

Hello,

My name is Nicole Vickers. I have been against the lockdowns and mandates from the very beginning because once you give your freedoms up for Government perceived "safety", you never get those freedoms back. For this testimony I will focus on just one instance of why the mandates need to end because this involves my child and I am infuriated.

Please see attached photos of my 7-year-old son's face. This is the result of him getting hit in the face with a ball that had been sanitized that and the liquid had not yet dried.

Because all students are required to keep their mask on and have to ask for a mask break, none of the teachers noticed his face had swelled and the substance continued to irritate his skin because it was not washed off and then covered up with a mask. His face continued to swell as you can see from the photos, it swelled underneath his eye, around his chin, and up the other side of his cheek.

I washed his face well as soon as we got home and called the school to ask about the products they were using and looked up the SDS sheet. When I sent them a picture of his face, they said it looked like a Covid rash- what is that exactly? They said that if he couldn't wear the mask to school because of the rash, he wouldn't be able to come to school because it was required. Of course, when my son heard that he started to cry and said it was ok he would wear it anyway even though it was harming him and would not allow his face to breath and heal as needed.

This is child abuse.

This is psychological warfare.

I refuse to accept DeWine's delusional reality and allow him to hurt my child like this.

Also, please see attached SDS sheet of the sanitizer that has been used throughout the school, wiping EVERY surface for months inside these schools. This product is an industrial non-acid disinfectant listed as a pesticide. As you can see, it is very harmful with long term exposure.

I DO NOT FEAR COVID!!

But I do worry about long term side effects of everything surrounding this pandemic except for the Coronavirus itself.

Please take back the legislator's power from the Governor and restore our 3 equal branches as the law demands.

Make this make sense.

END THE MANDATES AND STATE OF EMERGENCY!! STOP THE GOVERNOR!! PLEASE SUPPORT SB311!!!

WE NEED YOUR SUPPORT NOW!! RESTORE OHIO!!!

Sincerely,

Nicole Vickers
