

Vital Veterinary Assets at Risk in Ohio

Ohio's *only* College of Veterinary Medicine is in critical need of enhanced state funding

Protect Ohio's **\$110 billion** agriculture industry by preventing disease outbreaks, like African swine fever, and ensuring a safe and plentiful food supply

More than 80% of Ohio veterinarians are graduates of Ohio's only college of veterinary medicine

70% of human infectious diseases originate in animals, and veterinarians provide detection, surveillance & research discoveries to prevent or contain pandemics like influenza and COVID-19

Support **vibrant and healthy Ohio communities** by serving as a global leader in antimicrobial resistance and providing a statewide veterinary antimicrobial stewardship program

THE OHIO STATE UNIVERSITY

COLLEGE OF VETERINARY MEDICINE

Conduct **groundbreaking research** in public health diseases that impact people and animals, like cancer, diabetes and others, to improve health & wellbeing

3 out of every 4 households have at least one pet. Pet owners invest **~\$5 billion** annually in the state

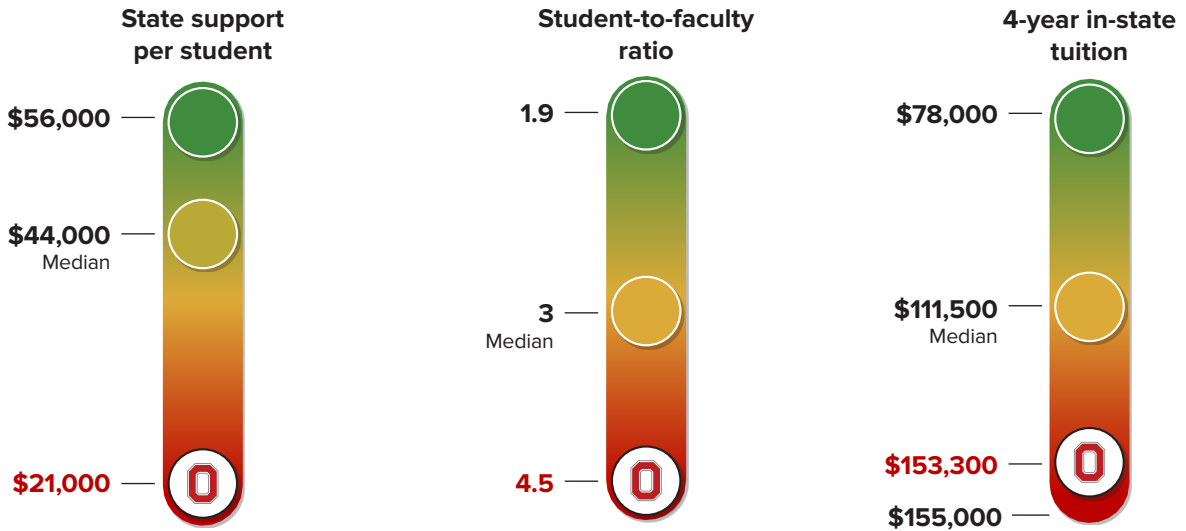

Over **\$13 billion** contributed (direct & indirect) to Ohio's economy through veterinary profession

CURRENTLY #4 Ranked in the **top five** by *U.S. News & World Report* for over a decade

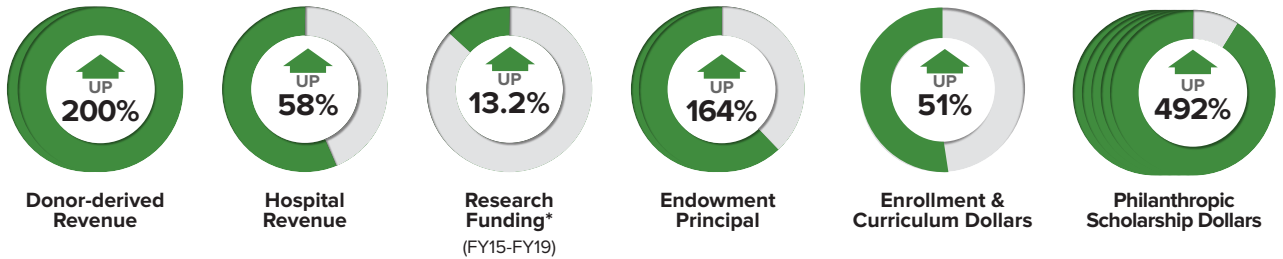

Advancing One Health by collaborating with organizations and stakeholders to optimize health and wellbeing of animals, people and the environment

Keep Ohio's Veterinary College Competitive

The Ohio State University College of Veterinary Medicine — long recognized as a leader — is lagging behind all 24 public land-grant colleges of veterinary medicine in key areas such as ...

The college has streamlined efficiencies and grown revenue over the past 6 years (FY15-FY20)

Additional investment will ...

PEOPLE & PROGRAMS

Enhance programs and enable recruitment and retention of top talent to solve problems and fulfill land-grant mission areas that support the needs of Ohio's economy and its citizens

RESEARCH & OUTREACH

Increase veterinary contributions integral to One Health—critical to the health and well-being of animals, people and the environment—and vital to protecting Ohio's #1 industry—Agriculture

ACCESS & AFFORDABILITY

Make becoming a veterinarian more accessible and affordable for all Ohio students, leading to enhanced services and support for rural and other underserved communities

Keeping Ohio's College of Veterinary Medicine competitive and prepared is essential to our economy, food safety and prevention of infectious disease outbreaks
