E)(3)(a) or (b) of this section.

(G) The director, by order, may exempt any person generating, collecting, storing, treating, disposing of, or transporting solid wastes, infectious wastes, or hazardous waste, or processing solid wastes that consist of scrap tires, in such quantities or under such circumstances that, in the determination of the director, are unlikely to adversely affect the public health or safety or the environment from any requirement to obtain a registration certificate, permit, or license or comply with the manifest system or other requirements of this chapter. Such an exemption shall be consistent with and equivalent to any regulations adopted by the administrator of the United States environmental protection agency under the "Resource Conservation and Recovery Act of 1976," 90 Stat. 2806, 42 U.S.C.A. 6921, as amended, except as otherwise provided in this chapter.

(H) No person shall engage in filling, grading, excavating, building, drilling, or mining on land where a hazardous waste facility, or a solid waste facility, was

operated without prior authorization from the director, who shall establish the procedure for granting such authorization by rules adopted in accordance with Chapter 119. of the Revised Code.

A public utility that has main or distribution lines above or below the land surface located on an easement or right-of-way across land where a solid waste facility was operated may engage in any such activity within the easement or right-of-way without prior authorization from the director for purposes of performing emergency repair or emergency replacement of its lines; of the poles, towers, foundations, or other structures supporting or sustaining any such lines; or of the appurtenances to those structures, necessary to restore or maintain existing public utility service. A public utility may enter upon any such easement or right-of-way without prior authorization from the director for purposes of performing necessary or routine maintenance of those portions of its existing lines; of the existing poles, towers, foundations, or other structures sustaining or supporting its lines; or of the appurtenances to any such supporting or sustaining structure, located on or above the land surface on any such easement or right-of-way. Within twenty-four hours after commencing any such emergency repair, replacement, or maintenance work, the public utility shall notify the director or the director's authorized representative of those activities and shall provide such information regarding those activities as the director or the director's representative may request. Upon completion of the emergency repair, replacement, or maintenance activities, the public utility shall restore any land of the solid waste facility disturbed by those activities to the condition existing prior to the commencement of those activities.

(I) No owner or operator of a hazardous waste facility, in the operation of the facility, shall cause, permit, or allow the emission therefrom of any particulate matter, dust, fumes, gas, mist, smoke, vapor, or odorous substance that, in the opinion of the director, unreasonably interferes with the comfortable enjoyment of life or property by persons living or working in the vicinity of the facility, or that is injurious to public health. Any such action is hereby declared to be a public nuisance.

(J) Notwithstanding any other provision of this chapter, in the event the director finds an imminent and substantial danger to public health or safety or the environment that creates an emergency situation requiring the immediate treatment, storage, or disposal of hazardous waste, the director may issue a temporary emergency permit to allow the treatment, storage, or disposal of the hazardous waste at a facility that is not otherwise authorized by a hazardous waste facility installation and operation permit to treat, store, or dispose of the waste. The emergency permit shall not exceed ninety days in duration and shall not be renewed. The director shall adopt, and may amend, suspend, or rescind, rules in accordance with Chapter 119. of the Revised Code governing the issuance, modification, revocation, and denial of emergency permits.

(K) Except for infectious wastes generated by a person who produces fewer than fifty pounds of infectious wastes at a premises during any one month, no owner or operator of a sanitary landfill shall knowingly accept for disposal, or dispose of, any infectious wastes that have not been treated to render them noninfectious.

(L) The director, in accordance with Chapter 119. of the

Revised Code, shall adopt, and may amend, suspend, or rescind, rules having uniform application throughout the state establishing a training and certification program that shall be required for employees of boards of health who are responsible for enforcing the solid waste and infectious waste provisions of this chapter and rules adopted under them and for persons who are responsible for the operation of solid waste facilities or infectious waste treatment facilities. The rules shall provide all of the following, without limitation:

(1) The program shall be administered by the director and shall consist of a course on new solid waste and infectious waste technologies, enforcement procedures, and rules;

(2) The course shall be offered on an annual basis;

(3) Those persons who are required to take the course under division (L) of this section shall do so triennially;

(4) Persons who successfully complete the course shall be certified by the director;

(5) Certification shall be required for all employees of boards of health who are responsible for enforcing the solid waste or infectious waste provisions of this chapter and rules adopted under them and for all persons who are responsible for the operation of solid waste facilities or infectious waste treatment facilities;

(6)(a) All employees of a board of health who, on the effective date of the rules adopted under this division, are responsible for enforcing the solid waste or infectious waste provisions of this chapter and the rules adopted under them shall complete the course and be certified by the director not later than January 1, 1995;

(b) All employees of a board of health who, after the effective date of the rules adopted under division (L) of this section, become responsible for enforcing the solid waste or infectious waste provisions of this chapter and rules adopted under them and who do not hold a current and valid certification from the director at that time shall complete the course and be certified by the director within two years after becoming responsible for performing those activities.

No person shall fail to obtain the certification required under this division.

(M) The director shall not issue a permit under section 3734.05 of the Revised Code to establish a solid waste facility, or to modify a solid waste facility operating on December 21, 1988, in a manner that expands the disposal capacity or geographic area covered by the facility, that is or is to be located within the boundaries of a state park established or dedicated under Chapter 1546. of the Revised Code, a state park purchase area established under section 1546.06 of the Revised Code, any unit of the national park system, or any property that lies within the boundaries of a national park or recreation area, but that has not been acquired or is not administered by the secretary of the United States department of the interior, located in this state, or any candidate area located in this state and identified for potential inclusion in the national park system in the edition of the "national park system plan" submitted under paragraph (b) of section 8 of "The Act of August 18, 1970," 84 Stat. 825, 16 U.S.C.A. 1a-5, as amended, current at the time of filing of the application for the permit, unless the facility or proposed facility is or is to be used exclusively for the disposal of solid wastes generated within the park or recreation area and the director determines that the

facility or proposed facility will not degrade any of the natural or cultural resources of the park or recreation area. The director shall not issue a variance under division (A) of this section and rules adopted under it, or issue an exemption order under division (G) of this section, that would authorize any such establishment or expansion of a solid waste facility within the boundaries of any such park or recreation area, state park purchase area, or candidate area, other than a solid waste facility exclusively for the disposal of solid wastes generated within the park or recreation area when the director determines that the facility will not degrade any of the natural or cultural resources of the park or recreation area.

(N)(1) The rules adopted under division (A) of this section, other than those governing variances, do not apply to scrap tire collection, storage, monocell, monofill, and recovery facilities. Those facilities are subject to and governed by rules adopted under sections 3734.70 to 3734.73 of the Revised Code, as applicable.

(2) Division (C) of this section does not apply to scrap tire collection, storage, monocell, monofill, and recovery facilities. The establishment and modification of those facilities are subject to sections 3734.75 to 3734.78 and section 3734.81 of the Revised Code, as applicable.

(3) The director may adopt, amend, suspend, or rescind rules under division (A) of this section creating an alternative system for authorizing the establishment, operation, or modification of a solid waste compost facility in lieu of the requirement that a person seeking to establish, operate, or modify a solid waste compost facility apply for and receive a permit under division (C) of this section and section 3734.05 of

the Revised Code and a license under division (A)(1) of that section. The rules may include requirements governing, without limitation, the classification of solid waste compost facilities, the submittal of operating records for solid waste compost facilities, and the creation of a registration or notification system in lieu of the issuance of permits and licenses for solid waste compost facilities. The rules shall specify the applicability of divisions (A)(1) and (2)(a) of section 3734.05 of the Revised Code to a solid waste compost facility.

(O)(1) As used in this division, "secondary aluminum waste" means waste material or byproducts, when disposed of, containing aluminum generated from secondary aluminum smelting operations and consisting of dross, salt cake, baghouse dust associated with aluminum recycling furnace operations, or dry-milled wastes.

(2) The owner or operator of a sanitary landfill shall not dispose of municipal solid waste that has been commingled with secondary aluminum waste.

(3) The owner or operator of a sanitary landfill may dispose of secondary aluminum waste, but only in a monocell or monofill that has been permitted for that purpose in accordance with this chapter and rules adopted under it.

(P)(1) As used in divisions (P) and (Q) of this section:

(a) "Natural background" means two picocuries per gram or the actual number of picocuries per gram as measured at an individual solid waste facility, subject to verification by the director of health.

(b) "Drilling operation" includes a production operation

as defined in section 1509.01 of the Revised Code.

(2) The owner or operator of a solid waste facility shall not accept for transfer or disposal technologically enhanced naturally occurring radioactive material if that material contains or is contaminated with radium-226, radium-228, or any combination of radium-226 and radium-228 at concentrations equal to or greater than five picocuries per gram above natural background.

(3) The owner or operator of a solid waste facility may receive and process for purposes other than transfer or disposal technologically enhanced naturally occurring radioactive material that contains or is contaminated with radium-226, radium-228, or any combination of radium-226 and radium-228 at concentrations equal to or greater than five picocuries per gram above natural background, provided that the owner or operator has obtained and maintains all other necessary authorizations, including any authorization required by rules adopted by the director of health under section 3748.04 of the Revised Code.

(4) The director of environmental protection may adopt rules in accordance with Chapter 119. of the Revised Code governing the receipt, acceptance, processing, handling, management, and disposal by solid waste facilities of material that contains or is contaminated with radioactive material, including, without limitation, technologically enhanced naturally occurring radioactive material that contains or is contaminated with radium-226, radium-228, or any combination of radium-226 and radium-228 at concentrations less than five picocuries per gram above natural background. Rules adopted by the director may include at a minimum both of the following:

(a) Requirements in accordance with which the owner or

operator of a solid waste facility must monitor leachate and ground water for radium-226, radium-228, and other radionuclides;

(b) Requirements in accordance with which the owner or operator of a solid waste facility must develop procedures to ensure that technologically enhanced naturally occurring radioactive material accepted at the facility neither contains nor is contaminated with radium-226, radium-228, or any combination of radium-226 and radium-228 at concentrations equal to or greater than five picocuries per gram above natural background.

(Q) Notwithstanding any other provision of this section, the owner or operator of a solid waste facility shall not receive, accept, process, handle, manage, or dispose of technologically enhanced naturally occurring radioactive material associated with drilling operations without first obtaining representative analytical results to determine compliance with divisions (P)(2) and (3) of this section and rules adopted under it.

Sec. 3734.021. (A) Infectious wastes shall be segregated, managed, treated, and disposed of in accordance with rules adopted under this section.

(B) The director of environmental protection, in accordance with Chapter 119. of the Revised Code, shall adopt rules ~~necessary or appropriate to protect human health or safety or the environment~~ that do both of the following:

(1) Establish standards for generators of infectious wastes that include, without limitation, the following requirements and authorizations that:

(a) All generators of infectious wastes:

(i) Either treat all specimen cultures and cultures of viable infectious agents on the premises where they are generated to render them noninfectious by methods, techniques, or practices prescribed by rules adopted under division (B)(2)(a) of this section before they are transported off that premises for disposal or ensure that such wastes are treated to render them noninfectious at an infectious waste treatment facility off that premises prior to disposal of the wastes;

(ii) Transport and dispose of infectious wastes, if a generator produces fewer than fifty pounds of infectious wastes during any one month that are subject to and packaged and labeled in accordance with federal requirements, in the same manner as solid wastes. Such generators who treat specimen cultures and cultures of viable infectious agents on the premises where they are generated shall not be considered treatment facilities as "treatment" and "facility" are defined in section 3734.01 of the Revised Code.

(iii) Dispose of infectious wastes subject to and treated in accordance with rules adopted under division (B)(1)(a)(i) of this section in the same manner as solid wastes;

(iv) May take wastes generated in providing care to a patient by an emergency medical services organization, as defined in section 4765.01 of the Revised Code, to and leave them at a hospital, as defined in section 3727.01 of the Revised Code, for treatment at a treatment facility owned or operated by the hospital or, in conjunction with infectious wastes generated by the hospital, at another treatment facility regardless of whether the wastes were generated in providing care to the patient at the scene of an emergency or during the

transportation of the patient to a hospital;

(v) May take wastes generated by an individual for purposes of the individual's own care or treatment to and leave them at a hospital, as defined in section 3727.01 of the Revised Code, for treatment at a treatment facility owned or operated by the hospital or, in conjunction with infectious wastes generated by the hospital, at another treatment facility.

(b) Each generator of fifty pounds or more of infectious wastes during any one month:

(i) Register with the environmental protection agency as a generator of infectious wastes and obtain a registration certificate. The registration certificate applies to all the premises owned or operated by the generator in this state where infectious wastes are generated and shall list the address of each such premises. If a generator owns or operates facilities for the treatment of infectious wastes it generates, the certificate shall list the address and method of treatment used at each such facility.

A generator registration certificate is valid for three years from the date of issuance and shall be renewed for a term of three years upon the generator's submission of an application for renewal.

The rules may establish a system of staggered renewal dates with approximately one-third of such certificates subject to renewal each year. The applicable renewal date shall be prescribed on each registration certificate.

(ii) Segregate infectious wastes from other wastes at the point of generation. Nothing in this section and rules adopted under it prohibits a generator of infectious wastes from

designating and managing any wastes, in addition to those defined as infectious wastes under section 3734.01 of the Revised Code, as infectious wastes. After designating any such other wastes as infectious, the generator shall manage those wastes in compliance with the requirements of this chapter and rules adopted under it applicable to the management of infectious wastes.

(iii) Either treat the infectious wastes that it generates at a facility owned or operated by the generator by methods, techniques, or practices prescribed by rules adopted under division (B)(2)(a) of this section to render them noninfectious, or designate the wastes for treatment off that premises at an infectious waste treatment facility holding a license issued under division (B) of section 3734.05 of the Revised Code, at an infectious waste treatment facility that is located in another state that is in compliance with applicable state and federal laws, or at a treatment facility authorized by rules adopted under division (B)(2)(d) of this section, prior to disposal of the wastes. After being treated to render them noninfectious, the wastes shall be disposed of at a solid waste disposal facility holding a license issued under division (A) of section 3734.05 of the Revised Code or at a disposal facility in another state that is in compliance with applicable state and federal laws.

(iv) Not compact or grind any type of infectious wastes prior to treatment in accordance with rules adopted under division (B)(2)(a) of this section;

(v) May discharge untreated liquid or semiliquid infectious wastes consisting of blood, blood products, body fluids, and excreta into a disposal system, as defined in

section 6111.01 of the Revised Code, unless the discharge of those wastes into a disposal system is inconsistent with the terms and conditions of the permit for the system issued under Chapter 6111. of the Revised Code;

(vi) May transport or cause to be transported infectious wastes that have been treated to render them noninfectious in the same manner as solid wastes are transported.

(2) Establish standards for owners and operators of infectious waste treatment facilities that include, without limitation, the following requirements and authorizations that:

(a) Require treatment of all wastes received to be performed in accordance with methods, techniques, and practices approved by the director;

(b) Govern the location, design, construction, and operation of infectious waste treatment facilities. The rules adopted under division (B)(2)(b) of this section shall require that a new infectious waste incineration facility be located so that the incinerator unit and all areas where infectious wastes are handled on the premises where the facility is proposed to be located are at least three hundred feet inside the property line of the tract of land on which the facility is proposed to be located and are at least one thousand feet from any domicile, school, prison, or jail that is in existence on the date on which the application for the permit to establish the incinerator is submitted under division (B)(2)(b) of section 3734.05 of the Revised Code.

(c) Establish quality control and testing procedures to ensure compliance with the rules adopted under division (B)(2)(b) of this section;

(d) Authorize infectious wastes to be treated at a facility that holds a license or renewal of a license to operate a crematory facility issued under Chapter 4717., and a permit issued under Chapter 3704., of the Revised Code to the extent that the treatment of those wastes is consistent with that permit and its terms and conditions. The rules adopted under divisions (B)(2)(b) and (c) of this section do not apply to a facility holding such a license and permit.

In adopting the rules required by divisions (B)(2)(a) to (d) of this section, the director shall consider and, to the maximum feasible extent, utilize existing standards and guidelines established by professional and governmental organizations having expertise in the fields of infection control and infectious wastes management.

(e) Require shipping papers to accompany shipments of wastes that have been treated to render them noninfectious. The shipping papers shall include only the following elements:

(i) The name of the owner or operator of the facility where the wastes were treated and the address of the treatment facility;

(ii) A certification by the owner or operator of the treatment facility where the wastes were treated indicating that the wastes have been treated by the methods, techniques, and practices prescribed in rules adopted under division (B)(2)(a) of this section.

(C) This section and rules adopted under it do not apply to the treatment or disposal of wastes consisting of dead animals or parts thereof, or the blood of animals:

(1) By the owner of the animal after slaughter by the

owner on the owner's premises to obtain meat for consumption by the owner and the members of the owner's household;

(2) In accordance with Chapter 941. of the Revised Code; or

(3) By persons who are subject to any of the following:

(a) Inspection under the "Federal Meat Inspection Act," 81 Stat. 584 (1967), 21 U.S.C.A. 603, as amended;

(b) Chapter 918. of the Revised Code;

(c) Chapter 953. of the Revised Code.

(D) As used in this section, "generator" means a person who produces infectious wastes at a specific premises.

(E) Rules adopted under this section shall not concern or relate to personnel policies, salaries, wages, fringe benefits, or other conditions of employment of employees of persons owning or operating infectious waste treatment facilities.

(F)(1) The director, in accordance with Chapter 119. of the Revised Code, shall adopt rules governing the issuance, modification, revocation, suspension, and denial of variances from the rules adopted under division (B) of this section. Variances shall be issued, modified, revoked, suspended, or denied in accordance with division (F) of this section, rules adopted under it, and Chapter 3745. of the Revised Code.

(2) A person who desires to obtain a variance or renew a variance from the rules adopted under division (B) of this section shall submit to the director an application as prescribed by the director. The application shall contain detail plans, specifications, and information regarding objectives, procedures, controls, and any other information that the

director may require. The director shall issue, renew, or deny a variance or renewal of a variance within six months of the date on which the director receives a complete application with all required information and data.

(3) The director may hold a public hearing on an application submitted under division (F) of this section for a variance at a location in the county in which the operations that are the subject of the application for a variance or renewal of variance are conducted. Not less than twenty days before the hearing, the director shall provide to the applicant notice of the hearing by certified mail or by another type of mail that is accompanied by a receipt and shall publish notice of the hearing at least one time in a newspaper of general circulation in the county in which the hearing is to be held or may instead provide public notice by publication on the environmental protection agency's web site. The director shall make a complete stenographic record or electronic record of testimony and other evidence submitted at the hearing. Not later than ten days after the hearing, the director shall make a written determination to issue, renew, or deny the variance and shall enter the determination and the basis for it into the record of the hearing.

(4) A variance shall not be issued, modified, revoked, or denied under division (F) of this section until the director has considered the relative interests of the applicant, other persons and property that will be affected by the variance, and the general public. The director shall grant a variance only if the applicant demonstrates to the director's satisfaction that the requested action will not create a nuisance or a hazard to the health or safety of the public or to the environment. In granting a variance, the director shall state the specific

provision or provisions whose terms are to be varied and also shall state specific terms or conditions imposed on the applicant in place of the provision or provisions.

(5) A variance granted under division (F) of this section shall be for a period specified by the director and may be renewed from time to time on terms and for periods that the director determines to be appropriate. The director may order the person to whom a variance has been issued to take action within the time that the director determines to be appropriate and reasonable to prevent the creation of a nuisance or a hazard to the health or safety of the public or to the environment.

(6) An application submitted under division (F) of this section shall not be denied and a variance shall not be revoked or modified under that division without a written order of the director stating the findings on which the denial, revocation, or modification is based. A copy of the order shall be sent to the applicant or holder of a variance by certified mail or by another type of mail that is accompanied by a receipt.

(7) The director shall make available for public inspection at the principal office of the environmental protection agency a current list of pending applications for variances submitted under division (F) of this section and a current schedule of pending variance hearings under it.

Sec. 3734.026. The director of environmental protection shall adopt rules in accordance with Chapter 119. of the Revised Code establishing procedures for remitting fees levied under section 3734.024 of the Revised Code to the treasurers or other appropriate fiscal officers of municipal corporations and to the fiscal officers of townships. The rules also shall establish the dates for remitting the fees to those officers~~ and may establish~~

~~any other requirements that the director considers necessary or appropriate to implement or administer sections 3734.024 and 3734.025 of the Revised Code~~.

Sec. 3734.05. (A)(1) Except as provided in divisions (A)(6) and (7) of this section, no person shall operate or maintain a solid waste facility without a license issued under this division by the board of health of the health district in which the facility is located or by the director of environmental protection when the health district in which the facility is located is not on the approved list under section 3734.08 of the Revised Code.

During the month of December, but before the first day of January of the next year, every person proposing to continue to operate an existing solid waste facility shall procure a license under this division to operate the facility for that year from the board of health of the health district in which the facility is located or, if the health district is not on the approved list under section 3734.08 of the Revised Code, from the director. The application for such a license shall be submitted to the board of health or to the director, as appropriate, on or before the last day of September of the year preceding that for which the license is sought. In addition to the application fee prescribed in division (A)(2) of this section, a person who submits an application after that date shall pay an additional ten per cent of the amount of the application fee for each week that the application is late. Late payment fees accompanying an application submitted to the board of health shall be credited to the special fund of the health district created in division (B) of section 3734.06 of the Revised Code, and late payment fees accompanying an application submitted to the director shall be credited to the general revenue fund. A person who has

received a license, upon sale or disposition of a solid waste facility, and upon consent of the board of health and the director, may have the license transferred to another person. The board of health or the director may include such terms and conditions in a license or revision to a license as are appropriate to ensure compliance with this chapter and rules adopted under it. The terms and conditions may establish the authorized maximum daily waste receipts for the facility. Limitations on maximum daily waste receipts shall be specified in cubic yards of volume for the purpose of regulating the design, construction, and operation of solid waste facilities. Terms and conditions included in a license or revision to a license by a board of health shall be consistent with, and pertain only to the subjects addressed in, the rules adopted under division (A) of section 3734.02 and division (D) of section 3734.12 of the Revised Code.

(2)(a) Except as provided in divisions (A)(2)(b), (6), and (7) of this section, each person proposing to open a new solid waste facility or to modify an existing solid waste facility shall submit an application for a permit with accompanying detail plans and specifications to the environmental protection agency for required approval under the rules adopted by the director pursuant to division (A) of section 3734.02 of the Revised Code and applicable rules adopted under division (D) of section 3734.12 of the Revised Code at least two hundred seventy days before proposed operation of the facility and shall concurrently make application for the issuance of a license under division (A)(1) of this section with the board of health of the health district in which the proposed facility is to be located.

(b) On and after the effective date of the rules adopted

under division (A) of section 3734.02 of the Revised Code and division (D) of section 3734.12 of the Revised Code governing solid waste transfer facilities, each person proposing to open a new solid waste transfer facility or to modify an existing solid waste transfer facility shall submit an application for a permit with accompanying engineering detail plans, specifications, and information regarding the facility and its method of operation to the environmental protection agency for required approval under those rules at least two hundred seventy days before commencing proposed operation of the facility and concurrently shall make application for the issuance of a license under division (A)(1) of this section with the board of health of the health district in which the facility is located or proposed.

(c) Each application for a permit under division (A)(2)(a) or (b) of this section shall be accompanied by a nonrefundable application fee of four hundred dollars that shall be credited to the general revenue fund. Each application for an annual license under division (A)(1) or (2) of this section shall be accompanied by a nonrefundable application fee of one hundred dollars. If the application for an annual license is submitted to a board of health on the approved list under section 3734.08 of the Revised Code, the application fee shall be credited to the special fund of the health district created in division (B) of section 3734.06 of the Revised Code. If the application for an annual license is submitted to the director, the application fee shall be credited to the general revenue fund. If a permit or license is issued, the amount of the application fee paid shall be deducted from the amount of the permit fee due under division (P) of section 3745.11 of the Revised Code or the amount of the license fee due under division (A)(1), (2), (3), (4), or (5) of section 3734.06 of the Revised Code.

(d) As used in divisions (A)(2)(d), (e), and (f) of this section, "modify" means any of the following:

(i) Any increase of more than ten per cent in the total capacity of a solid waste facility;

(ii) Any expansion of the limits of solid waste placement at a solid waste facility;

(iii) Any increase in the depth of excavation at a solid waste facility;

(iv) Any change in the technique of waste receipt or type of waste received at a solid waste facility that may endanger human health, as determined by the director by rules adopted in accordance with Chapter 119. of the Revised Code.

Not later than forty-five days after submitting an application under division (A)(2)(a) or (b) of this section for a permit to open a new or modify an existing solid waste facility, the applicant, in conjunction with an officer or employee of the environmental protection agency, shall hold a public meeting on the application within the county in which the new or modified solid waste facility is or is proposed to be located or within a contiguous county.

Not less than thirty days before holding the public meeting on the application, the applicant shall publish notice of the meeting in each newspaper of general circulation that is published in the county in which the facility is or is proposed to be located. If no newspaper of general circulation is published in the county, the applicant shall publish the notice in a newspaper of general circulation in the county. The notice shall contain the date, time, and location of the public meeting and a general description of the proposed new or modified

facility.

Not later than five days after publishing the notice, the applicant shall send by certified mail a copy of the notice and the date the notice was published to the director and the legislative authority of each municipal corporation, township, and county, and to the chief executive officer of each municipal corporation, in which the facility is or is proposed to be located.

At the public meeting, the applicant shall provide information and describe the application and respond to comments or questions concerning the application, and the officer or employee of the agency shall describe the permit application process. At the public meeting, any person may submit written or oral comments on or objections to the application.

Not more than thirty days after the public meeting, the applicant shall provide the director with a copy of a transcript of the full meeting, copies of any exhibits, displays, or other materials presented by the applicant at the meeting, and the original copy of any written comments submitted at the meeting.

(e) Except as provided in division (A)(2)(f) of this section, prior to taking an action, other than a proposed or final denial, upon an application submitted under division (A)(2)(a) of this section for a permit to open a new or modify an existing solid waste facility, the director shall hold a public information session and a public hearing on the application within the county in which the new or modified solid waste facility is or is proposed to be located or within a contiguous county. If the application is for a permit to open a new solid waste facility, the director shall hold the hearing not less than fourteen days after the information session. If the

application is for a permit to modify an existing solid waste facility, the director may hold both the information session and the hearing on the same day unless any individual affected by the application requests in writing that the information session and the hearing not be held on the same day, in which case the director shall hold the hearing not less than fourteen days after the information session. The director shall publish notice of the public information session or public hearing not less than thirty days before holding the information session or hearing, as applicable. The notice shall be published in each newspaper of general circulation that is published in the county in which the facility is or is proposed to be located or by publication on the environmental protection agency's official web site. The notice shall contain the date, time, and location of the information session or hearing, as applicable, and a general description of the proposed new or modified facility. At the public information session, an officer or employee of the environmental protection agency shall describe the status of the permit application and be available to respond to comments or questions concerning the application. At the public hearing, any person may submit written or oral comments on or objections to the approval of the application. The applicant, or a representative of the applicant who has knowledge of the location, construction, and operation of the facility, shall attend the information session and public hearing to respond to comments or questions concerning the facility directed to the applicant or representative by the officer or employee of the environmental protection agency presiding at the information session and hearing.

(f) The solid waste management policy committee of a county or joint solid waste management district may adopt a

resolution requesting expeditious consideration of a specific application submitted under division (A)(2)(a) of this section for a permit to modify an existing solid waste facility within the district. The resolution shall make the finding that expedited consideration of the application without the public information session and public hearing under division (A)(2)(e) of this section is in the public interest and will not endanger human health, as determined by the director by rules adopted in accordance with Chapter 119. of the Revised Code. Upon receiving such a resolution, the director, at the director's discretion, may issue a final action upon the application without holding a public information session or public hearing pursuant to division (A)(2)(e) of this section.

(3) The director may issue an order in accordance with Chapter 3745. of the Revised Code to the owner or operator of a solid waste facility requiring the person to submit to the director updated engineering detail plans, specifications, and information regarding the facility and its method of operation for approval under rules adopted under division (A) of section 3734.02 of the Revised Code and applicable rules adopted under division (D) of section 3734.12 of the Revised Code if, in the director's judgment, conditions at the facility constitute a substantial threat to public health or safety or are causing or contributing to or threatening to cause or contribute to air or water pollution or soil contamination. Any person who receives such an order shall submit the updated engineering detail plans, specifications, and information to the director within one hundred eighty days after the effective date of the order.

(4) The director shall act upon any updated engineering plans, specifications, and information submitted under division (A)(3) of this section within one hundred eighty days after

receiving them. If the director issues an order disapproving the plans, specifications, and information submitted under division (A)(3) of this section, the order shall include all of the following requirements:

(a) That the owner or operator submit a plan for closure and post-closure care of the facility to the director for approval within six months after issuance of the order;

(b) That the owner or operator cease accepting solid wastes for disposal or transfer at the facility; and

(c) The owner or operator commence closure of the facility not later than one year after issuance of the order.

If the director determines that closure of the facility within that one-year period would result in the unavailability of sufficient solid waste management facility capacity within the county or joint solid waste management district in which the facility is located to dispose of or transfer the solid waste generated within the district, the director in the order of disapproval may postpone commencement of closure of the facility for such period of time as the director finds necessary for the board of county commissioners or directors of the district to secure access to or for there to be constructed within the district sufficient solid waste management facility capacity to meet the needs of the district, provided that the director shall certify in the director's order that postponing the date for commencement of closure will not endanger ground water or any property surrounding the facility, allow methane gas migration to occur, or cause or contribute to any other type of environmental damage.

If an emergency need for disposal capacity that may affect

public health and safety exists as a result of closure of a facility under division (A)(4) of this section, the director may issue an order designating another solid waste facility to accept the wastes that would have been disposed of at the facility to be closed.

(5) If the director determines that standards more stringent than those applicable in rules adopted under division (A) of section 3734.02 of the Revised Code and division (D) of section 3734.12 of the Revised Code, or standards pertaining to subjects not specifically addressed by those rules, are necessary to ensure that a solid waste facility constructed at the proposed location will not cause a nuisance, cause or contribute to water pollution, or endanger public health or safety, the director may issue a permit for the facility with such terms and conditions as the director finds necessary to protect public health and safety and the environment. If a permit is issued, the director shall state in the order issuing it the specific findings supporting each such term or condition.

(6) Divisions (A)(1) and (2)(a) of this section do not apply to a solid waste compost facility that accepts exclusively source separated yard wastes and that is registered under division (C) of section 3734.02 of the Revised Code or, unless otherwise provided in rules adopted under division (N)(3) of section 3734.02 of the Revised Code, to a solid waste compost facility if the director has adopted rules establishing an alternative system for authorizing the establishment, operation, or modification of a solid waste compost facility under that division.

(7) Divisions (A)(1) to (5) of this section do not apply to scrap tire collection, storage, monocell, monofill, and

recovery facilities. The approval of plans and specifications, as applicable, and the issuance of registration certificates, permits, and licenses for those facilities are subject to sections 3734.75 to 3734.78 of the Revised Code, as applicable, and section 3734.81 of the Revised Code.

(B)(1) No person shall operate or maintain an infectious waste treatment facility without a license issued by the board of health of the health district in which the facility is located or by the director when the health district in which the facility is located is not on the approved list under section 3734.08 of the Revised Code.

(2)(a) During the month of December, but before the first day of January of the next year, every person proposing to continue to operate an existing infectious waste treatment facility shall procure a license to operate the facility for that year from the board of health of the health district in which the facility is located or, if the health district is not on the approved list under section 3734.08 of the Revised Code, from the director. The application for such a license shall be submitted to the board of health or to the director, as appropriate, on or before the last day of September of the year preceding that for which the license is sought. In addition to the application fee prescribed in division (B)(2)(c) of this section, a person who submits an application after that date shall pay an additional ten per cent of the amount of the application fee for each week that the application is late. Late payment fees accompanying an application submitted to the board of health shall be credited to the special infectious waste fund of the health district created in division (C) of section 3734.06 of the Revised Code, and late payment fees accompanying an application submitted to the director shall be credited to

the general revenue fund. A person who has received a license, upon sale or disposition of an infectious waste treatment facility and upon consent of the board of health and the director, may have the license transferred to another person. The board of health or the director may include such terms and conditions in a license or revision to a license as are appropriate to ensure compliance with the infectious waste provisions of this chapter and rules adopted under them.

(b) Each person proposing to open a new infectious waste treatment facility or to modify an existing infectious waste treatment facility shall submit an application for a permit with accompanying detail plans and specifications to the environmental protection agency for required approval under the rules adopted by the director pursuant to section 3734.021 of the Revised Code two hundred seventy days before proposed operation of the facility and concurrently shall make application for a license with the board of health of the health district in which the facility is or is proposed to be located. Not later than ninety days after receiving a complete application under division (B)(2)(b) of this section for a permit to open a new infectious waste treatment facility or modify an existing infectious waste treatment facility to expand its treatment capacity, or receiving a complete application under division (A)(2)(a) of this section for a permit to open a new solid waste incineration facility, or modify an existing solid waste incineration facility to also treat infectious wastes or to increase its infectious waste treatment capacity, that pertains to a facility for which a notation authorizing infectious waste treatment is included or proposed to be included in the solid waste incineration facility's license pursuant to division (B)(3) of this section, the director shall

hold a public hearing on the application within the county in which the new or modified infectious waste or solid waste facility is or is proposed to be located or within a contiguous county. Not less than thirty days before holding the public hearing on the application, the director shall publish notice of the hearing in each newspaper that has general circulation and that is published in the county in which the facility is or is proposed to be located or by publication on the environmental protection agency's official web site. The notice shall contain the date, time, and location of the public hearing and a general description of the proposed new or modified facility. At the public hearing, any person may submit written or oral comments on or objections to the approval or disapproval of the application. The applicant, or a representative of the applicant who has knowledge of the location, construction, and operation of the facility, shall attend the public hearing to respond to comments or questions concerning the facility directed to the applicant or representative by the officer or employee of the environmental protection agency presiding at the hearing.

(c) Each application for a permit under division (B)(2)(b) of this section shall be accompanied by a nonrefundable application fee of four hundred dollars that shall be credited to the general revenue fund. Each application for an annual license under division (B)(2)(a) of this section shall be accompanied by a nonrefundable application fee of one hundred dollars. If the application for an annual license is submitted to a board of health on the approved list under section 3734.08 of the Revised Code, the application fee shall be credited to the special infectious waste fund of the health district created in division (C) of section 3734.06 of the Revised Code. If the application for an annual license is submitted to the director,

the application fee shall be credited to the general revenue fund. If a permit or license is issued, the amount of the application fee paid shall be deducted from the amount of the permit fee due under division (P) of section 3745.11 of the Revised Code or the amount of the license fee due under division (C) of section 3734.06 of the Revised Code.

(d) The director may issue an order in accordance with Chapter 3745. of the Revised Code to the owner or operator of an infectious waste treatment facility requiring the person to submit to the director updated engineering detail plans, specifications, and information regarding the facility and its method of operation for approval under rules adopted under section 3734.021 of the Revised Code if, in the director's judgment, conditions at the facility constitute a substantial threat to public health or safety or are causing or contributing to or threatening to cause or contribute to air or water pollution or soil contamination. Any person who receives such an order shall submit the updated engineering detail plans, specifications, and information to the director within one hundred eighty days after the effective date of the order.

(e) The director shall act on any updated engineering plans, specifications, and information submitted under division (B)(2)(d) of this section within one hundred eighty days after receiving them. If the director disapproves any such updated engineering plans, specifications, and information, the director shall include in the order disapproving the plans the requirement that the owner or operator cease accepting infectious wastes for treatment at the facility.

(3) Division (B) of this section does not apply to a generator of infectious wastes that meets any of the following

conditions:

(a) Treats, by methods, techniques, and practices established by rules adopted under division (B)(2)(a) of section 3734.021 of the Revised Code, any of the following wastes:

(i) Infectious wastes that are generated on any premises that are owned or operated by the generator;

(ii) Infectious wastes that are generated by a generator who has staff privileges at a hospital as defined in section 3727.01 of the Revised Code;

(iii) Infectious wastes that are generated in providing care to a patient by an emergency medical services organization as defined in section 4765.01 of the Revised Code.

(b) Holds a license or renewal of a license to operate a crematory facility issued under Chapter 4717. and a permit issued under Chapter 3704. of the Revised Code;

(c) Treats or disposes of dead animals or parts thereof, or the blood of animals, and is subject to any of the following:

(i) Inspection under the "Federal Meat Inspection Act," 81 Stat. 584 (1967), 21 U.S.C.A. 603, as amended;

(ii) Chapter 918. of the Revised Code;

(iii) Chapter 953. of the Revised Code.

Nothing in division (B) of this section requires a facility that holds a license issued under division (A) of this section as a solid waste facility and that also treats infectious wastes by the same method, technique, or process to obtain a license under division (B) of this section as an infectious waste treatment facility. However, the solid waste

facility license for the facility shall include the notation that the facility also treats infectious wastes.

The director shall not issue a permit to open a new solid waste incineration facility unless the proposed facility complies with the requirements for the location of new infectious waste incineration facilities established in rules adopted under division (B)(2)(b) of section 3734.021 of the Revised Code.

(C) Except for a facility or activity described in division (E)(3) of section 3734.02 of the Revised Code, a person who proposes to establish or operate a hazardous waste facility shall submit a complete application for a hazardous waste facility installation and operation permit and accompanying detail plans, specifications, and such information as the director may require to the environmental protection agency at least one hundred eighty days before the proposed beginning of operation of the facility. The applicant shall notify by certified mail the legislative authority of each municipal corporation, township, and county in which the facility is proposed to be located of the submission of the application within ten days after the submission or at such earlier time as the director may establish by rule. If the application is for a proposed new hazardous waste disposal or thermal treatment facility, the applicant also shall give actual notice of the general design and purpose of the facility to the legislative authority of each municipal corporation, township, and county in which the facility is proposed to be located at least ninety days before the permit application is submitted to the environmental protection agency.

In accordance with rules adopted under section 3734.12 of

the Revised Code, prior to the submission of a complete application for a hazardous waste facility installation and operation permit, the applicant shall hold at least one meeting in the township or municipal corporation in which the facility is proposed to be located, whichever is geographically closer to the proposed location of the facility. The meeting shall be open to the public and shall be held to inform the community of the proposed hazardous waste management activities and to solicit questions from the community concerning the activities.

(D)(1) Except as provided in section 3734.123 of the Revised Code, upon receipt of a complete application for a hazardous waste facility installation and operation permit under division (C) of this section, the director shall consider the application and accompanying information to determine whether the application complies with agency rules and the requirements of division (D)(2) of this section. After making a determination, the director shall issue either a draft permit or a notice of intent to deny the permit. The director, in accordance with rules adopted under section 3734.12 of the Revised Code or with rules adopted to implement Chapter 3745. of the Revised Code, shall provide public notice of the application and the draft permit or the notice of intent to deny the permit, provide an opportunity for public comments, and, if significant interest is shown, schedule a public meeting in the county in which the facility is proposed to be located and give public notice of the date, time, and location of the public meeting in a newspaper of general circulation in that county.

(2) The director shall not approve an application for a hazardous waste facility installation and operation permit or an application for a modification under division (I)(3) of this section unless the director finds and determines as follows:

(a) The nature and volume of the waste to be treated, stored, or disposed of at the facility;

(b) That the facility complies with the director's hazardous waste standards adopted pursuant to section 3734.12 of the Revised Code;

(c) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of various alternatives, and other pertinent considerations;

(d) That the facility represents the minimum risk of all of the following:

(i) Fires or explosions from treatment, storage, or disposal methods;

(ii) Release of hazardous waste during transportation of hazardous waste to or from the facility;

(iii) Adverse impact on the public health and safety.

(e) That the facility will comply with this chapter and Chapters 3704. and 6111. of the Revised Code and all rules and standards adopted under them;

(f) That if the owner of the facility, the operator of the facility, or any other person in a position with the facility from which the person may influence the installation and operation of the facility has been involved in any prior activity involving transportation, treatment, storage, or disposal of hazardous waste, that person has a history of compliance with this chapter and Chapters 3704. and 6111. of the Revised Code and all rules and standards adopted under them, the "Resource Conservation and Recovery Act of 1976," 90 Stat. 2806,

42 U.S.C.A. 6921, as amended, and all regulations adopted under it, and similar laws and rules of other states if any such prior operation was located in another state that demonstrates sufficient reliability, expertise, and competency to operate a hazardous waste facility under the applicable provisions of this chapter and Chapters 3704. and 6111. of the Revised Code, the applicable rules and standards adopted under them, and terms and conditions of a hazardous waste facility installation and operation permit, given the potential for harm to the public health and safety and the environment that could result from the irresponsible operation of the facility. For off-site facilities, as defined in section 3734.41 of the Revised Code, the director may use the investigative reports of the attorney general prepared pursuant to section 3734.42 of the Revised Code as a basis for making a finding and determination under division (D)(2)(f) of this section.

(g) That the active areas within a new hazardous waste facility where acute hazardous waste as listed in 40 C.F.R. 261.33 (e), as amended, or organic waste that is toxic and is listed under 40 C.F.R. 261, as amended, is being stored, treated, or disposed of and where the aggregate of the storage design capacity and the disposal design capacity of all hazardous waste in those areas is greater than two hundred fifty thousand gallons, are not located or operated within any of the following:

(i) Two thousand feet of any residence, school, hospital, jail, or prison;

(ii) Any naturally occurring wetland;

(iii) Any flood hazard area if the applicant cannot show that the facility will be designed, constructed, operated, and

maintained to prevent washout by a one-hundred-year flood.

Division (D)(2)(g) of this section does not apply to the facility of any applicant who demonstrates to the director that the limitations specified in that division are not necessary because of the nature or volume of the waste and the manner of management applied, the facility will impose no substantial danger to the health and safety of persons occupying the structures listed in division (D)(2)(g)(i) of this section, and the facility is to be located or operated in an area where the proposed hazardous waste activities will not be incompatible with existing land uses in the area.

(h) That the facility will not be located within the boundaries of a state park established or dedicated under Chapter 1546. of the Revised Code, a state park purchase area established under section 1546.06 of the Revised Code, any unit of the national park system, or any property that lies within the boundaries of a national park or recreation area, but that has not been acquired or is not administered by the secretary of the United States department of the interior, located in this state, or any candidate area located in this state identified for potential inclusion in the national park system in the edition of the "national park system plan" submitted under paragraph (b) of section 8 of "The Act of August 18, 1970," 84 Stat. 825, 16 U.S.C.A. 1a-5, as amended, current at the time of filing of the application for the permit, unless the facility will be used exclusively for the storage of hazardous waste generated within the park or recreation area in conjunction with the operation of the park or recreation area. Division (D)(2)(h) of this section does not apply to the facility of any applicant for modification of a permit unless the modification application proposes to increase the land area included in the facility or

to increase the quantity of hazardous waste that will be treated, stored, or disposed of at the facility.

(3) Not later than one hundred eighty days after the end of the public comment period, the director, without prior hearing, shall issue or deny the permit in accordance with Chapter 3745. of the Revised Code. If the director approves an application for a hazardous waste facility installation and operation permit, the director shall issue the permit, upon such terms and conditions as the director finds are necessary to ensure the construction and operation of the hazardous waste facility in accordance with the standards of this section.

(E) No political subdivision of this state shall require any additional zoning or other approval, consent, permit, certificate, or condition for the construction or operation of a hazardous waste facility authorized by a hazardous waste facility installation and operation permit issued pursuant to this chapter, nor shall any political subdivision adopt or enforce any law, ordinance, or rule that in any way alters, impairs, or limits the authority granted in the permit.

(F) The director may issue a single hazardous waste facility installation and operation permit to a person who operates two or more adjoining facilities where hazardous waste is stored, treated, or disposed of if the application includes detail plans, specifications, and information on all facilities. For the purposes of this section, "adjoining" means sharing a common boundary, separated only by a public road, or in such proximity that the director determines that the issuance of a single permit will not create a hazard to the public health or safety or the environment.

(G) No person shall falsify or fail to keep or submit any

plans, specifications, data, reports, records, manifests, or other information required to be kept or submitted to the director by this chapter or the rules adopted under it.

(H)(1) Each person who holds an installation and operation permit issued under this section and who wishes to obtain a permit renewal shall submit a completed application for an installation and operation permit renewal and any necessary accompanying general plans, detail plans, specifications, and such information as the director may require to the director no later than one hundred eighty days prior to the expiration date of the existing permit or upon a later date prior to the expiration of the existing permit if the permittee can demonstrate good cause for the late submittal. The director shall consider the application and accompanying information, inspection reports of the facility, results of performance tests, a report regarding the facility's compliance or noncompliance with the terms and conditions of its permit and rules adopted by the director under this chapter, and such other information as is relevant to the operation of the facility and shall issue a draft renewal permit or a notice of intent to deny the renewal permit. The director, in accordance with rules adopted under this section or with rules adopted to implement Chapter 3745. of the Revised Code, shall give public notice of the application and draft renewal permit or notice of intent to deny the renewal permit, provide for the opportunity for public comments within a specified time period, schedule a public meeting in the county in which the facility is located if significant interest is shown, and give public notice of the public meeting.

(2) Within sixty days after the public meeting or close of the public comment period, the director, without prior hearing,

shall issue or deny the renewal permit in accordance with Chapter 3745. of the Revised Code. The director shall not issue a renewal permit unless the director determines that the facility under the existing permit has a history of compliance with this chapter, rules adopted under it, the existing permit, or orders entered to enforce such requirements that demonstrates sufficient reliability, expertise, and competency to operate the facility henceforth under this chapter, rules adopted under it, and the renewal permit. If the director approves an application for a renewal permit, the director shall issue the permit subject to the payment of the annual permit fee required under division (E) of section 3734.02 of the Revised Code and upon such terms and conditions as the director finds are reasonable to ensure that continued operation, maintenance, closure, and post-closure care of the hazardous waste facility are in accordance with the rules adopted under section 3734.12 of the Revised Code.

(3) An installation and operation permit renewal application submitted to the director that also contains or would constitute an application for a modification shall be acted upon by the director in accordance with division (I) of this section in the same manner as an application for a modification. In approving or disapproving the renewal portion of a permit renewal application containing an application for a modification, the director shall apply the criteria established under division (H)(2) of this section.

(4) An application for renewal or modification of a permit that does not contain an application for a modification as described in divisions (I)(3)(a) to (d) of this section shall not be subject to division (D)(2) of this section.

(I)(1) As used in this section, "modification" means a change or alteration to a hazardous waste facility or its operations that is inconsistent with or not authorized by its existing permit or authorization to operate. Modifications shall be classified as Class 1, 2, or 3 modifications~~ in accordance with rules adopted under division (K) of this section~~. Modifications classified as Class 3 modifications~~, in accordance with rules adopted under that division,~~ shall be further classified by the director as either Class 3 modifications that are to be approved or disapproved by the director under divisions (I)(3)(a) to (d) of this section or as Class 3 modifications that are to be approved or disapproved by the director under division (I)(5) of this section. Not later than thirty days after receiving a request for a modification under division (I)(4) of this section that is not listed in Appendix I to 40 C.F.R. 270.42~~ or in rules adopted under division (K) of this section~~, the director shall classify the modification and shall notify the owner or operator of the facility requesting the modification of the classification. Notwithstanding any other law to the contrary, a modification that involves the transfer of a hazardous waste facility installation and operation permit to a new owner or operator for any off-site facility as defined in section 3734.41 of the Revised Code shall be classified as a Class 3 modification. The transfer of a hazardous waste facility installation and operation permit to a new owner or operator for a facility that is not an off-site facility shall be classified as a Class 1 modification requiring prior approval of the director.

(2) Except as provided in section 3734.123 of the Revised Code, a hazardous waste facility installation and operation permit may be modified at the request of the director or upon

the written request of the permittee only if any of the following applies:

(a) The permittee desires to accomplish alterations, additions, or deletions to the permitted facility or to undertake alterations, additions, deletions, or activities that are inconsistent with or not authorized by the existing permit;

(b) New information or data justify permit conditions in addition to or different from those in the existing permit;

(c) The standards, criteria, or rules upon which the existing permit is based have been changed by new, amended, or rescinded standards, criteria, or rules, or by judicial decision after the existing permit was issued, and the change justifies permit conditions in addition to or different from those in the existing permit;

(d) The permittee proposes to transfer the permit to another person.

(3) The director shall approve or disapprove an application for a modification in accordance with division (D)(2) of this section ~~and rules adopted under division (K) of this section~~ for all of the following categories of Class 3 modifications:

(a) Authority to conduct treatment, storage, or disposal at a site, location, or tract of land that has not been authorized for the proposed category of treatment, storage, or disposal activity by the facility's permit;

(b) Modification or addition of a hazardous waste management unit, as defined in rules adopted under section 3734.12 of the Revised Code, that results in an increase in a facility's storage capacity of more than twenty-five per cent

over the capacity authorized by the facility's permit, an increase in a facility's treatment rate of more than twenty-five per cent over the rate so authorized, or an increase in a facility's disposal capacity over the capacity so authorized. The authorized disposal capacity for a facility shall be calculated from the approved design plans for the disposal units at that facility. In no case during a five-year period shall a facility's storage capacity or treatment rate be modified to increase by more than twenty-five per cent in the aggregate without the director's approval in accordance with division (D)(2) of this section. Notwithstanding any provision of division (I) of this section to the contrary, a request for modification of a facility's annual total waste receipt limit shall be classified and approved or disapproved by the director under division (I)(5) of this section.

(c) Authority to add any of the following categories of regulated activities not previously authorized at a facility by the facility's permit: storage at a facility not previously authorized to store hazardous waste, treatment at a facility not previously authorized to treat hazardous waste, or disposal at a facility not previously authorized to dispose of hazardous waste; or authority to add a category of hazardous waste management unit not previously authorized at the facility by the facility's permit. Notwithstanding any provision of division (I) of this section to the contrary, a request for authority to add or to modify an activity or a hazardous waste management unit for the purposes of performing a corrective action shall be classified and approved or disapproved by the director under division (I)(5) of this section.

(d) Authority to treat, store, or dispose of waste types listed or characterized as reactive or explosive, in rules

adopted under section 3734.12 of the Revised Code, or any acute hazardous waste listed in 40 C.F.R. 261.33(e), as amended, at a facility not previously authorized to treat, store, or dispose of those types of wastes by the facility's permit unless the requested authority is limited to wastes that no longer exhibit characteristics meeting the criteria for listing or characterization as reactive or explosive wastes, or for listing as acute hazardous waste, but still are required to carry those waste codes as established in rules adopted under section 3734.12 of the Revised Code because of the requirements established in 40 C.F.R. 261(a) and (e), as amended, that is, the "mixture," "derived-from," or "contained-in" regulations.

(4) A written request for a modification from the permittee shall be submitted to the director and shall contain such information as is necessary to support the request. Requests for modifications shall be acted upon by the director in accordance with this section and rules adopted under it.

(5) Class 1 modification applications that require prior approval of the director, as provided in division (I)(1) of this section ~~or as determined in accordance with rules adopted under division (K) of this section~~, Class 2 modification applications, and Class 3 modification applications that are not described in divisions (I)(3)(a) to (d) of this section shall be approved or disapproved by the director ~~in accordance with rules adopted under division (K) of this section~~. The board of county commissioners of the county, the board of township trustees of the township, and the city manager or mayor of the municipal corporation in which a hazardous waste facility is located shall receive notification of any application for a modification for that facility and shall be considered as interested persons with respect to the director's consideration of the application.

As used in division (I) of this section:

(a) "Owner" means the person who owns a majority or controlling interest in a facility.

(b) "Operator" means the person who is responsible for the overall operation of a facility.

The director shall approve or disapprove an application for a Class 1 modification that requires the director's approval within sixty days after receiving the request for modification. The director shall approve or disapprove an application for a Class 2 modification within three hundred days after receiving the request for modification. The director shall approve or disapprove an application for a Class 3 modification within three hundred sixty-five days after receiving the request for modification.

(6) The approval or disapproval by the director of a Class 1 modification application is not a final action that is appealable under Chapter 3745. of the Revised Code. The approval or disapproval by the director of a Class 2 modification or a Class 3 modification is a final action that is appealable under that chapter. In approving or disapproving a request for a modification, the director shall consider all comments pertaining to the request that are received during the public comment period and the public meetings. The administrative record for appeal of a final action by the director in approving or disapproving a request for a modification shall include all comments received during the public comment period relating to the request for modification, written materials submitted at the public meetings relating to the request, and any other documents related to the director's action.

(7) Notwithstanding any other provision of law to the contrary, a change or alteration to a hazardous waste facility described in division (E)(3)(a) or (b) of section 3734.02 of the Revised Code, or its operations, is a modification for the purposes of this section. An application for a modification at such a facility shall be submitted, classified, and approved or disapproved in accordance with divisions (I)(1) to (6) of this section in the same manner as a modification to a hazardous waste facility installation and operation permit.

(J)(1) Except as provided in division (J)(2) of this section, an owner or operator of a hazardous waste facility that is operating in accordance with a permit by rule under rules adopted by the director under division (E)(3)(b) of section 3734.02 of the Revised Code shall submit either a hazardous waste facility installation and operation permit application for the facility or a modification application, whichever is required under division (J)(1)(a) or (b) of this section, within one hundred eighty days after the director has requested the application or upon a later date if the owner or operator demonstrates to the director good cause for the late submittal.

(a) If the owner or operator does not have a hazardous waste facility installation and operation permit for any hazardous waste treatment, storage, or disposal activities at the facility, the owner or operator shall submit an application for such a permit to the director for the activities authorized by the permit by rule. Notwithstanding any other provision of law to the contrary, the director shall approve or disapprove the application for the permit in accordance with the procedures governing the approval or disapproval of permit renewals under division (H) of this section.

(b) If the owner or operator has a hazardous waste facility installation and operation permit for hazardous waste treatment, storage, or disposal activities at the facility other than those authorized by the permit by rule, the owner or operator shall submit to the director a request for modification in accordance with division (I) of this section. Notwithstanding any other provision of law to the contrary, the director shall approve or disapprove the modification application in accordance with division (I)(5) of this section.

(2) The owner or operator of a boiler or industrial furnace that is conducting thermal treatment activities in accordance with a permit by rule under rules adopted by the director under division (E)(3)(b) of section 3734.02 of the Revised Code shall submit a hazardous waste facility installation and operation permit application if the owner or operator does not have such a permit for any hazardous waste treatment, storage, or disposal activities at the facility or, if the owner or operator has such a permit for hazardous waste treatment, storage, or disposal activities at the facility other than thermal treatment activities authorized by the permit by rule, a modification application to add those activities authorized by the permit by rule, whichever is applicable, within one hundred eighty days after the director has requested the submission of the application or upon a later date if the owner or operator demonstrates to the director good cause for the late submittal. The application shall be accompanied by information necessary to support the request. The director shall approve or disapprove an application for a hazardous waste facility installation and operation permit in accordance with division (D) of this section and approve or disapprove an application for a modification in accordance with division (I)

(3) of this section, except that the director shall not disapprove an application for the thermal treatment activities on the basis of the criteria set forth in division (D)(2)(g) or (h) of this section.

(3) As used in division (J) of this section:

(a) "Modification application" means a request for a modification submitted in accordance with division (I) of this section.

(b) "Thermal treatment," "boiler," and "industrial furnace" have the same meanings as in rules adopted under section 3734.12 of the Revised Code.

~~(K) The director shall adopt, and may amend, suspend, or rescind, rules in accordance with Chapter 119. of the Revised Code in order to implement divisions (H) and (I) of this section. Except when in actual conflict with this section, rules governing the classification of and procedures for the modification of hazardous waste facility installation and operation permits shall be substantively and procedurally identical to the regulations governing hazardous waste facility permitting and permit modifications adopted under the "Resource Conservation and Recovery Act of 1976," 90 Stat. 2806, 42 U.S.C.A. 6921, as amended.~~

Sec. 3734.058. (A) Except as provided in division (B) of this section, no political subdivision of this state shall require any additional zoning or other approval, consent, permit, certificate, or condition for the operation of a byproduct disposal facility authorized by a byproduct disposal facility permit to install or modify issued under division (B) of former section 3734.054, division (B) or (C)(3) of former

section 3734.055, or division (B) of former section 3734.057 of the Revised Code, nor shall any political subdivision adopt or enforce any law, ordinance, resolution, or rule that in any way alters, impairs, or limits the authority granted in the permit.

(B)(1) Division (A) of this section does not apply to the issuance of an annual license for a byproduct disposal facility under division (A)(1) of section 3734.05 of the Revised Code; the issuance of orders under section 3709.20 or 3709.21 of the Revised Code to enforce the solid waste provisions of this chapter or rules adopted or terms and conditions of permits, licenses, or orders issued under those provisions; the inspection of any such facility for compliance with those provisions, any such terms and conditions, or any orders issued under section 3709.20 or 3709.21 of the Revised Code to enforce those provisions or any such terms and conditions; or the enforcement of those provisions, any such terms and conditions, or any orders issued under section 3709.20 or 3709.21 of the Revised Code to enforce those provisions or any such terms and conditions, by a board of health on the approved list under section 3734.08 of the Revised Code.

(2) Division (A) of this section does not alter, impair, or limit the authority of a board of health or political subdivision of this state that has been delegated any of the powers and duties of the director of environmental protection under Chapter 3704. of the Revised Code pursuant to division ~~(P)~~ (O) of section 3704.03 of the Revised Code to exercise the authority and perform the duties conferred upon the board or political subdivision by that delegation.

(C) As used in this section:

(1) "Byproduct disposal facility" means a solid waste

disposal facility that exclusively disposes of coal combustion wastes. "Byproduct disposal facility" does not include a coal mining and reclamation operation where coal combustion wastes are used in conducting the operation, or are disposed of, in compliance with Chapter 1513. of the Revised Code and rules adopted under it.

(2) "Coal combustion wastes" includes all of the following:

(a) Air pollution control wastes that are solid wastes, that result from the combustion of coal at a coal-fired electric generating facility owned, operated, or leased by an electric light company or a municipal power agency, and that are generated by air pollution control equipment installed or used at the electric generating facility for the purpose of complying with applicable emission standards or emission limitations established under the "Air Quality Act of 1967," 81 Stat. 485, 42 U.S.C.A. 1857, as amended, and regulations adopted under it or Chapter 3704. of the Revised Code and rules adopted under it;

(b) Air pollution control wastes that are solid wastes and that are generated in the operation of air pollution control equipment installed at a byproduct disposal facility for the purpose of complying with Chapter 3704. of the Revised Code and rules adopted under it;

(c) Water pollution control wastes that are solid wastes and that are generated in the operation of a disposal system or treatment works installed at a byproduct disposal facility for the purpose of complying with Chapter 6111. of the Revised Code and rules adopted under it;

(d) Any other similar types of solid wastes that are

produced in the operation of a coal-fired electric generating facility or in the operation of air pollution control equipment, disposal systems, or treatment works installed or used at such a facility and that are identified in rules adopted under division (A) of section 3734.02 of the Revised Code.

(3) "Disposal system" and "treatment works" have the same meanings as in section 6111.01 of the Revised Code.

(4) "Electric light company" has the same meaning as in section 4905.03 of the Revised Code.

(5) "Municipal power agency" means any Ohio nonprofit corporation, the members of which are municipal corporations that own and operate electric utility systems, that sells electricity to its members for resale.

Sec. 3734.123. (A) As used in this section and section 3734.124 of the Revised Code, "commercial hazardous waste incinerator" means an enclosed device that treats hazardous waste by means of controlled flame combustion and that accepts for treatment hazardous waste that is generated off the premises on which the device is located by any person other than the one who owns or operates the device or one who controls, is controlled by, or is under common control with the person who owns or operates the device. "Commercial hazardous waste incinerator" does not include any "boiler" or "industrial furnace" as those terms are defined in rules adopted under section 3734.12 of the Revised Code.

(B) Not sooner than three years after April 15, 1993, and triennially thereafter, the director of environmental protection shall prepare, publish, and issue as a final action an assessment of commercial hazardous waste incinerator capacity in

this state. However, after the issuance as a final action of a determination under division (A) of section 3734.124 of the Revised Code that terminates the restrictions established in division (C) of this section, the director shall cease preparing, publishing, and issuing the periodic assessments required under this division. The assessment shall determine the amount of commercial hazardous waste incinerator capacity needed to manage the hazardous waste expected to be generated in this state and imported into this state for incineration at commercial hazardous waste incinerators during the next succeeding twenty calendar years. The assessment shall include at least all of the following:

(1) A determination of the aggregate treatment capacity authorized at commercial hazardous waste incinerators located in this state;

(2) A determination of the quantity of hazardous waste generated in this state that is being treated at commercial hazardous waste incinerators located in this state and projections of the quantity of hazardous waste generated in this state that will be treated at those facilities;

(3) A determination of the quantity of hazardous waste generated outside this state that is being treated at commercial hazardous waste incinerators located in this state and projections of the quantity of hazardous waste generated outside this state that will be treated at those facilities;

(4) A determination of the quantity of hazardous waste generated in this state that is being treated at commercial hazardous waste incinerators located outside this state, and projections of the quantity of hazardous waste generated in this state that will be treated at those facilities;

(5) The amount of commercial hazardous waste incinerator capacity that the director reasonably anticipates will be needed during the first three years of the planning period to treat hazardous waste generated from the remediation of sites in this state that are on the national priority list required under the "Comprehensive Environmental Response, Compensation, and Liability Act of 1980," 94 Stat. 2767, 42 U.S.C.A. 9601, as amended; as a result of corrective actions implemented under the "Resource Conservation and Recovery Act of 1976," 90 Stat. 2806, 42 U.S.C.A. 6921, as amended; and as a result of clean-up activities conducted at sites listed on the master sites list prepared by the environmental protection agency;

(6) Based upon available data, provided that the data are reliable and are compatible with the data base of the environmental protection agency, an identification of any hazardous waste first listed as a hazardous waste in regulations adopted under the "Resource Conservation and Recovery Act of 1976," 90 Stat. 2806, 42 U.S.C.A. 6921, as amended, on or after April 15, 1993, and of any hazardous waste that has been proposed for such listing by publication of a notice in the federal register on or before December 1 of the year immediately preceding the triennial assessment;

(7) An analysis of other factors that may result in capacity changes over the period addressed by the assessment.

(C) Except as otherwise provided in section 3734.124 of the Revised Code, none of the following shall occur on or after April 15, 1993:

(1) The director shall not do any of the following:

(a) Issue any hazardous waste facility installation and

operation permit under division (D) of section 3734.05 of the Revised Code for the establishment of a new commercial hazardous waste incinerator, or issue any modified hazardous waste facility installation and operation permit under division (I) of that section that would authorize an increase in either the treatment capacity of a commercial hazardous waste incinerator or the quantity of hazardous waste authorized to be treated by it;

(b) Issue any permit pursuant to rules adopted under division ~~(F)~~ (E) of section 3704.03 of the Revised Code, division (J) of section 6111.03 of the Revised Code, or the solid waste provisions of this chapter and rules adopted under those provisions, that is necessary for the establishment, modification, or operation of any appurtenant facility or equipment that is necessary for the operation of a new commercial hazardous waste incinerator, or the modification of such an existing incinerator to increase either the treatment capacity of the incinerator or the quantity of hazardous waste that is authorized to be treated by it. Upon determining that an application for any permit pertains to the establishment, modification, or operation of any appurtenant facility or equipment, the director shall cease reviewing the application and return the application and accompanying materials to the applicant along with a written notice that division (C)(1)(b) of this section precludes the director from reviewing and acting upon the application.

(c) Issue any exemption order under division (G) of section 3734.02 of the Revised Code exempting the establishment of a new commercial hazardous waste incinerator; the modification of an existing facility to increase either the treatment capacity of the incinerator or the quantity of

hazardous waste that is authorized to be treated by it; or the establishment, modification, or operation of any facility or equipment appurtenant to a new or modified commercial hazardous waste incinerator, from divisions (C)(1)(a) or (b) or (C)(2) of this section.

(2) If the director determines that an application for a hazardous waste facility installation and operation permit submitted under division (D) of section 3734.05 of the Revised Code pertains to the establishment of a new commercial hazardous waste incinerator, or a request for a modification of an existing incinerator submitted under division (I) of that section pertains to an increase of either the treatment capacity of the incinerator or the quantity of hazardous waste that is authorized to be treated by it, the director shall cease reviewing the application or request and shall return it and the accompanying materials to the applicant along with a written notice that division (C)(2) of this section precludes the review of the application or request.

(D) Division (C) of this section does not apply to an application for a modified hazardous waste facility installation and operation permit under division (I) of section 3734.05 of the Revised Code for any hazardous waste incinerator in operation before April 15, 1993, if both of the following apply to the application:

(1) The application seeks to install an improved air emission control system designed to achieve compliance with 40 C.F.R. 63, Subpart EEE.

(2) The application does not seek to increase the treatment capacity of the hazardous waste incinerator or the quantity of waste to be treated by it.

(E) Division (C) of this section does not apply to an application for a modified hazardous waste facility installation and operation permit under division (I) of section 3734.05 of the Revised Code for any hazardous waste incinerator in operation before April 15, 1993, if all of the following apply to the application:

(1) The application seeks to increase the treatment capacity of the hazardous waste incineration operations or the quantity of waste to be treated by it.

(2) The hazardous waste incinerator is at or near its actual maximum operating capacity on ~~the effective date of this amendment~~ April 4, 2023.

(3) The application seeks to install an improved air emission control system designed to achieve compliance with 40 C.F.R. 63, Subpart EEE.

(4) The owner or operator of the hazardous waste incinerator has not been issued any other permit allowing for the expansion of the hazardous waste incinerator or construction of a new hazardous waste incinerator prior to ~~the effective date of this amendment~~ April 4, 2023.

Sec. 3734.124. (A) Promptly after issuing a periodic assessment under division (B) of section 3734.123 of the Revised Code, the director of environmental protection shall make a determination as to whether it is necessary or appropriate to continue the restrictions established in division (C) of section 3734.123 of the Revised Code during the period of time between the issuance of the assessment and the issuance of the next succeeding periodic assessment or as to whether it is necessary or appropriate to terminate the restrictions. The director shall

consider all of the following when making a determination under this division:

(1) The findings of the assessment;

(2) The findings of an evaluation conducted by the director, in consultation with the chairperson of the state emergency response commission created in section 3750.02 of the Revised Code, regarding the capability of this state to respond to the types and frequencies of releases of hazardous waste that are likely to occur at commercial hazardous waste incinerators;

(3) The effect that a new commercial hazardous waste incinerator may have on ambient air quality in this state;

(4) The findings of a review of relevant information regarding the impacts of commercial hazardous waste incinerators on human health and the environment, such as health studies and risk assessments;

(5) The findings of a review of the operational records of commercial hazardous waste incinerators operating in this state;

(6) The findings of any review of relevant information concerning the following:

(a) The cost of and access to commercial hazardous waste incinerator capacity;

(b) The length of time and the regulatory review process necessary to fully permit a commercial hazardous waste incinerator;

(c) Access to long-term capital investment to fund the building of a commercial hazardous waste incinerator in this state;

(d) Efforts by generators of hazardous waste accepted by commercial hazardous waste incinerators to reduce the amount of hazardous waste that they generate.

(7) Regulatory and legislative concerns that may include, without limitation, the provisions of paragraphs (a) and (b) of 40 C.F.R. 271.4, as they existed on April 15, 1993.

If, after considering all of the information and concerns that the director is required to consider under divisions (A)(1) to (7) of this section, the director determines that it is necessary or appropriate to terminate the restrictions established in division (C) of section 3734.123 of the Revised Code in order to protect human health or safety or the environment, the director shall issue as a final action a written determination to that effect. If the director determines that it is necessary or appropriate for those purposes to continue the restrictions until the issuance of the next succeeding periodic assessment under division (B) of section 3734.123 of the Revised Code, the director shall issue as a final action a written determination to that effect. After the issuance as a final action of a determination under this division that it is necessary or appropriate to terminate the restrictions established in division (C) of section 3734.123 of the Revised Code, the director shall cease making the periodic determinations required under this division.

(B) Beginning three years after April 15, 1993, but only on and after the date of issuance as final actions of an assessment under division (B) of section 3734.123 of the Revised Code and a determination under division (A) of this section that it is necessary or appropriate to terminate the restrictions established in division (C) of section 3734.123 of the Revised

Code, the director may do any of the following:

(2) To the extent otherwise authorized in division (G) of section 3734.02 of the Revised Code, issue an order exempting the establishment of a new commercial hazardous waste incinerator; the modification of an existing incinerator to increase either the treatment capacity of the incinerator or the quantity of hazardous waste that is authorized to be treated by it; or the establishment, modification, or operation of any facility or equipment appurtenant to a new or modified commercial hazardous waste incinerator, from division (C)(1)(a) or (b) or (C)(2) of section 3734.123 of the Revised Code;

Sec. 3734.40. The general assembly hereby finds and declares the following to be the public policy of this state:

(A) That the off-site treatment, storage, and disposal of hazardous waste and the off-site disposal of solid wastes, including incineration, and transfer of solid wastes are critical components of the economic structure of this state and, when properly controlled and regulated, make substantial contributions to the general welfare, health, and prosperity of the state and its inhabitants by minimizing the serious health and environmental threats inherent in the management of these wastes;

(B) That the regulatory provisions of this chapter are designed to extend strict state regulation to those persons involved in the operations of these permitted activities so as to foster and justify the public confidence and trust in the credibility and integrity of the conduct of these activities;

(C) That the solid and hazardous waste management industries in this state can attain, maintain, and retain integrity, public confidence, and trust, and promote the general public interest, only under a system of control and regulation that precludes the participation therein of persons with known criminal records and excludes or removes from any position of authority or responsibility any person known to be so deficient in reliability, expertise, or competence with specific reference to the solid or hazardous waste management industries that ~~his~~the person's participation in them would create or enhance the danger of unsound, unfair, or illegal practices, methods, and activities in the conduct of the business of the industries;

(D) That strict licensing standards will help ensure that members of the waste management industry in this state will continue to maintain standards of professionalism and responsibility;

(E) That it therefore is vital to the interests of this state to prevent either direct or indirect entry into the operations of the off-site solid waste disposal and transfer and the off-site hazardous waste treatment, storage, and disposal, industries of persons who are not competent and reliable or who have pursued economic gains in an occupational manner or context violative of the criminal code or civil public policies of this state, and it is to the end of excluding such persons from those industries that the regulatory and investigatory powers and duties provided in sections 3734.41 to ~~3734.47~~ 3734.46 of the Revised Code shall be exercised to the fullest extent consistent with law.

(H) The failure to provide information under this section may constitute the basis for the revocation of a permit or license, the denial of a permit or license application, the denial of a renewal of a permit or license, or the disapproval of a change in ownership as described in division (I) of this section. Prior to a denial, revocation, or disapproval, the director shall notify the applicant, permittee, or prospective owner of the director's intention to do so. The director shall give the applicant, permittee, or prospective owner fourteen days from the date of the notice to explain why the information was not provided. The director shall consider the explanation when determining whether to revoke the permit or license, deny the permit or license application or renewal, or disapprove the change in ownership.

Nothing in this section affects the rights of the director or the attorney general granted under sections 3734.40 to ~~3734.47~~ 3734.46 of the Revised Code to request information from a person at any other time.

(I)(1) Whenever there is a change in ownership of any operating off-site solid waste facility, any operating off-site infectious waste facility, or any operating off-site hazardous

waste facility, the prospective owner shall file a disclosure statement with the attorney general and the director at least one hundred eighty days prior to the proposed change in ownership. The prospective owner shall file the disclosure statement at least one hundred eighty days prior to the proposed change in ownership.

Upon receipt of the disclosure statement, the attorney general shall prepare an investigative report and transmit it to the director. The director shall review the disclosure statement and investigative report to determine whether the statement or report contains information that if submitted with a permit application would require a denial of the permit pursuant to section 3734.44 of the Revised Code. If the director determines that the statement or report contains such information, the director shall disapprove the change in ownership.

(2) If the parties to a change in ownership decide to proceed with the change prior to the action of the director on the disclosure statement and investigative report, the parties shall include in all contracts or other documents reflecting the change in ownership language expressly making the change in ownership subject to the approval of the director and expressly negating the change if it is disapproved by the director pursuant to division (I)(1) of this section.

(3) As used in this section, "change in ownership" includes a change of the individuals or entities who own a solid waste facility, infectious waste facility, or hazardous waste facility. "Change in ownership" does not include a legal change in a business concern's name when its ownership otherwise remains the same. "Change in ownership" also does not include a personal name change of officers, directors, partners, or key employees contained in a disclosure statement.

Sec. 3734.43. (A) As used in this section, "documentary material" means the original or any copy of any writings, drawings, graphs, charts, photographs, phonorecords, and other data compilation from which intelligence, relevant to any investigation conducted to determine if any person is or has been engaged in a violation of this chapter, may be perceived with or without the use of detection devices.

(B) Whenever the attorney general has reasonable cause to believe that any individual or business concern may be in possession, custody, or control of any documentary material or may have knowledge of any fact relevant to any investigation of an applicant or permittee authorized in sections 3734.41 to ~~3734.47~~ 3734.46 of the Revised Code, the attorney general or ~~his~~the attorney general's designated representative may issue in writing and cause to be served upon any individual or business concern or the representative or agent of the individual or business concern an investigative demand requiring the individual or business concern to produce the documentary material for inspection and copying or reproduction, to answer under oath and in writing written interrogatories, or to appear and testify under oath before the attorney general or ~~his~~the attorney general's duly authorized representative, or requiring the individual or business concern to do any combination of

these three demands.

(C) Each investigative demand shall:

(1) Describe the conduct under investigation and state the provisions of law applicable thereto;

(2) If it is a demand for production of documentary material:

(a) Describe with reasonable particularity the documentary material to be produced;

(b) Prescribe a return date that will provide a reasonable period of time within which the material may be assembled and made available for inspection and copying or reproduction;

(c) Identify the custodian to whom the material shall be made available and the location at which the material is to be produced.

(3) If it is a demand for answers to written interrogatories:

(a) Identify the representative of the attorney general to whom such answers shall be made;

(b) Prescribe a date by which the answers shall be presented.

(4) If it is a demand for the giving of oral testimony:

(a) Prescribe a date, time, and place at which oral testimony will be taken;

(b) Identify the representative of the attorney general who will conduct the oral examination.

(D) No investigative demand shall:

(1) Contain any requirement that would be unreasonable if contained in a subpoena or subpoena duces tecum issued by a court in aid of a grand jury investigation;

(2) Except as provided in division (H) of this section, require any answers to written interrogatories, the giving of any oral testimony, or the production of any documentary material that would be privileged from disclosure if demanded by a subpoena or subpoena duces tecum issued by a court in aid of a grand jury investigation.

(E) Service of any investigative demand may be made and is complete by either of the following:

(1) Mailing a copy of the demand by certified mail addressed to the individual or business concern to be served at ~~his~~the individual's or ~~its~~business concern's principal office, place of business, or residence;

(2) Delivering a copy of the demand to the individual or business concern or the representative or agent of the individual or business concern.

(F) Any individual or business concern served with a demand under this section may be represented by counsel at the taking of that individual's or business concern's testimony.

(G) Except as otherwise provided in this section, the taking of oral testimony, answering of written interrogatories, and production of documentary material under this section shall in all respects follow the procedures established by the discovery provisions of the Rules of Civil Procedure.

(H)(1) Whenever an individual or business concern served with a demand under this section refuses on the basis of the individual's privilege against self-incrimination to provide any

oral testimony, to answer any written interrogatories, or to produce any documentary material, the attorney general or ~~his~~the attorney general's designated representative may file a written request with a court of common pleas, and the court, unless it finds that to do so would not further the administration of justice, shall compel that individual to provide the oral testimony, to answer the written interrogatories, or to produce the documentary material if all of the following apply:

(a) The attorney general or ~~his~~the attorney general's designated representative makes a written request to the court of common pleas to order the individual to provide oral testimony, to answer written interrogatories, or produce documentary material, notwithstanding ~~his~~the individual's claim of privilege;

(b) The written request is made to a court of common pleas in the county in which the individual resides, transacts business, or is otherwise found, except that if the individual transacts business in more than one county, the request shall be made in the county in which the individual maintains ~~his~~the individual's principal place of business;

(c) The court of common pleas informs the individual that by providing oral testimony, answering written interrogatories, or producing documentary material ~~he~~the individual will receive immunity under division (H)(2) of this section.

(2) If, but for division (H) of this section, the individual would have been privileged to withhold any oral testimony, answers to written interrogatories, or documentary material given in these proceedings and ~~he~~the individual complies with an order under division (H)(1) of this section compelling ~~him~~the individual to provide testimony, answers, or

material, that answer, testimony, or evidence or any evidence directly or indirectly derived therefrom may not be used against ~~him~~the individual in any prosecution for a crime or offense concerning which ~~he~~the individual gave the answer, testified, or produced evidence if the answer, testimony, or evidence is responsive to the question propounded.

(3) An individual granted immunity under division (H) of this section may be subjected to a criminal penalty for any violation of section 2921.11, 2921.12, or 2921.13 of the Revised Code, or for contempt committed in providing oral testimony, answers to written interrogatories, or documentary material in compliance with the order.

(I) Within twenty days after service of an investigative demand upon any individual or business concern under this section or at any time before the compliance date specified in the demand, whichever period is shorter, the individual or business concern may file in the court of common pleas in the county in which ~~he~~the individual or business concern resides, transacts business, or is otherwise found, and serve upon the attorney general, a request for an order of the court modifying or setting aside the demand, except that if the individual or business concern transacts business in more than one county, the request shall be filed in the county in which the individual or business concern maintains ~~his~~the individual's or business concern's principal place of business or in any other county that may be agreed upon by the individual or business concern and the attorney general or ~~his~~the attorney general's designated representative. If the court finds that the noncompliance was in bad faith or for the purpose of delay, it may order the individual or business concern to pay to the attorney general the reasonable expenses incurred in defending the investigative

demand, including attorneys' fees, and may invoke the sanctions provided by Civil Rule 37.

(J) No individual or business concern shall, with intent to avoid, evade, prevent, or obstruct compliance in whole or in part by any individual or business concern with any investigative demand made under this section, remove from any place, conceal, withhold, destroy, mutilate, alter, or by any other means falsify any documentary material that is the subject of any investigative demand served upon any individual or business concern.

(K) The attorney general is responsible for the custody, use, and necessary preservation of the documentary material made available pursuant to a demand and for its return as provided by this section.

(L) All documentary material, answers to written interrogatories, and transcripts of oral testimony that are provided pursuant to any investigative demand are compiled as if in reasonable anticipation of a civil or criminal action or proceeding and shall be confidential and not subject to disclosure. Unless otherwise ordered by a court of common pleas, no such documentary material, answers to written interrogatories, or transcripts of oral testimony shall be available for examination or copying by, nor shall the contents thereof be disclosed to, any individual other than an authorized representative of the attorney general without the consent of the individual or business concern that provided the material, answers, or testimony, except that the documentary material, answers to written interrogatories, or oral testimony may be used in any grand jury investigation or in the conduct of any case or other official proceeding involving the issuance of a

license or permit required under this chapter or involving an alleged violation of this chapter. Materials compiled pursuant to investigative procedures under this section are discoverable only to the extent authorized by the rules of any administrative or judicial tribunal in which any proceeding under this chapter is pending. No employee of the office of the attorney general shall purposely make available for examination or copying documentary material, answers to written interrogatories, or transcripts of oral testimony provided pursuant to an investigative demand, nor disclose the contents thereof, except as provided by this section.

(M) When copies of documentary material made available pursuant to an investigative demand are no longer required for use in a pending proceeding or, absent any pending proceeding, are no longer required in connection with the investigation for which they were demanded, or at the end of twenty-four months after the date when the material was made available, whichever is earlier, all copies of the material shall be returned unless a request to extend the period beyond twenty-four months has been filed in the court of common pleas in which a request for an order compelling compliance pursuant to division (H) of this section could be filed. This division does not require the return of any copies of the documentary material that have passed into the control of any court or grand jury.

(N) Notwithstanding any provision of the Revised Code, public officers and their deputies, assistants, clerks, subordinates, and employees shall render and furnish to the attorney general or ~~his~~the attorney general's designated representatives when so requested all information and assistance in their possession or within their power. The attorney general or ~~his~~the attorney general's authorized representatives shall

provide the same degree of confidentiality for any information received under this section as the public officer or employee from whom it is obtained is required by law to provide with respect to the information.

(O) When any request is filed in any court of common pleas under this section, the court shall have jurisdiction to hear and determine the matter presented. In any proceeding brought pursuant to this section, upon a showing by the attorney general that the information sought is potentially relevant to an investigation authorized herein, the court shall order the individual or business concern to provide the information requested by the attorney general.

(P) Nothing in this section impairs the authority of the attorney general to file any complaint alleging a violation of this chapter that is not described in the demand, nor prevents the use of any evidence obtained through this section or otherwise in such an action.

(Q) Nothing in this section impairs the authority of the attorney general or ~~his~~the attorney general's representatives to lay before any grand jury impaneled in this state any evidence obtained through this section or otherwise concerning any alleged violation of this chapter, to invoke the power of the courts to compel the production of any evidence before any such grand jury, to institute any proceeding for the enforcement of any order or process issued in execution of such power, or to punish disobedience of any such order or process by any person.

(R) Any judicial proceeding to challenge or enforce an investigative demand made by the attorney general against an individual or business concern who neither resides in nor transacts business in this state shall be initiated in the court

of common pleas of Franklin county.

In the case of solid wastes that are taken to a solid waste transfer facility located in this state prior to being

transported for disposal at a solid waste disposal facility located in this state or outside of this state, the fees levied under this division shall be collected by the owner or operator of the transfer facility as a trustee for the state. The amount of fees required to be collected under this division at such a transfer facility shall equal the total tonnage of solid wastes received at the facility multiplied by the fees levied under this division. In the case of solid wastes that are not taken to a solid waste transfer facility located in this state prior to being transported to a solid waste disposal facility, the fees shall be collected by the owner or operator of the solid waste disposal facility as a trustee for the state. The amount of fees required to be collected under this division at such a disposal facility shall equal the total tonnage of solid wastes received at the facility that was not previously taken to a solid waste transfer facility located in this state multiplied by the fees levied under this division. Fees levied under this division do not apply to materials separated from a mixed waste stream for recycling by a generator or materials removed from the solid waste stream through recycling, as "recycling" is defined in rules adopted under section 3734.02 of the Revised Code.

In addition, the owner or operator of a solid waste disposal facility shall indicate on the return the total tonnage of solid wastes received from transfer facilities located in this state during that month for which the fees were required to be

collected by the transfer facilities. The monthly returns shall be filed on a form prescribed by the director. Not later than thirty days after the last day of the month to which a return applies, the owner or operator shall mail to the director the return for that month together with the fees required to be collected under this division during that month as indicated on the return or may submit the return and fees electronically in a manner approved by the director. If the return is filed and the amount of the fees due is paid in a timely manner as required in this division, the owner or operator may retain a discount of three-fourths of one per cent of the total amount of the fees that are required to be paid as indicated on the return.

The owner or operator may request an extension of not more than thirty days for filing the return and remitting the fees, provided that the owner or operator has submitted such a request in writing to the director together with a detailed description of why the extension is requested, the director has received the request not later than the day on which the return is required to be filed, and the director has approved the request. If the fees are not remitted within thirty days after the last day of the month to which the return applies or are not remitted by the last day of an extension approved by the director, the owner or operator shall not retain the three-fourths of one per cent discount and shall pay an additional ten per cent of the amount of the fees for each month that they are late. For purposes of calculating the late fee, the first month in which fees are late begins on the first day after the deadline has passed for timely submitting the return and fees, and one additional month shall be counted every thirty days thereafter.

The owner or operator of a solid waste facility may request a refund or credit of fees levied under this division

and remitted to the director that have not been paid to the owner or operator. Such a request shall be made only if the fees have not been collected by the owner or operator, have become a debt that has become worthless or uncollectable for a period of six months or more, and may be claimed as a deduction, including a deduction claimed if the owner or operator keeps accounts on an accrual basis, under the "Internal Revenue Code of 1954," 68A Stat. 50, 26 U.S.C. 166, as amended, and regulations adopted under it. Prior to making a request for a refund or credit, an owner or operator shall make reasonable efforts to collect the applicable fees. A request for a refund or credit shall not include any costs resulting from those efforts to collect unpaid fees.

A request for a refund or credit of fees shall be made in writing, on a form prescribed by the director, and shall be supported by evidence that may be required in rules adopted by the director under this chapter. After reviewing the request, and if the request and evidence submitted with the request indicate that a refund or credit is warranted, the director shall grant a refund to the owner or operator or shall permit a credit to be taken by the owner or operator on a subsequent monthly return submitted by the owner or operator. The amount of a refund or credit shall not exceed an amount that is equal to ninety days' worth of fees owed to an owner or operator by a particular debtor of the owner or operator. A refund or credit shall not be granted by the director to an owner or operator more than once in any twelve-month period for fees owed to the owner or operator by a particular debtor.

If, after receiving a refund or credit from the director, an owner or operator receives payment of all or part of the fees, the owner or operator shall remit the fees with the next

monthly return submitted to the director together with a written explanation of the reason for the submittal.

For purposes of computing the fees levied under this division or division (B) of this section, any solid waste transfer or disposal facility that does not use scales as a means of determining gate receipts shall use a conversion factor of three cubic yards per ton of solid waste or one cubic yard per ton for baled waste, as applicable.

The fees levied under this division and divisions (B) and (C) of this section are in addition to all other applicable fees and taxes and shall be paid by the customer or a political subdivision to the owner or operator of a solid waste transfer or disposal facility. In the alternative, the fees shall be paid by a customer or political subdivision to a transporter of waste who subsequently transfers the fees to the owner or operator of such a facility. The fees shall be paid notwithstanding the existence of any provision in a contract that the customer or a political subdivision may have with the owner or operator or with a transporter of waste to the facility that would not require or allow such payment regardless of whether the contract was entered prior to or after October 16, 2009. For those purposes, "customer" means a person who contracts with, or utilizes the solid waste services of, the owner or operator of a solid waste transfer or disposal facility or a transporter of solid waste to such a facility.

(B) For the purposes specified in division (G) of this section, the solid waste management policy committee of a county or joint solid waste management district may levy fees upon the following activities:

(1) The disposal at a solid waste disposal facility

located in the district of solid wastes generated within the district;

(2) The disposal at a solid waste disposal facility within the district of solid wastes generated outside the boundaries of the district, but inside this state;

(3) The disposal at a solid waste disposal facility within the district of solid wastes generated outside the boundaries of this state.

The solid waste management plan of the county or joint district approved under section 3734.521 or 3734.55 of the Revised Code and any amendments to it, or the resolution adopted under this division, as appropriate, shall establish the rates of the fees levied under divisions (B)(1), (2), and (3) of this section, if any, and shall specify whether the fees are levied on the basis of tons or cubic yards as the unit of measurement. A solid waste management district that levies fees under this division on the basis of cubic yards shall do so in accordance with division (A) of this section.

The fee levied under division (B)(1) of this section shall be not less than one dollar per ton nor more than two dollars per ton, the fee levied under division (B)(2) of this section shall be not less than two dollars per ton nor more than four dollars per ton, and the fee levied under division (B)(3) of this section shall be not more than the fee levied under division (B)(1) of this section.

Prior to the approval of the solid waste management plan of a district under section 3734.55 of the Revised Code, the solid waste management policy committee of a district may levy fees under this division by adopting a resolution establishing

the proposed amount of the fees. Upon adopting the resolution, the committee shall deliver a copy of the resolution to the board of county commissioners of each county forming the district and to the legislative authority of each municipal corporation and township under the jurisdiction of the district and shall prepare and publish the resolution and a notice of the time and location where a public hearing on the fees will be held. Upon adopting the resolution, the committee shall deliver written notice of the adoption of the resolution; of the amount of the proposed fees; and of the date, time, and location of the public hearing to the director and to the fifty industrial, commercial, or institutional generators of solid wastes within the district that generate the largest quantities of solid wastes, as determined by the committee, and to their local trade associations. The committee shall make good faith efforts to identify those generators within the district and their local trade associations, but the nonprovision of notice under this division to a particular generator or local trade association does not invalidate the proceedings under this division. The publication shall occur at least thirty days before the hearing. After the hearing, the committee may make such revisions to the proposed fees as it considers appropriate and thereafter, by resolution, shall adopt the revised fee schedule. Upon adopting the revised fee schedule, the committee shall deliver a copy of the resolution doing so to the board of county commissioners of each county forming the district and to the legislative authority of each municipal corporation and township under the jurisdiction of the district. Within sixty days after the delivery of a copy of the resolution adopting the proposed revised fees by the policy committee, each such board and legislative authority, by ordinance or resolution, shall approve or disapprove the revised fees and deliver a copy of the

ordinance or resolution to the committee. If any such board or legislative authority fails to adopt and deliver to the policy committee an ordinance or resolution approving or disapproving the revised fees within sixty days after the policy committee delivered its resolution adopting the proposed revised fees, it shall be conclusively presumed that the board or legislative authority has approved the proposed revised fees. The committee shall determine if the resolution has been ratified in the same manner in which it determines if a draft solid waste management plan has been ratified under division (B) of section 3734.55 of the Revised Code.

The committee may amend the schedule of fees levied pursuant to a resolution adopted and ratified under this division by adopting a resolution establishing the proposed amount of the amended fees. The committee may repeal the fees levied pursuant to such a resolution by adopting a resolution proposing to repeal them. Upon adopting such a resolution, the committee shall proceed to obtain ratification of the resolution in accordance with this division.

Not later than fourteen days after declaring the new fees to be ratified or the fees to be repealed under this division, the committee shall notify by certified mail the owner or operator of each solid waste disposal facility that is required to collect the fees of the ratification and the amount of the fees or of the repeal of the fees. Collection of any fees shall commence or collection of repealed fees shall cease on the first day of the second month following the month in which notification is sent to the owner or operator.

Fees levied under this division also may be established, amended, or repealed by a solid waste management policy

committee through the adoption of a new district solid waste management plan, the adoption of an amended plan, or the amendment of the plan or amended plan in accordance with sections 3734.55 and 3734.56 of the Revised Code or the adoption or amendment of a district plan in connection with a change in district composition under section 3734.521 of the Revised Code.

Not later than fourteen days after the director issues an order approving a district's solid waste management plan, amended plan, or amendment to a plan or amended plan that establishes, amends, or repeals a schedule of fees levied by the district, the committee shall notify by certified mail the owner or operator of each solid waste disposal facility that is required to collect the fees of the approval of the plan or amended plan, or the amendment to the plan, as appropriate, and the amount of the fees, if any. In the case of an initial or amended plan approved under section 3734.521 of the Revised Code in connection with a change in district composition, other than one involving the withdrawal of a county from a joint district, the committee, within fourteen days after the change takes effect pursuant to division (E) of that section, shall notify by certified mail the owner or operator of each solid waste disposal facility that is required to collect the fees that the change has taken effect and of the amount of the fees, if any. Collection of any fees shall commence or collection of repealed fees shall cease on the first day of the second month following the month in which notification is sent to the owner or operator.

If, in the case of a change in district composition involving the withdrawal of a county from a joint district, the director completes the actions required under section 3734.522 of the Revised Code, forty-five days or more before the

beginning of a calendar year, the policy committee of each of the districts resulting from the change that obtained the director's approval of an initial or amended plan in connection with the change, within fourteen days after the director's completion of the required actions, shall notify by certified mail the owner or operator of each solid waste disposal facility that is required to collect the district's fees that the change is to take effect on the first day of January immediately following the issuance of the notice and of the amount of the fees or amended fees levied under divisions (B)(1) to (3) of this section pursuant to the district's initial or amended plan as so approved or, if appropriate, the repeal of the district's fees by that initial or amended plan. Collection of any fees set forth in such a plan or amended plan shall commence on the first day of January immediately following the issuance of the notice. If such an initial or amended plan repeals a schedule of fees, collection of the fees shall cease on that first day of January.

If, in the case of a change in district composition involving the withdrawal of a county from a joint district, the director completes the actions required under section 3734.522 of the Revised Code, less than forty-five days before the beginning of a calendar year, the director, on behalf of each of the districts resulting from the change that obtained the director's approval of an initial or amended plan in connection with the change proceedings, shall notify by certified mail the owner or operator of each solid waste disposal facility that is required to collect the district's fees that the change is to take effect on the first day of January immediately following the mailing of the notice and of the amount of the fees or amended fees levied under divisions (B)(1) to (3) of this section pursuant to the district's initial or amended plan as so

approved or, if appropriate, the repeal of the district's fees by that initial or amended plan. Collection of any fees set forth in such a plan or amended plan shall commence on the first day of the second month following the month in which notification is sent to the owner or operator. If such an initial or amended plan repeals a schedule of fees, collection of the fees shall cease on the first day of the second month following the month in which notification is sent to the owner or operator.

If the schedule of fees that a solid waste management district is levying under divisions (B)(1) to (3) of this section is amended or repealed, the fees in effect immediately prior to the amendment or repeal shall continue to be collected until collection of the amended fees commences or collection of the repealed fees ceases, as applicable, as specified in this division. In the case of a change in district composition, money so received from the collection of the fees of the former districts shall be divided among the resulting districts in accordance with section 3734.522 of the Revised Code and the agreements entered into under division (B) of section 343.01 of the Revised Code to establish the former and resulting districts and any amendments to those agreements.

For the purposes of the provisions of division (B) of this section establishing the times when newly established or amended fees levied by a district are required to commence and the collection of fees that have been amended or repealed is required to cease, "fees" or "schedule of fees" includes, in addition to fees levied under divisions (B)(1) to (3) of this section, those levied under section 3734.573 or 3734.574 of the Revised Code.

(C) For the purposes of defraying the added costs to a municipal corporation or township of maintaining roads and other public facilities and of providing emergency and other public services, and compensating a municipal corporation or township for reductions in real property tax revenues due to reductions in real property valuations resulting from the location and operation of a solid waste disposal facility within the municipal corporation or township, a municipal corporation or township in which such a solid waste disposal facility is located may levy a fee of not more than twenty-five cents per ton on the disposal of solid wastes at a solid waste disposal facility located within the boundaries of the municipal corporation or township regardless of where the wastes were generated.

The legislative authority of a municipal corporation or township may levy fees under this division by enacting an ordinance or adopting a resolution establishing the amount of the fees. Upon so doing the legislative authority shall mail a certified copy of the ordinance or resolution to the board of county commissioners or directors of the county or joint solid waste management district in which the municipal corporation or township is located or, if a regional solid waste management authority has been formed under section 343.011 of the Revised Code, to the board of trustees of that regional authority, the owner or operator of each solid waste disposal facility in the municipal corporation or township that is required to collect the fee by the ordinance or resolution, and the director of environmental protection. Although the fees levied under this division are levied on the basis of tons as the unit of measurement, the legislative authority, in its ordinance or resolution levying the fees under this division, may direct that

the fees be levied on the basis of cubic yards as the unit of measurement based upon a conversion factor of three cubic yards per ton generally or one cubic yard per ton for baled wastes.

Not later than five days after enacting an ordinance or adopting a resolution under this division, the legislative authority shall so notify by certified mail the owner or operator of each solid waste disposal facility that is required to collect the fee. Collection of any fee levied on or after March 24, 1992, shall commence on the first day of the second month following the month in which notification is sent to the owner or operator.

(D)(1) The fees levied under divisions (A), (B), and (C) of this section do not apply to the disposal of solid wastes that:

(a) Are disposed of at a facility owned by the generator of the wastes when the solid waste facility exclusively disposes of solid wastes generated at one or more premises owned by the generator regardless of whether the facility is located on a premises where the wastes are generated;

(b) Are generated from the combustion of coal, or from the combustion of primarily coal, regardless of whether the disposal facility is located on the premises where the wastes are generated;

(c) Are asbestos or asbestos-containing materials or products disposed of at a construction and demolition debris facility that is licensed under Chapter 3714. of the Revised Code or at a solid waste facility that is licensed under this chapter.

(2) Except as provided in section 3734.571 of the Revised

Code, any fees levied under division (B)(1) of this section apply to solid wastes originating outside the boundaries of a county or joint district that are covered by an agreement for the joint use of solid waste facilities entered into under section 343.02 of the Revised Code by the board of county commissioners or board of directors of the county or joint district where the wastes are generated and disposed of.

(3) When solid wastes, other than solid wastes that consist of scrap tires, are burned in a disposal facility that is an incinerator or energy recovery facility, the fees levied under divisions (A), (B), and (C) of this section shall be levied upon the disposal of the fly ash and bottom ash remaining after burning of the solid wastes and shall be collected by the owner or operator of the sanitary landfill where the ash is disposed of.

(4) When solid wastes are delivered to a solid waste transfer facility, the fees levied under divisions (B) and (C) of this section shall be levied upon the disposal of solid wastes transported off the premises of the transfer facility for disposal and shall be collected by the owner or operator of the solid waste disposal facility where the wastes are disposed of.

(5) The fees levied under divisions (A), (B), and (C) of this section do not apply to sewage sludge that is generated by a waste water treatment facility holding a national pollutant discharge elimination system permit and that is disposed of through incineration, land application, or composting or at another resource recovery or disposal facility that is not a landfill.

(6) The fees levied under divisions (A), (B), and (C) of this section do not apply to solid wastes delivered to a solid

waste composting facility for processing. When any unprocessed solid waste or compost product is transported off the premises of a composting facility and disposed of at a landfill, the fees levied under divisions (A), (B), and (C) of this section shall be collected by the owner or operator of the landfill where the unprocessed waste or compost product is disposed of.

(7) When solid wastes that consist of scrap tires are processed at a scrap tire recovery facility, the fees levied under divisions (A), (B), and (C) of this section shall be levied upon the disposal of the fly ash and bottom ash or other solid wastes remaining after the processing of the scrap tires and shall be collected by the owner or operator of the solid waste disposal facility where the ash or other solid wastes are disposed of.

(8) The director of environmental protection may issue an order exempting from the fees levied under this section solid wastes, including, but not limited to, scrap tires, that are generated, transferred, or disposed of as a result of a contract providing for the expenditure of public funds entered into by the administrator or regional administrator of the United States environmental protection agency, the director of environmental protection, or the director of administrative services on behalf of the director of environmental protection for the purpose of remediating conditions at a hazardous waste facility, solid waste facility, or other location at which the administrator or regional administrator or the director of environmental protection has reason to believe that there is a substantial threat to public health or safety or the environment or that the conditions are causing or contributing to air or water pollution or soil contamination. An order issued by the director of environmental protection under division (D)(8) of this section

shall include a determination that the amount of the fees not received by a solid waste management district as a result of the order will not adversely impact the implementation and financing of the district's approved solid waste management plan and any approved amendments to the plan. Such an order is a final action of the director of environmental protection.

(E) The fees levied under divisions (B) and (C) of this section shall be collected by the owner or operator of the solid waste disposal facility where the wastes are disposed of as a trustee for the county or joint district and municipal corporation or township where the wastes are disposed of. Moneys from the fees levied under division (B) of this section shall be forwarded to the board of county commissioners or board of directors of the district in accordance with rules adopted under division (H) of this section. Moneys from the fees levied under division (C) of this section shall be forwarded to the treasurer or such other officer of the municipal corporation as, by virtue of the charter, has the duties of the treasurer or to the fiscal officer of the township, as appropriate, in accordance with those rules.

(F) Moneys received by the treasurer or other officer of the municipal corporation under division (E) of this section shall be paid into the general fund of the municipal corporation. Moneys received by the fiscal officer of the township under that division shall be paid into the general fund of the township. The treasurer or other officer of the municipal corporation or the township fiscal officer, as appropriate, shall maintain separate records of the moneys received from the fees levied under division (C) of this section.

(G) Moneys received by the board of county commissioners

or board of directors under division (E) of this section or section 3734.571, 3734.572, 3734.573, or 3734.574 of the Revised Code shall be paid to the county treasurer, or other official acting in a similar capacity under a county charter, in a county district or to the county treasurer or other official designated by the board of directors in a joint district and kept in a separate and distinct fund to the credit of the district. If a regional solid waste management authority has been formed under section 343.011 of the Revised Code, moneys received by the board of trustees of that regional authority under division (E) of this section shall be kept by the board in a separate and distinct fund to the credit of the district. Moneys in the special fund of the county or joint district arising from the fees levied under division (B) of this section and the fee levied under division (A) of section 3734.573 of the Revised Code shall be expended by the board of county commissioners or directors of the district in accordance with the district's solid waste management plan or amended plan approved under section 3734.521, 3734.55, or 3734.56 of the Revised Code exclusively for the following purposes:

(1) Preparation of the solid waste management plan of the district under section 3734.54 of the Revised Code, monitoring implementation of the plan, and conducting the periodic review and amendment of the plan required by section 3734.56 of the Revised Code by the solid waste management policy committee;

(2) Implementation of the approved solid waste management plan or amended plan of the district, including, without limitation, the development and implementation of solid waste recycling or reduction programs;

(3) Providing financial assistance to boards of health

within the district, if solid waste facilities are located within the district, for enforcement of this chapter and rules, orders, and terms and conditions of permits, licenses, and variances adopted or issued under it, other than the hazardous waste provisions of this chapter and rules adopted and orders and terms and conditions of permits issued under those provisions;

(4) Providing financial assistance to each county within the district to defray the added costs of maintaining roads and other public facilities and of providing emergency and other public services resulting from the location and operation of a solid waste facility within the county under the district's approved solid waste management plan or amended plan;

(5) Pursuant to contracts entered into with boards of health within the district, if solid waste facilities contained in the district's approved plan or amended plan are located within the district, for paying the costs incurred by those boards of health for collecting and analyzing samples from public or private water wells on lands adjacent to those facilities;

(6) Developing and implementing a program for the inspection of solid wastes generated outside the boundaries of this state that are disposed of at solid waste facilities included in the district's approved solid waste management plan or amended plan;

(7) Providing financial assistance to boards of health within the district for the enforcement of section 3734.03 of the Revised Code or to local law enforcement agencies having jurisdiction within the district for enforcing anti-littering laws and ordinances;

(8) Providing financial assistance to boards of health of health districts within the district that are on the approved list under section 3734.08 of the Revised Code to defray the costs to the health districts for the participation of their employees responsible for enforcement of the solid waste provisions of this chapter and rules adopted and orders and terms and conditions of permits, licenses, and variances issued under those provisions in the training and certification program as required by rules adopted under division (L) of section 3734.02 of the Revised Code;

(9) Providing financial assistance to individual municipal corporations and townships within the district to defray their added costs of maintaining roads and other public facilities and of providing emergency and other public services resulting from the location and operation within their boundaries of a composting, energy or resource recovery, incineration, or recycling facility that either is owned by the district or is furnishing solid waste management facility or recycling services to the district pursuant to a contract or agreement with the board of county commissioners or directors of the district;

(10) Payment of any expenses that are agreed to, awarded, or ordered to be paid under section 3734.35 of the Revised Code and of any administrative costs incurred pursuant to that section. In the case of a joint solid waste management district, if the board of county commissioners of one of the counties in the district is negotiating on behalf of affected communities, as defined in that section, in that county, the board shall obtain the approval of the board of directors of the district in order to expend moneys for administrative costs incurred.

(11) Providing financial assistance to individual

counties, boards of health, municipal corporations, and townships for the costs of mitigating impacts to public health, safety, and welfare of solid waste disposal or transfer facilities within the applicable political subdivision.

Prior to the approval of the district's solid waste management plan under section 3734.55 of the Revised Code, moneys in the special fund of the district arising from the fees shall be expended for those purposes in the manner prescribed by the solid waste management policy committee by resolution.

(H) The director shall adopt rules in accordance with Chapter 119. of the Revised Code prescribing procedures for collecting and forwarding the fees levied under divisions (B) and (C) of this section to the boards of county commissioners or directors of county or joint solid waste management districts and to the treasurers or other officers of municipal corporations and the fiscal officers of townships. The rules also shall prescribe the dates for forwarding the fees to the boards and officials ~~and may prescribe any other requirements the director considers necessary or appropriate to implement and administer divisions (A), (B), and (C) of this section~~.

Sec. 3734.574. (A)(1) A county or joint solid waste management district that is levying fees under division (B) of section 3734.57 of the Revised Code on October 29, 1993, pursuant to a resolution adopted under that division and former Section 25 of Am. Sub. S.B. 359 of the 119th general assembly, or one that is levying those fees pursuant to such a resolution and for which the director of environmental protection disapproves the initial solid waste management plan of the district under section 3734.55 of the Revised Code on or after October 29, 1993, may continue to levy those fees until the

district abolishes them under division (D) of this section, the director issues an order under division (F) of this section requiring the district to cease levying the fees, or the district obtains approval of its own plan under section 3734.521 or 3734.56 of the Revised Code and collection of the fees established in the approved plan commences in accordance with division (B) of section 3734.57 of the Revised Code.

(2) A county or joint solid waste management district that is levying fees under division (B) of section 3734.57 of the Revised Code or division (A) of section 3734.573 of the Revised Code under an initial or amended solid waste management plan approved under section 3734.521, 3734.55, or 3734.56 of the Revised Code when the director issues an order under division (D) of section 3734.521 of the Revised Code or division (A) or (B) of section 3734.56 of the Revised Code requiring the district to implement an amended plan prepared by the director, may continue to levy those fees until the district abolishes them under division (D) of this section, the director issues an order under division (F) of this section requiring the district to cease levying the fees, or the district obtains approval of its own plan or amended plan under section 3734.521 or 3734.56 of the Revised Code and collection of the fees established in the approved plan or amended plan commences in accordance with division (B) of section 3734.57 of the Revised Code.

(B) The solid waste management policy committee of a county or joint district described in division (A)(1) of this section may levy a fee under division (A) of section 3734.573 of the Revised Code by adopting and obtaining ratification of a resolution establishing the amount of the fee. The policy committee of such a district that, after December 1, 1993, concurrently proposes to levy a fee under division (A) of

section 3734.573 of the Revised Code and to amend the fees that the district is levying under division (B) of section 3734.57 of the Revised Code may adopt and obtain ratification of one resolution to do both. A county or joint district that is ordered under division (D) of section 3734.521 of the Revised Code to implement an initial plan prepared by the director may levy fees under division (B) of section 3734.57 of the Revised Code or division (A) of section 3734.573 of the Revised Code by adopting and obtaining ratification of a resolution specifying which of the fees are to be levied and their amounts. The requirements and procedures set forth in division (B) of section 3734.57 of the Revised Code governing the adoption of resolutions levying fees under that division, the ratification of those resolutions, and the notification of owners and operators of solid waste facilities required to collect fees under those divisions govern the adoption and ratification of resolutions levying fees under this division and the notification of owners and operators required to collect the fees levied under this division, except as otherwise specifically provided in division (C) of this section. Any such district may levy fees under this division until the district abolishes the fees under division (D) of this section, the director issues an order under division (F) of this section requiring the district to cease levying the fees, or the district obtains approval of its own plan or amended plan under section 3734.521 or 3734.56 of the Revised Code and collection of the fees established in the approved plan or amended plan commences in accordance with division (B) of section 3734.57 of the Revised Code.

(C) Any resolution adopted under division (B) of this section that proposes to levy a fee under division (A) of

section 3734.573 of the Revised Code that exceeds five dollars per ton shall be ratified in accordance with the provisions of division (B) of section 3734.57 of the Revised Code, except that such a resolution shall be approved by a combination of municipal corporations and townships with a combined population within the boundaries of the district comprising at least seventy-five per cent, rather than at least sixty per cent, of the total population of the district.

(D) The policy committee of a county or joint district may amend fees levied by the district under division (A) or (B) of this section by adopting and obtaining ratification of a resolution establishing the proposed amount of the amended fees. The committee may abolish any of those fees or any amended fees established under this division by adopting and obtaining ratification of a resolution repealing them. A district that is proposing at the same time to amend or abolish the fees levied under divisions (A) and (B) of this section may adopt one resolution proposing the amendment or repeal of all of the fees. The requirements and procedures under division (B) and, if applicable, division (C) of this section govern the adoption and ratification of a resolution authorized to be adopted under this division and the notification of owners and operators of solid waste facilities required to collect the fees. Collection of the fees so amended or abolished commences or ceases in accordance with division (B) of section 3734.57 of the Revised Code.

(E) Not later than thirty days before the beginning of each calendar quarter, the board of county commissioners or board of directors of a district that is levying fees under division (A) or (B) of this section shall submit to the director a proposed budget for the expenditure of moneys from the special fund of the district created under division (G) of section

3734.57 of the Revised Code. The proposed budget shall be submitted on a form prescribed by the director.

The director may disapprove in whole or in part such a proposed quarterly budget for any of the following reasons:

(1) The proposed budget includes expenditures for any purpose other than those authorized under division (G) of section 3734.57 of the Revised Code;

(2) The director reasonably estimates that there will be insufficient moneys in the special fund created to meet the proposed expenditures;

(3) The board failed to submit the proposed budget to the director at least thirty days prior to the beginning of the calendar quarter to which it pertains;

(4) The board failed to submit the latest report of quarterly expenditures from the fund that it was required to submit under section 3734.575 of the Revised Code within thirty days after the end of the calendar quarter to which it pertains;

(5) The district is materially failing to comply with the implementation schedule contained in the plan or amended plan of the district prepared and ordered to be implemented under section 3734.521, 3734.55, or 3734.56 of the Revised Code;

(6) There have been repeated inconsistencies between the expenditures projected in the proposed budgets submitted under division (E) of this section and actual expenditures from the fund.

If the director does not disapprove a proposed quarterly budget prior to the first day of the calendar quarter to which it pertains, it is conclusively presumed that the proposed

budget has not been disapproved.

No fee shall be charged for any issuance for which no application has been submitted to the director.

(B) Except as otherwise provided in division (C)(2) of this section, beginning July 1, 1994, each person who owns or operates an air contaminant source and who is required to apply for and obtain a Title V permit under section 3704.036 of the Revised Code shall pay an annual fee of five thousand dollars in addition to the fees set forth in this division. For the purposes of this division, total emissions of air contaminants may be calculated using engineering calculations, emissions factors, material balance calculations, or performance testing procedures, as authorized by the director.

The following fees shall be assessed on the total actual emissions from a source in tons per year of the regulated pollutants particulate matter, sulfur dioxide, nitrogen oxides, organic compounds, and lead:

(1) Fifteen dollars per ton on the total actual emissions of each such regulated pollutant during the period July through December 1993, to be collected no sooner than July 1, 1994;

(2) Twenty dollars per ton on the total actual emissions of each such regulated pollutant during calendar year 1994, to be collected no sooner than April 15, 1995;

The fees levied under this division do not apply to that portion of the emissions of a regulated pollutant at a facility that exceed four thousand tons during a calendar year.

(C)(1) The fees assessed under division (B) of this

section are for the purpose of providing funding for the Title V permit program.

(2) The fees assessed under division (B) of this section do not apply to emissions from any electric generating unit designated as a Phase I unit under Title IV of the federal Clean Air Act prior to calendar year 2000. Those fees shall be assessed on the emissions from such a generating unit commencing in calendar year 2001 based upon the total actual emissions from the generating unit during calendar year 2000 and shall continue to be assessed each subsequent calendar year based on the total actual emissions from the generating unit during the preceding calendar year.

(3) The director shall issue invoices to owners or operators of air contaminant sources who are required to pay a fee assessed under division (B) or (D) of this section. Any such invoice shall be issued no sooner than the applicable date when the fee first may be collected in a year under the applicable division, shall identify the nature and amount of the fee assessed, and shall indicate that the fee is required to be paid within thirty days after the issuance of the invoice.

(D)(1) Except as provided in division (D)(2) of this section, beginning January 1, 2004, each person who owns or operates an air contaminant source; who is required to apply for a permit to operate pursuant to rules adopted under division ~~(G), or a variance pursuant to division (H),~~(F) of section 3704.03 of the Revised Code; and who is not required to apply for and obtain a Title V permit under section 3704.03 of the Revised Code shall pay a single fee based upon the sum of the actual annual emissions from the facility of the regulated pollutants particulate matter, sulfur dioxide, nitrogen oxides,

organic compounds, and lead in accordance with the following schedule:

	1	2

D	50 or more, but less than 100	300
E	100 or more	700

(2)(a) As used in division (D) of this section, "synthetic minor facility" means a facility for which one or more permits to install or permits to operate have been issued for the air contaminant sources at the facility that include terms and conditions that lower the facility's potential to emit air contaminants below the major source thresholds established in rules adopted under section 3704.036 of the Revised Code.

(b) Through June 30, 2028, each person who owns or operates a synthetic minor facility shall pay an annual fee of five thousand dollars in addition to a fee based on the sum of the actual annual emissions from the facility of particulate matter, sulfur dioxide, nitrogen dioxide, organic compounds, and lead in accordance with the following schedule:

	1	2

The fees assessed under division (D)(2) of this section shall be collected no sooner than the fifteenth day of April, commencing in 2000. The fees assessed under division (D) of this section in a calendar year

shall be based upon the sum of the actual emissions of those regulated pollutants during the preceding calendar year. For the purpose of division (D) of this section, emissions of air contaminants may be calculated using engineering calculations, emission factors, material balance calculations, or performance testing procedures, as authorized by the director. The director, by rule, may require persons who are required to pay the fees assessed under division (D) of this section to pay those fees biennially rather than annually.

(E)(1) Consistent with the need to cover the reasonable costs of the Title V permit program, the director annually shall increase the fees assessed on emissions prescribed in division (B) of this section by the percentage, if any, by which the consumer price index for the most recent calendar year ending before the beginning of a year exceeds the consumer price index for calendar year 1989. Upon calculating an increase in fees authorized by division (E)(1) of this section, the director shall compile revised fee schedules for the purposes of division (B) of this section and shall make the revised schedules available to persons required to pay the fees assessed under that division and to the public.

(2) For the purposes of division (E)(1) of this section:

(a) The consumer price index for any year is the average of the consumer price index for all urban consumers published by the United States department of labor as of the close of the twelve-month period ending on the thirty-first day of August of that year.

(b) If the 1989 consumer price index is revised, the director shall use the revision of the consumer price index that is most consistent with that for calendar year 1989.

The annual volume of sewage sludge treated or disposed of by a sewage sludge facility shall be calculated using the first day of January through the thirty-first day of December of the calendar year preceding the date on which payment of the fee is due.

(2)(a) Except as provided in division (X)(2)(d) of this section, each sewage sludge facility shall pay a minimum annual sewage sludge fee of one hundred dollars.

(d) A sewage sludge facility that generates sewage sludge resulting from an average daily discharge flow of less than five thousand gallons per day is not subject to the fees assessed under division (X) of this section.

(3) No sewage sludge facility required to pay the annual sludge fee shall be required to pay more than the maximum annual fee for each disposal method that the sewage sludge facility uses. The maximum annual fee does not include the additional amount that may be charged under division (X)(5) of this section for late payment of the annual sludge fee. The maximum annual fee for the following methods of disposal of sewage sludge is as follows:

(a) Incineration: five thousand dollars;

(b) Preexisting land reclamation project or disposal in a landfill: five thousand dollars;

(c) Land application, land reclamation, surface disposal, or any other disposal method not specified in division (X)(3)(a) or (b) of this section: twenty thousand dollars.

(4)(a) In the case of an entity that generates sewage sludge or a sewage sludge facility that treats sewage sludge and transfers the sewage sludge to an incineration facility for disposal, the incineration facility, and not the entity generating the sewage sludge or the sewage sludge facility treating the sewage sludge, shall pay the annual sludge fee for the tons of sewage sludge that are transferred. However, the entity or facility generating or treating the sewage sludge shall pay the one-hundred-dollar minimum fee required under division (X)(2)(a) of this section.

(b) In the case of an entity that generates sewage sludge and transfers the sewage sludge to a landfill for disposal or to a sewage sludge facility for land reclamation or surface disposal, the entity generating the sewage sludge, and not the landfill or sewage sludge facility, shall pay the annual sludge fee for the tons of sewage sludge that are transferred.

(5) Not later than the first day of April of the calendar year following March 17, 2000, and each first day of April thereafter, the director shall issue invoices to persons who are required to pay the annual sludge fee. The invoice shall identify the nature and amount of the annual sludge fee assessed and state the first day of May as the deadline for receipt by the director of objections regarding the amount of the fee and

the first day of July as the deadline for payment of the fee.

Not later than the first day of May following receipt of an invoice, a person required to pay the annual sludge fee may submit objections to the director concerning the accuracy of information regarding the number of dry tons of sewage sludge used to calculate the amount of the annual sludge fee or regarding whether the sewage sludge qualifies for the exceptional quality sludge discount established in division (X)(2)(b) of this section. The director may consider the objections and adjust the amount of the fee to ensure that it is accurate.

If the director does not adjust the amount of the annual sludge fee in response to a person's objections, the person may appeal the director's determination in accordance with Chapter 119. of the Revised Code.

Not later than the first day of June, the director shall notify the objecting person regarding whether the director has found the objections to be valid and the reasons for the finding. If the director finds the objections to be valid and adjusts the amount of the annual sludge fee accordingly, the director shall issue with the notification a new invoice to the person identifying the amount of the annual sludge fee assessed and stating the first day of July as the deadline for payment.

Not later than the first day of July, any person who is required to do so shall pay the annual sludge fee. Any person who is required to pay the fee, but who fails to do so on or before that date shall pay an additional amount that equals ten per cent of the required annual sludge fee.

(6) The director shall transmit all moneys collected under division (X) of this section to the treasurer of state for

deposit into the surface water protection fund created in section 6111.038 of the Revised Code. The moneys shall be used to defray the costs of administering and enforcing provisions in Chapter 6111. of the Revised Code and rules adopted under it that govern the use, storage, treatment, or disposal of sewage sludge.

(7) Beginning in fiscal year 2001, and every two years thereafter, the director shall review the total amount of moneys generated by the annual sludge fees to determine if that amount exceeded six hundred thousand dollars in either of the two preceding fiscal years. If the total amount of moneys in the fund exceeded six hundred thousand dollars in either fiscal year, the director, after review of the fee structure and consultation with affected persons, shall issue an order reducing the amount of the fees levied under division (X) of this section so that the estimated amount of moneys resulting from the fees will not exceed six hundred thousand dollars in any fiscal year.

If, upon review of the fees under division (X)(7) of this section and after the fees have been reduced, the director determines that the total amount of moneys collected and accumulated is less than six hundred thousand dollars, the director, after review of the fee structure and consultation with affected persons, may issue an order increasing the amount of the fees levied under division (X) of this section so that the estimated amount of moneys resulting from the fees will be approximately six hundred thousand dollars. Fees shall never be increased to an amount exceeding the amount specified in division (X)(7) of this section.

Notwithstanding section 119.06 of the Revised Code, the

Sec. 3746.04. The director of environmental protection, in accordance with Chapter 119. of the Revised Code, shall adopt, and subsequently may amend, suspend, or rescind, rules that do both of the following:

(A) Revise the rules adopted under Chapters 3704., 3714., 3734., 6109., and 6111. of the Revised Code to incorporate the provisions necessary to conform those rules to the requirements of this chapter. The amended rules adopted under this division also shall establish response times for all submittals to the environmental protection agency required under this chapter or rules adopted under it.

(B) Establish ~~requirements and procedures that are reasonably necessary for the implementation and administration of this chapter, including, without limitation,~~ all of the following:

(1) Appropriate generic numerical clean-up standards for the treatment or removal of soils, sediments, and water media

for hazardous substances and petroleum. The rules shall establish separate generic numerical clean-up standards based upon the intended use of properties after the completion of voluntary actions, including industrial, commercial, and residential uses and such other categories of land use as the director considers to be appropriate. The generic numerical clean-up standards established for each category of land use shall be the concentration of each contaminant that may be present on a property that shall ensure protection of public health and safety and the environment for the reasonable exposure for that category of land use. When developing the standards, the director shall consider such factors as all of the following:

(a) Scientific information, including, without limitation, toxicological information and realistic assumptions regarding human and environmental exposure to hazardous substances or petroleum;

(b) Climatic factors;

(c) Human activity patterns;

(d) Current statistical techniques;

(e) For petroleum at industrial property, alternatives to the use of total petroleum hydrocarbons.

The generic numerical clean-up standards established in the rules adopted under division (B)(1) of this section shall be consistent with and equivalent in scope, content, and coverage to any applicable standard established by federal environmental laws and regulations adopted under them, including, without limitation, the "Federal Water Pollution Control Act Amendments of 1972," 86 Stat. 886, 33 U.S.C.A. 1251, as amended; the

In order for the rules adopted under division (B)(1) of this section to require that any such federal environmental standard apply to a property, the property shall meet the requirements of the particular federal statute or regulation involved in the manner specified by the statute or regulation.

The generic numerical clean-up standards for petroleum at commercial or residential property shall be the standards established in rules adopted under division (B) of section 3737.882 of the Revised Code.

(2)(a) Procedures for performing property-specific risk assessments that would be performed at a property to demonstrate that the remedy evaluated in a risk assessment results in protection of public health and safety and the environment instead of complying with the generic numerical clean-up standards established in the rules adopted under division (B)(1) of this section. The risk assessment procedures shall describe a methodology to establish, on a property-specific basis, allowable levels of contamination to remain at a property to ensure protection of public health and safety and the environment on the property and off the property when the contamination is emanating off the property, taking into account all of the following:

(i) The implementation of treatment, storage, or disposal,

or a combination thereof, of hazardous substances or petroleum;

(ii) The existence of institutional controls or activity and use limitations that eliminate or mitigate exposure to hazardous substances or petroleum through the restriction of access to hazardous substances or petroleum;

(iii) The existence of engineering controls that eliminate or mitigate exposure to hazardous substances or petroleum through containment of, control of, or restrictions of access to hazardous substances or petroleum, including, without limitation, fences, cap systems, cover systems, and landscaping.

(b) The risk assessment procedures and levels of acceptable risk set forth in the rules adopted under division (B)(2) of this section shall be based upon all of the following:

(ii) Locational and climatic factors;

(iii) Surrounding land use and human activities;

(iv) Differing levels of remediation that may be required when an existing land use is continued compared to when a different land use follows the remediation.

(c) Any standards established pursuant to rules adopted under division (B)(2) of this section shall be no more stringent than standards established under the environmental statutes of this state and rules adopted under them for the same contaminant in the same environmental medium that are in effect at the time the risk assessment is conducted.

(3) Minimum standards for phase I property assessments.

The standards shall specify the information needed to demonstrate that there is no reason to believe that contamination exists on a property. The rules adopted under division (B)(3) of this section, at a minimum, shall require that a phase I property assessment include all of the following:

(a) A review and analysis of deeds, mortgages, easements of record, and similar documents relating to the chain of title to the property that are publicly available or that are known to and reasonably available to the owner or operator;

(b) A review and analysis of any previous environmental assessments, property assessments, environmental studies, or geologic studies of the property and any land within two thousand feet of the boundaries of the property that are publicly available or that are known to and reasonably available to the owner or operator;

(c) A review of current and past environmental compliance histories of persons who owned or operated the property;

(d) A review of aerial photographs of the property that indicate prior uses of the property;

(e) Interviews with managers of activities conducted at the property who have knowledge of environmental conditions at the property;

(f) Conducting an inspection of the property consisting of a walkover;

(g) Identifying the current and past uses of the property, adjoining tracts of land, and the area surrounding the property, including, without limitation, interviews with persons who reside or have resided, or who are or were employed, within the area surrounding the property regarding the current and past

uses of the property and adjacent tracts of land.

The rules adopted under division (B)(3) of this section shall establish criteria to determine when a phase II property assessment shall be conducted when a phase I property assessment reveals facts that establish a reason to believe that hazardous substances or petroleum have been treated, stored, managed, or disposed of on the property if the person undertaking the phase I property assessment wishes to obtain a covenant not to sue under section 3746.12 of the Revised Code.

(4) Minimum standards for phase II property assessments. The standards shall specify the information needed to demonstrate that any contamination present at the property does not exceed applicable standards or that the remedial activities conducted at the property have achieved compliance with applicable standards. The rules adopted under division (B)(4) of this section, at a minimum, shall require that a phase II property assessment include all of the following:

(a) A review and analysis of all documentation prepared in connection with a phase I property assessment conducted within the one hundred eighty days before the phase II property assessment begins. The rules adopted under division (B)(4)(a) of this section shall require that if a period of more than one hundred eighty days has passed between the time that the phase I assessment of the property was completed and the phase II assessment begins, the phase II assessment shall include a reasonable inquiry into the change in the environmental condition of the property during the intervening period.

(b) Quality assurance objectives for measurements taken in connection with a phase II assessment;

(c) Sampling procedures to ensure the representative sampling of potentially contaminated environmental media;

(d) Quality assurance and quality control requirements for samples collected in connection with phase II assessments;

(e) Analytical and data assessment procedures;

(f) Data objectives to ensure that samples collected in connection with phase II assessments are biased toward areas where information indicates that contamination by hazardous substances or petroleum is likely to exist.

(5) Standards governing the conduct of certified professionals, criteria and procedures for the certification of professionals to issue no further action letters under section 3746.11 of the Revised Code, and criteria for the suspension and revocation of those certifications. The director shall take an action regarding a certification as a final action. The issuance, denial, renewal, suspension, and revocation of those certifications are subject to Chapter 3745. of the Revised Code, except that, in lieu of publishing an action regarding a certification in a newspaper of general circulation as required in section 3745.07 of the Revised Code, such an action shall be published on the environmental protection agency's web site and in the agency's weekly review not later than fifteen days after the date of the issuance, denial, renewal, suspension, or revocation of the certification and not later than thirty days before a hearing or public meeting concerning the action.

The rules adopted under division (B)(5) of this section shall do all of the following:

(a) Provide for the certification of environmental professionals to issue no further action letters pertaining to

investigations and remedies in accordance with the criteria and procedures set forth in the rules. The rules adopted under division (B)(5)(a) of this section shall do at least all of the following:

(i) Authorize the director to consider such factors as an environmental professional's previous performance record regarding such investigations and remedies and the environmental professional's environmental compliance history when determining whether to certify the environmental professional;

(iv) Require the director to deny certification for any environmental professional who does not comply with those criteria.

(b) Establish an annual fee to be paid by environmental professionals certified pursuant to the rules adopted under division (B)(5)(a) of this section. The fee shall be established at an amount calculated to defray the costs to the agency for the required reviews of the qualifications of environmental professionals for certification and for the issuance of the certifications.

(c) Develop a schedule for and establish requirements governing the review by the director of the credentials of environmental professionals who were deemed to be certified professionals before ~~the effective date of this amendment~~ September 30, 2021, in order to determine if they comply with

the criteria established in rules adopted under division (B)(5) of this section. The rules adopted under division (B)(5)(c) of this section shall do at least all of the following:

(i) Ensure that the review is conducted in a timely fashion;

(ii) Require the director to certify any such environmental professional who the director determines complies with those criteria;

(iii) Require any such environmental professional initially to pay the fee established in the rules adopted under division (B)(5)(b) of this section at the time that the environmental professional is so certified by the director;

(iv) Establish a time period within which any such environmental professional who does not comply with those criteria may obtain the credentials that are necessary for certification;

(v) Require the director to deny certification for any such environmental professional who does not comply with those criteria and who fails to obtain the necessary credentials within the established time period.

(d) Require that any information submitted to the director for the purposes of the rules adopted under division (B)(5)(a) or (c) of this section comply with division (A) of section 3746.20 of the Revised Code;

(e) Authorize the director to suspend or revoke the certification of an environmental professional if the director finds that the environmental professional's performance has resulted in the issuance of no further action letters under section 3746.11 of the Revised Code that are not consistent with

applicable standards or finds that the certified environmental professional has not substantially complied with section 3746.31 of the Revised Code;

(f) Authorize the director to suspend for a period of not more than five years or to permanently revoke a certified environmental professional's certification for any violation of or failure to comply with an ethical standard established in rules adopted under division (B)(5) of this section;

(g) Require the director to revoke the certification of an environmental professional if the director finds that the environmental professional falsified any information on the environmental professional's application for certification regarding the environmental professional's credentials or qualifications or any other information generated for the purposes of or use under this chapter or rules adopted under it;

(h) Require the director permanently to revoke the certification of an environmental professional who has violated or is violating division (A) of section 3746.18 of the Revised Code;

(i) Preclude the director from revoking the certification of an environmental professional who only conducts investigations and remedies at property contaminated solely with petroleum unless the director first consults with the director of commerce.

(6) Information to be included in a no further action letter prepared under section 3746.11 of the Revised Code, including, without limitation, all of the following:

(a) A summary of the information required to be submitted to the certified environmental professional preparing the no

further action letter under division (C) of section 3746.10 of the Revised Code;

(b) Notification that a risk assessment was performed in accordance with rules adopted under division (B)(2) of this section if such an assessment was used in lieu of generic numerical clean-up standards established in rules adopted under division (B)(1) of this section;

(c) The contaminants addressed at the property, if any, their source, if known, and their levels prior to remediation;

(d) The identity of any other person who performed work to support the request for the no further action letter as provided in division (B)(2) of section 3746.10 of the Revised Code and the nature and scope of the work performed by that person;

The fees established pursuant to the rules adopted under division (B)(7) of this section shall be at a level sufficient to defray the direct and indirect costs incurred by the agency for the administration and enforcement of this chapter and rules adopted under it other than the provisions regarding the certification of professionals and laboratories.

(8) Criteria for selecting the no further action letters issued under section 3746.11 of the Revised Code that will be audited under section 3746.17 of the Revised Code, and the scope and procedures for conducting those audits. The rules adopted under division (B)(8) of this section, at a minimum, shall require the director to establish priorities for auditing no further action letters to which any of the following applies:

(f) The letter was for a voluntary action that included as remedial activities engineering controls or institutional controls or activity and use limitations authorized under section 3746.05 of the Revised Code.

The rules adopted under division (B)(8) of this section shall provide for random audits of no further action letters to which the rules adopted under divisions (B)(8)(a) to (f) of this section do not apply.

(9) A classification system to characterize ground water according to its capability to be used for human use and its impact on the environment and a methodology that shall be used to determine when ground water that has become contaminated from sources on a property for which a covenant not to sue is requested under section 3746.11 of the Revised Code shall be remediated to the standards established in the rules adopted under division (B)(1) or (2) of this section.

(a) In adopting rules under division (B)(9) of this

section to characterize ground water according to its capability for human use, the director shall consider all of the following:

(i) The presence of legally enforceable, reliable restrictions on the use of ground water, including, without limitation, local rules or ordinances;

(ii) The presence of regional commingled contamination from multiple sources that diminishes the quality of ground water;

(iii) The natural quality of ground water;

(iv) Regional availability of ground water and reasonable alternative sources of drinking water;

(v) The productivity of the aquifer;

(ii) The availability and feasibility of technology to remedy ground water contamination.

(10) Governing the application for and issuance of variances under section 3746.09 of the Revised Code;

(11)(a) In the case of voluntary actions involving

contaminated ground water, specifying the circumstances under which the generic numerical clean-up standards established in rules adopted under division (B)(1) of this section and standards established through a risk assessment conducted pursuant to rules adopted under division (B)(2) of this section shall be inapplicable to the remediation of contaminated ground water and under which the standards for remediating contaminated ground water shall be established on a case-by-case basis prior to the commencement of the voluntary action pursuant to rules adopted under division (B)(11)(b) of this section;

(b) Criteria and procedures for the case-by-case establishment of standards for the remediation of contaminated ground water under circumstances in which the use of the generic numerical clean-up standards and standards established through a risk assessment are precluded by the rules adopted under division (B)(11)(a) of this section. The rules governing the procedures for the case-by-case development of standards for the remediation of contaminated ground water shall establish application, public participation, adjudication, and appeals requirements and procedures that are equivalent to the requirements and procedures established in section 3746.09 of the Revised Code and rules adopted under division (B)(10) of this section, except that the procedural rules shall not require an applicant to make the demonstrations set forth in divisions (A)(1) to (3) of section 3746.09 of the Revised Code.

(12) A definition of the evidence that constitutes sufficient evidence for the purpose of division (A)(5) of section 3746.02 of the Revised Code.

The appointed members, to the extent practicable, shall have technical expertise in the field of emergency response. Of the appointed members, two shall represent environmental advocacy organizations, one shall represent the interests of petroleum refiners or marketers or chemical manufacturers, one shall represent the interests of another industry subject to this chapter, one shall represent the interests of municipal corporations, one shall represent the interests of counties, one shall represent the interests of chiefs of fire departments, one shall represent the interests of professional firefighters, one shall represent the interests of

volunteer firefighters, and one shall represent the interests of local emergency management agencies.

An appointed member of the commission also may serve as a member of the local emergency planning committee of an emergency planning district. An appointed member of the commission who is also a member of a local emergency planning committee shall not participate as a member of the commission in the appointment of members of the local emergency planning committee of which the member is a member, in the review of the chemical emergency response and preparedness plan submitted by the local emergency planning committee of which the member is a member, in any vote to approve a grant to the member's district, or in any vote of the commission on any motion or resolution pertaining specifically to the member's district or the local emergency planning committee on which the member serves. A commission member who is also a member of a local emergency planning committee shall not lobby or otherwise act as an advocate for the member's district to other members of the commission to obtain from the commission anything of value for the member's district or the local emergency planning committee of which the member is a member. A member of the commission who is also a member of a local emergency planning committee may vote on resolutions of the commission that apply uniformly to all local emergency planning committees and districts in the state and do not provide a grant or other pecuniary benefit to the member's district or the committee of which the member is a member.

The governor shall make the initial appointments to the commission within thirty days after December 14, 1988. Of the initial appointments to the commission, five shall be for a term of two years and five shall be for a term of one year. Thereafter, terms of office of the appointed members of the

commission shall be for two years, with each term ending on the same day of the same month as did the term that it succeeds. Each member shall hold office from the date of appointment until the end of the term for which the member was appointed. Members may be reappointed. Vacancies shall be filled in the manner provided for original appointments. Any member appointed to fill a vacancy occurring prior to the expiration of the term for which the member's predecessor was appointed shall hold office for the remainder of that term. A member shall continue in office subsequent to the expiration date of the member's term until the member's successor takes office or until a period of sixty days has elapsed, whichever occurs first. The commission may at any time by a vote of two-thirds of all the members remove any appointed member of the commission for misfeasance, nonfeasance, or malfeasance. Members of the commission shall serve without compensation, but shall be reimbursed for the reasonable expenses incurred by them in the discharge of their duties as members of the commission.

The commission shall meet at least annually and shall hold such additional meetings as are necessary to implement and administer this chapter. Additional meetings may be held at the behest of either a co-chairperson or a majority of the members. The commission shall, by adoption of internal management rules under division (B)(9) of this section, establish an executive committee and delegate to it the performance of such of the commission's duties and powers under this chapter as are required or authorized to be so delegated by that division. The commission may organize itself into such additional committees as it considers necessary or convenient to implement and administer this chapter. The director of environmental protection and the director of public safety or their designees

shall serve as co-chairpersons of the commission and the executive committee. Except as otherwise provided in this chapter, a majority of the voting members of the commission constitutes a quorum and the affirmative vote of a majority of the voting members of the commission is necessary for any action taken by the commission. Meetings of the executive committee conducted for the purpose of determining whether to issue an enforcement order or request that a civil action, civil penalty action, or criminal action be brought to enforce this chapter or rules adopted or orders issued under it are not subject to section 121.22 of the Revised Code pursuant to division (D) of that section.

Except for the purposes of Chapters 102. and 2921. and sections 9.86 and 109.36 to ~~109.366~~ 109.365 of the Revised Code, serving as an appointed member of the commission does not constitute holding a public office or position of employment under the laws of this state and does not constitute grounds for removal of public officers or employees from their offices or positions of employment.

(B) The commission shall:

(1) Adopt rules in accordance with Chapter 119. of the Revised Code that are consistent with and equivalent in scope, content, and coverage to the "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1729, 42 U.S.C.A. 11001, and applicable regulations adopted under it:

(a) Identifying or listing extremely hazardous substances and establishing a threshold planning quantity for each such substance. To the extent consistent with that act and applicable regulations adopted under it, the rules may establish threshold planning quantities based upon classes of those substances or

categories of facilities at which such substances are present.

(b) Listing hazardous chemicals, establishing threshold quantities for those chemicals, establishing categories of health and physical hazards of those chemicals, establishing criteria or procedures for identifying those chemicals and the appropriate hazard categories of those chemicals, and establishing ranges of quantities for those chemicals to be used in preparing emergency and hazardous chemical inventory forms under section 3750.08 of the Revised Code. To the extent consistent with that act and applicable regulations adopted under it, the rules may establish threshold quantities based upon classes of those chemicals or categories of facilities where those chemicals are present.

To the extent consistent with that act, the threshold quantities for purposes of the submission of lists of hazardous chemicals under section 3750.07 and the submission of emergency and hazardous chemical inventory forms under section 3750.08 of the Revised Code may differ.

(c) Identifying or listing hazardous substances and establishing reportable quantities of each of those substances and each extremely hazardous substance. In addition to being consistent with and equivalent in scope, content, and coverage to that act and applicable regulations adopted under it, the rules shall be consistent with and equivalent in scope, content, and coverage to regulations identifying or listing hazardous substances and reportable quantities of those substances adopted under the "Comprehensive Environmental Response, Compensation, and Liability Act of 1980," 94 Stat. 2779, 42 U.S.C.A. 9602, as amended.

(d) Prescribing the information to be included in the

lists of hazardous chemicals required to be submitted under section 3750.07 of the Revised Code;

(e) Prescribing the information to be included in the emergency and hazardous chemical inventory forms required to be submitted under section 3750.08 of the Revised Code. If the commission establishes its own emergency and hazardous chemical inventory form, the rules shall authorize owners and operators of facilities who also have one or more facilities located outside the state for which they are required to submit inventory forms under the federal act and regulations adopted under it to submit their annual inventories on forms prescribed by the administrator of the United States environmental protection agency under that act instead of on forms prescribed by the commission and shall require those owners or operators to submit any additional information required by the commission's inventory form on an attachment to the federal form.

(f) Establishing procedures for giving verbal notice of releases under section 3750.06 of the Revised Code and prescribing the information to be provided in such a notice and in the follow-up written notice required by that section;

(g) Establishing standards for determining valid needs for the release of tier II information under division (B)(4) of section 3750.10 of the Revised Code;

(h) Identifying the types or categories of information submitted or obtained under this chapter and rules adopted under it that constitute confidential business information;

(i) Establishing criteria and procedures to protect trade secret and confidential business information from unauthorized disclosure~~;~~

~~(j) Establishing other requirements or authorizations that the commission considers necessary or appropriate to implement, administer, and enforce this chapter~~.

(2) Adopt rules in accordance with Chapter 119. of the Revised Code to implement and administer this chapter that may be more stringent than the "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1729, 42 U.S.C.A. 11001, and regulations adopted under it. Rules adopted under division (B)(2) of this section shall not be inconsistent with that act or the regulations adopted under it. The rules shall:

(a) Prescribe the information to be included in the chemical emergency response and preparedness plans prepared and submitted by local emergency planning committees under section 3750.04 of the Revised Code;

(b) Establish criteria and procedures for reviewing the chemical emergency response and preparedness plans of local emergency planning committees required by section 3750.04 of the Revised Code and the annual exercise of those plans and for providing concurrence or requesting modifications in the plans and the exercise of those plans. The criteria shall include, without limitation, the requirement that each exercise of a committee's plan involve, in addition to local emergency response and medical personnel, either a facility that is subject to the plan or a transporter of materials that are identified or listed as hazardous materials by regulations adopted under the "Hazardous Materials Transportation Act," 88 Stat. 2156 (1975), 49 U.S.C.A. 1801, as amended.

(c) Establish policies and procedures for maintaining information submitted to the commission and local emergency planning committees under this chapter, and for receiving and

fulfilling requests from the public for access to review and to obtain copies of that information. The criteria and procedures shall include the following requirements and authorizations regarding that information and access to it:

(i) Information that is protected as trade secret information or confidential business information under this chapter and rules adopted under it shall be kept in files that are separate from those containing information that is not so protected.

(ii) The original copies of information submitted to the commission or committee shall not be removed from the custody and control of the commission or committee.

(iii) A person who, either in person or by mail, requests to obtain a copy of a material safety data sheet submitted under this chapter by a facility owner or operator shall submit a separate application for each facility for which a material safety data sheet is being requested.

(iv) A person who requests to receive by mail a copy of information submitted under this chapter by a facility owner or operator shall submit a separate application for each facility for which information is being requested and shall specify both the facility for which information is being requested and the particular types of documents requested.

(v) Only employees of the commission or committee shall copy information in the files of the commission or committee.

(vi) The commission or committee may require any person who requests to review or obtain a copy of information in its files to schedule an appointment for that purpose with the information coordinator of the commission or committee at least

twenty-four hours before arriving at the office of the commission or committee for the review or copy.

(vii) Any person who seeks access to information in the files of the commission or a local emergency planning committee shall submit a written application, either in person or by mail, to the information coordinator on a form provided by the commission or committee. The person also shall provide the person's name and current mailing address on the application and may be requested by the commission or committee to provide basic demographic information on the form to assist in the evaluation of the information access provisions of this chapter and rules adopted under it. Application forms may be obtained by mail or in person or by request by telephone at the office of the commission or committee during regular business hours. Upon receipt of a request for an application by telephone or mail, the information coordinator shall promptly mail an application to the person who requested it.

(viii) The application form shall provide the applicant with a means of indicating that the applicant's name and address are to be kept confidential. If the applicant so indicates, that information is not a public record under section 149.43 of the Revised Code and shall not be disclosed to any person who is not a member or employee of the commission or committee or an employee of the environmental protection agency. When a name and address are to be kept confidential, they also shall be deleted from the copy of the application required to be placed in the file of the facility under division (B)(2)(c)(xii) of this section and shall be withheld from any log of information requests kept by the commission or committee pursuant to that division.

(ix) Neither the commission nor a local emergency planning committee shall charge any fee for access to review information in its files when no copies or computer searches of that information are requested.

(x) An applicant shall be informed of the cost of copying, mailing, or conducting a computer search of information on file with the commission or committee before such a copy or search is made, and the commission or committee shall collect the appropriate fees as established under section 3750.13 of the Revised Code. Each applicant shall acknowledge on the application form that the applicant is aware that the applicant will be charged for copies and computer searches of that information the applicant requests and for the costs of mailing copies of the information to the applicant.

(xi) The commission or committee may require a person requesting copies of information on file with it to take delivery of them in the office of the commission or committee whenever it considers the volume of the information to be large enough to make mailing or delivery by a parcel or package delivery service impractical.

(xii) When the commission or committee receives a request for access to review or obtain copies of information in its files, it shall not routinely notify the owner or operator of the facility involved, but instead shall either keep a log or file of requests for the information or shall place a copy of each completed application form in the file for the facility to which the application pertains. Such a log or file shall be available for review by the public and by the owners and operators of facilities required to submit information to the commission or committee under this chapter and rules adopted

under it.

(d) Require that claims for the protection, as a trade secret, of information obtained under this chapter regarding extremely hazardous substances identified or listed in rules adopted under division (B)(1)(a) of this section and hazardous chemicals identified or listed in rules adopted under division (B)(1)(b) of this section be submitted to the administrator of the United States environmental protection agency for determination under section 322 of the ~~the~~ "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1747, 42 U.S.C.A. 11042, and regulations adopted under that section;

(e) Establish criteria and procedures for the issuance of variances under divisions (B) and (C) of section 3750.11 of the Revised Code. The rules shall require that, before approval of an application for a variance, the commission or committee find by a preponderance of the scientific evidence based upon generally accepted scientific principles or laboratory tests that the extremely hazardous substances, hazardous chemicals, or hazardous substances that would be subject to the reporting requirement pose a substantial risk of catastrophic injury to public health or safety or to the environment, or pose an extraordinary risk of injury to emergency management personnel responding to a release of the chemicals or substances, when the substances or chemicals are present at a facility in an amount equal to or exceeding the quantity for which reporting would be required under the reporting requirement for which the variance is sought. The rules shall also require that before approval of an application for a variance, the commission or committee find by a preponderance of the evidence that the development and implementation of a local emergency response plan for releases of the substances or chemicals covered by the reporting

requirement will reduce the risk of catastrophic injury to public health or safety or to the environment, or will reduce the extraordinary risk of injury to responding emergency management personnel, in the event of a release of the substances or chemicals and find by a preponderance of the evidence that the reporting requirement is necessary for the development of such a local emergency response plan. The rules shall require that when determining whether the substances or chemicals that would be subject to the reporting requirement pose a substantial risk of catastrophic injury to public health or safety or to the environment, or pose an extraordinary risk of injury to emergency management personnel responding to a release of the substance or chemical, the commission or committee consider all of the following factors:

(i) The specific characteristics and degree and nature of the hazards posed by a release of the extremely hazardous substances, hazardous chemicals, or hazardous substances;

(ii) The proximity of the facilities that would be subject to the reporting requirement to residential areas, to areas where significantly large numbers of people are employed or otherwise congregate, and to environmental resources that are subject to injury;

(iii) The quantities of the extremely hazardous substances, hazardous chemicals, or hazardous substances that are routinely present at facilities that would be subject to the reporting requirement;

(iv) The frequency with which the extremely hazardous substances, hazardous chemicals, or hazardous substances are present at the facilities that would be subject to the reporting requirement in quantities for which reporting would be required

thereunder.

(f) Establish criteria and procedures for the issuance of orders under division (D) of section 3750.11 of the Revised Code requiring the placement of emergency response lock box units. The rules shall require that before approval of an application for issuance of such an order, the commission or committee find by a preponderance of the scientific evidence based upon generally accepted scientific principles or laboratory tests that the presence of the extremely hazardous substances, hazardous chemicals, or hazardous substances in the quantities in which they are routinely or intermittently present at the facility for which the order is sought pose a substantial risk of catastrophic injury to public health or safety or to the environment, or pose an extraordinary risk of injury to responding emergency management personnel, in the event of a release of any of those substances or chemicals from the facility. The rules shall require that before approval of an application for issuance of such an order, the commission or committee also find by a preponderance of the evidence that the placement of an emergency response lock box unit at the facility is necessary to protect against the substantial risk of catastrophic injury to public health or safety or the environment, or to protect against an extraordinary risk of injury to responding emergency management personnel, in the event of a release of any of the extremely hazardous substances, hazardous chemicals, or hazardous substances routinely or intermittently present at the facility. The rules shall require that when determining whether the extremely hazardous substances, hazardous chemicals, or hazardous substances present at the facility pose a substantial risk of catastrophic injury to public health or safety or to the environment, or pose an

extraordinary risk of injury to responding emergency management personnel, in the event of a release of any of those substances or chemicals from the facility, the commission or committee consider all of the following factors:

(i) The specific characteristics and the degree and nature of the hazards posed by a release of the extremely hazardous substances, hazardous chemicals, or hazardous substances present at the facility;

(ii) The proximity of the facility to residential areas, to areas where significantly large numbers of people are employed or otherwise congregate, and to environmental resources that are subject to injury;

(iii) The quantities of the extremely hazardous substances, hazardous chemicals, or hazardous substances that are routinely present at the facility;

(iv) The frequency with which the extremely hazardous substances, hazardous chemicals, or hazardous substances are present at the facility.

(g) Establish procedures to be followed by the commission and the executive committee of the commission for the issuance of orders under this chapter.

(3) In accordance with Chapter 119. of the Revised Code adopt rules establishing reportable quantities for releases of oil that are consistent with and equivalent in scope, content, and coverage to section 311 of the "Federal Water Pollution Control Act Amendments of 1972," 86 Stat. 862, 33 U.S.C.A. 1321, as amended, and applicable regulations adopted under it;

(4) Adopt rules in accordance with Chapter 119. of the Revised Code establishing criteria and procedures for

identifying or listing extremely hazardous substances in addition to those identified or listed in rules adopted under division (B)(1)(a) of this section and for establishing threshold planning quantities and reportable quantities for the added extremely hazardous substances; for identifying or listing hazardous chemicals in addition to those identified or listed in rules adopted under division (B)(1)(b) of this section and for establishing threshold quantities and categories of health and physical hazards for the added hazardous chemicals; and for identifying or listing hazardous substances in addition to those identified or listed in rules adopted under division (B)(1)(c) of this section and for establishing reportable quantities for the added hazardous substances. The criteria for identifying or listing additional extremely hazardous substances and establishing threshold planning quantities and reportable quantities therefor and for identifying or listing additional hazardous chemicals and establishing threshold quantities and categories of health and physical hazards for the added hazardous chemicals shall be consistent with and equivalent to applicable criteria therefor under the "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1729, 42 U.S.C.A. 11001, and regulations adopted under it. The criteria for identifying additional hazardous substances and for establishing reportable quantities of the added hazardous substances shall be consistent with and equivalent to the applicable criteria for identifying or listing hazardous substances and establishing reportable quantities therefor under the "Comprehensive Environmental Response, Compensation, and Liability Act of 1980," 94 Stat. 2779, 42 U.S.C.A. 9602, as amended, and regulations adopted under it.

The rules shall require that, before identifying or

listing any such additional extremely hazardous substance, hazardous chemical, or hazardous substance and establishing a threshold planning quantity, threshold quantity, or reportable quantity therefor, the commission find by a preponderance of the scientific evidence based on generally accepted scientific principles or laboratory tests that the substance or chemical poses a substantial risk of catastrophic injury to public health or safety or to the environment, or poses an extraordinary risk of injury to emergency management personnel responding to a release of the chemical or substance, when the chemical or substance is present at a facility in an amount equal to the proposed threshold planning quantity or threshold quantity or, in the instance of a proposed additional extremely hazardous substance or hazardous substance, poses a substantial risk of catastrophic injury to public health or safety or to the environment if a release of the proposed reportable quantity of the substance occurs. The rules shall further require that, before so identifying or listing a substance or chemical, the commission find by a preponderance of the evidence that the development and implementation of state or local emergency response plans for releases of the substance or chemical will reduce the risk of a catastrophic injury to public health or safety or to the environment, or will reduce the extraordinary risk of injury to responding emergency response personnel, in the event of a release of the substance or chemical and find by a preponderance of the evidence that the identification or listing of the substance or chemical is necessary for the development of state or local emergency response plans for releases of the substance or chemical. The rules shall require that the commission consider the toxicity of the substance or chemical in terms of both the short-term and long-term health effects resulting from exposure to it and its reactivity,

volatility, dispersibility, combustibility, and flammability when determining the risks posed by a release of the substance or chemical and, as appropriate, when establishing a threshold planning quantity, threshold quantity, reportable quantity, or category of health or physical hazard for it.

(5) Adopt rules in accordance with Chapter 119. of the Revised Code establishing criteria and procedures for receiving and deciding claims for protection of information as a trade secret that are applicable only to extremely hazardous substances and hazardous chemicals identified or listed in rules adopted under division (C)(5) of this section. The rules shall be equivalent in scope, content, and coverage to section 322 of the "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1747, 42 U.S.C.A. 11042, and regulations adopted under it.

(6)(a) After consultation with the fire marshal, adopt rules in accordance with Chapter 119. of the Revised Code establishing standards for the construction, placement, and use of emergency response lock box units at facilities that are subject to this chapter. The rules shall establish all of the following:

(i) Specific standards of construction for lock box units;

(ii) The specific types of information that shall be placed in the lock box units required to be placed at a facility by an order issued under division (D) of section 3750.11 of the Revised Code, which shall include the location of on-site emergency fire-fighting and spill cleanup equipment; a diagram of the public and private water supply and sewage systems serving the facility that are known to the owner or operator of the facility; a copy of the emergency and hazardous chemical

inventory form for the facility most recently required to be submitted under section 3750.08 of the Revised Code from which the owner or operator may withhold information claimed or determined to be trade secret information pursuant to rules adopted under division (B)(2)(d) of this section, or pursuant to division (B)(14) of this section and rules adopted under division (B)(5) of this section, and confidential business information identified in rules adopted under division (B)(1)(h) of this section; a copy of the local fire department's and facility's emergency management plans for the facility, if any; a current list of the names, positions, addresses, and telephone numbers of all key facility personnel knowledgeable in facility safety procedures and the locations at the facility where extremely hazardous substances, hazardous chemicals, and hazardous substances are produced, used, or stored. The rules shall stipulate that, in the instance of lock box units placed voluntarily at facilities by the owners or operators of the facilities, such information shall be maintained in them as is prescribed by agreement by the owner or operator and the fire department having jurisdiction over the facility.

(iii) The conditions that shall be met in order to provide safe and expedient access to a lock box unit during a release or threatened release of an extremely hazardous substance, hazardous chemical, or hazardous substance.

(b) Unless the owner or operator of a facility is issued an order under division (D) of section 3750.11 of the Revised Code requiring the owner or operator to place a lock box unit at the facility, the owner or operator may place a lock box unit at the facility at the owner's or operator's discretion. If the owner or operator chooses to place a lock box unit at the facility, the responsibility to deposit information in the lock

box unit is in addition to any other obligations established in this chapter.

(c) Any costs associated with the purchase, construction, or placement of a lock box unit shall be paid by the owner or operator of the facility.

(7) In accordance with Chapter 119. of the Revised Code, adopt rules governing the application for and awarding of grants under division (C) of section 3750.14 and division (B) of section 3750.15 of the Revised Code;

(8) Adopt rules in accordance with Chapter 119. of the Revised Code establishing reasonable maximum fees that may be charged by the commission and local emergency planning committees for copying information in the commission's or committee's files to fulfill requests from the public for that information;

(9) Adopt internal management rules governing the operations of the commission. The internal management rules shall establish an executive committee of the commission consisting of the director of environmental protection or the director's designee, the director of public safety or the director's designee, the attorney general or the attorney general's designee, one of the appointed members of the commission representing industries subject to this chapter to be appointed by the commission, one of the appointed members of the commission representing the interests of environmental advocacy organizations to be appointed by the commission, and one other appointed member or member ex officio of the commission to be appointed by the commission. The executive committee has exclusive authority to issue enforcement orders under section 3750.18 of the Revised Code and to request the attorney general

to bring a civil action, civil penalty action, or criminal action under section 3750.20 of the Revised Code in the name of the commission regarding violations of this chapter, rules adopted under it, or orders issued under it. The internal management rules may set forth the other specific powers and duties of the commission that the executive committee may exercise and carry out and the conditions under which the executive committee may do so. The internal management rules shall not authorize the executive committee to issue variances under division (B) or (C) of section 3750.11 of the Revised Code or orders under division (D) of that section.

(10) Oversee and coordinate the implementation and enforcement of this chapter and make such recommendations to the director of environmental protection and the director of public safety as it considers necessary or appropriate to improve the implementation and enforcement of this chapter;

(11) Make allocations of moneys under division (B) of section 3750.14 of the Revised Code and make grants under division (C) of section 3750.14 and division (B) of section 3750.15 of the Revised Code;

(12) Designate an officer of the environmental protection agency to serve as the commission's information coordinator under this chapter;

(13) Not later than December 14, 1989, develop and distribute a state emergency response plan that defines the emergency response roles and responsibilities of the state agencies that are represented on the commission and that provides appropriate coordination with the national contingency plan and the regional contingency plan required by section 105 of the "Comprehensive Environmental Response, Compensation, and

Liability Act of 1980," 94 Stat. 2767, 42 U.S.C.A. 9601, as amended. The plan shall ensure a well-coordinated response by state agencies that may be involved in assisting local emergency responders during a major release of oil or a major sudden and accidental release of a hazardous substance or extremely hazardous substance. The plan may incorporate existing state emergency response plans by reference. At least annually, the commission and the state agencies that are represented on it shall jointly exercise the state plan in conjunction with the exercise of a local emergency response plan by a local emergency planning committee under section 3750.04 of the Revised Code. After any such exercise, the commission shall review the state plan and make such revisions in it as the commission considers necessary or appropriate.

(14) Receive and decide claims for the protection of information as a trade secret that pertain only to extremely hazardous substances and hazardous chemicals identified or listed by rules adopted under division (C)(5) of this section. If the commission determines that the claim meets the criteria established in rules adopted under division (B)(5) of this section, it shall issue an order to that effect in accordance with section 3750.18 of the Revised Code. If the commission determines that the claim does not meet the criteria established in those rules, it shall issue an order to that effect in accordance with section 3750.18 of the Revised Code.

(15) Annually compile, make available to the public, and submit to the president of the senate and the speaker of the house of representatives a summary report on the number of facilities estimated to be subject to regulation under sections 3750.05, 3750.07, and 3750.08 of the Revised Code, the number of facilities reporting to the commission, an estimate of the

percentage of facilities in compliance with those sections, and recommendations regarding the types of activities the commission considers necessary to improve such compliance. The commission shall base its estimate of the number of facilities that are subject to regulation under those sections on the current estimates provided by the local emergency planning committees under division (D)(6) of section 3750.03 of the Revised Code.

(C) The commission may:

(1) Procure by contract the temporary or intermittent services of experts or consultants when those services are to be performed on a part-time or fee-for-service basis and do not involve the performance of administrative duties;

(2) Enter into contracts or agreements with political subdivisions or emergency planning districts for the purposes of this chapter;

(3) Accept on behalf of the state any gift, grant, or contribution from any governmental or private source for the purposes of this chapter;

(4) Enter into contracts, agreements, or memoranda of understanding with any state department, agency, board, commission, or institution to obtain the services of personnel thereof or utilize resources thereof for the purposes of this chapter. Employees of a state department, agency, board, commission, or institution providing services to the commission under any such contract, agreement, or memorandum shall perform only those functions and provide only the services provided for in the contract, agreement, or memorandum.

(5) Identify or list extremely hazardous substances in addition to those identified or listed in rules adopted under

division (B)(1)(a) of this section and establish threshold planning quantities and reportable quantities for the additional extremely hazardous substances, identify or list hazardous chemicals in addition to those identified or listed in rules adopted under division (B)(1)(b) of this section and establish threshold quantities and categories or health and physical hazards for the added chemicals, and identify or list hazardous substances in addition to those identified or listed in rules adopted under division (B)(1)(c) of this section and establish reportable quantities for the added hazardous substances. The commission may establish threshold planning quantities for the additional extremely hazardous substances based upon classes of those substances or categories of facilities at which they are present and may establish threshold quantities for the additional hazardous chemicals based upon classes of those chemicals or categories of facilities where they are present. The commission shall identify or list such additional substances or chemicals and establish threshold planning quantities, threshold quantities, reportable quantities, and hazard categories therefor in accordance with the criteria and procedures established in rules adopted under division (B)(4) of this section and, after compliance with those criteria and procedures, by the adoption of rules in accordance with Chapter 119. of the Revised Code. The commission shall not adopt rules under division (C)(5) of this section modifying any threshold planning quantity established in rules adopted under division (B)(1)(a) of this section, any threshold quantity established in rules adopted under division (B)(1)(b) of this section, or any reportable quantity established in rules adopted under division (B)(1)(c) of this section.

If, after the commission has adopted rules under division

(C)(5) of this section identifying or listing an extremely hazardous substance, hazardous chemical, or hazardous substance, the administrator of the United States environmental protection agency identifies or lists the substance or chemical as an extremely hazardous substance or hazardous chemical under the "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1729, 42 U.S.C.A. 11001, or identifies or lists a substance as a hazardous substance under the "Comprehensive Environmental Response, Compensation, and Liability Act of 1980," 94 Stat. 2779, 42 U.S.C.A. 9602, as amended, the commission shall rescind its rules adopted under division (C)(5) of this section pertaining to the substance or chemical and adopt the appropriate rules under division (B)(1)(a), (b), or (c) of this section.

(6) From time to time, request the director of environmental protection and the executive director of the emergency management agency to review implementation, administration, and enforcement of the chemical emergency response planning and reporting programs created by this chapter and rules adopted under it regarding their effectiveness in preparing for response to releases of extremely hazardous substances, hazardous chemicals, and hazardous substances. After completion of any such review, the director of environmental protection and the director of public safety shall report their findings to the commission. Upon receipt of their findings, the commission may make such recommendations for legislative and administrative action as the commission finds necessary or appropriate to promote achievement of the purposes of this chapter.

(D) Except as provided in section 3750.06 of the Revised Code, nothing in this chapter applies to the transportation,

including the storage incident to transportation, of any substance or chemical subject to the requirements of this chapter, including the transportation and distribution of natural gas.

(E) This chapter authorizes the state, through the emergency response commission, the department of public safety, and the environmental protection agency, to establish and maintain chemical emergency response planning and preparedness, community right-to-know, and hazardous substance and extremely hazardous substance release reporting programs that are consistent with and equivalent in scope, coverage, and content to the "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1729, 42 U.S.C.A. 11001, and regulations adopted under it, except as otherwise specifically required or authorized in this chapter. The commission, department, and agencies may do all things necessary, incidental, or appropriate to implement, administer, and enforce this chapter and to perform the duties and exercise the powers of the state emergency response commission under that act and regulations adopted under it and under this chapter.

Sec. 3750.11. (A) Except as provided in division (E) of this section, no local emergency planning committee shall enforce any resolution, rule, or requirement for the reporting or providing of the names or amounts of extremely hazardous substances or hazardous chemicals produced, used, or stored at facilities under the jurisdiction of the committee; for the reporting or providing of information regarding locations where those substances or chemicals are stored at those facilities; or for the reporting of releases of extremely hazardous substances, hazardous substances, or oil, that is not consistent with and equivalent in scope, content, and coverage to the reporting and

hazard communication provisions of this chapter and rules adopted under it, unless the committee first obtains a variance from the emergency response commission under division (B) of this section.

(B) A committee shall, prior to commencing enforcement of any such requirement, submit a copy of it to the commission along with an application for a variance from division (A) of this section in accordance with rules adopted under division (B)(2)(e) of section 3750.02 of the Revised Code. On or before the date that the committee submits the variance application to the commission, the committee shall mail by certified mail, return receipt requested, notice of the application and a summary of the reporting requirement to the owner or operator of each facility within the emergency planning district that the committee determines would be subject to the reporting requirement. If the commission finds that the resolution, rule, or requirement meets the criteria for issuance of a variance established in those rules, it shall approve the application and issue an order granting the variance in accordance with section 3750.18 of the Revised Code. The commission shall not issue any order approving a variance application unless at least sixty per cent of the voting members of the commission vote to approve the application and issuance of the order. If less than sixty per cent of the voting members of the commission vote to approve a variance application, the commission shall issue an order denying the variance.

(C) Except as provided in division (G) of this section, no political subdivision shall enforce any ordinance, resolution, rule, or requirement adopted on or after ~~the effective date of this section~~December 14, 1988, or any amendment adopted on or after ~~the effective~~ that date ~~of this section~~ to any such

ordinance, resolution, rule, or requirement that was in effect on ~~the effective~~ that date ~~of this section~~, for the reporting or providing of the names or amounts of extremely hazardous substances or hazardous chemicals produced, used, or stored, at facilities within the political subdivision; for the reporting or providing of information regarding locations where those substances or chemicals are stored at those facilities; or for the reporting of releases of those extremely hazardous substances, hazardous substances, or oil that is not consistent with, equivalent to, and no more stringent than the reporting and hazard communication requirements of this chapter and rules adopted under it, unless the political subdivision first obtains a variance under this division.

A political subdivision that seeks to obtain a variance under this division shall submit a copy of the ordinance, resolution, rule, or requirement to the committee of the district in which the political subdivision is located along with an application for a variance in accordance with rules adopted under division (B)(2)(e) of section 3750.02 of the Revised Code. On or before the date that the political subdivision submits the variance application to the committee, the political subdivision shall mail by certified mail, return receipt requested, notice of the application and a summary of the reporting requirement to the owner or operator of each facility within the political subdivision that the political subdivision determines would be subject to the reporting requirement. If, in the opinion of the committee, the ordinance, resolution, rule, or requirement of the political subdivision meets the criteria for issuance of a variance established in those rules and does not conflict with any resolution, rule, or requirement adopted by the committee, the committee shall, by

resolution, approve issuance of the variance and send a copy of its resolution, of the political subdivision's variance application, and of the ordinance, resolution, rule or requirement, to the commission. The committee shall not approve issuance of a variance under this division unless at least sixty per cent of the voting members of the committee vote to approve it. If the commission finds that the committee has approved issuance of a variance and that the ordinance, resolution, rule, or requirement of the political subdivision meets the criteria for issuance of a variance established in those rules, it shall approve the application and issue an order in accordance with section 3750.18 of the Revised Code granting the variance. The commission shall not issue any order approving a variance application unless at least sixty per cent of the voting members of the commission vote to approve the application and issuance of an order granting the variance. If less than sixty per cent of the voting members of the commission vote to approve a variance application, the commission shall issue an order denying the variance.

This division does not affect the validity or enforceability of any such ordinance, resolution, rule, or requirement of a political subdivision adopted prior to the effective date of this section. However, this division applies to any amendment to any such ordinance, resolution, rule, or requirement, which amendment is adopted on or after the effective date of this section and establishes a reporting requirement that is not consistent with, equivalent to, and no more stringent than the reporting and hazard communication requirements of this chapter and rules adopted under it.

(D) No political subdivision shall enforce any ordinance, resolution, rule, or requirement adopted on or after the

effective date of this chapter requiring the placement of emergency response lock box units at any facility where an extremely hazardous substance, hazardous chemical, or hazardous substance is produced, used, or stored. The fire department of a political subdivision having jurisdiction over a facility and the owner or operator of such a facility may enter into an agreement under which the owner or operator will place and maintain an emergency response lock box unit at ~~his~~the owner's or operator's facility in compliance with rules adopted under division (B)(6) of section 3750.02 of the Revised Code. If the fire department of a political subdivision and an owner or operator of such a facility are unable to enter into such an agreement and if the fire department believes that placement of a lock box unit at the facility is necessary to protect public health and safety and the environment or to protect emergency management personnel responding to a release of any such substance or chemical from the facility, the fire department, in accordance with rules adopted under division (B)(2)(f) of section 3750.02 of the Revised Code, may submit an application to the committee of the district in which the facility is located for issuance of an order requiring the owner or operator to place a lock box unit at ~~his~~the owner's or operator's facility that complies with the rules adopted under division (B)(6) of section 3750.02 of the Revised Code. On or before the date that the fire department submits the application for issuance of such an order, the fire department shall mail by certified mail, return receipt requested, notice of the application to the owner or operator of the facility for which issuance of the order is sought. If, in the opinion of the committee, the application meets the criteria for issuance of such an order established in the rules adopted under division (B)(2)(f) of that section, the committee shall, by resolution,

approve issuance of the order and send a copy of its resolution and the fire department's application to the commission. The committee shall not approve an application for issuance of such an order unless at least sixty per cent of the voting members of the committee vote to approve it. If the commission finds that the committee has approved the application and that the application meets the criteria for issuance of such an order established in rules adopted under division (B)(2)(f) of that section, it shall approve the application and issue an order in accordance with section 3750.18 of the Revised Code requiring the owner or operator to place one or more emergency response lock box units at ~~his~~the owner's or operator's facility in accordance with the approved application and rules adopted under division (B)(6) of that section. The commission shall not approve an application for issuance of such an order unless at least sixty per cent of the voting members of the commission vote to approve the application and issuance of the order. If less than sixty per cent of the voting members of the commission vote to approve the application, the commission shall issue an order denying the application. No person shall violate an order issued under this division.

(E) A committee may, by resolution, adopt rules requiring the placarding of bulk hazardous chemical storage areas within its district in accordance with rules adopted by the fire marshal under section 3750.12 of the Revised Code~~ and rules establishing such procedures as are necessary to implement and enforce that requirement~~. The rules may exempt the owner or operator of a facility who, with the approval of the committee, installs and maintains an emergency lock box unit that complies with the rules adopted under division (B)(6) of section 3750.02 of the Revised Code from compliance with requirements for

placarding of bulk hazardous chemical storage areas. As used in this division, "bulk hazardous chemical storage area" has the same meaning as in division (D) of section 3750.12 of the Revised Code. No person shall violate a rule adopted under this division.

(F) Except as provided in division (G) of this section, this section shall not be construed to authorize a political subdivision, other than a municipal corporation or county that has adopted a charter in accordance with Sections 3 and 4 of Article X, Ohio Constitution, to adopt or enforce any ordinance, resolution, rule, or requirement for the reporting or providing of the names or amounts of extremely hazardous substances or hazardous chemicals produced, used, or stored at facilities located within their boundaries; for the reporting or providing of information regarding locations where those substances or chemicals are stored at those facilities; or for the reporting of releases of extremely hazardous substances, hazardous substances, or oil. Nothing in this section or division (E)(5) of section 3750.03 of the Revised Code shall be construed to authorize a local emergency planning committee, municipal corporation, or charter county to enforce any ordinance, resolution, rule, or requirement that identifies or lists as an extremely hazardous substance any substance that is not so identified or listed in rules adopted under division (B)(1)(a) or (C)(5) of section 3750.02 of the Revised Code, that identifies as a hazardous chemical any chemical, other than a chemical identified in division (G)(3) of section 3750.01 of the Revised Code, that is not so identified or listed in rules adopted under division (B)(1)(b) or (C)(5) of that section, or that identifies as a hazardous substance any substance that is not so identified in rules adopted under division (B)(1)(c) or

(C)(5) of that section.

(G) A political subdivision that owns, operates, or is served by a public water system as defined in section 6109.01 of the Revised Code may establish and enforce requirements that provide for the protection of ground water resources that serve as a source of drinking water for its public water system and that are located within scientifically derived wellhead protection areas.

Sec. 3751.02. The director of environmental protection may do ~~any~~ both of the following:

(A) ~~Adopt rules in accordance with Chapter 119. of the Revised Code establishing requirements or authorizations that the director considers necessary or appropriate to implement and administer this chapter.~~

~~(B)~~ As the representative of the governor pursuant to EPCRA, request the administrator of the United States environmental protection agency to apply the toxic chemical release reporting requirements of that act to the owner or operator of any facility in this state that manufactures, processes, or otherwise uses a toxic chemical if, in the director's judgment, such reporting is warranted by the toxicity of the toxic chemical manufactured, processed, or otherwise used at the facility; the proximity of the facility to other facilities that release the toxic chemical or to population centers; or the history of releases of the toxic chemical at the facility;

~~(C)~~ (B) As the representative of the governor pursuant to EPCRA, petition the administrator to, by regulation, add a chemical to or delete a chemical from the list of toxic

chemicals subject to the toxic chemical release reporting requirements of that act if, in the director's judgment, the chemical meets the criteria required by that act.

Sec. 3751.03. (A)(1) On or before the first day of July of each year or as otherwise prescribed by the administrator of the United States environmental protection agency under EPCRA, the owner or operator of a facility described in division (A)(2) of this section shall prepare and submit to the administrator a completed toxic chemical release form for each toxic chemical that was so manufactured, processed, or otherwise used at the facility during the preceding calendar year. The electronic submission of the form to the administrator constitutes simultaneous submission of the form to the director of environmental protection for purposes of EPCRA.

(2) Division (A)(1) of this section applies to the owner or operator of a facility to which all of the following apply:

(a) The facility is in standard industrial classification codes 20 to 39, as those codes were in effect on July 1, 1985, or in any other applicable code added by the administrator.

(b) The owner or operator has ten or more full-time employees.

(c) The facility manufactured, processed, or otherwise used during the calendar year immediately preceding the first day of July or date otherwise prescribed by the administrator, a toxic chemical in an amount exceeding the applicable threshold quantity established by the administrator under EPCRA.

(3) The owner or operator shall submit the information on a uniform toxic chemical release form prescribed by the administrator under EPCRA.

(B) The toxic chemical release forms required by this section are intended to provide information to federal, state, and local governments and the public, including residents of communities surrounding facilities covered by this section.

(C) No owner or operator of a facility who is required by this section to file a toxic chemical release form shall fail to submit a toxic chemical release form as required by this section.

(D) An owner or operator of a facility who is required under this section to file a toxic chemical release form and who knowingly makes a false statement on that form, on a record upon which the information on that form is based, or on other information or records required to be kept or submitted under this chapter ~~and the rules adopted under this chapter~~ is guilty of falsification under section 2921.13 of the Revised Code.

Sec. 3751.05. All civil penalties received under division (B) of section 3751.10 of the Revised Code shall be credited to the toxic chemical release reporting fund, hereby created in the state treasury. Moneys credited to the fund shall be expended by the director exclusively for the purposes of implementing, administering, and enforcing this chapter ~~and the rules adopted~~ and orders issued under it.

Sec. 3751.07. No person shall violate any section of this chapter ~~or a rule adopted~~ or order issued under it.

Sec. 3751.08. The director of environmental protection or ~~his~~the director's authorized representative, upon proper identification and upon stating the purpose and necessity of an inspection, may enter at reasonable times upon any private or public property, real or personal, to inspect or investigate,

obtain samples, and examine and copy records to determine compliance with this chapter ~~and rules adopted~~ and orders issued under it. The director or ~~his~~the director's authorized representative may apply for, and any judge of a court of record may issue for use within the court's territorial jurisdiction, an administrative inspection warrant under division (F) of section 2933.21 of the Revised Code or other appropriate search warrant necessary to achieve the purposes of this chapter.

Sec. 3751.09. The director of environmental protection may issue orders requiring the owner or operator of a facility where toxic chemicals are manufactured, processed, or otherwise used to abate a violation of this chapter ~~or a rule adopted~~ or order issued under it. The director may issue such orders as final orders without issuing a proposed action under section 3745.07 of the Revised Code and, notwithstanding section 119.06 of the Revised Code, without the necessity to hold any adjudication hearing in connection with any such order. Issuance of an order under this section is not a condition precedent to bringing any civil, criminal, or civil penalty action under this chapter.

Sec. 3751.10. (A) The attorney general, the prosecuting attorney of the county, or the city director of law of the city where a violation has occurred or is occurring, upon the written request of the director of environmental protection, shall prosecute to termination or bring an action for injunction against any person who has violated or is violating any section of this chapter ~~or any rule adopted~~ or order issued under it. The court of common pleas in which an action for injunction is filed has the jurisdiction to and shall grant preliminary and permanent injunctive relief upon a showing that the person against whom the action is brought has violated or is violating any section of this chapter ~~or a rule adopted~~ or order issued

under it. The court shall give precedence to such an action over all other cases.

Expenditures from the fund to perform any such remedial action shall be made pursuant to contracts entered into by the director with persons who agree to furnish all of the materials, equipment, work, and labor as provided in the contract. Agents or employees of persons contracting with the director under this division may enter upon any land, public or private, as necessary to perform a remedial action under this division. The director shall keep a detailed accounting of the cost of each such remedial action.

(B) The owner or operator of a facility where a remedial action is undertaken under division (A) of this section is liable to the state for the total cost of the remedial action in addition to any other liabilities imposed by law. (F) Beginning in fiscal year 2001, and every two years thereafter, the director shall review the total amount of moneys in the risk management plan reporting fund to determine if that amount exceeds seven hundred fifty thousand dollars in either of the two preceding fiscal years. If the total amount of moneys in the fund exceeded seven hundred fifty thousand dollars in either fiscal year, the director, after review of the fee structure and consultation with affected persons, shall issue an order reducing the amount of the fees levied under division (A) of this section so that the estimated amount of moneys resulting from the fees will not exceed seven hundred fifty thousand dollars in any fiscal year.

If, upon review of the fees under this division and after the fees have been reduced, the director determines that the total amount of moneys collected and accumulated is less than seven hundred fifty thousand dollars, the director, after review of the fee structure and consultation with affected persons, may issue an order increasing the amount of the fees levied under division (A) of this section so that the estimated amount of moneys resulting from the fees will be approximately seven hundred fifty thousand dollars. (e) The competence, experience, and integrity of those

persons that would control the operation of the domestic insurer are such that it would not be in the interest of policyholders of the domestic insurer and of the public to permit the merger or other acquisition of control;

(f) The acquisition is likely to be hazardous or prejudicial to the insurance-buying public.

(2)(a) Chapter 119. of the Revised Code, except for section 119.09 of the Revised Code, applies to any hearing held under division (F)(1) of this section, including the notice of the hearing, the conduct of the hearing, the orders issued pursuant to it, the review of the orders, and all other matters relating to the holding of the hearing, but only to the extent that Chapter 119. of the Revised Code is not inconsistent or in conflict with this section.

(b) The notice of a hearing required under this division shall be transmitted in accordance with sections 119.05 and 119.07 of the Revised Code to the persons and addresses designated to receive notices and correspondence in the information statement filed under division (B)(2) of this section.

(d) For the purpose of conducting any hearing held under this section, the superintendent may require the attendance of such witnesses and the production of such books, records, and papers as the superintendent desires, and may take the depositions of witnesses residing within or without the state in the same manner as is prescribed by law for the taking of depositions in civil actions in the court of common pleas, and for that purpose the superintendent may, and upon the request of an acquiring party shall, issue a subpoena for any witnesses or a subpoena duces tecum to compel the production of any books, records, or papers, directed to the sheriff of the county where such witness resides or is found, which shall be served and returned in the same manner as a subpoena in a criminal case is served and returned. The fees of the sheriff shall be the same as that allowed in the court of common pleas in criminal cases. Witnesses shall be paid the fees and mileage provided for under section 119.094 of the Revised Code. Fees and mileage shall be paid from the fund in the state treasury for the use of the superintendent in the same manner as other expenses of the superintendent are paid. In any case of disobedience or neglect of any subpoena served on any person or the refusal of any witness to testify in any matter regarding which the witness may

lawfully be interrogated, the court of common pleas of any county where such disobedience, neglect, or refusal occurs or any judge thereof, on application by the superintendent, shall compel obedience by attachment proceedings for contempt, as in the case of disobedience of the requirements of a subpoena issued from the court or a refusal to testify therein.

In any hearing held under this section, a record of the testimony, as provided by stenographic means or by use of audio electronic recording devices, as determined by the superintendent, and other evidence submitted shall be taken at the expense of the superintendent. The record shall include all of the testimony and other evidence, and rulings on the admissibility thereof, presented at the hearing.

The superintendent shall pass upon the admissibility of evidence, but a party to the proceedings may at that time object to the rulings of the superintendent, and if the superintendent refuses to admit evidence, the party offering the evidence shall proffer the evidence. The proffer shall be made a part of the record of the hearing.

In any hearing held under this section, the superintendent may call any person to testify under oath as upon cross-examination. The superintendent, or any one delegated by the superintendent to conduct a hearing, may administer oaths or affirmations.

In any hearing under this section, the superintendent may appoint a hearing officer to conduct the hearing; the hearing officer has the same powers and authority in conducting the hearing as is granted to the superintendent. The hearing officer shall have been admitted to the practice of law in the state and be possessed of any additional qualifications as the

superintendent requires. The hearing officer shall submit to the superintendent a written report setting forth the hearing officer's finding of fact and conclusions of law and a recommendation of the action to be taken by the superintendent. A copy of the written report and recommendation shall, within seven days of the date of filing thereof, be served upon the acquiring party or the acquiring party's attorney or other representative of record in accordance with section 119.05 of the Revised Code. The acquiring party may, within three days of receipt of the copy of the written report and recommendation, file with the superintendent written objections to the report and recommendation, which objections the superintendent shall consider before approving, modifying, or disapproving the recommendation. The superintendent may grant extensions of time to the acquiring party within which to file such objections. No recommendation of the hearing officer shall be approved, modified, or disapproved by the superintendent until after three days following the service of the report and recommendation as provided in this section. The superintendent may order additional testimony to be taken or permit the introduction of further documentary evidence. The superintendent may approve, modify, or disapprove the recommendation of the hearing officer, and the order of the superintendent based on the report, recommendation, transcript of testimony, and evidence, or the objections of the acquiring party, and additional testimony and evidence shall have the same effect as if the hearing had been conducted by the superintendent. No such recommendation is final until confirmed and approved by the superintendent as indicated by the order entered in the record of proceedings, and if the superintendent modifies or disapproves the recommendations of the hearing officer, the reasons for the modification or disapproval shall be included in the record of proceedings.

After the order is entered, the superintendent shall transmit in the manner and by any of the methods set forth in division (F)(2)(b) of this section a certified copy of the order and a statement of the time and method by which an appeal may be perfected. The notice of appeal shall set forth the order appealed from and the grounds for appeal, in accordance with section 119.12 of the Revised Code.

(3) The superintendent may retain at the acquiring party's expense any attorneys, actuaries, accountants, and other experts not otherwise a part of the superintendent's staff as may be reasonably necessary to assist the superintendent in reviewing the proposed acquisition of control.

(2) Any offer, request, invitation, agreement, or acquisition that the superintendent by order exempts from this section on either of the following bases:

(a) It has not been made or entered into for the purpose

and does not have the effect of changing or influencing the control of a domestic insurer;

(b) It is not otherwise comprehended within the purposes of this section.

(H) Nothing in this section or in any other section of Title XXXIX of the Revised Code shall be construed to impair the authority of the attorney general to investigate or prosecute actions under any state or federal antitrust law with respect to any merger or other acquisition involving domestic insurers.

(I) In connection with a proposed change of control involving a depository institution or any affiliate thereof, within the meaning of Title I, section 104(c) of the "Gramm-Leach-Bliley Act," Pub. L. (B)(1) In cooperation with other state, federal, and international regulatory agencies, the superintendent shall identify one group-wide supervisor for each internationally active insurance group. The superintendent may determine that the superintendent is the appropriate group-wide supervisor for an internationally active insurance group that conducts substantial insurance operations concentrated in this state. The superintendent shall consider the following factors when making a determination or acknowledgment under division (B)(1) of this section:

(2) If the superintendent is identified in division (B)(1) of this section as the group-wide supervisor of an internationally active insurance group, the superintendent may determine that it is appropriate to acknowledge another supervisor to serve as the group-wide supervisor. The acknowledgment of the new group-wide supervisor shall be made in accordance with all of the following:

(a) After consideration of the factors listed in division (B)(1) of this section;

(b) In cooperation with and subject to the acknowledgment of other regulatory officials involved with supervision of members of the internationally active insurance group;

(c) In consultation with the internationally active insurance group.

(C)(1) Notwithstanding any other provision of law, when another regulatory official is acting as the group-wide supervisor of an internationally active insurance group, the superintendent shall acknowledge that regulatory official as the group-wide supervisor.

(a) The internationally active insurance group's insurers domiciled in this state holding the largest share of the group's premiums, assets, or liabilities;

(b) This state being the place of domicile of the top-tiered insurer in the internationally active insurance group's insurance holding company system.

(2) Prior to issuing a determination that an

internationally active insurance group is subject to group-wide supervision by the superintendent, the superintendent shall notify the insurer registered under section 3901.33 of the Revised Code and the ultimate controlling person within the internationally active insurance group. The superintendent shall give the internationally active insurance group not less than thirty days to provide the superintendent with additional information pertinent to the pending determination.

(3) The superintendent shall publish on its internet web site the identity of internationally active insurance groups that the superintendent has determined are subject to group-wide supervision by the superintendent.

(C)(1) The RBC plan or revised RBC plan required by division (B)(1) of this section shall be submitted to the superintendent within forty-five days after the regulatory action level event, except by an insurer that files a challenge to an adjusted RBC report or a revised RBC plan pursuant to section 3903.87 of the Revised Code. If the superintendent determines the challenge is frivolous, the time limit for the submission of the RBC plan or revised RBC plan shall not be altered by the filing of the challenge.

(2) If an insurer files a nonfrivolous challenge to an adjusted RBC report or a revised RBC plan, the RBC plan or revised RBC plan required by division (B)(1) of this section shall only be submitted to the superintendent if the superintendent rejects the challenge following the hearing required under section 3903.87 of the Revised Code. (5) The failure of an insurer to respond, in a manner satisfactory to the superintendent, to a corrective order issued under division (B)(3) of section 3903.84 of the Revised Code, subsequent to the superintendent's modification of an earlier order or the superintendent's rejection of the insurer's challenge of the order under section 3903.87 of the Revised Code.

(2) The superintendent may, in accordance with division (B) of this section, establish by order a minimum financial security benchmark to apply to a specific insurer that exceeds the amount arrived at under division (A)(1) of this section.

(3) The superintendent may by rule change the minimum financial security benchmark that is a multiple of authorized control level risk-based capital, or equivalent risk-based capital calculation, to apply to any class of insurers provided the amount established by the rule is not less than the amount arrived at under division (A)(1) of this section.

(B) The superintendent shall determine the amount of minimum capital or minimum surplus as specified in division (A)(1)(b) of this section to determine an insurer's minimum financial security benchmark. The amount shall be sufficient to provide reasonable security against contingencies affecting the insurer's financial position that are not fully covered by reserves or by reinsurance.

(1) In determining this amount, the superintendent shall consider all of the following risks:

(a) Increases in the frequency or severity of losses beyond the levels contemplated by the premium rates charged;

(b) Increases in expenses beyond those contemplated by the premium rates charged;

(c) Decreases in the value of assets, or the return on invested assets below those planned on;

(d) Changes in economic conditions that would make

liquidity more important than contemplated and would force untimely sale of assets or prevent timely investments;

(e) Currency devaluation to which the insurer may be subject;

(f) Any other contingencies the superintendent identifies that may affect the insurer's operations.

(2) In determining the minimum financial security benchmark under division (A)(2) of this section, the superintendent shall also take into account the following factors:

(a) The most reliable information available as to the magnitude of the various risks under division (B)(1) of this section;

(b) The extent to which the risks in division (B)(1) of this section are independent of each other or are related, and whether any dependency is direct or inverse;

(c) The insurer's recent history of profits or losses;

(d) The extent to which the insurer has provided protection against adverse contingencies in ways other than the establishment of surplus, including redundancy of premiums, adjustability of contracts under their terms, investment valuation reserves, whether voluntary or mandatory, appropriate reinsurance, the use of conservative actuarial assumptions to provide a margin of security, reserve adjustments in recognition of previous rate inadequacies, contingency or catastrophe reserves, diversification of assets, and underwriting risks;

(e) Independent judgments on the soundness of the insurer's operations, as evidenced by the ratings of reliable

professional financial reporting services;

(f) Any other factor the superintendent considers relevant.

Sec. 3906.15. (A) ~~The superintendent may, in accordance with section 119.03 of the Revised Code, adopt rules interpreting and implementing the provisions of this chapter.~~

~~(B)~~ The superintendent may, in accordance with section 119.03 of the Revised Code, adopt one or more of the following restrictions on investments in rules:

(1) The superintendent may prescribe for defined classes of insurers special procedural requirements, including special reports and prior approval on investments, as well as disapproval of investments subsequent to either.

(2) The superintendent may prescribe substantive restrictions on investments of defined classes of insurers, including all of the following:

(a) Specification of classes of assets that may not be counted toward satisfaction of the minimum asset requirement even though the assets may be counted for unrestricted insurers;

(c) Prescription of qualitative tests for investments and conditions under which investments may be made, including requirements of specified ratings from investment advisory services, listing on specified stock exchanges, collateral,

marketability, currency matching, and the financial and legal status of the issuer and its earnings capacity.

~~(C)~~ (B) If the superintendent is satisfied by evidence of the solidity of an insurer and the competence of management and its investment advisors, the superintendent, after a hearing, may by order grant an exemption to that insurer from any restriction made under division ~~(B)~~ (A) of this section to the extent that the superintendent is satisfied that the interests of the insurer's insureds and creditors, as well as the general public, are protected.

Sec. 3911.011. (A) No policy, annuity, or other contract providing variable or fixed and variable benefits or contractual payments shall be delivered or issued for delivery in this state except by a life insurance company, organized under the laws of this state, or a company, partnership, or association, organized or incorporated, by an act of congress, or under the laws of this or any other state of the United States, or any foreign government, and transacting the business of life insurance in this state. No such company, partnership or association shall deliver or issue for delivery in this state any such policy, annuity, or contract until the superintendent of insurance has determined that its condition and methods of operation in connection with the issuance of the policies, annuities, and contracts will not render its operation hazardous to the public or to the holders of its policies, annuities, and other contracts in this state. In making such determination, the superintendent shall consider the history, reputation, and financial condition of the company, partnership, or association, and the character, responsibility, and general fitness of its officers, directors, partners, or associates. In making such determination with respect to a company, partnership, or

association not organized under the laws of this state, the superintendent shall also consider whether the laws and regulations of its domicile provide a degree of protection to the public and the holders of its policies, annuities, and other contracts substantially equal to that provided by this section~~ and any rules adopted by the superintendent pursuant to division (C) of this section~~. If any such company is a subsidiary of, or affiliated through management or ownership with, a life insurance company authorized to do business in this state, the superintendent may consider the requirements of this division to have been satisfied if either such company or its parent or affiliated company meets such requirements.

(B) No policy, annuity, or other contract described in division (A) of this section and no certificate, application, endorsement, or rider to be used in connection with any such policy, annuity, or other contract shall be delivered, or issued for delivery, in this state until a copy thereof has been filed with the superintendent. The superintendent shall, within thirty days after the filing of any such form, disapprove the same upon finding that such form contains provisions that are unjust, unfair, inequitable, misleading, or deceptive, encourage misrepresentation of the coverage, or are contrary to the insurance laws of this state~~ or any rule adopted by the superintendent pursuant to division (C) of this section~~. When the superintendent notifies a company, partnership, or association that a form has been disapproved, it shall be unlawful thereafter for the company, partnership, or association to issue or use the form. In the notice, the superintendent shall specify the reason for the disapproval and state that a hearing will be granted in twenty days after request in writing. No such policy, contract, certificate, application, endorsement,

or rider shall be issued or used until the expiration of thirty days after it has been so filed, unless the superintendent gives written approval thereto. The superintendent may, at any time after a hearing held not less than twenty days after written notice to the insurer, withdraw the approval of any such form on any ground set forth in this division. The written notice of such hearing shall state the reason for the proposed withdrawal. The company, partnership, or association shall not issue the form or use it after the effective date of the withdrawal. Any order or formal determination of the superintendent under this division shall be subject to judicial review as provided in section 119.12 of the Revised Code.

(C) The superintendent shall have the sole and exclusive power and authority to regulate the sale, delivery, and issuance for delivery in this state of policies, annuities, and other contracts described in division (A) of this section and, subject to Chapter 119. of the Revised Code, to adopt, amend, and rescind rules ~~necessary to discharge the superintendent's duties and exercise the superintendent's power and authority under section 3907.15 of the Revised Code and this section, including, but not limited to,~~for the adoption of a definition of a subsidiary or affiliated corporation under section 3907.15 of the Revised Code.

(D) Except for Chapter 3915. and except as otherwise provided in sections 3907.15 and 3911.011 of the Revised Code, all pertinent provisions of Title XXXIX of the Revised Code apply to all policies, annuities, and other contracts providing variable or fixed and variable benefits or contractual payments and all separate accounts established in connection therewith. The reserve liability for such policies, annuities, and contracts shall be established in accordance with actuarial

procedures that recognize the variable nature of the benefits and guarantees provided.

Chapter 1707. of the Revised Code does not apply to any policy, annuity, or other contract providing fixed, variable, or fixed and variable benefits or contractual payments, that is issued by any company, partnership, or association authorized to transact the business of life insurance in this state.

Sec. 3913.01. Any domestic stock life insurance corporation, incorporated under a general law, may become a mutual life insurance corporation, and to that end may carry out a plan for the acquisition of shares of its capital stock, provided such plan:

(A) Has been adopted by a vote of a majority of the directors of such corporation;

(B) Has been approved by a vote of stockholders representing a majority of the capital stock then outstanding at a meeting of stockholders called for the purpose;

(C) Has been approved by a majority of the policyholders voting at a meeting of policyholders called for the purpose, each of whom is insured in a sum of at least one thousand dollars and whose insurance shall then be in force and shall have been in force for at least one year prior to such meeting.

As used in this section, "policyholder" means the person insured under an individual policy of life insurance, and the person to whom any annuity or pure endowment is presently or prospectively payable by the terms of an individual annuity or pure endowment contract, except where the policy or contract declares some other person to be the owner or holder thereof, in which case such owner or policyholder shall be deemed the

policyholder, and except in cases of assignment. In the case of any individual policy or contract insuring two or more persons jointly or in case the policy or contract declares two or more persons to be the owner, the persons insured or declared to be the owner are considered as one policyholder for the purposes of this section. In case any such policy or contract has been assigned by an assignment absolute on its face to an assignee other than the corporation, and such assignment has been filed at the principal office of the corporation at least thirty days prior to the date of the meeting of policyholders, then such assignee shall be deemed a policyholder. Except as provided in this section, an assignee of a policy or contract shall not be deemed a policyholder. The reference in division (C) of this section to insurance in the amount of one thousand dollars or more is deemed to include any annuity contract, the commuted value of which is one thousand dollars or more on the date of said meeting, and any pure endowment contract for the principal sum of one thousand dollars or more.

Notice of the meeting of policyholders shall be given by mailing such notice from the home office of the corporation at least thirty days prior to such meeting in a sealed envelope, postage prepaid, addressed to such policyholders at their last known post-office addresses, provided that personal delivery of such written notice to any policyholder evidenced by written receipt therefor may be substituted for mailing the same. The meeting shall be otherwise provided for and conducted in such manner as is provided in the mutualization plan, provided that policyholders may vote in person, by proxy, or by mail, and that all votes shall be cast by ballot on a uniform ballot furnished by the corporation. The superintendent of insurance shall supervise and direct the method and procedure of said meeting

and shall appoint an adequate number of inspectors to conduct the voting at said meeting who may determine all questions concerning the verification of the ballots, the ascertainment of the validity of such ballots, the qualifications of the voters, and the canvass of the vote, and who shall certify to the superintendent and to the corporation the result of such proceedings, which shall be supervised by said inspectors ~~in accordance with such rules as are prescribed by the superintendent~~. All necessary expenses incurred by the superintendent shall be paid by the corporation, as certified to by the superintendent.

Before such a plan can be carried out, it must be submitted to the superintendent and must be approved by the superintendent in writing; provided that every payment for the acquisition of any shares of the capital stock of such corporation, the purchase price of which is not fixed by such plan, shall be subject to the approval of the superintendent, and provided that neither such plan, nor any such payment, shall be approved by the superintendent unless at the time of such approvals, respectively, the corporation, after deducting the aggregate sum appropriated by such plan for the acquisition of any part or all of its capital stock, and, in the case of any payment not fixed by such plan and subject to separate approval by the superintendent, after deducting also the amount of such payment, shall be possessed of net assets of not less than two hundred thousand dollars from which it shall maintain its deposit made previously with the superintendent, and such assets shall be not less than the entire liabilities of the corporation, including the net values of its outstanding contracts computed according to the standard adopted by the corporation under sections 3903.72 to 3903.7211 of the Revised

Code and including all funds, contingent reserves, and surplus, except for such surplus as has been appropriated or paid under such plan.

Sec. 3915.073. (A) This section shall be known as the standard nonforfeiture law for individual deferred annuities.

(B) This section does not apply to any reinsurance, group annuity purchased under a retirement plan or plan of deferred compensation established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the Internal Revenue Code of 1954, 26 U.S.C.A. 408, as amended, premium deposit fund, variable annuity, investment annuity, immediate annuity, any deferred annuity contract after annuity payments have commenced, or reversionary annuity, nor to any contract which is delivered outside this state through an agent or other representative of the company issuing the contract.

(C) No contract of annuity, except as stated in division (B) of this section, shall be delivered or issued for delivery in this state unless the contract contains in substance the following provisions, or corresponding provisions that in the opinion of the superintendent of insurance are at least as favorable to the contract owners, relative to the cessation of payment of consideration under the contract:

(1) That upon cessation of payment of considerations under a contract, or upon the written request of the contract owner, the company shall grant a paid-up annuity benefit on a plan stipulated in the contract of such value as is specified in divisions (E), (F), (G), (H), and (J) of this section;

(2) If a contract provides for a lump sum settlement at maturity, or at any other time, that upon surrender of the contract at or prior to the commencement of any annuity payments, the company shall pay in lieu of any paid-up annuity benefit a cash surrender benefit of such amount as is specified in divisions (E), (F), (H), and (J) of this section. The company may reserve the right to defer the payment of such cash surrender benefit for a period not to exceed six months after demand therefor with surrender of the contract. The deferral is contingent upon the company's conveyance of a written request for the deferral to the superintendent and the company's receipt of written approval from the superintendent for the deferral. The request shall address the necessity and equitability to all contract owners of the deferral.

(3) A statement of the mortality table, if any, and interest rates used in calculating any minimum paid-up annuity, cash surrender, or death benefits that are guaranteed under the contract, together with sufficient information to determine the amounts of such benefits;

(4) A statement that any paid-up annuity, cash surrender, or death benefits that may be available under the contract are not less than the minimum benefits required by any statute of the state in which the contract is delivered and an explanation of the manner in which such benefits are altered by the existence of any additional amounts credited by the company to the contract, any indebtedness to the company on the contract, or any prior withdrawals from or partial surrenders of the contract.

Notwithstanding the requirements of this section, any deferred annuity contract may provide that if no considerations

have been received under a contract for a period of two full years and the portion of the paid-up annuity benefit at maturity on the plan stipulated in the contract arising from considerations paid prior to such period would be less than twenty dollars monthly, the company may at its option terminate such contract by payment in cash of the then present value of such portion of the paid-up annuity benefit, calculated on the basis of the mortality table, if any, and interest rate specified in the contract for determining the paid-up annuity benefit, and by such payment shall be relieved of any further obligation under such contract.

(D) The minimum values as specified in divisions (E), (F), (G), (H), and (J) of this section of any paid-up annuity, cash surrender, or death benefits available under an annuity contract shall be based upon minimum nonforfeiture amounts as defined in this division.

(1)(a) The minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments shall be equal to an accumulation up to such time at rates of interest determined in accordance with division (D)(2) of this section of the net considerations, determined in accordance with division (D)(1)(b) of this section, paid prior to such time, decreased by the sum of:

(i) Any prior withdrawals from or partial surrenders of the contract, accumulated at rates of interest determined in accordance with division (D)(2) of this section;

(ii) An annual contract charge of fifty dollars, accumulated at rates of interest determined in accordance with division (D)(2) of this section;

(iii) Any premium tax paid by the company for the contract, accumulated at rates of interest determined in accordance with division (D)(2) of this section;

(iv) The amount of any indebtedness to the company on the contract, including interest due and accrued.

(b) The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be an amount equal to eighty-seven and one-half per cent of the gross considerations credited to the contract during that contract year.

(2)(a) The interest rate used in determining minimum nonforfeiture amounts under divisions (D)(1) to (4) of this section shall be an annual rate of interest determined as the lesser of three per cent per annum or the following, which shall be specified in the contract if the interest rate will be reset:

(i) The five-year constant maturity treasury rate reported by the federal reserve as of a date or an average over a period, rounded to the nearest one-twentieth of one per cent, specified in the contract, no longer than fifteen months prior to the contract issue date or the redetermination date specified in division (D)(2)(b) of this section;

(ii) Reduced by one hundred twenty-five basis points;

(iii) Where the resulting interest rate shall not be less than fifteen hundredths of one per cent.

(b) The interest rate determined under division (D)(2)(a) of this section shall apply for an initial period and may be redetermined for additional periods. The redetermination date, basis and period, if any, shall be stated in the contract. The basis is the date or average over a specified period that

produces the value of the five-year constant maturity treasury rate to be used at each redetermination date.

(3) During the period or term that a contract provides substantive participation in an equity-indexed benefit, the contract may provide for an increase in the reduction described in division (D)(2)(a)(ii) of this section by a maximum of one hundred basis points to reflect the value of the equity-indexed benefit. The present value at the contract issue date, and at each redetermination date thereafter, of the additional reduction shall not exceed the market value of the benefit. The superintendent may require a demonstration that the present value of the additional reduction does not exceed the market value of the benefit. If the demonstration is not acceptable to the superintendent, the superintendent may disallow or limit the additional reduction.

(4) The superintendent may adopt rules to implement division (D)(3) of this section and to provide for further adjustments to the calculation of minimum nonforfeiture amounts for contracts that provide substantive participation in an equity-indexed benefit and for other contracts for which the superintendent determines adjustments are justified.

(E) Any paid-up annuity benefit available under a contract shall be such that its present value on the date annuity payments are to commence is at least equal to the minimum nonforfeiture amount on that date. Such present value shall be computed using the mortality table, if any, and the interest rate specified in the contract for determining the minimum paid-up annuity benefits guaranteed in the contract.

(F) For contracts which provide cash surrender benefits, such cash surrender benefits available prior to maturity shall

not be less than the present value as of the date of surrender of that portion of the maturity value of the paid-up annuity benefit that would be provided under the contract at maturity arising from considerations paid prior to the time of cash surrender reduced by the amount appropriate to reflect any prior withdrawals from or partial surrenders of the contract, such present value being calculated on the basis of an interest rate not more than one per cent higher than the interest rate specified in the contract for accumulating the net considerations to determine such maturity value, decreased by the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by any existing additional amounts credited by the company to the contract. In no event shall any cash surrender benefit be less than the minimum nonforfeiture amount at that time. The death benefit under such contracts shall be at least equal to the cash surrender benefit.

(G) For contracts that do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time prior to maturity shall not be less than the present value of that portion of the maturity value of the paid-up annuity benefit provided under the contract arising from considerations paid prior to the time the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity, such present value being calculated for the period prior to the maturity date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine such maturity value, and increased by any existing additional amounts credited by the company to the contract. For contracts that do not provide any death benefits prior to the commencement of any

annuity payments, such present values shall be calculated on the basis of such interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. However, in no event shall the present value of a paid-up annuity benefit be less than the minimum nonforfeiture amount at that time.

(H) For the purpose of determining the benefits calculated under divisions (F) and (G) of this section, in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be deemed to be the latest date for which election shall be permitted by the contract, but shall not be deemed to be later than the anniversary of the contract next following the annuitant's seventieth birthday or the tenth anniversary of the contract, whichever is later.

(I) Any contract that does not provide cash surrender benefits or does not provide death benefits at least equal to the minimum nonforfeiture amount prior to the commencement of any annuity payments shall include a statement in a prominent place in the contract that such benefits are not provided.

(J) Any paid-up annuity, cash surrender, or death benefits available at any time, other than on the contract anniversary under any contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs.

(K) For any contract that provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess

of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefit shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding the provisions of divisions (E), (F), (G), (H), and (J) of this section, additional benefits payable:

(1) In the event of total and permanent disability;

(2) As reversionary annuity or deferred reversionary annuity benefits; or

(3) As other policy benefits additional to life insurance, endowment and annuity benefits, and considerations for all such additional benefits shall be disregarded in ascertaining the minimum nonforfeiture amounts, paid-up annuity, cash surrender, and death benefits that may be required by this section.

The inclusion of such additional benefits shall not be required in any paid-up benefits, unless such additional benefits separately would require minimum nonforfeiture amounts, paid-up annuity, cash surrender, and death benefits.

~~(L) The superintendent may adopt rules in accordance with Chapter 119. of the Revised Code to implement this section.~~

Sec. 3915.09. No policy of life insurance shall be issued or delivered in this state, or be issued by a life insurance company organized under the laws of this state, if it contains any of the following:

(A) A provision for forfeiture of the policy for failure to repay any loan on the policy or to pay interest on such loan while the total indebtedness on the policy is less than its loan

value; or any provision for forfeiture for failure to repay any such loan or to pay interest thereon, unless such provision contains a stipulation that no such forfeiture shall occur until at least one month after notice has been mailed by the company to the last known address of the insured and of the assignee;

(B) A provision limiting to less than five years the time within which any action at law or in equity may be commenced after the cause of action accrues;

(C) A provision for any mode of settlement at maturity of less value than the amount insured on the face of the policy plus dividend additions, less any indebtedness to the company on the policy, and less any premium that may by the terms of the policy be deducted;

(D) In a policy form filed under section 3915.14 of the Revised Code after September 16, 1970, a provision that the policy will be eligible to participate in any future distributions of earnings, profits, or surplus of the company which are not allocated to all participating policies by reasonable and nondiscriminatory standards;

(E) A provision that the policy will be eligible to receive a preferential benefit or advantage which will not be available to policies purchased from the company at future dates or under other circumstances, the effect of which is to discriminate against those future policies~~;~~

~~(F) Any provision which is prohibited by a rule adopted by the superintendent of insurance to clarify, construe, or implement any of the prohibitions of divisions (A) to (E), inclusive, of this section~~.

Sec. 3916.03. (A) Except as provided in division (H) of

this section, an applicant for a license as a viatical settlement provider or viatical settlement broker shall submit an application for the license in a manner prescribed by the superintendent of insurance. The application shall be accompanied by a fee established by the superintendent by rule adopted in accordance with Chapter 119. of the Revised Code.

(B) A license issued under this chapter to a person other than an individual authorizes all partners, officers, members, or designated employees of the person to act as viatical settlement providers or viatical settlement brokers, as applicable, and all those partners, officers, members, or designated employees shall be named in the application and any supplements to the application.

(C) Except as provided in division (H) of this section, upon the filing of an application under this section and the payment of the license fee, the superintendent shall make an investigation of the applicant and issue to the applicant a license that states in substance that the person is authorized to act as a viatical settlement provider or viatical settlement broker, as applicable, if all of the following apply:

(1) Regarding an application for a license as a viatical settlement provider, the applicant provides all of the following:

(a) A detailed plan of operation;

(c) A general description of the method the applicant will use to determine life expectancies, including a description of the applicant's intended receipt of life expectancies, the

applicant's intended use of life expectancies, the applicant's intended use of life expectancy providers, and a written plan of policies and procedures used to determine life expectancies.

(2) The superintendent finds all of the following:

(a) The applicant is competent and trustworthy and intends to act in good faith in the capacity of a viatical settlement provider or viatical settlement broker, as applicable.

(b) The applicant has a good business reputation and has had experience, training, or education so as to be qualified to act in the capacity of a viatical settlement provider or viatical settlement broker, as applicable.

(3) If the applicant is a person other than an individual, the applicant provides a certificate of good standing from the state of its organization.

(4) The applicant provides an antifraud plan that meets the requirements of division (G) of section 3916.18 of the Revised Code.

(D)(1) An applicant for licensure as a viatical settlement provider may provide proof of financial responsibility through one of the following means:

The superintendent may, at any time, require an applicant to fully disclose the identity of all shareholders, partners, officers, members, and employees, and may, in the exercise of the superintendent's discretion, refuse to issue a license to an applicant that is not an individual if the superintendent is not satisfied that each officer, employee, shareholder, partner, or member who may materially influence the applicant's conduct meets the standards set forth in this chapter.

(F) Except as otherwise provided in this division, a license as a viatical settlement provider or viatical settlement broker expires on the last day of March next after its issuance or continuance. A license as a viatical settlement provider or viatical settlement broker may, in the discretion of the superintendent and the payment of an annual renewal fee established by the superintendent by rule adopted in accordance with Chapter 119. of the Revised Code, be continued past the last day of March next after its issue and after the last day of March in each succeeding year. Failure to pay the renewal fee by the required date results in the expiration of the license.

(G) Any individual licensed as a viatical settlement broker shall complete not less than fifteen hours of continuing education biennially. The superintendent shall approve

continuing education courses that shall be related to viatical settlements and viatical settlement transactions. ~~The superintendent shall adopt rules for the enforcement of this division.~~

(2) The applicant has filed with the superintendent the applicant's written irrevocable consent that any action against the applicant may be commenced against the applicant by service of process on the superintendent.

(I) A viatical settlement provider or viatical settlement broker shall provide to the superintendent new or revised information regarding any change in its officers, any shareholder owning ten per cent or more of its voting securities, or its partners, directors, members, or designated employees within thirty days of the change.

(J) Any fee collected under this section shall be paid into the state treasury to the credit of the department of insurance operating fund created by section 3901.021 of the Revised Code.

Sec. 3916.05. (A) A person shall not use a viatical

settlement contract form or provide a disclosure statement form to a viator in this state unless the viatical settlement contract form or the disclosure statement form is filed with and approved by the superintendent of insurance. The superintendent shall disapprove a viatical settlement contract form or a disclosure statement form if, in the superintendent's opinion, the viatical settlement contract form, the disclosure statement form, or any provision contained therein fails to meet the requirements of section 3916.06 of the Revised Code, is unreasonable, is contrary to the interests of the public, or is otherwise misleading or unfair to the viator. At the superintendent's discretion, the superintendent may require the submission of advertising material to which section 3916.17 of the Revised Code applies. If not disapproved by the superintendent, a filing made pursuant to this section shall be considered approved forty-five days after the contract form, disclosure form, or advertising material is filed.

(B) Any insurance company that issues life insurance policies in this state shall include questions in its life insurance applications that are reasonably structured to identify and prevent stranger-originated life insurance. ~~The superintendent shall adopt rules under Chapter 119. of the Revised Code for the implementation of this section. Each insurer shall file with the superintendent copies of its amended applications for life insurance within twelve months following the effective date of the superintendent's adoption of rules pursuant to this division.~~

(C) The superintendent may adopt rules in accordance with Chapter 119. of the Revised Code to establish reasonable fees for any service or transaction performed by the department of insurance pursuant to division (A) of this section. Any fee

collected pursuant to those rules shall be paid into the state treasury to the credit of the department of insurance operating fund created by section 3901.021 of the Revised Code.

(A) Govern the relationship and responsibilities of insurers, viatical settlement providers, and viatical settlement brokers during the viatication of a policy.

(B) Establish standards for evaluating the reasonableness of payments under viatical settlement contracts for persons who are terminally or chronically ill. This authority includes, but is not limited to, the regulation of discount rates used to determine the amount paid in exchange for the assignment, release, transfer, sale, devise, or bequest of a benefit under a policy insuring persons who are terminally or chronically ill.

(C) Establish appropriate licensing requirements, fees, and standards for continued licensure for viatical settlement providers and viatical settlement brokers.

Sec. 3918.12. ~~The superintendent may, in accordance with section 119.03 of the Revised Code, adopt such rules and regulations as he deems appropriate, for the enforcement of sections 3918.01 to 3918.11 of the Revised Code.~~ Whenever the superintendent finds that there has been a violation of sections 3918.01 to 3918.13 of the Revised Code or any rules or regulations adopted pursuant thereto, and after written notice thereof and hearing given to the insurer or other person authorized or licensed by the superintendent, ~~he~~ the

superintendent shall set forth the details of ~~his~~ the superintendent's findings together with an order for compliance by a specified date. (i) A facsimile;

(ii) A proprietary payer portal for prescription drug requests that does not use NCPDP SCRIPT standard.

(3) For policies issued on or after January 1, 2018, a health care practitioner and an insurer or plan may enter into a contractual arrangement under which the insurer or plan agrees to process prior authorization requests that are not submitted electronically because of the financial hardship that electronic

submission of prior authorization requests would create for the health care practitioner or if internet connectivity is limited or unavailable where the health care practitioner is located.

(4)(a) For policies issued on or after January 1, 2018, if the health care practitioner submits the request for prior authorization electronically as described in divisions (B)(1) and (2) of this section, the insurer or plan shall respond to all prior authorization requests within forty-eight hours for urgent care services, or ten calendar days for any prior authorization request that is not for an urgent care service, of the time the request is received by the insurer or plan. (6)(a) For policies issued on or after January 1, 2017, for a prior approval related to a chronic condition, the insurer or plan shall honor a prior authorization approval for an approved drug for the lesser of the following from the date of the approval:

(i) Twelve months;

(ii) The last day of the covered person's eligibility under the policy or plan.

(b) The duration of all other prior authorization approvals shall be dictated by the policy or plan.

(c) An insurer or plan, in relation to prior approval under division (B)(6)(a) of this section, may require a health care practitioner to submit information to the insurer or plan indicating that the patient's chronic condition has not changed.

(i) The request for information by the insurer or plan and the response by the health care practitioner shall be in an electronic format, which may be by electronic mail or other electronic communication.

(ii) The frequency of the submission of requested information shall be consistent with medical or scientific evidence, as defined in section 3922.01 of the Revised Code, but shall not be required more frequently than quarterly.

(e) A twelve-month approval provided under division (B)(6)(a) of this section does not apply to and is not required for any of the following:

(i) Medications that are prescribed for a non-maintenance condition;

(iii) Medications that require an initial trial period to determine effectiveness and tolerability, beyond which a one-year, or greater, prior authorization period will be given;

(iv) Medications where there is medical or scientific evidence as defined in section 3922.01 of the Revised Code that do not support a twelve-month prior approval;

(v) Medications that are a schedule I or II controlled substance or any opioid analgesic or benzodiazepine, as defined in section 3719.01 of the Revised Code;

(vi) Medications that are not prescribed by an in-network provider as part of the care management program.

(7) For policies issued on or after January 1, 2017, an insurer or plan may, but is not required to, provide the twelve-

month approval prescribed in division (B)(6)(a) of this section for a prescription drug that meets either of the following:

(ii) The new service was not known to be needed at the time the original prior authorized service was performed.

(iii) The need for the new service was revealed at the time the original authorized service was performed.

(b) Once the written request and all necessary information is received, the insurer or plan shall review the claim for coverage and medical necessity. The insurer or plan shall not deny a claim for such a new service based solely on the fact that a prior authorization approval was not received for the new service in question.

(10)(a) For policies issued on or after January 1, 2017, the insurer or plan shall disclose to all participating health care practitioners any new prior authorization requirement at least thirty days prior to the effective date of the new requirement.

(b) The notice may be sent via electronic mail or standard mail and shall be conspicuously entitled "Notice of Changes to Prior Authorization Requirements." The notice is not required to contain a complete listing of all changes made to the prior authorization requirements, but shall include specific information on where the health care practitioner may locate the information on the insurer or plan's web site or, if applicable, the insurer's or plan's portal.

(c) All participating health care practitioners shall promptly notify the insurer or plan of any changes to the health care practitioner's electronic mail or standard mail address.

(11)(a) For policies issued on or after January 1, 2017, the insurer or plan shall make available to all participating health care practitioners on its web site or provider portal a listing of its prior authorization requirements, including specific information or documentation that a practitioner must submit in order for the prior authorization request to be considered complete.

(b) The insurer or plan shall make available on its web site information about the policies, contracts, or agreements offered by the insurer or plan that clearly identifies specific services, drugs, or devices to which a prior authorization requirement exists.

(12) For policies issued on or after January 1, 2018, the insurer or plan shall establish a streamlined appeal process relating to adverse prior authorization determinations that shall include all of the following:

(a) For urgent care services, the appeal shall be considered within forty-eight hours after the insurer or plan receives the appeal.

(b) For all other matters, the appeal shall be considered within ten calendar days after the insurer or plan receives the appeal.

(c) The appeal shall be between the health care practitioner requesting the service in question and a clinical peer.

(d) If the appeal does not resolve the disagreement, either the covered person or an authorized representative as defined in section 3922.01 of the Revised Code may request an external review under Chapter 3922. of the Revised Code to the

extent Chapter 3922. of the Revised Code is applicable.

(C) For policies issued on or after January 1, 2017, except in cases of fraudulent or materially incorrect information, an insurer or plan shall not retroactively deny a prior authorization for a health care service, drug, or device when all of the following are met:

from, the contracting entity or an affiliate or subsidiary of the contracting entity.

(c) The health care contract specifically provides that it applies to network rental arrangements and states that one purpose of the contract is selling, renting, or giving the contracting entity's rights to the services of the participating provider, including other preferred provider organizations, and the third party accessing the participating provider's services is any of the following:

(i) A payer or a third-party administrator or other entity responsible for administering claims on behalf of the payer;

manner of reimbursement.

(b) Require that the third party accessing the participating provider's services through the participating provider's health care contract is obligated to comply with all of the applicable terms and conditions of the contract, including, but not limited to, the products for which the participating provider has agreed to provide services, except that a payer receiving administrative services from the contracting entity or its affiliate shall be solely responsible for payment to the participating provider.

increased by ten per cent;

(2)(a) If an employer fails to pay the premium or assessments when due for a policy year commencing prior to July 1, 2015, the administrator may add a late fee penalty of not more than thirty dollars to the premium plus an additional penalty amount as follows:

(i) For a premium from sixty-one to ninety days past due, the prime interest rate, multiplied by the premium due;

(ii) For a premium from ninety-one to one hundred twenty days past due, the prime interest rate plus two per cent, multiplied by the premium due;

(iii) For a premium from one hundred twenty-one to one hundred fifty days past due, the prime interest rate plus four per cent, multiplied by the premium due;

prime rate under section 929.02 of the Revised Code.

(c) If an employer fails to pay the premium or assessments when due for a policy year commencing on or after July 1, 2015, the administrator may assess a penalty at the interest rate established by the state tax commissioner pursuant to section 5703.47 of the Revised Code.

(7) Any deficiencies in the amounts of the premium security deposit paid by an employer prior to July 1, 2015, shall be subject to an interest charge of six per cent per annum from the date the premium obligation is incurred. In determining

the interest due on deficiencies in premium security deposit payments, a charge in each case shall be made against the employer in an amount equal to interest at the rate of six per cent per annum on the premium security deposit due but remaining unpaid sixty days after notice by the administrator.

(8) Any interest charges or penalties provided for in divisions (D)(2) and (7) of this section shall be credited to the employer's account for rating purposes in the same manner as premiums.

(E) A rule providing that each employer, on the occasion of instituting coverage under this chapter for an effective date prior to July 1, 2015, shall submit a premium security deposit. The deposit shall be calculated equivalent to thirty per cent of the semiannual premium obligation of the employer based upon the employer's estimated expenditure for wages for the ensuing six-month period plus thirty per cent of an additional adjustment period of two months but only up to a maximum of one thousand dollars and not less than ten dollars. The administrator shall review the security deposit of every employer who has submitted a deposit which is less than the one-thousand-dollar maximum. The administrator may require any such employer to submit additional money up to the maximum of one thousand dollars that, in the administrator's opinion, reflects the employer's current payroll expenditure for an eight-month period.

(F) A rule providing that each employer, on the occasion of instituting coverage under this chapter, shall submit an application fee and an application for coverage that completely provides all of the information required for the administrator to establish coverage for that employer, and that the employer's failure to pay the application fee or to provide all of the

information requested on the application may be grounds for the administrator to deny coverage for that employer.

(G) A rule providing that, in addition to any other remedies permitted in this chapter, the administrator may discontinue an employer's coverage if the employer fails to pay the premium due on or before the premium's due date.

(H) A rule providing that if after a final adjudication it is determined that an employer has failed to pay an obligation, billing, account, or assessment that is greater than one thousand dollars on or before its due date, the administrator may discontinue the employer's coverage in addition to any other remedies permitted in this chapter, and that the administrator shall not discontinue an employer's coverage pursuant to this division prior to a final adjudication regarding the employer's failure to pay such obligation, billing, account, or assessment on or before its due date.

(I) As used in divisions (G) and (H) of this section:

(1) "Employer" has the same meaning as in section 4123.01 of the Revised Code except that "employer" does not include the state, a state hospital, or a state university or college.

(2) "State university or college" has the same meaning as in section 3345.12 of the Revised Code and also includes the Ohio agricultural research and development center and OSU extension.

(3) "State hospital" means the Ohio state university hospital and its ancillary facilities and the medical university of Ohio at Toledo hospital.

Sec. 4123.35. (A) Except as provided in this section, and until the policy year commencing July 1, 2015, every private

employer and every publicly owned utility shall pay semiannually in the months of January and July into the state insurance fund the amount of annual premium the administrator of workers' compensation fixes for the employment or occupation of the employer, the amount of which premium to be paid by each employer to be determined by the classifications, rules, and rates made and published by the administrator. The employer shall pay semiannually a further sum of money into the state insurance fund as may be ascertained to be due from the employer by applying the rules of the administrator.

Except as otherwise provided in this section, for a policy year commencing on or after July 1, 2015, every private employer and every publicly owned utility shall pay annually in the month of June immediately preceding the policy year into the state insurance fund the amount of estimated annual premium the administrator fixes for the employment or occupation of the employer, the amount of which estimated premium to be paid by each employer to be determined by the classifications, rules, and rates made and published by the administrator. The employer shall pay a further sum of money into the state insurance fund as may be ascertained to be due from the employer by applying the rules of the administrator. Upon receipt of the payroll report required by division (B) of section 4123.26 of the Revised Code, the administrator shall adjust the premium and assessments charged to each employer for the difference between estimated gross payrolls and actual gross payrolls, and any balance due to the administrator shall be immediately paid by the employer. Any balance due the employer shall be credited to the employer's account.

For a policy year commencing on or after July 1, 2015, each employer that is recognized by the administrator as a

professional employer organization or alternate employer organization shall pay monthly into the state insurance fund the amount of premium the administrator fixes for the employer for the prior month based on the actual payroll of the employer reported pursuant to division (C) of section 4123.26 of the Revised Code.

A receipt certifying that payment has been made shall be issued to the employer by the bureau of workers' compensation. The receipt is prima-facie evidence of the payment of the premium. The administrator shall provide each employer written proof of workers' compensation coverage as is required in section 4123.83 of the Revised Code. Proper posting of the notice constitutes the employer's compliance with the notice requirement mandated in section 4123.83 of the Revised Code.

The bureau shall verify with the secretary of state the existence of all corporations and organizations making application for workers' compensation coverage and shall require every such application to include the employer's federal identification number.

A private employer who has contracted with a subcontractor is liable for the unpaid premium due from any subcontractor with respect to that part of the payroll of the subcontractor that is for work performed pursuant to the contract with the employer.

Division (A) of this section providing for the payment of premiums semiannually does not apply to any employer who was a subscriber to the state insurance fund prior to January 1, 1914, or, until July 1, 2015, who may first become a subscriber to the fund in any month other than January or July. Instead, the semiannual premiums shall be paid by those employers from time to time upon the expiration of the respective periods for which

payments into the fund have been made by them. After July 1, 2015, an employer who first becomes a subscriber to the fund on any day other than the first day of July shall pay premiums according to rules adopted by the administrator, with the advice and consent of the bureau of workers' compensation board of directors, for the remainder of the policy year for which the coverage is effective.

The administrator, with the advice and consent of the board, shall adopt rules to permit employers to make periodic payments of the premium and assessment due under this division. The rules shall include provisions for the assessment of interest charges, where appropriate, and for the assessment of penalties when an employer fails to make timely premium payments. The administrator, in the rules the administrator adopts, may set an administrative fee for these periodic payments. An employer who timely pays the amounts due under this division is entitled to all of the benefits and protections of this chapter. Upon receipt of payment, the bureau shall issue a receipt to the employer certifying that payment has been made, which receipt is prima-facie evidence of payment. Workers' compensation coverage under this chapter continues uninterrupted upon timely receipt of payment under this division.

Every public employer, except public employers that are self-insuring employers under this section, shall comply with sections 4123.38 to 4123.41, and 4123.48 of the Revised Code in regard to the contribution of moneys to the public insurance fund.

(B) Employers who will abide by the rules of the administrator and who may be of sufficient financial ability to render certain the payment of compensation to injured employees

or the dependents of killed employees, and the furnishing of medical, surgical, nursing, and hospital attention and services and medicines, and funeral expenses, equal to or greater than is provided for in sections 4123.52, 4123.55 to 4123.62, and 4123.64 to 4123.67 of the Revised Code, and who do not desire to insure the payment thereof or indemnify themselves against loss sustained by the direct payment thereof, upon a finding of such facts by the administrator, may be granted the privilege to pay individually compensation, and furnish medical, surgical, nursing, and hospital services and attention and funeral expenses directly to injured employees or the dependents of killed employees, thereby being granted status as a self-insuring employer. The administrator may charge employers who apply for the status as a self-insuring employer a reasonable application fee to cover the bureau's costs in connection with processing and making a determination with respect to an application.

All employers granted status as self-insuring employers shall demonstrate sufficient financial and administrative ability to assure that all obligations under this section are promptly met. The administrator shall deny the privilege where the employer is unable to demonstrate the employer's ability to promptly meet all the obligations imposed on the employer by this section.

(1) The administrator shall consider, but is not limited to, the following factors, where applicable, in determining the employer's ability to meet all of the obligations imposed on the employer by this section:

(a) The employer has operated in this state for a minimum of two years, provided that an employer who has purchased,

acquired, or otherwise succeeded to the operation of a business, or any part thereof, situated in this state that has operated for at least two years in this state, also shall qualify;

(b) Where the employer previously contributed to the state insurance fund or is a successor employer as defined by bureau rules, the amount of the buyout, as defined by bureau rules;

(c) The sufficiency of the employer's assets located in this state to insure the employer's solvency in paying compensation directly;

(d) The financial records, documents, and data, certified by a certified public accountant, necessary to provide the employer's full financial disclosure. The records, documents, and data include, but are not limited to, balance sheets and profit and loss history for the current year and previous four years.

(e) The employer's organizational plan for the administration of the workers' compensation law;

(f) The employer's proposed plan to inform employees of the change from a state fund insurer to a self-insuring employer, the procedures the employer will follow as a self-insuring employer, and the employees' rights to compensation and benefits; and

(g) The employer has either an account in a financial institution in this state, or if the employer maintains an account with a financial institution outside this state, ensures that workers' compensation checks are drawn from the same account as payroll checks or the employer clearly indicates that payment will be honored by a financial institution in this state.

The administrator may waive the requirements of division (B)(1)(a) of this section and the requirement of division (B)(1)(d) of this section that the financial records, documents, and data be certified by a certified public accountant. The administrator shall adopt rules establishing the criteria that an employer shall meet in order for the administrator to waive the requirements of divisions (B)(1)(a) and (d) of this section. Such rules may require additional security of that employer pursuant to division (E) of section 4123.351 of the Revised Code.

The administrator shall not grant the status of self-insuring employer to the state, except that the administrator may grant the status of self-insuring employer to a state institution of higher education, including its hospitals, that meets the requirements of division (B)(2) of this section.

(2) When considering the application of a public employer, except for a board of county commissioners described in division (G) of section 4123.01 of the Revised Code, a board of a county hospital, or a publicly owned utility, the administrator shall verify that the public employer satisfies all of the following requirements as the requirements apply to that public employer:

(a) For the two-year period preceding application under this section, the public employer has maintained an unvoted debt capacity equal to at least two times the amount of the current annual premium established by the administrator under this chapter for that public employer for the year immediately preceding the year in which the public employer makes application under this section.

(b) For each of the two fiscal years preceding application under this section, the unreserved and undesignated year-end

fund balance in the public employer's general fund is equal to at least five per cent of the public employer's general fund revenues for the fiscal year computed in accordance with generally accepted accounting principles.

(c) For the five-year period preceding application under this section, the public employer, to the extent applicable, has complied fully with the continuing disclosure requirements established in rules adopted by the United States securities and exchange commission under 17 C.F.R. 240.15c 2-12.

(d) For the five-year period preceding application under this section, the public employer has not had its local government fund distribution withheld on account of the public employer being indebted or otherwise obligated to the state.

(e) For the five-year period preceding application under this section, the public employer has not been under a fiscal watch or fiscal emergency pursuant to section 118.023, 118.04, or 3316.03 of the Revised Code.

(f) For the public employer's fiscal year preceding application under this section, the public employer has obtained an annual financial audit as required under section 117.10 of the Revised Code, which has been released by the auditor of state within seven months after the end of the public employer's fiscal year.

(g) On the date of application, the public employer holds a debt rating of Aa3 or higher according to Moody's investors service, inc., or a comparable rating by an independent rating agency similar to Moody's investors service, inc.

(h) The public employer agrees to generate an annual accumulating book reserve in its financial statements reflecting

an actuarially generated reserve adequate to pay projected claims under this chapter for the applicable period of time, as determined by the administrator.

(i) For a public employer that is a hospital, the public employer shall submit audited financial statements showing the hospital's overall liquidity characteristics, and the administrator shall determine, on an individual basis, whether the public employer satisfies liquidity standards equivalent to the liquidity standards of other public employers.

~~(j) Any additional criteria that the administrator adopts by rule pursuant to division (E) of this section.~~

The administrator may adopt rules establishing the criteria that a public employer shall satisfy in order for the administrator to waive any of the requirements listed in divisions (B)(2)(a) to ~~(j)~~(i) of this section. The rules may require additional security from that employer pursuant to division (E) of section 4123.351 of the Revised Code. The administrator shall not waive any of the requirements listed in divisions (B)(2)(a) to ~~(j)~~(i) of this section for a public employer who does not satisfy the criteria established in the rules the administrator adopts.

(C) A board of county commissioners described in division (G) of section 4123.01 of the Revised Code, as an employer, that will abide by the rules of the administrator and that may be of sufficient financial ability to render certain the payment of compensation to injured employees or the dependents of killed employees, and the furnishing of medical, surgical, nursing, and hospital attention and services and medicines, and funeral expenses, equal to or greater than is provided for in sections 4123.52, 4123.55 to 4123.62, and 4123.64 to 4123.67 of the

Revised Code, and that does not desire to insure the payment thereof or indemnify itself against loss sustained by the direct payment thereof, upon a finding of such facts by the administrator, may be granted the privilege to pay individually compensation, and furnish medical, surgical, nursing, and hospital services and attention and funeral expenses directly to injured employees or the dependents of killed employees, thereby being granted status as a self-insuring employer. The administrator may charge a board of county commissioners described in division (G) of section 4123.01 of the Revised Code that applies for the status as a self-insuring employer a reasonable application fee to cover the bureau's costs in connection with processing and making a determination with respect to an application. All employers granted such status shall demonstrate sufficient financial and administrative ability to assure that all obligations under this section are promptly met. The administrator shall deny the privilege where the employer is unable to demonstrate the employer's ability to promptly meet all the obligations imposed on the employer by this section. The administrator shall consider, but is not limited to, the following factors, where applicable, in determining the employer's ability to meet all of the obligations imposed on the board as an employer by this section:

(1) The board has operated in this state for a minimum of two years;

(2) Where the board previously contributed to the state insurance fund or is a successor employer as defined by bureau rules, the amount of the buyout, as defined by bureau rules;

(3) The sufficiency of the board's assets located in this state to insure the board's solvency in paying compensation

directly;

(4) The financial records, documents, and data, certified by a certified public accountant, necessary to provide the board's full financial disclosure. The records, documents, and data include, but are not limited to, balance sheets and profit and loss history for the current year and previous four years.

(5) The board's organizational plan for the administration of the workers' compensation law;

(6) The board's proposed plan to inform employees of the proposed self-insurance, the procedures the board will follow as a self-insuring employer, and the employees' rights to compensation and benefits;

(7) The board has either an account in a financial institution in this state, or if the board maintains an account with a financial institution outside this state, ensures that workers' compensation checks are drawn from the same account as payroll checks or the board clearly indicates that payment will be honored by a financial institution in this state;

(8) The board shall provide the administrator a surety bond in an amount equal to one hundred twenty-five per cent of the projected losses as determined by the administrator.

(D) The administrator shall require a surety bond from all self-insuring employers, issued pursuant to section 4123.351 of the Revised Code, that is sufficient to compel, or secure to injured employees, or to the dependents of employees killed, the payment of compensation and expenses, which shall in no event be less than that paid or furnished out of the state insurance fund in similar cases to injured employees or to dependents of killed employees whose employers contribute to the fund, except when an

employee of the employer, who has suffered the loss of a hand, arm, foot, leg, or eye prior to the injury for which compensation is to be paid, and thereafter suffers the loss of any other of the members as the result of any injury sustained in the course of and arising out of the employee's employment, the compensation to be paid by the self-insuring employer is limited to the disability suffered in the subsequent injury, additional compensation, if any, to be paid by the bureau out of the surplus created by section 4123.34 of the Revised Code.

(E) In addition to the requirements of this section, the administrator shall make and publish rules governing the manner of making application and the nature and extent of the proof required to justify a finding of fact by the administrator as to granting the status of a self-insuring employer, which rules shall be general in their application, one of which rules shall provide that all self-insuring employers shall pay into the state insurance fund such amounts as are required to be credited to the surplus fund in division (B) of section 4123.34 of the Revised Code. ~~The administrator may adopt rules establishing requirements in addition to the requirements described in division (B)(2) of this section that a public employer shall meet in order to qualify for self-insuring status.~~

Employers shall secure directly from the bureau central offices application forms upon which the bureau shall stamp a designating number. Prior to submission of an application, an employer shall make available to the bureau, and the bureau shall review, the information described in division (B)(1) of this section, and public employers shall make available, and the bureau shall review, the information necessary to verify whether the public employer meets the requirements listed in division (B)(2) of this section. An employer shall file the completed

application forms with an application fee, which shall cover the costs of processing the application, as established by the administrator, by rule, with the bureau at least ninety days prior to the effective date of the employer's new status as a self-insuring employer. The application form is not deemed complete until all the required information is attached thereto. The bureau shall only accept applications that contain the required information.

(F) The bureau shall review completed applications within a reasonable time. If the bureau determines to grant an employer the status as a self-insuring employer, the bureau shall issue a statement, containing its findings of fact, that is prepared by the bureau and signed by the administrator. If the bureau determines not to grant the status as a self-insuring employer, the bureau shall notify the employer of the determination and require the employer to continue to pay its full premium into the state insurance fund. The administrator also shall adopt rules establishing a minimum level of performance as a criterion for granting and maintaining the status as a self-insuring employer and fixing time limits beyond which failure of the self-insuring employer to provide for the necessary medical examinations and evaluations may not delay a decision on a claim.

(G) The administrator shall adopt rules setting forth procedures for auditing the program of self-insuring employers. The bureau shall conduct the audit upon a random basis or whenever the bureau has grounds for believing that a self-insuring employer is not in full compliance with bureau rules or this chapter.

The administrator shall monitor the programs conducted by

self-insuring employers, to ensure compliance with bureau requirements and for that purpose, shall develop and issue to self-insuring employers standardized forms for use by the self-insuring employer in all aspects of the self-insuring employers' direct compensation program and for reporting of information to the bureau.

The bureau shall receive and transmit to the self-insuring employer all complaints concerning any self-insuring employer. In the case of a complaint against a self-insuring employer, the administrator shall handle the complaint through the self-insurance division of the bureau. The bureau shall maintain a file by employer of all complaints received that relate to the employer. The bureau shall evaluate each complaint and take appropriate action.

The administrator shall adopt as a rule a prohibition against any self-insuring employer from harassing, dismissing, or otherwise disciplining any employee making a complaint, which rule shall provide for a financial penalty to be levied by the administrator payable by the offending self-insuring employer.

(H) For the purpose of making determinations as to whether to grant status as a self-insuring employer, the administrator may subscribe to and pay for a credit reporting service that offers financial and other business information about individual employers. The costs in connection with the bureau's subscription or individual reports from the service about an applicant may be included in the application fee charged employers under this section.

(I) A self-insuring employer that returns to the state insurance fund as a state fund employer shall provide the administrator with medical costs and indemnity costs by claim,

and payroll by manual classification and year, and such other information the administrator may require. The self-insuring employer shall submit this information by dates and in a format determined by the administrator. The administrator shall develop a state fund experience modification factor for a self-insuring employer that returns to the state insurance fund based in whole or in part on the employer's self-insured experience and the information submitted.

(J) On the first day of July of each year, the administrator shall calculate separately each self-insuring employer's assessments for the safety and hygiene fund, administrative costs pursuant to section 4123.342 of the Revised Code, and for the surplus fund under division (B) of section 4123.34 of the Revised Code, on the basis of the paid compensation attributable to the individual self-insuring employer according to the following calculation:

(1) The total assessment against all self-insuring employers as a class for each fund and for the administrative costs for the year that the assessment is being made, as determined by the administrator, divided by the total amount of paid compensation for the previous calendar year attributable to all amenable self-insuring employers;

(2) Multiply the quotient in division (J)(1) of this section by the total amount of paid compensation for the previous calendar year that is attributable to the individual self-insuring employer for whom the assessment is being determined. Each self-insuring employer shall pay the assessment that results from this calculation, unless the assessment resulting from this calculation falls below a minimum assessment, which minimum assessment the administrator shall

determine on the first day of July of each year with the advice and consent of the bureau of workers' compensation board of directors, in which event, the self-insuring employer shall pay the minimum assessment.

In determining the total amount due for the total assessment against all self-insuring employers as a class for each fund and the administrative assessment, the administrator shall reduce proportionately the total for each fund and assessment by the amount of money in the self-insurance assessment fund as of the date of the computation of the assessment.

The administrator shall calculate the assessment for the portion of the surplus fund under division (B) of section 4123.34 of the Revised Code that is used for reimbursement to a self-insuring employer under division (H) of section 4123.512 of the Revised Code in the same manner as set forth in divisions (J)(1) and (2) of this section except that the administrator shall calculate the total assessment for this portion of the surplus fund only on the basis of those self-insuring employers that retain participation in reimbursement to the self-insuring employer under division (H) of section 4123.512 of the Revised Code and the individual self-insuring employer's proportion of paid compensation shall be calculated only for those self-insuring employers who retain participation in reimbursement to the self-insuring employer under division (H) of section 4123.512 of the Revised Code.

An employer who no longer is a self-insuring employer in this state or who no longer is operating in this state, shall continue to pay assessments for administrative costs and for the surplus fund under division (B) of section 4123.34 of the

Revised Code based upon paid compensation attributable to claims that occurred while the employer was a self-insuring employer within this state.

(K) There is hereby created in the state treasury the self-insurance assessment fund. All investment earnings of the fund shall be deposited in the fund. The administrator shall use the money in the self-insurance assessment fund only for administrative costs as specified in section 4123.341 of the Revised Code.

(L) Every self-insuring employer shall certify, in affidavit form subject to the penalty for perjury, to the bureau the amount of the self-insuring employer's paid compensation for the previous calendar year. In reporting paid compensation paid for the previous year, a self-insuring employer shall exclude from the total amount of paid compensation any reimbursement the self-insuring employer receives in the previous calendar year from the surplus fund pursuant to section 4123.512 of the Revised Code for any paid compensation. The self-insuring employer also shall exclude from the paid compensation reported any amount recovered under section 4123.931 of the Revised Code and any amount that is determined not to have been payable to or on behalf of a claimant in any final administrative or judicial proceeding. The self-insuring employer shall exclude such amounts from the paid compensation reported in the reporting period subsequent to the date the determination is made. The administrator shall adopt rules, in accordance with Chapter 119. of the Revised Code, that provide for all of the following:

(1) Establishing the date by which self-insuring employers must submit such information and the amount of the assessments provided for in division (J) of this section for employers who

have been granted self-insuring status within the last calendar year;

(2) If an employer fails to pay the assessment when due, the administrator may add a late fee penalty of not more than five hundred dollars to the assessment plus an additional penalty amount as follows:

(a) For an assessment from sixty-one to ninety days past due, the prime interest rate, multiplied by the assessment due;

(b) For an assessment from ninety-one to one hundred twenty days past due, the prime interest rate plus two per cent, multiplied by the assessment due;

(c) For an assessment from one hundred twenty-one to one hundred fifty days past due, the prime interest rate plus four per cent, multiplied by the assessment due;

(d) For an assessment from one hundred fifty-one to one hundred eighty days past due, the prime interest rate plus six per cent, multiplied by the assessment due;

(e) For an assessment from one hundred eighty-one to two hundred ten days past due, the prime interest rate plus eight per cent, multiplied by the assessment due;

(f) For each additional thirty-day period or portion thereof that an assessment remains past due after it has remained past due for more than two hundred ten days, the prime interest rate plus eight per cent, multiplied by the assessment due.

(3) An employer may appeal a late fee penalty and penalty assessment to the administrator.

For purposes of division (L)(2) of this section, "prime

interest rate" means the average bank prime rate, and the administrator shall determine the prime interest rate in the same manner as a county auditor determines the average bank prime rate under section 929.02 of the Revised Code.

The administrator shall include any assessment and penalties that remain unpaid for previous assessment periods in the calculation and collection of any assessments due under this division or division (J) of this section.

(M) As used in this section, "paid compensation" means all amounts paid by a self-insuring employer for living maintenance benefits, all amounts for compensation paid pursuant to sections 4121.63, 4121.67, 4123.56, 4123.57, 4123.58, 4123.59, 4123.60, and 4123.64 of the Revised Code, all amounts paid as wages in lieu of such compensation, all amounts paid in lieu of such compensation under a nonoccupational accident and sickness program fully funded by the self-insuring employer, and all amounts paid by a self-insuring employer for a violation of a specific safety standard pursuant to Section 35 of Article II, Ohio Constitution and section 4121.47 of the Revised Code.

(N) Should any section of this chapter or Chapter 4121. of the Revised Code providing for self-insuring employers' assessments based upon compensation paid be declared unconstitutional by a final decision of any court, then that section of the Revised Code declared unconstitutional shall revert back to the section in existence prior to November 3, 1989, providing for assessments based upon payroll.

(O) The administrator may grant a self-insuring employer the privilege to self-insure a construction project entered into by the self-insuring employer that is scheduled for completion within six years after the date the project begins, and the

total cost of which is estimated to exceed one hundred million dollars or, for employers described in division (R) of this section, if the construction project is estimated to exceed twenty-five million dollars. The administrator may waive such cost and time criteria and grant a self-insuring employer the privilege to self-insure a construction project regardless of the time needed to complete the construction project and provided that the cost of the construction project is estimated to exceed fifty million dollars. A self-insuring employer who desires to self-insure a construction project shall submit to the administrator an application listing the dates the construction project is scheduled to begin and end, the estimated cost of the construction project, the contractors and subcontractors whose employees are to be self-insured by the self-insuring employer, the provisions of a safety program that is specifically designed for the construction project, and a statement as to whether a collective bargaining agreement governing the rights, duties, and obligations of each of the parties to the agreement with respect to the construction project exists between the self-insuring employer and a labor organization.

A self-insuring employer may apply to self-insure the employees of either of the following:

(1) All contractors and subcontractors who perform labor or work or provide materials for the construction project;

(2) All contractors and, at the administrator's discretion, a substantial number of all the subcontractors who perform labor or work or provide materials for the construction project.

Upon approval of the application, the administrator shall

mail a certificate granting the privilege to self-insure the construction project to the self-insuring employer. The certificate shall contain the name of the self-insuring employer and the name, address, and telephone number of the self-insuring employer's representatives who are responsible for administering workers' compensation claims for the construction project. The self-insuring employer shall post the certificate in a conspicuous place at the site of the construction project.

The administrator shall maintain a record of the contractors and subcontractors whose employees are covered under the certificate issued to the self-insured employer. A self-insuring employer immediately shall notify the administrator when any contractor or subcontractor is added or eliminated from inclusion under the certificate.

Upon approval of the application, the self-insuring employer is responsible for the administration and payment of all claims under this chapter and Chapter 4121. of the Revised Code for the employees of the contractor and subcontractors covered under the certificate who receive injuries or are killed in the course of and arising out of employment on the construction project, or who contract an occupational disease in the course of employment on the construction project. For purposes of this chapter and Chapter 4121. of the Revised Code, a claim that is administered and paid in accordance with this division is considered a claim against the self-insuring employer listed in the certificate. A contractor or subcontractor included under the certificate shall report to the self-insuring employer listed in the certificate, all claims that arise under this chapter and Chapter 4121. of the Revised Code in connection with the construction project for which the certificate is issued.

A self-insuring employer who complies with this division is entitled to the protections provided under this chapter and Chapter 4121. of the Revised Code with respect to the employees of the contractors and subcontractors covered under a certificate issued under this division for death or injuries that arise out of, or death, injuries, or occupational diseases that arise in the course of, those employees' employment on that construction project, as if the employees were employees of the self-insuring employer, provided that the self-insuring employer also complies with this section. No employee of the contractors and subcontractors covered under a certificate issued under this division shall be considered the employee of the self-insuring employer listed in that certificate for any purposes other than this chapter and Chapter 4121. of the Revised Code. Nothing in this division gives a self-insuring employer authority to control the means, manner, or method of employment of the employees of the contractors and subcontractors covered under a certificate issued under this division.

The contractors and subcontractors included under a certificate issued under this division are entitled to the protections provided under this chapter and Chapter 4121. of the Revised Code with respect to the contractor's or subcontractor's employees who are employed on the construction project which is the subject of the certificate, for death or injuries that arise out of, or death, injuries, or occupational diseases that arise in the course of, those employees' employment on that construction project.

The contractors and subcontractors included under a certificate issued under this division shall identify in their payroll records the employees who are considered the employees of the self-insuring employer listed in that certificate for

purposes of this chapter and Chapter 4121. of the Revised Code, and the amount that those employees earned for employment on the construction project that is the subject of that certificate. Notwithstanding any provision to the contrary under this chapter and Chapter 4121. of the Revised Code, the administrator shall exclude the payroll that is reported for employees who are considered the employees of the self-insuring employer listed in that certificate, and that the employees earned for employment on the construction project that is the subject of that certificate, when determining those contractors' or subcontractors' premiums or assessments required under this chapter and Chapter 4121. of the Revised Code. A self-insuring employer issued a certificate under this division shall include in the amount of paid compensation it reports pursuant to division (L) of this section, the amount of paid compensation the self-insuring employer paid pursuant to this division for the previous calendar year.

Nothing in this division shall be construed as altering the rights of employees under this chapter and Chapter 4121. of the Revised Code as those rights existed prior to September 17, 1996. Nothing in this division shall be construed as altering the rights devolved under sections 2305.31 and 4123.82 of the Revised Code as those rights existed prior to September 17, 1996.

As used in this division, "privilege to self-insure a construction project" means privilege to pay individually compensation, and to furnish medical, surgical, nursing, and hospital services and attention and funeral expenses directly to injured employees or the dependents of killed employees.

(P) A self-insuring employer whose application is granted

under division (O) of this section shall designate a safety professional to be responsible for the administration and enforcement of the safety program that is specifically designed for the construction project that is the subject of the application.

A self-insuring employer whose application is granted under division (O) of this section shall employ an ombudsperson for the construction project that is the subject of the application. The ombudsperson shall have experience in workers' compensation or the construction industry, or both. The ombudsperson shall perform all of the following duties:

(1) Communicate with and provide information to employees who are injured in the course of, or whose injury arises out of employment on the construction project, or who contract an occupational disease in the course of employment on the construction project;

(2) Investigate the status of a claim upon the request of an employee to do so;

(3) Provide information to claimants, third party administrators, employers, and other persons to assist those persons in protecting their rights under this chapter and Chapter 4121. of the Revised Code.

A self-insuring employer whose application is granted under division (O) of this section shall post the name of the safety professional and the ombudsperson and instructions for contacting the safety professional and the ombudsperson in a conspicuous place at the site of the construction project.

(Q) The administrator may consider all of the following when deciding whether to grant a self-insuring employer the

privilege to self-insure a construction project as provided under division (O) of this section:

(1) Whether the self-insuring employer has an organizational plan for the administration of the workers' compensation law;

(2) Whether the safety program that is specifically designed for the construction project provides for the safety of employees employed on the construction project, is applicable to all contractors and subcontractors who perform labor or work or provide materials for the construction project, and has as a component, a safety training program that complies with standards adopted pursuant to the "Occupational Safety and Health Act of 1970," 84 Stat. 1590, 29 U.S.C.A. 651, and provides for continuing management and employee involvement;

(3) Whether granting the privilege to self-insure the construction project will reduce the costs of the construction project;

(4) Whether the self-insuring employer has employed an ombudsperson as required under division (P) of this section;

(5) Whether the self-insuring employer has sufficient surety to secure the payment of claims for which the self-insuring employer would be responsible pursuant to the granting of the privilege to self-insure a construction project under division (O) of this section.

(R) As used in divisions (O), (P), and (Q), "self-insuring employer" includes the following employers, whether or not they have been granted the status of being a self-insuring employer under division (B) of this section:

(1) A state institution of higher education;

(2) A school district;

(3) A county school financing district;

(4) An educational service center;

(5) A community school established under Chapter 3314. of the Revised Code;

(6) A municipal power agency as defined in section 3734.058 of the Revised Code.

(S) As used in this section:

(1) "Unvoted debt capacity" means the amount of money that a public employer may borrow without voter approval of a tax levy;

(2) "State institution of higher education" means the state universities listed in section 3345.011 of the Revised Code, community colleges created pursuant to Chapter 3354. of the Revised Code, university branches created pursuant to Chapter 3355. of the Revised Code, technical colleges created pursuant to Chapter 3357. of the Revised Code, and state community colleges created pursuant to Chapter 3358. of the Revised Code.

Sec. 4123.351. (A) The administrator of workers' compensation shall require every self-insuring employer, including any self-insuring employer that is indemnified by a captive insurance company granted a certificate of authority under Chapter 3964. of the Revised Code, to pay a contribution, calculated under this section, to the self-insuring employers' guaranty fund established pursuant to this section. The fund shall provide for payment of compensation and benefits to employees of the self-insuring employer in order to cover any

default in payment by that employer.

(B) The bureau of workers' compensation shall operate the self-insuring employers' guaranty fund for self-insuring employers. The administrator annually shall establish the contributions due from self-insuring employers for the fund at rates as low as possible but such as will assure sufficient moneys to guarantee the payment of any claims against the fund. The bureau's operation of the fund is not subject to sections 3929.10 to 3929.18 of the Revised Code or to regulation by the superintendent of insurance.

(C) If a self-insuring employer defaults, the bureau shall recover the amounts paid as a result of the default from the self-insuring employers' guaranty fund. If a self-insuring employer defaults and is in compliance with this section for the payment of contributions to the fund, such self-insuring employer is entitled to the immunity conferred by section 4123.74 of the Revised Code for any claim arising during any period the employer is in compliance with this section.

(D)(1) There is hereby established a self-insuring employers' guaranty fund, which shall be in the custody of the treasurer of state and which shall be separate from the other funds established and administered pursuant to this chapter. The fund shall consist of contributions and other payments made by self-insuring employers under this section. All investment earnings of the fund shall be credited to the fund. The bureau shall make disbursements from the fund pursuant to this section.

(2) The administrator has the same powers to invest any of the surplus or reserve belonging to the fund as are delegated to the administrator under section 4123.44 of the Revised Code with respect to the state insurance fund. The administrator shall

apply interest earned solely to the reduction of assessments for contributions from self-insuring employers and to the payments required due to defaults.

(3) If the bureau of workers' compensation board of directors determines that reinsurance of the risks of the fund is necessary to assure solvency of the fund, the board may:

(a) Enter into contracts for the purchase of reinsurance coverage of the risks of the fund with any company or agency authorized by law to issue contracts of reinsurance;

(b) Require the administrator to pay the cost of reinsurance from the fund;

(c) Include the costs of reinsurance as a liability and estimated liability of the fund.

(E) The administrator, with the advice and consent of the board, may adopt ~~rules~~ a rule pursuant to Chapter 119. of the Revised Code ~~for the implementation of this section, including a rule~~, notwithstanding division (C) of this section, requiring self-insuring employers to provide security in addition to the contribution to the self-insuring employers' guaranty fund required by this section. The additional security required by the rule, as the administrator determines appropriate, shall be sufficient and adequate to provide for financial assurance to meet the obligations of self-insuring employers under this chapter and Chapter 4121. of the Revised Code.

(F) The purchase of coverage under this section by self-insuring employers is valid notwithstanding the prohibitions contained in division (A) of section 4123.82 of the Revised Code and is in addition to the indemnity contracts that self-insuring employers may purchase pursuant to division (B) of section

4123.82 of the Revised Code.

(G) The administrator, on behalf of the self-insuring employers' guaranty fund, has the rights of reimbursement and subrogation and shall collect from a defaulting self-insuring employer or other liable person all amounts the administrator has paid or reasonably expects to pay from the fund on account of the defaulting self-insuring employer.

(H) The assessments for contributions, the administration of the self-insuring employers' guaranty fund, the investment of the money in the fund, and the payment of liabilities incurred by the fund do not create any liability upon the state.

Except for a gross abuse of discretion, neither the board, nor the individual members thereof, nor the administrator shall incur any obligation or liability respecting the assessments for contributions, the administration of the self-insuring employers' guaranty fund, the investment of the fund, or the payment of liabilities therefrom.

Sec. 4125.02. The administrator of workers' compensation shall adopt rules in accordance with Chapter 119. of the Revised Code ~~to administer and enforce this chapter, including rules~~ to administer and enforce division (B) of section 4125.03 of the Revised Code.

The administrator may adopt rules for the acceptance of electronic filings in accordance with Chapter 1306. of the Revised Code for applications, documents, reports, and other filings required by this chapter.

The administrator may allow an independent assurance organization to act on behalf of a professional employer organization or professional employer organization reporting

entity in complying with this chapter and any rules adopted under it. The assurance organization shall be approved by the administrator before acting on behalf of the professional employer organization or the professional employer organization reporting entity and shall abide by all standards and procedures established by the administrator for that approval. The administrator may permit a professional employer organization or professional employer organization reporting entity to authorize an assurance organization approved by the administrator to act on behalf of the professional employer organization or professional employer organization reporting entity, and the administrator shall specify certain provisions of this chapter that may be satisfied by an assurance organization acting with that authority. The rules shall also stipulate that the use of an assurance organization by a professional employer organization to comply with this chapter is not required and is strictly voluntary.

Sec. 4133.02. The administrator of workers' compensation shall adopt rules in accordance with Chapter 119. of the Revised Code ~~to administer and enforce this chapter, including rules~~ to administer and enforce division (E) of section 4133.03 of the Revised Code.

The administrator may adopt rules for the acceptance of electronic filings in accordance with Chapter 1306. of the Revised Code for applications, documents, reports, and other filings required by this chapter.

Sec. 4141.06. There is hereby created an unemployment compensation review commission consisting of three full-time members appointed by the governor, with the advice and consent of the senate. Terms of office shall be staggered and shall be

for six years, commencing on the twenty-eighth day of February and ending on the twenty-seventh day of February. Each member shall hold office from the date of appointment until the end of the term for which the member was appointed. Any member appointed to fill a vacancy occurring prior to the expiration of the term for which the member's predecessor was appointed shall hold office for the remainder of such term. Any member shall continue in office subsequent to the expiration date of the member's term until the member's successor takes office, or until a period of sixty days has elapsed, whichever occurs first. The chairperson of the commission and each member shall be paid a salary fixed pursuant to section 124.14 of the Revised Code. The governor, at any time, may remove any member for inefficiency, neglect of duty, malfeasance, misfeasance, or nonfeasance in office.

Not more than one of the appointees to the commission shall be a person who, on account of the appointee's previous vocation, employment, or affiliations, can be classed as a representative of employers, and not more than one of the appointees shall be a person who, on account of the appointee's previous vocation, employment, or affiliations, can be classed as a representative of employees. Not more than two of the members of the commission shall belong to the same political party. No member of the commission shall hold any office of trust or profit or engage in any occupation or business interfering or inconsistent with the member's duties as a member and no member shall serve on any committee of any political party. The commission shall elect a chairperson and a vice-chairperson. The vice-chairperson shall exercise the powers of the chairperson in the chairperson's absence.

No commission member shall participate in the disposition

of any appeal in which the member has an interest in the controversy. Challenges to the interest of any commission member may be made by any interested party defined in division (I) of section 4141.01 of the Revised Code and shall be in writing. All challenges shall be decided by the chairperson of the advisory council, who, if the challenge is found to be well taken, shall advise the governor, who shall appoint a member of the advisory council representing the same affiliations to act and receive the same compensation for serving in place of such member.

The commission may appoint a secretary to hold office at its pleasure. The secretary shall have such powers and shall perform such duties as the commission prescribes and shall keep a record of the proceedings of the commission and of its determinations. The secretary shall receive a salary fixed pursuant to section 124.14 of the Revised Code. Notwithstanding division (A)(8) of section 124.11 of the Revised Code, each member of the commission may appoint a private secretary who shall be in the classified service of the state and hold office at the pleasure of such member.

Two members of the commission constitute a quorum and no action of the commission is valid unless it has the concurrence of at least two members. A vacancy on the commission does not impair the right of a quorum to exercise all the rights and perform all the duties of the commission.

The commission and its hearing officers shall hear appeals arising from determinations of the director of job and family services involving claims for compensation and other unemployment compensation issues. The commission shall ~~adopt, amend, or rescind rules of procedure, and~~ undertake such investigations~~,~~ and take such action required for the hearing

and disposition of appeals as it deems necessary and consistent with this chapter. ~~The rules adopted by the commission shall be effective to the extent that the rules are consistent with this chapter.~~

The commission, subject to Chapter 124. of the Revised Code, and with the approval of the governor, shall appoint such hearing officers as are necessary. The hearing officers shall be classified by the department of administrative services. Any promotions or increases in compensation of the hearing officers may be recommended by the commission subject to classifications which are made by the department of administrative services. The members of the commission and hearing officers may conduct hearings for unemployment compensation appeals coming before the commission. The members and hearing officers may exercise all powers provided by section 4141.17 of the Revised Code.

The commission, subject to Chapter 124. of the Revised Code, may employ such support personnel as are needed to carry out the duties of the commission. The salaries of such employees are fixed pursuant to section 124.14 of the Revised Code. The commission shall further provide itself and its employees with such offices, equipment, and supplies as are necessary, using those already provided for the department of job and family services wherever possible.

The commission shall have access to only the records of the department of job and family services that are necessary for the administration of this chapter and needed in the performance of its official duties. The commission shall have the right to request of the director necessary information from any work unit of the department having that information.

The commission shall prepare and submit to the director an

annual budget financing the costs necessary to administer its duties under this chapter. The fund request shall relate to, but not be limited to, the United States department of labor's allocations for the commission's functions. The director shall approve the commission's request unless funds are insufficient to finance the request. The director shall notify the commission of the amount of funds available for its operation, as soon as possible, but not later than thirty days after receiving the allocation from the United States department of labor.

In the event that the director determines that sufficient funds are not available to approve the request as submitted and a revised budget is not agreed to within thirty days of the director's notification to the commission, the director of budget and management shall review and determine the funding levels for the commission and notify the commission and the director of the determination by the director of budget and management.

Sec. 4141.29. Each eligible individual shall receive benefits as compensation for loss of remuneration due to involuntary total or partial unemployment in the amounts and subject to the conditions stipulated in this chapter.

(A) No individual is entitled to a waiting period or

benefits for any week unless the individual:

(1) Has filed a valid application for determination of benefit rights in accordance with section 4141.28 of the Revised Code;

(2) Has made a claim for benefits in accordance with section 4141.28 of the Revised Code;

(3)(a) Has registered for work and thereafter continues to report to an employment office or other registration place maintained or designated by the director of job and family services. Registration shall be made in accordance with the time limits, frequency, and manner prescribed by the director.

(b) For purposes of division (A)(3) of this section, an individual has "registered" upon doing any of the following:

(i) Filing an application for benefit rights;

(ii) Making a weekly claim for benefits;

(iii) Reopening an existing claim following a period of employment or nonreporting.

(c) After an applicant is registered, that registration continues for a period of three calendar weeks, including the week during which the applicant registered. However, an individual is not registered for purposes of division (A)(3) of this section during any period in which the individual fails to report, as instructed by the director, or fails to reopen an existing claim following a period of employment.

(d) The director may, for good cause, extend the period of registration.

(e) For purposes of this section, "report" means contact

by phone, access electronically, or be present for an in-person appointment, as designated by the director.

(4)(a)(i) Is able to work and available for suitable work and, except as provided in division (A)(4)(a)(ii) or (iii) of this section, is actively seeking suitable work either in a locality in which the individual has earned wages subject to this chapter during the individual's base period, or if the individual leaves that locality, then in a locality where suitable work normally is performed.

(ii) The director may waive the requirement that a claimant be actively seeking work when the director finds that the individual has been laid off and the employer who laid the individual off has notified the director within ten days after the layoff, that work is expected to be available for the individual within a specified number of days not to exceed forty-five calendar days following the last day the individual worked. In the event the individual is not recalled within the specified period, this waiver shall cease to be operative with respect to that layoff.

(iii) The director may waive the requirement that a claimant be actively seeking work if the director determines that the individual has been laid off and the employer who laid the individual off has notified the director in accordance with division (C) of section 4141.28 of the Revised Code that the employer has closed the employer's entire plant or part of the employer's plant for a purpose other than inventory or vacation that will cause unemployment for a definite period not exceeding twenty-six weeks beginning on the date the employer notifies the director, for the period of the specific shutdown, if all of the following apply:

(I) The employer and the individuals affected by the layoff who are claiming benefits under this chapter jointly request the exemption.

(II) The employer provides that the affected individuals shall return to work for the employer within twenty-six weeks after the date the employer notifies the director.

(III) The director determines that the waiver of the active search for work requirement will promote productivity and economic stability within the state.

(iv) Division (A)(4)(a)(iii) of this section does not exempt an individual from meeting the other requirements specified in division (A)(4)(a)(i) of this section to be able to work and otherwise fully be available for work. An exemption granted under division (A)(4)(a)(iii) of this section may be granted only with respect to a specific plant closing.

(b)(i) The individual shall be instructed as to the efforts that the individual must make in the search for suitable work, including that, within six months after October 11, 2013, the individual shall register with the OhioMeansJobs web site, except in any of the following circumstances:

(I) The individual is an individual described in division (A)(4)(b)(iii) of this section;

(II) Where the active search for work requirement has been waived under division (A)(4)(a) of this section;

(III) Where the active search for work requirement is considered to be met under division (A)(4)(c), (d), or (e) of this section.

(ii) An individual who is registered with the

OhioMeansJobs web site shall receive a weekly listing of available jobs based on information provided by the individual at the time of registration. For each week that the individual claims benefits, the individual shall keep a record of the individual's work search efforts and shall produce that record in the manner and means prescribed by the director.

(iii) No individual shall be required to register with the OhioMeansJobs web site if the individual is legally prohibited from using a computer, has a physical or visual impairment that makes the individual unable to use a computer, or has a limited ability to read, write, speak, or understand a language in which the OhioMeansJobs web site is available.

(iv) As used in division (A)(4)(b) of this section:

(I) "OhioMeansJobs web site" has the same meaning as in section 6301.01 of the Revised Code.

(II) "Registration" includes the creation, electronic posting, and maintenance of an active, searchable resume.

(c) An individual who is attending a training course approved by the director meets the requirement of this division, if attendance was recommended by the director and the individual is regularly attending the course and is making satisfactory progress. An individual also meets the requirements of this division if the individual is participating and advancing in a training program, as defined in division (P) of section 5709.61 of the Revised Code, and if an enterprise, defined in division (B) of section 5709.61 of the Revised Code, is paying all or part of the cost of the individual's participation in the training program with the intention of hiring the individual for employment as a new employee, as defined in division (L) of

section 5709.61 of the Revised Code, for at least ninety days after the individual's completion of the training program.

(d) An individual who becomes unemployed while attending a regularly established school and whose base period qualifying weeks were earned in whole or in part while attending that school, meets the availability and active search for work requirements of division (A)(4)(a) of this section if the individual regularly attends the school during weeks with respect to which the individual claims unemployment benefits and makes self available on any shift of hours for suitable employment with the individual's most recent employer or any other employer in the individual's base period, or for any other suitable employment to which the individual is directed, under this chapter.

(e) An individual who is a member in good standing with a labor organization that refers individuals to jobs meets the active search for work requirement specified in division (A)(4)(a) of this section if the individual provides documentation that the individual is eligible for a referral or placement upon request and in a manner prescribed by the director.

(f) Notwithstanding any other provisions of this section, no otherwise eligible individual shall be denied benefits for any week because the individual is in training approved under section 236(a)(1) of the "Trade Act of 1974," 88 Stat. 1978, 19 U.S.C.A. 2296, nor shall that individual be denied benefits by reason of leaving work to enter such training, provided the work left is not suitable employment, or because of the application to any week in training of provisions in this chapter, or any applicable federal unemployment compensation law, relating to availability for work, active search for work, or refusal to

accept work.

For the purposes of division (A)(4)(f) of this section, "suitable employment" means with respect to an individual, work of a substantially equal or higher skill level than the individual's past adversely affected employment, as defined for the purposes of the "Trade Act of 1974," 88 Stat. 1978, 19 U.S.C.A. 2101, and wages for such work at not less than eighty per cent of the individual's average weekly wage as determined for the purposes of that federal act.

(5) Is unable to obtain suitable work.

(6) Participates in reemployment services, such as job search assistance services, if the individual has been determined to be likely to exhaust benefits under this chapter, including compensation payable pursuant to 5 U.S.C.A. Chapter 85, other than extended compensation, and needs reemployment services pursuant to the profiling system established by the director under division (K) of this section, unless the director determines that:

(a) The individual has completed such services; or

(b) There is justifiable cause for the claimant's failure to participate in such services.

Ineligibility for failure to participate in reemployment services as described in division (A)(6) of this section shall be for the week or weeks in which the claimant was scheduled and failed to participate without justifiable cause.

(7) Participates in the reemployment and eligibility assessment program, or other reemployment services, as required by the director. As used in division (A)(7) of this section, "reemployment services" includes job search assistance

activities, skills assessments, and the provision of labor market statistics or analysis.

(a) For purposes of division (A)(7) of this section, participation is required unless the director determines that either of the following circumstances applies to the individual:

(i) The individual has completed similar services.

(ii) Justifiable cause exists for the failure of the individual to participate in those services.

(b) Within six months after October 11, 2013, notwithstanding any earlier contact an individual may have had with a local OhioMeansJobs center, as defined in section 6301.01 of the Revised Code, beginning with the eighth week after the week during which an individual first files a valid application for determination of benefit rights in the individual's benefit year, the individual shall report to a local OhioMeansJobs center for reemployment services in the manner prescribed by the director.

(c) An individual whose active search for work requirement has been waived under division (A)(4)(a) of this section or is considered to be satisfied under division (A)(4)(c), (d), or (e) of this section is exempt from the requirements of division (A)(7) of this section.

(B) An individual suffering total or partial unemployment is eligible for benefits for unemployment occurring subsequent to a waiting period of one week and no benefits shall be payable during this required waiting period. Not more than one week of waiting period shall be required of any individual in any benefit year in order to establish the individual's eligibility for total or partial unemployment benefits.

(C) The waiting period for total or partial unemployment shall commence on the first day of the first week with respect to which the individual first files a claim for benefits at an employment office or other place of registration maintained or designated by the director or on the first day of the first week with respect to which the individual has otherwise filed a claim for benefits in accordance with the rules of the department of job and family services, provided such claim is allowed by the director.

(D) Notwithstanding division (A) of this section, no individual may serve a waiting period or be paid benefits under the following conditions:

(1) For any week with respect to which the director finds that:

(a) The individual's unemployment was due to a labor dispute other than a lockout at any factory, establishment, or other premises located in this or any other state and owned or operated by the employer by which the individual is or was last employed; and for so long as the individual's unemployment is due to such labor dispute. No individual shall be disqualified under this provision if either of the following applies:

(i) The individual's employment was with such employer at any factory, establishment, or premises located in this state, owned or operated by such employer, other than the factory, establishment, or premises at which the labor dispute exists, if it is shown that the individual is not financing, participating in, or directly interested in such labor dispute;

(ii) The individual's employment was with an employer not involved in the labor dispute but whose place of business was

located within the same premises as the employer engaged in the dispute, unless the individual's employer is a wholly owned subsidiary of the employer engaged in the dispute, or unless the individual actively participates in or voluntarily stops work because of such dispute. If it is established that the claimant was laid off for an indefinite period and not recalled to work prior to the dispute, or was separated by the employer prior to the dispute for reasons other than the labor dispute, or that the individual obtained a bona fide job with another employer while the dispute was still in progress, such labor dispute shall not render the employee ineligible for benefits.

(b) The individual has been given a disciplinary layoff for misconduct in connection with the individual's work.

(2) For the duration of the individual's unemployment if the director finds that:

(a) The individual quit work without just cause or has been discharged for just cause in connection with the individual's work, provided division (D)(2) of this section does not apply to the separation of a person under any of the following circumstances:

(i) Separation from employment for the purpose of entering the armed forces of the United States if the individual is inducted into the armed forces within one of the following periods:

(I) Thirty days after separation;

(II) One hundred eighty days after separation if the individual's date of induction is delayed solely at the discretion of the armed forces.

(ii) Separation from employment pursuant to a labor-

management contract or agreement, or pursuant to an established employer plan, program, or policy, which permits the employee, because of lack of work, to accept a separation from employment;

(iii) The individual has left employment to accept a recall from a prior employer or, except as provided in division (D)(2)(a)(iv) of this section, to accept other employment as provided under section 4141.291 of the Revised Code, or left or was separated from employment that was concurrent employment at the time of the most recent separation or within six weeks prior to the most recent separation where the remuneration, hours, or other conditions of such concurrent employment were substantially less favorable than the individual's most recent employment and where such employment, if offered as new work, would be considered not suitable under the provisions of divisions (E) and (F) of this section. Any benefits that would otherwise be chargeable to the account of the employer from whom an individual has left employment or was separated from employment that was concurrent employment under conditions described in division (D)(2)(a)(iii) of this section, shall instead be charged to the mutualized account created by division (B) of section 4141.25 of the Revised Code, except that any benefits chargeable to the account of a reimbursing employer under division (D)(2)(a)(iii) of this section shall be charged to the account of the reimbursing employer and not to the mutualized account, except as provided in division (D)(2) of section 4141.24 of the Revised Code.

(iv) When an individual has been issued a definite layoff date by the individual's employer and before the layoff date, the individual quits to accept other employment, the provisions of division (D)(2)(a)(iii) of this section apply and no disqualification shall be imposed under division (D) of this

section. However, if the individual fails to meet the employment and earnings requirements of division (A)(2) of section 4141.291 of the Revised Code, then the individual, pursuant to division (A)(5) of this section, shall be ineligible for benefits for any week of unemployment that occurs prior to the layoff date.

(v) The individual's spouse is a member of the armed forces of the United States who is on active duty or a member of the commissioned corps of the national oceanic and atmospheric administration or public health service, the spouse is the subject of a transfer, the individual left employment to accompany the individual's spouse to a location from which it is impractical to commute to the individual's place of employment, and upon arrival at the new place of residence, the individual is in all respects able and available for suitable work. For purposes of division (D)(2)(a)(v) of this section, "active duty" and "armed forces" have the same meanings as in 10 U.S.C. 101.

(b) The individual has refused without good cause to accept an offer of suitable work when made by an employer either in person or to the individual's last known address, or has refused or failed to investigate a referral to suitable work when directed to do so by a local employment office of this state or another state, provided that this division shall not cause a disqualification for a waiting week or benefits under the following circumstances:

(i) When work is offered by the individual's employer and the individual is not required to accept the offer pursuant to the terms of the labor-management contract or agreement; or

(ii) When the individual is attending a training course pursuant to division (A)(4) of this section except, in the event of a refusal to accept an offer of suitable work or a refusal or

failure to investigate a referral, benefits thereafter paid to such individual shall not be charged to the account of any employer and, except as provided in division (B)(1)(b) of section 4141.241 of the Revised Code, shall be charged to the mutualized account as provided in division (B) of section 4141.25 of the Revised Code.

(c) Such individual quit work to marry or because of marital, parental, filial, or other domestic obligations.

(d) The individual became unemployed by reason of commitment to any correctional institution.

(e) The individual became unemployed because of dishonesty in connection with the individual's most recent or any base period work. Remuneration earned in such work shall be excluded from the individual's total base period remuneration and qualifying weeks that otherwise would be credited to the individual for such work in the individual's base period shall not be credited for the purpose of determining the total benefits to which the individual is eligible and the weekly benefit amount to be paid under section 4141.30 of the Revised Code. Such excluded remuneration and noncredited qualifying weeks shall be excluded from the calculation of the maximum amount to be charged, under division (D) of section 4141.24 and section 4141.33 of the Revised Code, against the accounts of the individual's base period employers. In addition, no benefits shall thereafter be paid to the individual based upon such excluded remuneration or noncredited qualifying weeks.

For purposes of division (D)(2)(e) of this section, "dishonesty" means the commission of substantive theft, fraud, or deceitful acts.

(3) For purposes of division (D)(2)(a) of this section, an individual shall be considered to have quit work without just cause if all of the following apply:

(a) The individual is provided temporary work assignments by the individual's employer under agreed terms and conditions of employment.

(b) The individual is required pursuant to those terms and conditions to inquire with the individual's employer for available work assignments upon the conclusion of each work assignment.

(c) Suitable work assignments are available with the employer, but the individual fails to contact the employer to inquire about work assignments.

(E) No individual otherwise qualified to receive benefits shall lose the right to benefits by reason of a refusal to accept new work if:

(1) As a condition of being so employed the individual would be required to join a company union, or to resign from or refrain from joining any bona fide labor organization, or would be denied the right to retain membership in and observe the lawful rules of any such organization.

(2) The position offered is vacant due directly to a strike, lockout, or other labor dispute.

(3) The work is at an unreasonable distance from the individual's residence, having regard to the character of the work the individual has been accustomed to do, and travel to the place of work involves expenses substantially greater than that required for the individual's former work, unless the expense is provided for.

(4) The remuneration, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality.

(F) Subject to the special exceptions contained in division (A)(4)(f) of this section and section 4141.301 of the Revised Code, in determining whether any work is suitable for a claimant in the administration of this chapter, the director, in addition to the determination required under division (E) of this section, shall consider the degree of risk to the claimant's health, safety, and morals, the individual's physical fitness for the work, the individual's prior training and experience, the length of the individual's unemployment, the distance of the available work from the individual's residence, and the individual's prospects for obtaining local work.

(G) The "duration of unemployment" as used in this section means the full period of unemployment next ensuing after a separation from any base period or subsequent work and until an individual has become reemployed in employment subject to this chapter, or the unemployment compensation act of another state, or of the United States, and until such individual has worked six weeks and for those weeks has earned or been paid remuneration equal to six times an average weekly wage of not less than: eighty-five dollars and ten cents per week beginning on June 26, 1990; and beginning on and after January 1, 1992, twenty-seven and one-half per cent of the statewide average weekly wage as computed each first day of January under division (B)(3) of section 4141.30 of the Revised Code, rounded down to the nearest dollar, except for purposes of division (D)(2)(c) of this section, such term means the full period of unemployment next ensuing after a separation from such work and until such individual has become reemployed subject to the terms set forth

above, and has earned wages equal to one-half of the individual's average weekly wage or sixty dollars, whichever is less.

(H) If a claimant is disqualified under division (D)(2)(a), (c), or (d) of this section or found to be qualified under the exceptions provided in division (D)(2)(a)(i), (iii), (iv), or (v) of this section or division (A)(2) of section 4141.291 of the Revised Code, then benefits that may become payable to such claimant, which are chargeable to the account of the employer from whom the individual was separated under such conditions, shall be charged to the mutualized account provided in section 4141.25 of the Revised Code, provided that no charge shall be made to the mutualized account for benefits chargeable to a reimbursing employer, except as provided in division (D)(2) of section 4141.24 of the Revised Code. In the case of a reimbursing employer, the director shall refund or credit to the account of the reimbursing employer any over-paid benefits that are recovered under division (B) of section 4141.35 of the Revised Code. Amounts chargeable to other states, the United States, or Canada that are subject to agreements and arrangements that are established pursuant to section 4141.43 of the Revised Code shall be credited or reimbursed according to the agreements and arrangements to which the chargeable amounts are subject.

(I)(1) Benefits based on service in employment as provided in divisions (B)(2)(a) and (b) of section 4141.01 of the Revised Code shall be payable in the same amount, on the same terms, and subject to the same conditions as benefits payable on the basis of other service subject to this chapter; except that after December 31, 1977:

(a) Benefits based on service in an instructional, research, or principal administrative capacity in an institution of higher education, as defined in division (Y) of section 4141.01 of the Revised Code; or for an educational institution as defined in division (CC) of section 4141.01 of the Revised Code, shall not be paid to any individual for any week of unemployment that begins during the period between two successive academic years or terms, or during a similar period between two regular but not successive terms or during a period of paid sabbatical leave provided for in the individual's contract, if the individual performs such services in the first of those academic years or terms and has a contract or a reasonable assurance that the individual will perform services in any such capacity for any such institution in the second of those academic years or terms.

(b) Benefits based on service for an educational institution or an institution of higher education in other than an instructional, research, or principal administrative capacity, shall not be paid to any individual for any week of unemployment which begins during the period between two successive academic years or terms of the employing educational institution or institution of higher education, provided the individual performed those services for the educational institution or institution of higher education during the first such academic year or term and, there is a reasonable assurance that such individual will perform those services for any educational institution or institution of higher education in the second of such academic years or terms.

If compensation is denied to any individual for any week under division (I)(1)(b) of this section and the individual was not offered an opportunity to perform those services for an

institution of higher education or for an educational institution for the second of such academic years or terms, the individual is entitled to a retroactive payment of compensation for each week for which the individual timely filed a claim for compensation and for which compensation was denied solely by reason of division (I)(1)(b) of this section. An application for retroactive benefits shall be timely filed if received by the director or the director's deputy within or prior to the end of the fourth full calendar week after the end of the period for which benefits were denied because of reasonable assurance of employment. The provision for the payment of retroactive benefits under division (I)(1)(b) of this section is applicable to weeks of unemployment beginning on and after November 18, 1983. The provisions under division (I)(1)(b) of this section shall be retroactive to September 5, 1982, only if, as a condition for full tax credit against the tax imposed by the "Federal Unemployment Tax Act," 53 Stat. 183 (1939), 26 U.S.C.A. 3301 to 3311, the United States secretary of labor determines that retroactivity is required by federal law.

(c) With respect to weeks of unemployment beginning after December 31, 1977, benefits shall be denied to any individual for any week which commences during an established and customary vacation period or holiday recess, if the individual performs any services described in divisions (I)(1)(a) and (b) of this section in the period immediately before the vacation period or holiday recess, and there is a reasonable assurance that the individual will perform any such services in the period immediately following the vacation period or holiday recess.

(d) With respect to any services described in division (I)(1)(a), (b), or (c) of this section, benefits payable on the basis of services in any such capacity shall be denied as

specified in division (I)(1)(a), (b), or (c) of this section to any individual who performs such services in an educational institution or institution of higher education while in the employ of an educational service agency. For this purpose, the term "educational service agency" means a governmental agency or governmental entity that is established and operated exclusively for the purpose of providing services to one or more educational institutions or one or more institutions of higher education.

(e) Any individual employed by a county board of developmental disabilities shall be notified by the thirtieth day of April each year if the individual is not to be reemployed the following academic year.

(f) Any individual employed by a school district, other than a municipal school district as defined in section 3311.71 of the Revised Code, shall be notified by the first day of June each year if the individual is not to be reemployed the following academic year.

(2) No disqualification will be imposed, between academic years or terms or during a vacation period or holiday recess under this division, unless the director or the director's deputy has received a statement in writing from the educational institution or institution of higher education that the claimant has a contract for, or a reasonable assurance of, reemployment for the ensuing academic year or term.

(3) If an individual has employment with an educational institution or an institution of higher education and employment with a noneducational employer, during the base period of the individual's benefit year, then the individual may become eligible for benefits during the between-term, or vacation or holiday recess, disqualification period, based on employment

performed for the noneducational employer, provided that the employment is sufficient to qualify the individual for benefit rights separately from the benefit rights based on school employment. The weekly benefit amount and maximum benefits payable during a disqualification period shall be computed based solely on the nonschool employment.

(J) Benefits shall not be paid on the basis of employment performed by an alien, unless the alien had been lawfully admitted to the United States for permanent residence at the time the services were performed, was lawfully present for purposes of performing the services, or was otherwise permanently residing in the United States under color of law at the time the services were performed, under section 212(d)(5) of the "Immigration and Nationality Act," 66 Stat. 163, 8 U.S.C.A. 1101:

(1) Any data or information required of individuals applying for benefits to determine whether benefits are not payable to them because of their alien status shall be uniformly required from all applicants for benefits.

(2) In the case of an individual whose application for benefits would otherwise be approved, no determination that benefits to the individual are not payable because of the individual's alien status shall be made except upon a preponderance of the evidence that the individual had not, in fact, been lawfully admitted to the United States.

(K) The director shall establish and utilize a system of profiling all new claimants under this chapter that:

(1) Identifies which claimants will be likely to exhaust regular compensation and will need job search assistance

services to make a successful transition to new employment;

(2) Refers claimants identified pursuant to division (K)(1) of this section to reemployment services, such as job search assistance services, available under any state or federal law;

(3) Collects follow-up information relating to the services received by such claimants and the employment outcomes for such claimant's subsequent to receiving such services and utilizes such information in making identifications pursuant to division (K)(1) of this section; and

(4) Meets such other requirements as the United States secretary of labor determines are appropriate.

(L) Except as otherwise provided in division (A)(6) of this section, ineligibility pursuant to division (A) of this section shall begin on the first day of the week in which the claimant becomes ineligible for benefits and shall end on the last day of the week preceding the week in which the claimant satisfies the eligibility requirements.

~~(M) The director may adopt rules that the director considers necessary for the administration of division (A) of this section.~~

Sec. 4141.43. (A) The director of job and family services may disclose information as provided in this section in accordance with federal law governing such disclosure and sections 4141.162, 4141.21, and 4141.211 of the Revised Code.

(B) The director may make the state's record relating to the administration of this chapter available to the railroad retirement board and may furnish the board at the board's expense such copies thereof as the board deems necessary for its purposes.

(C) The director may afford reasonable cooperation with every agency of the United States charged with the administration of any unemployment compensation law.

(D) The director may enter into arrangements with the appropriate agencies of other states or of the United States or Canada whereby individuals performing services in this and other states for a single employer under circumstances not specifically provided for in division (B) of section 4141.01 of the Revised Code or in similar provisions in the unemployment compensation laws of such other states shall be deemed to be engaged in employment performed entirely within this state or within one of such other states or within Canada, and whereby potential rights to benefits accumulated under the unemployment compensation laws of several states or under such a law of the United States, or both, or of Canada may constitute the basis for the payment of benefits through a single appropriate agency under terms that the director finds will be fair and reasonable as to all affected interests and will not result in any substantial loss to the unemployment compensation fund.

(E) The director may enter into agreements with the appropriate agencies of other states or of the United States or Canada:

(1) Whereby services or wages upon the basis of which an individual may become entitled to benefits under the unemployment compensation law of another state or of the United States or Canada shall be deemed to be employment or wages for employment by employers for the purposes of qualifying claimants for benefits under this chapter, and the director may estimate the number of weeks of employment represented by the wages reported to the director for such claimants by such other

agency, provided such other state agency or agency of the United States or Canada has agreed to reimburse the unemployment compensation fund for such portion of benefits paid under this chapter upon the basis of such services or wages as the director finds will be fair and reasonable as to all affected interests;

(2) Whereby the director will reimburse other state or federal or Canadian agencies charged with the administration of unemployment compensation laws with such reasonable portion of benefits, paid under the law of such other states or of the United States or of Canada upon the basis of employment or wages for employment by employers, as the director finds will be fair and reasonable as to all affected interests. Reimbursements so payable shall be deemed to be benefits for the purpose of section 4141.09 and division (A) of section 4141.30 of the Revised Code. However, no reimbursement so payable shall be charged against any employer's account for the purposes of section 4141.24 of the Revised Code if the employer's account, under the same or similar circumstances, with respect to benefits charged under the provisions of this chapter, other than this section, would not be charged or, if the claimant at the time the claimant files the combined wage claim cannot establish benefit rights under this chapter. This noncharging shall not be applicable to a nonprofit organization that has elected to make payments in lieu of contributions under section 4141.241 of the Revised Code, except as provided in division (D)(2) of section 4141.24 of the Revised Code. The director may make to other state or federal or Canadian agencies and receive from such other state or federal or Canadian agencies reimbursements from or to the unemployment compensation fund, in accordance with arrangements pursuant to this section.

(3) Notwithstanding division (B)(2)(f) of section 4141.01

of the Revised Code, the director may enter into agreements with other states whereby services performed for a crew leader, as defined in division (BB) of section 4141.01 of the Revised Code, may be covered in the state in which the crew leader either:

(a) Has the crew leader's place of business or from which the crew leader's business is operated or controlled;

(b) Resides if the crew leader has no place of business in any state.

(F) The director may apply for an advance to the unemployment compensation fund and do all things necessary or required to obtain such advance and arrange for the repayment of such advance in accordance with Title XII of the "Social Security Act" as amended.

(G) The director may enter into reciprocal agreements or arrangements with the appropriate agencies of other states in regard to services on vessels engaged in interstate or foreign commerce whereby such services for a single employer, wherever performed, shall be deemed performed within this state or within such other states.

(H) The director shall participate in any arrangements for the payment of compensation on the basis of combining an individual's wages and employment, covered under this chapter, with the individual's wages and employment covered under the unemployment compensation laws of other states which are approved by the United States secretary of labor in consultation with the state unemployment compensation agencies as reasonably calculated to assure the prompt and full payment of compensation in such situations and which include provisions for:

(1) Applying the base period of a single state law to a

claim involving the combining of an individual's wages and employment covered under two or more state unemployment compensation laws, and

(2) Avoiding the duplicate use of wages and employment by reason of such combining.

(I)(1) The director shall cooperate with the United States department of labor to the fullest extent consistent with this chapter, and shall take such action, ~~through~~ except the adoption of ~~appropriate~~ rules, ~~regulations, and administrative methods and standards,~~ as may be necessary to secure to this state and its citizens all advantages available under the provisions of the "Social Security Act" that relate to unemployment compensation, the "Federal Unemployment Tax Act," (1970) 84 Stat. 713, 26 U.S.C.A. 3301 to 3311, the "Wagner-Peyser Act," (1933) 48 Stat. 113, 29 U.S.C.A. 49, the "Federal-State Extended Unemployment Compensation Act of 1970," 84 Stat. 596, 26 U.S.C.A. 3306, and the "Workforce Innovation and Opportunity Act," 29 U.S.C.A. 3101 et seq.

(2) Nothing in division (I)(1) of this section requires the director to participate in, nor precludes the director from ceasing to participate in, any voluntary, optional, special, or emergency program offered by the federal government, including programs offered under any of the federal acts listed in division (I)(1) of this section, the "Coronavirus Aid, Relief, and Economic Security Act," 15 U.S.C. 9023, or any other federal program enacted to address exceptional unemployment conditions.

(J) The director may disclose wage information furnished to or maintained by the director under Chapter 4141. of the Revised Code to a consumer reporting agency as defined by the "Fair Credit Reporting Act," 84 Stat. 1128, 15 U.S.C.A. 1681a,

as amended, for the purpose of verifying an individual's income under a written agreement that requires all of the following:

(1) A written statement of informed consent from the individual whose information is to be disclosed;

(2) A written statement confirming that the consumer reporting agency and any other entity to which the information is disclosed or released will safeguard the information from illegal or unauthorized disclosure;

(3) A written statement confirming that the consumer reporting agency will pay to the department all costs associated with the disclosure.

The director shall prescribe a manner and format in which this information may be provided.

For purposes of this division, "wage information" means the name, social security number, quarterly wages paid to, and weeks worked by an employee, and the name, address, and state and federal tax identification number of an employer reporting wages under section 4141.20 of the Revised Code.

(K) The director shall disclose information furnished to or maintained by the director under this chapter upon request and on a reimbursable basis as required by section 303 of the "Social Security Act," 42 U.S.C.A. 503, and section 3304 of the "Internal Revenue Code," 26 U.S.C.A. 3304.

Sec. 4141.431. (A) Notwithstanding section 4141.20 of the Revised Code, the director of job and family services shall attempt to enter into an agreement under section 3510(F) of the "Internal Revenue Code of 1986" with the secretary of the treasury to collect, as the agent of this state, the taxes imposed by this chapter on remuneration paid for domestic

service in a private home of the employer.

(B) Upon the director entering into an agreement under division (A) of this section, returns with respect to taxes imposed by this chapter on remuneration paid for domestic service in a private home of the employer shall be made on a calendar-year basis.

~~(C) The director shall adopt rules to further implement the coordination of this chapter and the "Social Security Domestic Employment Reform Act of 1994," 108 Stat. 4071, 26 U.S.C.A. 3121. Such rules do not require approval of the unemployment compensation review commission under section 4141.14 of the Revised Code.~~

Sec. 4141.50. (A) As used in this section and in sections 4141.51 to 4141.56 of the Revised Code:

(4) "Normal weekly hours of work" means the normal hours of work in employment each week for an employee in an affected unit when that unit is operating on a full-time basis, not to exceed forty hours and not including any overtime worked.

(5) "Participating employee" means an employee whose normal weekly hours of work are reduced by the reduction percentage under an approved shared work plan.

(6) "Participating employer" means an employer who has an approved shared work plan in effect.

(7) "Reduction percentage" means the percentage by which each participating employee's normal weekly hours of work are reduced under an approved shared work plan.

(9) "Shared work compensation" means the pro rata share of unemployment compensation benefits payable to a participating employee under an approved shared work plan. "Shared work compensation" does not include unemployment compensation benefits otherwise payable to an eligible claimant who is totally or partially unemployed.

(10) "Temporary basis" means employment where an employee is expected to remain in a position for only a limited period of time or is hired by a temporary agency to fill a gap in the employer's workforce.

(B) There is hereby created the "SharedWork Ohio" program, under which an employer who participates in the program reduces the number of hours worked by the employees of the employer in lieu of layoffs.

~~The director may adopt rules as the director determines necessary to implement any guidance issued by the United States secretary of labor with respect to the SharedWork Ohio program.~~

Sec. 4167.07. (A) ~~The~~ Except as provided in division (B) of this section, the administrator of workers' compensation, with the advice and consent of the bureau of workers' compensation board of directors, ~~shall adopt rules that establish employment risk reduction standards. Except as provided in division (B) of this section, in adopting these rules, the administrator~~ shall do both of the following:

(1) By no later than July 1, 1994, adopt as a rule and an Ohio employment risk reduction standard every federal occupational safety and health standard then adopted by the United States secretary of labor pursuant to the "Occupational Safety and Health Act of 1970," 84 Stat. 1590, 29 U.S.C.A. 651, as amended;

(2) By no later than one hundred twenty days after the United States secretary of labor adopts, modifies, or revokes any federal occupational safety and health standard, by rule do one of the following:

(a) Adopt the federal occupational safety and health standard as a rule and an Ohio employment risk reduction standard;

(b) Amend the existing rule and Ohio employment risk reduction standard to conform to the modification of the federal occupational safety and health standard;

(c) Rescind the existing rule and Ohio employment risk reduction standard that corresponds to the federal occupational safety and health standard the United States secretary of labor revoked.

(B) The administrator, with the advice and consent of the bureau of workers' compensation board of directors, may decline

to adopt any federal occupational safety and health standard as a rule and an Ohio employment risk reduction standard or to modify or rescind any existing rule and Ohio employment risk reduction standard to conform to any federal occupational safety and health standard modified or revoked by the United States secretary of labor or may adopt as a rule and an Ohio employment risk reduction standard any occupational safety and health standard that is not covered under the federal law or that differs from one adopted or modified by the United States secretary of labor, if the administrator determines that existing rules and Ohio employment risk reduction standards provide protection at least as effective as that which would be provided by the existing, new, or modified federal occupational safety and health standard or if the administrator determines that local conditions warrant a different standard from that of the existing federal occupational safety and health standard or from standards the United States secretary of labor adopts, modifies, or revokes.

(C) In adopting, modifying, or rescinding any rule or Ohio employment risk reduction standard dealing with toxic materials or harmful physical agents, the administrator, with the advice and consent of the bureau of workers' compensation board of directors, shall do all of the following:

(1) Set the employment risk reduction standard to most adequately assure, to the extent technologically feasible and on the basis of the best available evidence, that no public employee will suffer material impairment of health or functional capacity as a result of the hazards dealt with by the rule or Ohio employment risk reduction standard for the period of the public employee's working life;

(2) Base the development of these rules and Ohio employment risk reduction standards on research, demonstrations, experiments, and other information as is appropriate and upon the technological feasibility of the rule and standard, using the latest available scientific data in the field and the experience gained in the workplace under this chapter and other health and safety laws, to establish the highest degree of safety and health for the public employee;

(3) Whenever practicable, express the rule and Ohio employment risk reduction standard in terms of objective criteria and of the performance desired;

(4) Prescribe the use of labels or other appropriate forms of warning as are necessary to ensure that public employees are apprised of all hazards to which they are exposed, relevant symptoms and appropriate emergency treatment, and proper conditions and precautions of safe use or exposure where appropriate;

(5) Prescribe suitable protective equipment and control procedures to be used in connection with the hazards;

(6) Provide for measuring or monitoring public employee exposure in a manner necessary for the protection of the public employees;

(7) Where appropriate, prescribe the type and frequency of medical examinations or other tests the public employer shall make available, at the cost of the public employer, to the public employees exposed to the hazards in order to determine any adverse effect from the exposure.

(D) In determining the priority for adopting rules and Ohio employment risk reduction standards under this section, the

administrator shall give due regard to the urgency of need and recommendations of the department of health regarding that need for mandatory employment risk reduction standards for particular trades, crafts, occupations, services, and workplaces.

(E)(1) Except for rules adopted under division (A) of this section, the administrator, with the advice and consent of the bureau of workers' compensation board of directors, shall adopt all rules under this section in accordance with Chapter 119. of the Revised Code, provided that notwithstanding that chapter, the administrator may delay the effective date of any rule or Ohio employment risk reduction standard for the period the administrator determines necessary to ensure that affected public employers and public employees will be informed of the adoption, modification, or rescission of the rule and Ohio employment risk reduction standard and have the opportunity to familiarize themselves with the specific requirements of the rule and standard. In no case, however, shall the administrator delay the effective date of a rule adopted pursuant to Chapter 119. of the Revised Code in excess of ninety days beyond the otherwise required effective date.

(2) In regard to the rules for which the administrator does not have to comply with Chapter 119. of the Revised Code, the administrator shall file two certified copies of the rules and Ohio employment risk reduction standards adopted with the secretary of state and the director of the legislative service commission.

Sec. 4167.08. (A) In the event of an emergency or unusual situation, the administrator of workers' compensation shall issue an emergency temporary Ohio employment risk reduction standard to take immediate effect upon publication in newspapers

of general circulation in Cleveland, Columbus, Cincinnati, and Toledo if the administrator finds both of the following:

(1) Public employees are exposed to grave danger from exposure to substances or agents determined to be toxic or physically harmful or from new hazards;

(2) The emergency temporary Ohio employment risk reduction standard is necessary to protect employees from the danger.

(B)(1) Except as provided in division (B)(2) of this section an emergency temporary Ohio employment risk reduction standard issued by the administrator under division (A) of this section shall be in effect no longer than fifteen days, unless the bureau of workers' compensation board of directors approves the emergency temporary Ohio employment risk reduction standard as issued by the administrator, in which case, the emergency temporary Ohio employment risk reduction standard shall be in effect no longer than one hundred twenty days after the date the administrator issues it.

(2) The administrator may renew an emergency temporary Ohio employment risk reduction standard that has been approved by the board for an additional time period not to exceed one hundred days if the administrator finds that the conditions identified in divisions (A)(1) and (2) of this section continue to exist.

On or before the expiration date of the emergency temporary Ohio employment risk reduction standard or renewal thereof, if the conditions identified in divisions (A)(1) and (2) of this section continue to exist, the administrator, with the advice and consent of the board, shall adopt in accordance with Chapter 119. of the Revised Code a permanent Ohio

employment risk reduction standard ~~pursuant to section 4167.07 of the Revised Code~~ as a rule to replace the emergency temporary Ohio employment risk reduction standard.

Sec. 4167.11. (A) In order to further the purposes of this chapter, the administrator of workers' compensation shall develop and maintain, for public employers and public employees, an effective program of collection, compilation, and analysis of employment risk reduction statistics.

(B) To implement and maintain division (A) of this section, the administrator, with the advice and consent of the bureau of workers' compensation board of directors, shall adopt rules in accordance with Chapter 119. of the Revised Code that ~~extend to~~ do all of the following:

(1) ~~Requiring~~ Require each public employer to make, keep, and preserve, and make available to the administrator, reports and records regarding the public employer's activities, as determined by the rule that are necessary or appropriate ~~for the enforcement of this chapter or~~ for developing information regarding the causes and prevention of occupational accidents and illnesses. The rule shall prescribe which of these reports and records shall or may be furnished to public employees and public employee representatives.

(2) ~~Requiring~~ Require every public employer, through posting of notices or other appropriate means, to keep their public employees informed of public employees' rights and obligations under this chapter, including the provisions of applicable Ohio employment risk reduction standards. The rule shall allow any required notice to be posted on the internet in a manner that is accessible to the public employer's employees.

(3) ~~Requiring~~ Require public employers to maintain accurate records of public employee exposure to potentially toxic materials, carcinogenic materials, and harmful physical agents that are required to be monitored or measured under rules adopted under the guidelines of division (C) of section 4167.07 of the Revised Code. The rule shall provide public employees or public employee representatives an opportunity to observe the monitoring or measuring, and to have access on request to the records thereof, and may provide public employees or public employee representatives an opportunity to participate in and to undertake their own monitoring or measuring. The rules also shall permit each current or former public employee to have access to the records that indicate their own exposure to toxic materials, carcinogenic materials, or harmful agents.

(C) The administrator shall obtain any information under division (B) of this section with a minimum burden upon the public employer and shall, to the maximum extent feasible, reduce unnecessary duplication of efforts in obtaining the information.

Sec. 4301.03. The liquor control commission may adopt and promulgate, repeal, rescind, and amend, in the manner required by this section, rules, standards, requirements, and orders ~~necessary to carry out this chapter and Chapter 4303. of the Revised Code, but all rules of the board of liquor control that were in effect immediately prior to April 17, 1963, shall remain in full force and effect as rules of the liquor control commission until and unless amended or repealed by the liquor control commission. The rules of the commission may~~ that include the following:

(B) Rules and orders providing in detail for the conduct of any retail business authorized under permits issued pursuant to this chapter and Chapter 4303. of the Revised Code, with a view to ensuring compliance with those chapters and laws relative to them, and the maintenance of public decency, sobriety, and good order in any place licensed under the permits. No rule or order shall prohibit the operation of video lottery terminal games at a commercial race track where live horse racing and simulcasting are conducted in accordance with Chapter 3769. of the Revised Code or the sale of lottery tickets issued pursuant to Chapter 3770. of the Revised Code by any retail business authorized under permits issued pursuant to that chapter.

No rule or order shall prohibit pari-mutuel wagering on simulcast horse races at a satellite facility that has been issued a D liquor permit under Chapter 4303. of the Revised Code. No rule or order shall prohibit a charitable organization that holds a D-4 permit from selling or serving beer or intoxicating liquor under its permit in a portion of its premises merely because that portion of its premises is used for the conduct of a bingo game, as described in division (O) of section 2915.01 of the Revised Code. As used in this division, "charitable organization" has the same meaning as in division (H) of section 2915.01 of the Revised Code. The commissioner shall expeditiously consider any evidence submitted by the permit holder and, if it is determined that the notification was in error, immediately shall inform the division of liquor control that the renewal application may be granted. The renewal shall not be denied if the delinquency or unreported liability is the subject of a bona fide dispute as to the validity of the delinquency or unreported liability and is the subject of an assessment and of an appeal properly filed by the permit holder.

(4) If the commissioner concludes that under the circumstances the permit holder's delinquency or liability has been conditionally resolved, the commissioner shall allow the permit to be renewed, conditioned upon the permit holder's continuing performance in satisfying the delinquency and liability. The conditional nature of the renewal shall be specified in the notification given to the division of liquor control under division (D)(1) of this section. Upon receipt of notice of the resolution, the division shall issue a conditional renewal. If the taxpayer defaults on any agreement to pay the delinquency or liability or fails to keep subsequent tax or fee payments current, the liquor control commission, upon request and proof of the default or failure to keep subsequent tax or

If the registrar determines that implementing such a program is feasible, the registrar shall adopt new rules under this division or amend existing rules adopted under this division as necessary in order to respond to advances in technology.

If international registration plan guidelines and provisions allow member jurisdictions to permit applications for registrations under the international registration plan to be made via the internet, the rules the registrar adopts under this division shall permit such action.

Sec. 4503.101. The person, within ten days after the date of the mailing of the notification, shall surrender to the registrar, in a manner set forth in division (A)(4) of this section, any license under an order of suspension.

A determination may be made without a hearing. This division does not apply unless the person shows good cause for the person's failure to present satisfactory proof of financial responsibility to the registrar prior to the issuance of the order.

(D)(1)(a) For the purpose of enforcing this section, every peace officer is deemed an agent of the registrar.

(b) Any peace officer who, in the performance of the peace officer's duties as authorized by law, becomes aware of a person whose license is under an order of suspension, pursuant to this section, may confiscate the license and return it to the registrar.

(2) A peace officer shall request the owner or operator of a motor vehicle to produce proof of financial responsibility in a manner described in division (G) of this section at the time the peace officer acts to enforce the traffic laws of this state and during motor vehicle inspections conducted pursuant to section 4513.02 of the Revised Code.

(3) A peace officer shall indicate on every traffic ticket whether the person receiving the traffic ticket produced proof of the maintenance of financial responsibility in response to the officer's request under division (D)(2) of this section. The peace officer shall inform every person who receives a traffic ticket and who has failed to produce proof of the maintenance of financial responsibility that the person must submit proof to

the traffic violations bureau with any payment of a fine and costs for the ticketed violation or, if the person is to appear in court for the violation, the person must submit proof to the court.

(4)(a) If a person who has failed to produce proof of the maintenance of financial responsibility appears in court for a ticketed violation, the court may permit the defendant to present evidence of proof of financial responsibility to the court at such time and in such manner as the court determines to be necessary or appropriate. In a manner prescribed by the registrar, the clerk of courts shall provide the registrar with the identity of any person who fails to submit proof of the maintenance of financial responsibility pursuant to division (D)(3) of this section.

(b) If a person who has failed to produce proof of the maintenance of financial responsibility also fails to submit that proof to the traffic violations bureau with payment of a fine and costs for the ticketed violation, the traffic violations bureau, in a manner prescribed by the registrar, shall notify the registrar of the identity of that person.

(5)(a) Upon receiving notice from a clerk of courts or traffic violations bureau pursuant to division (D)(4) of this section, the registrar shall order the suspension of the license of the person required under division (A)(2)(a), (b), or (c) of this section, effective forty-five days after the date of the mailing of notification. The registrar also shall notify the person that the person must present the registrar with proof of financial responsibility in accordance with this section, surrender to the registrar the person's license, or submit a statement subject to section 2921.13 of the Revised Code that

the person did not operate or permit the operation of the motor vehicle at the time of the offense. Notification shall be in writing and shall be sent to the person at the person's last known address as shown on the records of the bureau of motor vehicles. The person, within forty-five days after the date of the mailing of notification, shall present proof of financial responsibility, surrender the license to the registrar in a manner set forth in division (A)(4) of this section, or submit the statement required under this section together with other information the person considers appropriate.

If the registrar does not receive proof or the person does not surrender the license, in accordance with this division, the registrar shall permit the order for the suspension of the license of the person to take effect.

(b) In the case of a person who presents, within the forty-five-day period, proof of financial responsibility, the registrar shall terminate the order of suspension and shall send written notification to the person, at the person's last known address as shown on the records of the bureau.

(c) Any person adversely affected by the order of the registrar under division (D)(5)(a) or (b) of this section, within fifteen days after the issuance of the order, may request an administrative hearing before the registrar, who shall provide the person with an opportunity for a hearing in accordance with this paragraph. A request for a hearing does not operate as a suspension of the order. The scope of the hearing shall be limited to whether, at the time of the hearing, the person presents proof of financial responsibility covering the vehicle and whether the person is eligible for an exemption in accordance with this section or any rule adopted under it. The

registrar shall determine the date, time, and place of any hearing; provided, that the hearing shall be held, and an order issued or findings made, within thirty days after the registrar receives a request for a hearing. If requested by the person, the hearing may be held remotely by electronic means. If requested by the person in writing, the registrar may designate as the place of hearing the county seat of the county in which the person resides or a place within fifty miles of the person's residence. Such person shall pay the cost of the hearing before the registrar, if the registrar's order of suspension under division (D)(5)(a) or (b) of this section is upheld.

(6) Any forms used by law enforcement agencies in administering this section shall be prescribed, supplied, and paid for by the registrar.

(7) No peace officer, law enforcement agency employing a peace officer, or political subdivision or governmental agency that employs a peace officer shall be liable in a civil action for damages or loss to persons arising out of the performance of any duty required or authorized by this section.

(8) As used in this section, "peace officer" has the meaning set forth in section 2935.01 of the Revised Code.

(E) All fees, except court costs, fees paid to a deputy registrar, and those portions of the financial responsibility reinstatement fees as otherwise specified in this division, collected under this section shall be paid into the state treasury to the credit of the public safety - highway purposes fund established in section 4501.06 of the Revised Code and used to cover costs incurred by the bureau in the administration of this section and sections 4503.20, 4507.212, and 4509.81 of the Revised Code, and by any law enforcement agency employing any

peace officer who returns any license to the registrar pursuant to division (C) of this section.

Of each financial responsibility reinstatement fee the registrar collects pursuant to division (A)(5)(a) of this section or receives from a deputy registrar under division (A)(5)(c) of this section, the registrar shall deposit ten dollars of each forty-dollar reinstatement fee, fifty dollars of each three-hundred-dollar reinstatement fee, and one hundred dollars of each six-hundred-dollar reinstatement fee into the state treasury to the credit of the indigent defense support fund created by section 120.08 of the Revised Code.

(F) Chapter 119. of the Revised Code applies to this section only to the extent that any provision in that chapter is not clearly inconsistent with this section.

(G)(1)(a) The registrar, court, traffic violations bureau, or peace officer may require proof of financial responsibility to be demonstrated by use of a standard form prescribed by the registrar. If the use of a standard form is not required, a person may demonstrate proof of financial responsibility under this section by presenting to the traffic violations bureau, court, registrar, or peace officer any of the following documents or a copy of the documents:

(i) A financial responsibility identification card as provided in section 4509.103 of the Revised Code;

(ii) A certificate of proof of financial responsibility on a form provided and approved by the registrar for the filing of an accident report required to be filed under section 4509.06 of the Revised Code;

(iii) A policy of liability insurance, a declaration page

(iv) A bond or certification of the issuance of a bond as provided in section 4509.59 of the Revised Code;

(v) A certificate of deposit of money or securities as provided in section 4509.62 of the Revised Code;

(b) A person also may present proof of financial responsibility under this section to the traffic violations bureau, court, registrar, or peace officer through use of an electronic wireless communications device as specified under section 4509.103 of the Revised Code.

(2) If a person fails to demonstrate proof of financial responsibility in a manner described in division (G)(1) of this section, the person may demonstrate proof of financial responsibility under this section by any other method that the court or the bureau, by reason of circumstances in a particular case, may consider appropriate.

(3) A motor carrier certificated by the interstate commerce commission or by the public utilities commission may demonstrate proof of financial responsibility by providing a statement designating the motor carrier's operating authority and averring that the insurance coverage required by the certificating authority is in full force and effect.

(4)(a) A finding by the registrar or court that a person is covered by proof of financial responsibility in the form of an insurance policy or surety bond is not binding upon the named

insurer or surety or any of its officers, employees, agents, or representatives and has no legal effect except for the purpose of administering this section.

(b) The preparation and delivery of a financial responsibility identification card or any other document authorized to be used as proof of financial responsibility and the generation and delivery of proof of financial responsibility to an electronic wireless communications device that is displayed on the device as text or images does not do any of the following:

(i) Create any liability or estoppel against an insurer or surety, or any of its officers, employees, agents, or representatives;

(ii) Constitute an admission of the existence of, or of any liability or coverage under, any policy or bond;

(iii) Waive any defenses or counterclaims available to an insurer, surety, agent, employee, or representative in an action commenced by an insured or third-party claimant upon a cause of action alleged to have arisen under an insurance policy or surety bond or by reason of the preparation and delivery of a document for use as proof of financial responsibility or the generation and delivery of proof of financial responsibility to an electronic wireless communications device.

(c) Whenever it is determined by a final judgment in a judicial proceeding that an insurer or surety, which has been named on a document or displayed on an electronic wireless communications device accepted by a court or the registrar as proof of financial responsibility covering the operation of a motor vehicle at the time of an accident or offense, is not

liable to pay a judgment for injuries or damages resulting from such operation, the registrar, notwithstanding any previous contrary finding, shall forthwith suspend the operating privileges and registration rights of the person against whom the judgment was rendered as provided in division (A)(2) of this section.

(H) In order for any document or display of text or images on an electronic wireless communications device described in division (G)(1) of this section to be used for the demonstration of proof of financial responsibility under this section, the document or words or images shall state the name of the insured or obligor, the name of the insurer or surety company, and the effective and expiration dates of the financial responsibility, and designate by explicit description or by appropriate reference all motor vehicles covered which may include a reference to fleet insurance coverage.

(I) For purposes of this section, "owner" does not include a licensed motor vehicle leasing dealer as defined in section 4517.01 of the Revised Code, but does include a motor vehicle renting dealer as defined in section 4549.65 of the Revised Code. Nothing in this section or in section 4509.51 of the Revised Code shall be construed to prohibit a motor vehicle renting dealer from entering into a contractual agreement with a person whereby the person renting the motor vehicle agrees to be solely responsible for maintaining proof of financial responsibility, in accordance with this section, with respect to the operation, maintenance, or use of the motor vehicle during the period of the motor vehicle's rental.

(J) The purpose of this section is to require the maintenance of proof of financial responsibility with respect to

the operation of motor vehicles on the highways of this state, so as to minimize those situations in which persons are not compensated for injuries and damages sustained in motor vehicle accidents. The general assembly finds that this section contains reasonable civil penalties and procedures for achieving this purpose.

(K) Nothing in this section shall be construed to be subject to section 4509.78 of the Revised Code.

(L)(1) The registrar may terminate any suspension imposed under this section and not require the owner to comply with division (A)(5) of this section if the registrar with or without a hearing determines that the owner of the vehicle has established by clear and convincing evidence that all of the following apply:

(a) The owner customarily maintains proof of financial responsibility.

(b) Proof of financial responsibility was not in effect for the vehicle on the date in question for one of the following reasons:

(i) The vehicle was inoperable.

(iii) A person other than the vehicle owner or driver was at fault for the lapse of proof of financial responsibility through no fault of the owner or driver.

(iv) The lapse of proof of financial responsibility was caused by excusable neglect under circumstances that are not likely to recur and do not suggest a purpose to evade the

requirements of this chapter.

(2) The registrar may grant an owner or driver relief for a reason specified in division (L)(1)(b)(iii) or (iv) of this section only if the owner or driver has not previously been granted relief under division (L)(1)(b)(iii) or (iv) of this section.

(M) The registrar shall adopt rules in accordance with Chapter 119. of the Revised Code that ~~are necessary to administer and enforce this section. No other content of the device shall be viewed for purposes of obtaining proof of financial responsibility.

(2) When a person provides an electronic wireless communications device to the registrar, a peace officer, an employee or official of a traffic violations bureau, or the court, the person assumes the risk of any resulting damage to the device unless the registrar, peace officer, employee, or official, or court personnel purposely, knowingly, or recklessly commits an action that results in damage to the device.

(B) Reinstatement fees are those fees that compensate the bureau of motor vehicles for suspensions, cancellations, or disqualifications of a person's driving privileges and to compensate the bureau and other agencies in their administration of programs intended to reduce and eliminate threats to public safety through education, treatment, and other activities. The registrar of motor vehicles shall not reinstate a driver's or commercial driver's license or permit or nonresident operating

privilege of a person until the person has paid all reinstatement fees and has complied with all conditions for each suspension, cancellation, or disqualification incurred by that person.

(C) When a municipal court or county court determines in a pending case involving an offender that the offender cannot reasonably pay reinstatement fees due and owing by the offender relative to one or more suspensions that have been or will be imposed by the bureau of motor vehicles or by a court of this state, the court, by order, may do either of the following:

(1) Undertake an installment payment plan or a payment extension plan for the payment of reinstatement fees due and owing to the bureau in that pending case. (2) Authorize the offender to perform community service in lieu of payment of the reinstatement fees.

A court that authorizes an offender to perform community service in lieu of paying reinstatement fees under this division shall provide the offender with documentation indicating completion of the court-ordered community service when the offender has completed that community service. In addition to complying with all other applicable requirements for reinstatement, other than payment of reinstatement fees, the offender shall provide the documentation of completion to the registrar when seeking reinstatement.

The deputy registrar shall retain eight dollars of the service fee and shall transmit the reinstatement payments, plus two dollars of each service fee, to the registrar in the manner the registrar shall determine.

(2) If the offender, but for the payment of the reinstatement fees, otherwise would be entitled to operate a vehicle in this state or to obtain reinstatement of the offender's operating privileges, permits the offender to operate a motor vehicle, as authorized by the court, until a future date upon which date all reinstatement fees must be paid in full. A payment extension granted under this division shall not exceed one hundred eighty days, and any operating privileges granted under this division shall be solely for the purpose of

permitting the offender occupational or "family necessity" privileges in order to enable the offender to reasonably acquire the delinquent reinstatement fees due and owing.

(E) If a municipal court, county court, or juvenile division enters an order of the type described in division (C) or division (D)(1) or (2) of this section, the court, at any time after the issuance of the order, may determine that a change of circumstances has occurred and may amend the order as justice requires, provided that the amended order also shall be an order that is permitted under division (C) or division (D)(1) or (2) of this section.

(F) If a court enters an order of the type described in division (C), (D)(1), (D)(2), or (E) of this section, during the pendency of the order, the offender in relation to whom it applies is not subject to prosecution for failing to pay the reinstatement fees covered by the order.

(G)(1) In addition to divisions (A) to (F) of this section, the registrar, with the approval of the director of public safety and in accordance with Chapter 119. of the Revised Code, may adopt rules that do both of the following:

(a) Permit a person to pay reinstatement fees in installments in accordance with division (G)(2) of this section;

(b) Permit a person who is indigent to apply for and receive a waiver of all reinstatement fees in accordance with division (G)(3) of this section.

(2) The rules governing the bureau of motor vehicles installment plan may contain any of the following provisions:

(a) A schedule establishing a minimum monthly payment amount;

(b) If the person otherwise would have valid driving privileges but for the payment of the reinstatement fees, the registrar may record the person's driving privileges as "valid" so long as the person's installments are current.

(c) If the person's installments are not current, the registrar may record the person's driving privileges as "suspended" or "failure to reinstate," as appropriate.

~~(d) Any other provision the registrar reasonably may prescribe.~~

(3) The rules governing the bureau of motor vehicles waiver plan may establish any of the following:

(b) The documentation required of a person to prove that the person is indigent;

In addition, the director shall make such information available on the department of public safety's and the bureau of motor vehicle's web sites.

(B) The director shall establish a toll-free telephone number by which a person may receive information about the program and the person's eligibility for the program. The toll-free telephone number shall be listed as part of the public service announcements and on the department and bureau web sites.

~~(C) The director shall adopt rules in accordance with Chapter 119. of the Revised Code in order to establish any requirements and procedures necessary to administer and implement the program.~~

Sec. 4510.45. (A)(1) A manufacturer of ignition interlock devices that desires for its devices to be certified under section 4510.43 of the Revised Code and then to be included on the list of certified devices that the department of public safety compiles and makes available to courts pursuant to that section first shall obtain a license from the department under this section. ~~The department, in accordance with Chapter 119. of the Revised Code, shall adopt any rules that are necessary to implement this licensing requirement.~~

(2) A manufacturer shall apply to the department for the license and shall include all information the department may require ~~by rule~~. Each application, including an application for license renewal, shall be accompanied by an application fee of one hundred dollars, which the department shall deposit into the state treasury to the credit of the indigent drivers alcohol treatment fund created by section 4511.191 of the Revised Code. Each application also shall be accompanied by a signed agreement, in a form established by the director, affirming that the manufacturer agrees to install and monitor all devices produced by that manufacturer and affirming that the

Sec. 4729.10. The state board of pharmacy may adopt rules ~~under section 4729.26 of the Revised Code~~ requiring a licensee or registrant under this chapter to report to the board a violation of state or federal law, including any rule adopted under this chapter.

In the absence of fraud or bad faith, a person who reports under this section or testifies in any adjudication conducted

under Chapter 119. of the Revised Code is not liable to any person for damages in a civil action as a result of the report or testimony.

Sec. 4729.12. A license issued by the state board of pharmacy under section 4729.08 or 4729.11 of the Revised Code entitles the individual to whom it is issued to practice as a pharmacist or as a pharmacy intern in this state until the next renewal date.

Licenses shall be renewed according to the standard renewal procedure of Chapter 4745. of the Revised Code and rules adopted by the board under this section ~~4729.26 of the Revised Code. Licenses are valid for the period specified in the rules, unless earlier revoked or suspended by the board~~. The board shall adopt rules specifying the period for which a license remains valid, which shall not exceed twenty-four months, unless the board extends the period in the rules to adjust license renewal schedules. The rules also shall specify that a license is valid for that time period, unless earlier revoked or suspended by the board. All rules adopted under this section shall be adopted in accordance with Chapter 119. of the Revised Code.

A pharmacist or pharmacy intern who desires to continue in the practice of pharmacy shall file with the board an application in such form and containing such data as the board may require for renewal of a license. In the case of a pharmacist who dispenses or plans to dispense controlled substances in this state, the pharmacist shall certify, as part of the application, that the pharmacist has been granted access to the drug database established and maintained by the board pursuant to section 4729.75 of the Revised Code, unless the

If the pharmacist certifies to the board that the applicant has been granted access to the drug database and the board finds through an audit or other means that the pharmacist has not been granted access, the board may take action under section 4729.16 of the Revised Code.

An application filed under this section for renewal of a license may not be withdrawn without the approval of the board.

The board shall renew an applicant's license if the board finds all of the following:

A pharmacist or pharmacy intern who fails to renew the pharmacist's or intern's license by the renewal date prescribed by the board shall not engage in the practice of pharmacy until

Sec. 4729.16. (2) Except as provided in division (I) of this section, the board may impose the sanctions listed in division (A)(1) of this section if the board finds a pharmacist or pharmacy intern:

(a) Has been convicted of a felony, or a crime of moral turpitude, as defined in section 4776.10 of the Revised Code;

(b) Engaged in dishonesty or unprofessional conduct in the practice of pharmacy;

(B) Any individual whose license is revoked, suspended, or

(D) The board may suspend a license under division (B) of section 3719.121 of the Revised Code by utilizing a telephone conference call to review the allegations and take a vote.

(E) For purposes of this division, an individual authorized to practice as a pharmacist or pharmacy intern accepts the privilege of practicing in this state subject to supervision by the board. By filing an application for or holding a license to practice as a pharmacist or pharmacy intern, an individual gives consent to submit to a mental or physical examination when ordered to do so by the board in writing and waives all objections to the admissibility of testimony or examination reports that constitute privileged communications.

If the board has reasonable cause to believe that an individual who is a pharmacist or pharmacy intern is physically or mentally impaired, the board may require the individual to submit to a physical or mental examination, or both. The expense of the examination is the responsibility of the individual required to be examined.

Failure of an individual who is a pharmacist or pharmacy intern to submit to a physical or mental examination ordered by the board, unless the failure is due to circumstances beyond the individual's control, constitutes an admission of the allegations and a suspension order shall be entered without the taking of testimony or presentation of evidence. Any subsequent adjudication hearing under Chapter 119. of the Revised Code concerning failure to submit to an examination is limited to consideration of whether the failure was beyond the individual's control.

If, based on the results of an examination ordered under

this division, the board determines that the individual's ability to practice is impaired, the board shall suspend the individual's license or deny the individual's application and shall require the individual, as a condition for an initial, continued, reinstated, or renewed license to practice, to submit to a physical or mental examination and treatment.

An order of suspension issued under this division shall not be subject to suspension by a court during pendency of any appeal filed under section 119.12 of the Revised Code.

(F) If the board is required under Chapter 119. of the Revised Code to give notice of an opportunity for a hearing and the applicant or licensee does not make a timely request for a hearing in accordance with section 119.07 of the Revised Code, the board is not required to hold a hearing, but may adopt a final order that contains the board's findings. In the final order, the board may impose any of the sanctions listed in division (A) of this section.

(G) Notwithstanding the provision of division (D)(2) of section 2953.32 or division (F)(1) of section 2953.39 of the Revised Code specifying that if records pertaining to a criminal case are sealed or expunged under that section the proceedings in the case must be deemed not to have occurred, sealing or expungement of the following records on which the board has based an action under this section shall have no effect on the board's action or any sanction imposed by the board under this section: records of any conviction, guilty plea, judicial finding of guilt resulting from a plea of no contest, or a judicial finding of eligibility for a pretrial diversion program or intervention in lieu of conviction. The board shall not be required to seal, destroy, redact, or otherwise modify its

records to reflect the court's sealing or expungement of conviction records.

(H) No pharmacist or pharmacy intern shall knowingly engage in any conduct described in divisions (A)(2)(b) or (A)(2)(e) to (l) of this section.

(I) The board shall not refuse to issue a license to an applicant for a conviction of an offense unless the refusal is in accordance with section 9.79 of the Revised Code.

Sec. 4729.28. (A) As used in this section, "dispense" has the meaning specified by the state board of pharmacy in rules adopted under this section ~~4729.26 of the Revised Code~~.

(2) Except as provided in section 3701.048 of the Revised Code with respect to other health care professionals, in sections 3715.512 and 4729.47 of the Revised Code with respect to pharmacy interns, or in rules adopted by the board under this section ~~4729.26 of the Revised Code~~, no person who is not a pharmacist shall dispense dangerous drugs.

(C) The board shall adopt rules in accordance with Chapter 119. of the Revised Code to implement divisions (A) and (B)(2) of this section.

Sec. 4729.382. (A) As used in this section, "epinephrine autoinjector" means a device used to administer epinephrine only in a manufactured dosage form.

(B) Subject to division (C) of this section, a pharmacist dispensing an epinephrine autoinjector pursuant to a prescription that identifies a specific type of epinephrine autoinjector may substitute the prescribed autoinjector with another epinephrine autoinjector, but only if the form of epinephrine contained in the autoinjector to be dispensed by substitution meets either of the following conditions:

(1) It is identical to the form of epinephrine in the type of autoinjector that was prescribed.

(2) It is a pharmaceutical equivalent of the form of epinephrine in the type of autoinjector that was prescribed in that it contains identical amounts of the identical active ingredients, but not necessarily the same inactive ingredients; it has been approved by the United States food and drug administration; and it has not been excluded from recognition as a pharmaceutical equivalent form of epinephrine by rules adopted under division (H) of this section.

(C) All of the following conditions apply with respect to a pharmacist's authority to dispense an epinephrine autoinjector by substitution:

(1) The pharmacist shall not make the substitution if the person receiving the autoinjector pursuant to the prescription instructs otherwise.

(2) The pharmacist shall not make the substitution if either of the following applies to the prescription:

(a) In the case of a written or electronic prescription, including a computer-generated prescription, the prescriber handwrites or actively causes to display on the prescription "dispense as written," "D.A.W.," "do not substitute," "medically

necessary as prescribed," or any other statement or numerical code that indicates the prescriber's intent to prevent substitution. Such a designation shall not be preprinted or stamped on the prescription, but a reminder to the prescriber of the designation procedure may be preprinted or displayed on the prescription form or electronic system the prescriber uses to issue the prescription.

(b) In the case of an oral prescription, the prescriber specifies that the epinephrine autoinjector as prescribed is medically necessary or otherwise indicates the prescriber's intent to prevent substitution.

(3) The pharmacist shall not make the substitution unless its price to the patient is less than or equal to the price of the prescribed epinephrine autoinjector, except that a pharmacist may substitute an epinephrine autoinjector with a price to the patient that is greater than the prescribed autoinjector if the patient specifically requests the more expensive autoinjector.

(4) The pharmacist, or a pharmacy intern or agent of the pharmacist, shall make a reasonable attempt to inform the patient or the patient's representative if a type of epinephrine autoinjector is available at a lower or equal cost.

(5) The pharmacist, or a pharmacy intern or agent of the pharmacist, shall inform the patient or the patient's representative of the person's right to refuse substitution of the prescribed epinephrine autoinjector.

(D)(1) Unless the prescriber instructs otherwise, the label for every epinephrine autoinjector dispensed shall include the epinephrine autoinjector's name, if any, and the distributor

of the autoinjector. Abbreviations may be used as necessary.

(2) When dispensing at retail an epinephrine autoinjector by substitution, the pharmacist shall indicate on the autoinjector's label or container that a substitution was made.

(3) The labeling requirements established by divisions (D)(1) and (2) of this section are in addition to all other labeling requirements as required in rules adopted by the state board of pharmacy.

(E) When a pharmacist dispenses an epinephrine autoinjector by substitution, the pharmacist or a pharmacy intern shall provide to the person receiving the device instruction on the proper method of administering epinephrine with the device, except that the instruction does not have to be provided if the person is receiving the same device that was dispensed when the person last received the device by having a prescription filled or refilled.

(F) A pharmacist who dispenses an epinephrine autoinjector pursuant to this section assumes no greater liability for dispensing the autoinjector by substitution than would be incurred for dispensing the autoinjector identified on the prescription.

(G) The failure of a prescriber to restrict a prescription by indicating an intent to prevent substitution pursuant to this section shall not constitute evidence of the prescriber's negligence unless the prescriber had reasonable cause to believe that the health condition of the patient for whom the epinephrine autoinjector was intended warranted the prescription of a specific type of epinephrine autoinjector and no other. No prescriber shall be liable for civil damages or in any criminal

prosecution arising from a pharmacist dispensing an epinephrine autoinjector by substitution, unless the type of autoinjector prescribed would have reasonably caused the same loss, damage, injury, or death.

(H) The state board of pharmacy may adopt rules in accordance with Chapter 119. of the Revised Code ~~to implement this section. The rules may specify~~ specifying the forms of epinephrine that are not to be recognized as pharmaceutical equivalents of other forms of epinephrine for purposes of this section.

(I) No pharmacist shall knowingly engage in conduct that is prohibited by division (C) or (D) of this section.

board.

As used in this division, "false, fraudulent, deceptive, or misleading statement" means a statement that includes a misrepresentation of fact, is likely to mislead or deceive because of a failure to disclose material facts, is intended or is likely to create false or unjustified expectations of favorable results, or includes representations or implications that in reasonable probability will cause an ordinarily prudent person to misunderstand or be deceived.

(14) Commission of an act involving moral turpitude that constitutes a misdemeanor in this state, regardless of the jurisdiction in which the act was committed;

(15) Violation of the conditions of limitation placed by the board upon a license or certificate to practice;

(16) Failure to pay license renewal fees specified in this chapter;

The state medical board shall obtain and keep on file current copies of the codes of ethics of the various national professional organizations. The individual whose license or certificate is being suspended or revoked shall not be found to have violated any provision of a code of ethics of an organization not

appropriate to the individual's profession.

For purposes of this division, a "provision of a code of ethics of a national professional organization" does not include any provision that would preclude the making of a report by a physician of an employee's use of a drug of abuse, or of a condition of an employee other than one involving the use of a drug of abuse, to the employer of the employee as described in division (B) of section 2305.33 of the Revised Code. Nothing in this division affects the immunity from civil liability conferred by that section upon a physician who makes either type of report in accordance with division (B) of that section. The board also may compel the individual to submit to a mental examination, physical examination, including an HIV test, or both a mental and a physical examination. The expense of the examination is the responsibility of the individual compelled to be examined. Failure to submit to a mental or physical examination or consent

to an HIV test ordered by the board constitutes an admission of the allegations against the individual unless the failure is due to circumstances beyond the individual's control, and a default and final order may be entered without the taking of testimony or presentation of evidence. If the board finds an individual unable to practice because of the reasons set forth in this division, the board shall require the individual to submit to care, counseling, or treatment by physicians approved or designated by the board, as a condition for initial, continued, reinstated, or renewed authority to practice. An individual affected under this division shall be afforded an opportunity to demonstrate to the board the ability to resume practice in compliance with acceptable and prevailing standards under the provisions of the individual's license or certificate. For the purpose of this division, any individual who applies for or receives a license or certificate to practice under this chapter accepts the privilege of practicing in this state and, by so doing, shall be deemed to have given consent to submit to a mental or physical examination when directed to do so in writing by the board, and to have waived all objections to the admissibility of testimony or examination reports that constitute a privileged communication.

(20) Except as provided in division (F)(1)(b) of section 4731.282 of the Revised Code or when civil penalties are imposed under section 4731.225 of the Revised Code, and subject to section 4731.226 of the Revised Code, violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of, or conspiring to violate, any provisions of this chapter or any rule promulgated by the board.

This division does not apply to a violation or attempted violation of, assisting in or abetting the violation of, or a

conspiracy to violate, any provision of this chapter or any rule adopted by the board that would preclude the making of a report by a physician of an employee's use of a drug of abuse, or of a condition of an employee other than one involving the use of a drug of abuse, to the employer of the employee as described in division (B) of section 2305.33 of the Revised Code. Nothing in this division affects the immunity from civil liability conferred by that section upon a physician who makes either type of report in accordance with division (B) of that section. As used in this division, "employee," "employer," and "physician" have the same meanings as in section 2305.33 of the Revised Code.

(21) The violation of section 3701.79 of the Revised Code or of any abortion rule adopted by the director of health pursuant to section 3701.341 of the Revised Code;

(22) Any of the following actions taken by an agency responsible for authorizing, certifying, or regulating an individual to practice a health care occupation or provide health care services in this state or another jurisdiction, for any reason other than the nonpayment of fees: the limitation, revocation, or suspension of an individual's license to practice; acceptance of an individual's license surrender; denial of a license; refusal to renew or reinstate a license; imposition of probation; or issuance of an order of censure or other reprimand;

(23) The violation of section 2919.12 of the Revised Code or the performance or inducement of an abortion upon a pregnant woman with actual knowledge that the conditions specified in division (B) of section 2317.56 of the Revised Code have not been satisfied or with a heedless indifference as to whether

those conditions have been satisfied, unless an affirmative defense as specified in division (H)(2) of that section would apply in a civil action authorized by division (H)(1) of that section;

(24) The revocation, suspension, restriction, reduction, or termination of clinical privileges by the United States department of defense or department of veterans affairs or the termination or suspension of a certificate of registration to prescribe drugs by the drug enforcement administration of the United States department of justice;

(25) Termination or suspension from participation in the medicare or medicaid programs by the department of health and human services or other responsible agency;

(26) Impairment of ability to practice according to acceptable and prevailing standards of care because of substance use disorder or excessive use or abuse of drugs, alcohol, or other substances that may impair ability to practice.

For the purposes of this division, any individual authorized to practice by this chapter accepts the privilege of practicing in this state subject to supervision by the board. By filing an application for or holding a license or certificate to practice under this chapter, an individual shall be deemed to have given consent to submit to a mental or physical examination when ordered to do so by the board in writing, and to have waived all objections to the admissibility of testimony or examination reports that constitute privileged communications.

If it has reason to believe that any individual authorized to practice by this chapter or any applicant for licensure or certification to practice suffers such impairment, the board

shall refer the individual to the monitoring organization that conducts the confidential monitoring program established under section 4731.25 of the Revised Code. The board also may compel the individual to submit to a mental or physical examination, or both. The expense of the examination is the responsibility of the individual compelled to be examined. Any mental or physical examination required under this division shall be undertaken by a treatment provider or physician who is qualified to conduct the examination and who is approved under section 4731.251 of the Revised Code.

Failure to submit to a mental or physical examination ordered by the board constitutes an admission of the allegations against the individual unless the failure is due to circumstances beyond the individual's control, and a default and final order may be entered without the taking of testimony or presentation of evidence. If the board determines that the individual's ability to practice is impaired, the board shall suspend the individual's license or certificate or deny the individual's application and shall require the individual, as a condition for initial, continued, reinstated, or renewed licensure or certification to practice, to submit to treatment.

Before being eligible to apply for reinstatement of a license or certificate suspended under this division, the impaired practitioner shall demonstrate to the board the ability to resume practice in compliance with acceptable and prevailing standards of care under the provisions of the practitioner's license or certificate. The demonstration shall include, but shall not be limited to, the following:

(a) Certification from a treatment provider approved under section 4731.251 of the Revised Code that the individual has

successfully completed any required inpatient treatment;

(b) Evidence of continuing full compliance with an aftercare contract or consent agreement;

(c) Two written reports indicating that the individual's ability to practice has been assessed and that the individual has been found capable of practicing according to acceptable and prevailing standards of care. The reports shall be made by individuals or providers approved by the board for making the assessments and shall describe the basis for their determination.

The board may reinstate a license or certificate suspended under this division after that demonstration and after the individual has entered into a written consent agreement.

When the impaired practitioner resumes practice, the board shall require continued monitoring of the individual. The monitoring shall include, but not be limited to, compliance with the written consent agreement entered into before reinstatement or with conditions imposed by board order after a hearing, and, upon termination of the consent agreement, submission to the board for at least two years of annual written progress reports made under penalty of perjury stating whether the individual has maintained sobriety.

(27) A second or subsequent violation of section 4731.66 or 4731.69 of the Revised Code;

(28) Except as provided in division (N) of this section:

(a) Waiving the payment of all or any part of a deductible or copayment that a patient, pursuant to a health insurance or health care policy, contract, or plan that covers the individual's services, otherwise would be required to pay if the

waiver is used as an enticement to a patient or group of patients to receive health care services from that individual;

(b) Advertising that the individual will waive the payment of all or any part of a deductible or copayment that a patient, pursuant to a health insurance or health care policy, contract, or plan that covers the individual's services, otherwise would be required to pay.

(35) Failure to supervise an anesthesiologist assistant in accordance with Chapter 4760. of the Revised Code ~~and the board's rules for supervision of an anesthesiologist assistant~~;

(43) Failure to comply with the requirements of section 2919.171, 2919.202, or 2919.203 of the Revised Code or failure to submit to the department of health in accordance with a court order a complete report as described in section 2919.171 or 2919.202 of the Revised Code;

(44) Practicing at a facility that is subject to licensure as a category III terminal distributor of dangerous drugs with a pain management clinic classification unless the person operating the facility has obtained and maintains the license with the classification;

(45) Owning a facility that is subject to licensure as a category III terminal distributor of dangerous drugs with a pain management clinic classification unless the facility is licensed with the classification;

(46) Failure to comply with any of the requirements regarding making or maintaining medical records or documents described in division (A) of section 2919.192, division (C) of section 2919.193, division (B) of section 2919.195, or division (A) of section 2919.196 of the Revised Code;

(C) Disciplinary actions taken by the board under divisions (A) and (B) of this section shall be taken pursuant to an adjudication under Chapter 119. of the Revised Code, except that in lieu of an adjudication, the board may enter into a

consent agreement with an individual to resolve an allegation of a violation of this chapter or any rule adopted under it. A consent agreement, when ratified by an affirmative vote of not fewer than six members of the board, shall constitute the findings and order of the board with respect to the matter addressed in the agreement. If the board refuses to ratify a consent agreement, the admissions and findings contained in the consent agreement shall be of no force or effect.

A telephone conference call may be utilized for ratification of a consent agreement that revokes or suspends an individual's license or certificate to practice or certificate to recommend. The telephone conference call shall be considered a special meeting under division (F) of section 121.22 of the Revised Code.

If the board takes disciplinary action against an individual under division (B) of this section for a second or subsequent plea of guilty to, or judicial finding of guilt of, a violation of section 2919.123 or 2919.124 of the Revised Code, the disciplinary action shall consist of a suspension of the individual's license or certificate to practice for a period of at least one year or, if determined appropriate by the board, a more serious sanction involving the individual's license or certificate to practice. Any consent agreement entered into under this division with an individual that pertains to a second or subsequent plea of guilty to, or judicial finding of guilt of, a violation of that section shall provide for a suspension of the individual's license or certificate to practice for a period of at least one year or, if determined appropriate by the board, a more serious sanction involving the individual's license or certificate to practice.

(D) For purposes of divisions (B)(10), (12), and (14) of this section, the commission of the act may be established by a finding by the board, pursuant to an adjudication under Chapter 119. of the Revised Code, that the individual committed the act. The board does not have jurisdiction under those divisions if the trial court renders a final judgment in the individual's favor and that judgment is based upon an adjudication on the merits. The board has jurisdiction under those divisions if the trial court issues an order of dismissal upon technical or procedural grounds.

(E) The sealing or expungement of conviction records by any court shall have no effect upon a prior board order entered under this section or upon the board's jurisdiction to take action under this section if, based upon a plea of guilty, a judicial finding of guilt, or a judicial finding of eligibility for intervention in lieu of conviction, the board issued a notice of opportunity for a hearing prior to the court's order to seal or expunge the records. The board shall not be required to seal, expunge, destroy, redact, or otherwise modify its records to reflect the court's sealing of conviction records.

(F)(1) The board shall investigate evidence that appears to show that a person has violated any provision of this chapter or any rule adopted under it. Any person may report to the board in a signed writing any information that the person may have that appears to show a violation of any provision of this chapter or any rule adopted under it. In the absence of bad faith, any person who reports information of that nature or who testifies before the board in any adjudication conducted under Chapter 119. of the Revised Code shall not be liable in damages in a civil action as a result of the report or testimony. Each complaint or allegation of a violation received by the board

shall be assigned a case number and shall be recorded by the board.

(2) Investigations of alleged violations of this chapter or any rule adopted under it shall be supervised by the supervising member elected by the board in accordance with section 4731.02 of the Revised Code and by the secretary as provided in section 4731.39 of the Revised Code. The president may designate another member of the board to supervise the investigation in place of the supervising member. Upon a vote of the majority of the board to authorize the addition of a consumer member in the supervision of any part of any investigation, the president shall designate a consumer member for supervision of investigations as determined by the president. The authorization of consumer member participation in investigation supervision may be rescinded by a majority vote of the board. No member of the board who supervises the investigation of a case shall participate in further adjudication of the case.

(3) In investigating a possible violation of this chapter or any rule adopted under this chapter, or in conducting an inspection under division (E) of section 4731.054 of the Revised Code, the board may question witnesses, conduct interviews, administer oaths, order the taking of depositions, inspect and copy any books, accounts, papers, records, or documents, issue subpoenas, and compel the attendance of witnesses and production of books, accounts, papers, records, documents, and testimony, except that a subpoena for patient record information shall not be issued without consultation with the attorney general's office and approval of the secretary of the board.

(a) Before issuance of a subpoena for patient record

information, the secretary shall determine whether there is probable cause to believe that the complaint filed alleges a violation of this chapter or any rule adopted under it and that the records sought are relevant to the alleged violation and material to the investigation. The subpoena may apply only to records that cover a reasonable period of time surrounding the alleged violation.

(b) On failure to comply with any subpoena issued by the board and after reasonable notice to the person being subpoenaed, the board may move for an order compelling the production of persons or records pursuant to the Rules of Civil Procedure.

(c) A subpoena issued by the board may be served by a sheriff, the sheriff's deputy, or a board employee or agent designated by the board. Service of a subpoena issued by the board may be made by delivering a copy of the subpoena to the person named therein, reading it to the person, or leaving it at the person's usual place of residence, usual place of business, or address on file with the board. When serving a subpoena to an applicant for or the holder of a license or certificate issued under this chapter, service of the subpoena may be made by certified mail, return receipt requested, and the subpoena shall be deemed served on the date delivery is made or the date the person refuses to accept delivery. If the person being served refuses to accept the subpoena or is not located, service may be made to an attorney who notifies the board that the attorney is representing the person.

(d) A sheriff's deputy who serves a subpoena shall receive the same fees as a sheriff. Each witness who appears before the board in obedience to a subpoena shall receive the fees and

mileage provided for under section 119.094 of the Revised Code.

(4) All hearings, investigations, and inspections of the board shall be considered civil actions for the purposes of section 2305.252 of the Revised Code.

(5) A report required to be submitted to the board under this chapter, a complaint, or information received by the board pursuant to an investigation or pursuant to an inspection under division (E) of section 4731.054 of the Revised Code is confidential and not subject to discovery in any civil action.

The board shall conduct all investigations or inspections and proceedings in a manner that protects the confidentiality of patients and persons who file complaints with the board. The board shall not make public the names or any other identifying information about patients or complainants unless proper consent is given or, in the case of a patient, a waiver of the patient privilege exists under division (B) of section 2317.02 of the Revised Code, except that consent or a waiver of that nature is not required if the board possesses reliable and substantial evidence that no bona fide physician-patient relationship exists.

The board may share any information it receives pursuant to an investigation or inspection, including patient records and patient record information, with law enforcement agencies, other licensing boards, and other governmental agencies that are prosecuting, adjudicating, or investigating alleged violations of statutes or administrative rules. An agency or board that receives the information shall comply with the same requirements regarding confidentiality as those with which the state medical board must comply, notwithstanding any conflicting provision of the Revised Code or procedure of the agency or board that

applies when it is dealing with other information in its possession. In a judicial proceeding, the information may be admitted into evidence only in accordance with the Rules of Evidence, but the court shall require that appropriate measures are taken to ensure that confidentiality is maintained with respect to any part of the information that contains names or other identifying information about patients or complainants whose confidentiality was protected by the state medical board when the information was in the board's possession. Measures to ensure confidentiality that may be taken by the court include sealing its records or deleting specific information from its records.

No person shall knowingly access, use, or disclose confidential investigatory information in a manner prohibited by law.

(6) On a quarterly basis, the board shall prepare a report that documents the disposition of all cases during the preceding three months. The report shall contain the following information for each case with which the board has completed its activities:

(a) The case number assigned to the complaint or alleged violation;

(b) The type of license or certificate to practice, if any, held by the individual against whom the complaint is directed;

(c) A description of the allegations contained in the complaint;

(d) Whether witnesses were interviewed;

(e) Whether the individual against whom the complaint is directed is the subject of any pending complaints;

(f) The disposition of the case.

The report shall state how many cases are still pending and shall be prepared in a manner that protects the identity of each person involved in each case. The report shall be a public record under section 149.43 of the Revised Code.

(7) The board may provide a status update regarding an investigation to a complainant on request if the board verifies the complainant's identity.

(G)(1) If either of the following circumstances occur, the secretary and supervising member may recommend that the board suspend an individual's license or certificate to practice or certificate to recommend without a prior hearing:

(a) The secretary and supervising member determine both of the following:

(i) That there is clear and convincing evidence that an individual has violated division (B) of this section;

(ii) That the individual's continued practice presents a danger of immediate and serious harm to the public.

(b) The board receives verifiable information that a licensee has been charged in any state or federal court with a crime classified as a felony under the charging court's law and the conduct constitutes a violation of division (B) of this section.

(2) If a recommendation is made to suspend without a prior hearing pursuant to division (G)(1) of this section, written allegations shall be prepared for consideration by the board. The board, upon review of those allegations and by an affirmative vote of not fewer than six of its members, excluding

the secretary and supervising member, may suspend a license or certificate without a prior hearing. A telephone conference call may be utilized for reviewing the allegations and taking the vote on the summary suspension.

The board shall serve a written order of suspension in accordance with sections 119.05 and 119.07 of the Revised Code. If the individual subject to the summary suspension requests an adjudicatory hearing by the board, the date set for the hearing shall be within fifteen days, but not earlier than seven days, after the individual requests the hearing, unless otherwise agreed to by both the board and the individual.

(3) Any summary suspension imposed under division (G)(2) of this section is not a final appealable order and is not an adjudication that may be appealed under section 119.12 of the Revised Code. The summary suspension shall remain in effect until a final adjudicative order issued by the board pursuant to this section and Chapter 119. of the Revised Code becomes effective. Once a final adjudicative order has been issued by the board, any party adversely affected by it may file an appeal in accordance with the requirements of Chapter 119. of the Revised Code.

The board shall issue its final adjudicative order within seventy-five days after completion of its hearing. A failure to issue the order within seventy-five days shall result in dissolution of the summary suspension order but shall not invalidate any subsequent, final adjudicative order.

(H) If the board takes action under division (B)(9), (11), or (13) of this section and the judicial finding of guilt, guilty plea, or judicial finding of eligibility for intervention in lieu of conviction is overturned on appeal, upon exhaustion

of the criminal appeal, a petition for reconsideration of the order may be filed with the board along with appropriate court documents. Upon receipt of a petition of that nature and supporting court documents, the board shall reinstate the individual's license or certificate to practice. The board may then hold an adjudication under Chapter 119. of the Revised Code to determine whether the individual committed the act in question. Notice of an opportunity for a hearing shall be given in accordance with Chapter 119. of the Revised Code. If the board finds, pursuant to an adjudication held under this division, that the individual committed the act or if no hearing is requested, the board may order any of the sanctions identified under division (B) of this section.

(I) The license or certificate to practice issued to an individual under this chapter and the individual's practice in this state are automatically suspended as of the date of the individual's second or subsequent plea of guilty to, or judicial finding of guilt of, a violation of section 2919.123 or 2919.124 of the Revised Code. In addition, the license or certificate to practice or certificate to recommend issued to an individual under this chapter and the individual's practice in this state are automatically suspended as of the date the individual pleads guilty to, is found by a judge or jury to be guilty of, or is subject to a judicial finding of eligibility for intervention in lieu of conviction in this state or treatment or intervention in lieu of conviction in another jurisdiction for any of the following criminal offenses in this state or a substantially equivalent criminal offense in another jurisdiction: aggravated murder, murder, voluntary manslaughter, felonious assault, trafficking in persons, kidnapping, rape, sexual battery, gross sexual imposition, aggravated arson, aggravated robbery, or

aggravated burglary. Continued practice after suspension shall be considered practicing without a license or certificate.

The board shall notify the individual subject to the suspension in accordance with sections 119.05 and 119.07 of the Revised Code. If an individual whose license or certificate is automatically suspended under this division fails to make a timely request for an adjudication under Chapter 119. of the Revised Code, the board shall do whichever of the following is applicable:

(1) If the automatic suspension under this division is for a second or subsequent plea of guilty to, or judicial finding of guilt of, a violation of section 2919.123 or 2919.124 of the Revised Code, the board shall enter an order suspending the individual's license or certificate to practice for a period of at least one year or, if determined appropriate by the board, imposing a more serious sanction involving the individual's license or certificate to practice.

(2) In all circumstances in which division (I)(1) of this section does not apply, enter a final order permanently revoking the individual's license or certificate to practice.

(J) If the board is required by Chapter 119. of the Revised Code to give notice of an opportunity for a hearing and if the individual subject to the notice does not timely request a hearing in accordance with section 119.07 of the Revised Code, the board is not required to hold a hearing, but may adopt, by an affirmative vote of not fewer than six of its members, a final order that contains the board's findings. In that final order, the board may order any of the sanctions identified under division (A) or (B) of this section.

(K) Any action taken by the board under division (B) of this section resulting in a suspension from practice shall be accompanied by a written statement of the conditions under which the individual's license or certificate to practice may be reinstated. The board shall adopt rules governing conditions to be imposed for reinstatement. Reinstatement of a license or certificate suspended pursuant to division (B) of this section requires an affirmative vote of not fewer than six members of the board.

(L) When the board refuses to grant or issue a license or certificate to practice to an applicant, revokes an individual's license or certificate to practice, refuses to renew an individual's license or certificate to practice, or refuses to reinstate an individual's license or certificate to practice, the board may specify that its action is permanent. An individual subject to a permanent action taken by the board is forever thereafter ineligible to hold a license or certificate to practice and the board shall not accept an application for reinstatement of the license or certificate or for issuance of a new license or certificate.

(M) Notwithstanding any other provision of the Revised Code, all of the following apply:

(1) The surrender of a license or certificate issued under this chapter shall not be effective unless or until accepted by the board. A telephone conference call may be utilized for acceptance of the surrender of an individual's license or certificate to practice. The telephone conference call shall be considered a special meeting under division (F) of section 121.22 of the Revised Code. Reinstatement of a license or certificate surrendered to the board requires an affirmative

vote of not fewer than six members of the board.

(2) An application for a license or certificate made under the provisions of this chapter may not be withdrawn without approval of the board.

(3) Failure by an individual to renew a license or certificate to practice in accordance with this chapter or a certificate to recommend in accordance with rules adopted under section 4731.301 of the Revised Code does not remove or limit the board's jurisdiction to take any disciplinary action under this section against the individual.

(4) The placement of an individual's license on retired status, as described in section 4731.283 of the Revised Code, does not remove or limit the board's jurisdiction to take any disciplinary action against the individual with regard to the license as it existed before being placed on retired status.

(5) At the request of the board, a license or certificate holder shall immediately surrender to the board a license or certificate that the board has suspended, revoked, or permanently revoked.

(N) Sanctions shall not be imposed under division (B)(28) of this section against any person who waives deductibles and copayments as follows:

(1) In compliance with the health benefit plan that expressly allows such a practice. Waiver of the deductibles or copayments shall be made only with the full knowledge and consent of the plan purchaser, payer, and third-party administrator. Documentation of the consent shall be made available to the board upon request.

(2) For professional services rendered to any other person

authorized to practice pursuant to this chapter, to the extent allowed by this chapter ~~and rules adopted by the board~~.

(O) Under the board's investigative duties described in this section and subject to division (F) of this section, the board shall develop and implement a quality intervention program designed to improve through remedial education the clinical and communication skills of individuals authorized under this chapter to practice medicine and surgery, osteopathic medicine and surgery, and podiatric medicine and surgery. In developing and implementing the quality intervention program, the board may do all of the following:

(1) Offer in appropriate cases as determined by the board an educational and assessment program pursuant to an investigation the board conducts under this section;

(2) Select providers of educational and assessment services, including a quality intervention program panel of case reviewers;

(3) Make referrals to educational and assessment service providers and approve individual educational programs recommended by those providers. The board shall monitor the progress of each individual undertaking a recommended individual educational program.

(4) Determine what constitutes successful completion of an individual educational program and require further monitoring of the individual who completed the program or other action that the board determines to be appropriate~~;~~

~~(5) Adopt rules in accordance with Chapter 119. of the Revised Code to further implement the quality intervention program~~.

An individual who participates in an individual educational program pursuant to this division shall pay the financial obligations arising from that educational program.

(P) The board shall not refuse to issue a license to an applicant because of a conviction, plea of guilty, judicial finding of guilt, judicial finding of eligibility for intervention in lieu of conviction, or the commission of an act that constitutes a criminal offense, unless the refusal is in accordance with section 9.79 of the Revised Code.

(Q) A license or certificate to practice or certificate to recommend issued to an individual under this chapter and an individual's practice under this chapter in this state are automatically suspended if the individual's license or certificate to practice a health care occupation or provide health care services is suspended, revoked, or surrendered or relinquished in lieu of discipline by an agency responsible for authorizing, certifying, or regulating an individual to practice a health care occupation or provide health care services in this state or another jurisdiction. The automatic suspension begins immediately upon entry of the order by the agency and lasts for ninety days to permit the board to investigate the basis for the action under this chapter. Continued practice during the automatic suspension shall be considered practicing without a license or certificate.

The board shall notify the individual subject to the automatic suspension by certified mail or in person in accordance with section 119.07 of the Revised Code. If an individual subject to an automatic suspension under this division fails to make a timely request for an adjudication under Chapter 119. of the Revised Code, the board is not

required to hold a hearing, but may adopt, by an affirmative vote of not fewer than six of its members, a final order that contains the board's findings. In that final order, the board may order any of the sanctions identified under division (A) or (B) of this section.
