

**Testimony of Edward and Carolyn Kalb  
Seneca County, Ohio  
In support of SB-52  
Ohio Senate Energy and Public Utilities Committee  
March 9, 2021**

Chairman Peterson, Vice Chair Schuring, ranking member Williams, members of the committee, We write as proponents of SB-52.

We think citizens should have a vote on the building and a need to be informed on what is being built in our backyards.

The manufactures safety data should be available to the general public. Our property value and rural life will be affected.

Big money and access to government subsidies should not be allowed to push this through. They don't live in the area and will walk away when problems occur. Their landscape and property are not being hurt.

A state agency with no connection to the area should not be allowed to make decisions on what happens in our backyards.

Just because there are so few people involved doesn't mean we should have no say.
