*Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.*

*My name is Jennifer Baughman and I am a domestic engineer and the reason I support House Bill 248 is because I don't believe that the government should have any place in my medical decision making. It's unfair to require a vaccine for education purposes because you're going to not allow unvaccinated people to receive the same level of education. It's an experimental drug and I feel it will also prevent people from having equal job opportunities. We as people should be able to make our own decisions about our bodies and what we put in them.*

*Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.*

*Best regards,*
