

To whom it may concern:

My name is Dylan Case. I am 18 years old. I graduated high school in New York as a junior because NY stripped me of my religious exemption to vaccines. I was not able to be in school as a Senior due to vaccine requirements, so I doubled up and finished a year early. My family moved to Ohio so my younger sister could attend school. I started working at a local truck wash full time. Masks were mandated and we were doing physical labor in a hot damp work environment. I could only do that for so long before quitting so I could breathe freely. I didn't start college because I wanted to attend in person and experience life as a normal college student.

Now, I still can't attend college because so many are requiring the vaccine or weekly testing. I now have no options, as Colleges are requiring the vaccine and employers are requiring masks, testing, or vaccines. This is a crazy world. I am now limited due to Covid Restrictions and mandates. Ohio needs HB 248. We need protection from vaccine mandates and discrimination. Please pass HB 248!

Sincerely,

A handwritten signature in black ink that reads "Dylan Case". The signature is written in a cursive style and is positioned above a solid horizontal line that spans the width of the page.

Dylan Case
