In line 34, delete "the"	22
In line 35, delete the first "facility's" and insert "an estimated	23
annual"	24

The motion was _____ agreed to.

<u>SYNOPSIS</u>	25
Nursing facility payments	26
Section 2	27
As described below, modifies the calculation of nursing	28
facility one-time payments under the bill to be based on a	29
method that uses specified data, instead of by enumerated steps.	30
Replaces provisions specifying the steps to calculate a	31
nursing facility's payment with a requirement that the payment	32
be calculated by a method using the following data:	33
-A percentage of the total per Medicaid day payment rate	34
paid to all nursing facilities, sufficient to distribute all the	35
appropriated funds to all Ohio nursing facilities;	36

-The per Medicaid day payment rate for each nursing facility as of July 1, 2021.	37 38
-The total annual Medicaid days for each nursing facility, based on 2020 cost report data.	39 40
Regarding the third point above, specifies that if a facility did not submit a full year of cost report data for 2020, the Department of Medicaid must use an estimated annual number of licensed beds, instead of using the facility's number of licensed beds.	41 42 43 44 45
Modifies the bill's appropriation line item to refer to "nursing facility payments" instead of "nursing facility relief."	46 47 48
