

Dear Rep Scott Lipps,

Here is the PDF that you requested May 27 from me:

Thank you for the opportunity to provide input for the HB 248 bill. I listened to the discussions on the first hearing by Rep. Jennifer Gross and greatly appreciated her stance for medical freedom, but I feel you are ignoring the elephant in the room. **This is NOT an ordinary vaccine! This vaccine changes human DNA!** There are 50 patents owned by CDC members connected to the vaccines, and it is meant to sterilize and reduce the population, as admitted by Bill Gates when he said in a TED talk, "If we do a good job on new vaccination and health care, we can get the population numbers down." (Follow the money! Bill Gates is the top funder of the WHO and a shareholder in Pfizer. GlaxosmithKline owns the Wuhan lab and also Pfizer.) The WHO has the goal of reducing the population 90% as reported by whistleblower Dr. Rema Labo, who worked for European heads of state, and whose husband sat in meetings of the WHO when he was head of the army. She was told, "the culling is about to begin."

How is it even a question whether our citizens should be forced to take an experimental, untested vaccine for a disease that 99% survive? How is it even a question whether women should be forced to take a vaccine that could cause them to become infertile for life? How is it even a question whether this should be given to children when they don't even get sick from the virus, yet Pfizer's own data admits 86% of the children had an adverse reaction to the vaccine in the trials? May data from VAERS shows a 219% increase in myocarditis in those under 18 and the vaccine is causing Guilliane-Barre syndrome and blood clots in our children, yet we continue to push the vaccine for them and over 4.1 million have already been injected! In five states children can even be vaccinated without their parents' consent! (IA, AL, OR, TN, NC)

A new study by the Jonas Salk Institute just proved that it is the spike protein ALONE that is causing the blood clots by damaging the blood vessel linings and the lungs, and it is this very spike protein that the vaccines all force the body to make!! According to Dr. Luc Montagnier as reported by the American Journal on May 24, 2021, the vaccines themselves are creating the variants which the vaccinated WILL NOT be protected from. He explains, "there is no hope and no possible treatment" for the vaccinated. Sadly, "they will ALL die from antibody enhancement."

Furthermore, emergency use authorization is only for situations where there are no other treatments, but we have safe and effective treatments available. It is beyond common sense to think that a vaccine could be created to protect anyone from a virus that mutates every 10 hours! Perhaps that is why we have now seen at least 10,000 Covid-19 cases in those fully vaccinated! However, Nature magazine now admits, "Had Covid? You'll probably make antibodies for a lifetime," in a May 26, 2021 article based on bone marrow samples. Why do we need the vaccines which never promised to protect people from getting Covid-19? It is clear the vaccines **have another purpose.**

If you want to know what could happen soon, take a look at India. They were averaging only 100 deaths a day until police enforced mask mandates brought that up to 1000. Then they began to vaccinate, and now they have so many deaths, sometimes over 4,000 a day, that dead

bodies are floating down the Ganges River. People are also dying of other diseases such as tuberculosis, since the vaccine induced antibodies crowd out the bodies NK cells and compromise the immune system. **The vaccinated populace has created some 3,500 new variants, endangering the unvaccinated.**

If you combine UK, EU, and US data, **over 17,511 have died** from vaccine injuries, yet we still question whether people should be forced to take it?? It is a violation of the Nuremberg Code to administer experimental medical procedures without informed consent. I think that includes the federal government forcing employees and students to take an experimental vaccine through state, school, or business policies.

**Please pass HB 248 BEFORE your committee goes on recess in June!**

**A Concerned Ohio Voter**
