

Good morning Mister Chairman and committee members,

My name is Makenna and I am eight (8) years old.

When I was seven I went to my friend's birthday party at an indoor water park. I stood over a water squirter and I got hurt really bad! I went to my friend's mom, Kathleen. She helped me because she is a nurse. I was scared and I was crying a lot. Kathleen called my mom and she came and picked me up and took me to children's hospital where they stitched me all back up. I want this law so that nobody else gets hurt like I did.
