

To all respective members,

I would like you all to pass the HB62 Second Amendment preservation act.

As a lawful gun owner my entire life, I feel that the people should have the right to bear arms.

This Amendment has been in place and should stay in place.

I am also a Disabled Veteran. I know what countries look like when their people have none of their own defense from criminals and bad people.

With the current climate at the border, it is imperative for us to have our own defense for our families. We have the right and should have the right to defend ourselves without being over taxed or over priced for components that pertain to said arms.

There are around 187,000 gun owners as of 2019 and that has increased in the last two years.

We, the registered owners, have the right to own and it should be preserved in the future. This is not a decision that should be made for the masses by a corrupt White House agenda. It's not a fair and just decision by a White House that is overreaching their authority.

I ask that you preserve the State of Ohio residents the right to honor the Constitution that has been in place and still stands for our freedoms. This document still stands for what we need in this country. It should not be cancelled nor nullified. Any govt affiliated person that attempts to change this should be tried for treason.

Make sure our country remains free and without prejudice.

Respectfully and unmasked
DARRYL MILLER
