

May 27, 2021

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Aubrey Barnette, I live in North Ridgeville (district 55) and I am a stay-at-home mom of 6 children with a masters in Social Work and the reason I support House Bill 248 is because our bodies are fearfully and wonderfully made, and should be treated with utmost respect. Our medical privacy protects our liberties and identities from exploitation of an over-reaching pharmaceutical mafia with billions to gain and no liability. With patents hiding information, lack of studies supporting safety, history of death in animal models from the SARS vaccine, it is incomprehensible the COVID vaccine could be mandated by employers irrespective of unique risk factors. The VAERS data base shows thousands of deaths and several adverse reactions already from the COVID vaccines. Where there is risk, there should be choice.

This bill is the line in the sand. It will project the future of Ohio. Will you support man's informed right to follow his or her conscience without tracking, penalty or discrimination?

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,
Aubrey Barnette
