RE: Ohio House Bill 248 (The Vaccine Choice & Anti-Discrimination Act)

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Lynne Barnes and I am grateful to Representative Jennifer Gross for sponsoring this House Bill 248. The reason I support Bill 248 is because my decision to have the genetically modified shot is my personal choice. I prefer to have the choice to “just wait” to see what the long-term health implications are before I have it injected into my body. This shot is being so pressured with incessant marketing to take this injection and that has turned me against it. I **do not** trust my government officials to make my health decisions and nor should they be. Why are they pushing this so hard??? Something isn't right. The Nuremberg Code established, every person must “be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision” for any medical experimental drug, as the COVID shot currently is.

The Health passports are illegal because they violate the informed consent requirement of the federal Emergency Use Authorization law, under which the injections were allowed to be brought to market. The passport also violates Title 2 of the Civil Rights Act of 1964. The “passport” is a violation of my medical privacy. If Ohio implements vaccine passports, you will be led to a situation where the government protects the rights and freedoms of vaccinated citizens, while infringing upon those unvaccinated. If the government was given the responsibility to protect our health, the logic surely calls for protecting us from using dangerous bicycles and driving cars, the logic calls for prohibiting still more dangerous activities such as hang-gliding, motorcycling and skiing. Passports would be a form of health fascism. Vaccine passports eliminate freedom because they allow an external authority to deliberately interfere in the lives of unvaccinated people in ways that prevent them from attaining their goals and pursuing their personal interests. Please don't rob me of my freedoms.

Thank you once again for this opportunity to provide testimony on the need for an urgency of House Bill 248.

Sincerely,

Lynne Barnes

Fairfield, OH 45014
