Re: HB 248

To Whom it May Concern:

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Scarlet Crane and I am in the dental field. The reason I support House Bill 248 is two fold; one as a baptized Catholic, I in good conscience believe that vaccination is not morally obligatory in principal and so must be voluntary. With risk there must be choice. Even God has given us free will. Second, I must carry an epi-pen with me wherever I go as many chemicals, medications, vaccine carriers, foods etc. I am allergic to and do not always know that I am until I go into anaphylactic shock. I choose not to put something into my body that I have a choice to decline. Making it mandatory without the vaccine manufacturers being able to be found liable and without a doctor or health department, or government agency willing to sign off that they would pay all my medical expenses, life expenses, salary or other expenses if I die or am found not able to work due to their requirement of said vaccine, I will hold fast in my refusal of the vaccine.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,

Scarlet Crane
