

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Jessica Dumouchel and I am a property manager and real estate investor. I am a wife and mother of a vaccine injured child and I support house Bill 248 because I believe that everyone should have the right to choose what medical procedures they and their children participate in without discrimination, especially when it involves potential harm and unknown side effects. My husband and I know that it would never be tolerated for us to discriminate against anyone seeking housing especially for medical reasons. Medical discrimination should never be allowed as each person has a unique composition and one medical procedure can never be fit for all. Refusing those who choose not to vaccinate access to necessary resources would be an extreme violation of our rights as citizens of the United States and as human beings.

Thank you again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,
Jessica Dumouchel
