

HB 248: To Prohibit Required Vaccination Status
Opponent Testimony: [NAME]
Ohio House Health Committee
June 22, 2021

Chairman Lipps, Vice-Chair Holmes, Ranking Member Russo and Members of the House Health Committee,

My name is Indushree Rajan and I write in opposition to HB 248.

If HB248 passes it would cause a resurgence of deadly diseases previously controlled for decades by vaccines, including polio, measles, meningitis, HPV, mumps, and rubella. It puts our kids, patients with chronic diseases, and our elderly at unnecessary risk.

BH248 also restricts the freedoms of individual business and organizations to set their own safety standards.

By opposing BH248 we are asking you to take the same common-sense approach to banning smoking in airplanes or prohibiting drunk driving.

For the safety of our community, I humbly urge you to reject HB 248.

Indu. Rajan
