

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee,

Thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Dana Roof and I am a stay-at-home mom, and the reason I support House Bill 248 is simply because all vaccines should be a choice.

Everyone should have the right to decide what goes into their body. My body is mine, not anyone else's. Your body is yours, not anyone else's! Therefore, we as individuals should make the choice on what is going into our bodies. Like any other vaccine or medication, all bodies will react differently. Some may be allergic to an ingredient in the vaccine! Why would those people want to risk their health or their life over a vaccine?! And why should someone force them to risk their health or their life over a vaccine?! People shouldn't have to be terrified of losing their job

. Parents shouldn't have to worry about how they are going to educate their children over a vaccine that got mandated. So, I just kindly ask that you really take into consideration all of the people that are standing up for what is right...what is best for their body. Vaccines should NOT be mandated!

Thank you for your time.

Dana Roof
