

The OEA will lead the way for continuous improvement of public education while advocating for members and the learners they serve.

Ohio House Education Committee

**HB 154 – Proponent Testimony – Ohio Education Association
April 9, 2019**

Good evening Chair Blessing, Ranking Member Robinson and members of the House Education Committee.

On behalf our 122,000 members, I am Becky Higgins, President of the Ohio Education Association. I am here today to ask for your support for House Bill 154. Also with me is Larry Ellis, the President of the Youngstown Education Association. Matt Dotson with OEA Government Relations is also here and can assist with any questions you may have.

As you might imagine, the fact that two former teachers are the bi-partisan joint sponsors of House Bill 154 is a big part of why we are strongly supportive of this bill. These gentlemen, Representatives Jones and Miller, know first-hand what is needed to meet the challenges of providing a quality education in troubled school districts. And the current state takeover law is not getting the job done.

The state takeover and the resulting loss of local control in **Youngstown, Lorain and East Cleveland** schools has not helped the students in those districts. If current law is not changed, over the next two years state government could take away local control from **Dayton, Columbus, Canton, Mansfield, Lima, Toledo, Ashtabula, Euclid, North College Hill** and **Painesville** schools. It’s time for this to end. Let’s not do any more damage to other school districts.

We support House Bill 154 because it would do the following:

- **Repeal the ill-conceived law** that allows the state to takeover local school districts that are deemed to be in trouble.
- **Restore local control** to elected school boards.
- Hold school districts **accountable** by requiring school improvement teams in F-rated school buildings.

As my colleague Larry Ellis and our fellow OEA members in Youngstown have experienced, the current state takeover law provides no citizen oversight through elected school boards, no voice for classroom teachers and has been **bad for our kids**. Our experience in Youngstown and Lorain has demonstrated that the Academic Distress Commission/CEO model **does not work**. We believe that no more districts should be taken over, and that the districts that have been taken over should be relieved of that burden. That is why the first part of House Bill 154 is so important - repeal.

It is also important to note that state takeovers are based on **misleading state report cards** that severely penalize students and districts in poverty. After the failed state takeover law is repealed and local control is restored, OEA stands ready to partner with the House Education Committee to fix Ohio’s broken and deceptive report card system.

Thank you for this opportunity to testify in support of House Bill 154. Larry and I are available for any questions you may have.
