

Honorable members of the Assembly,

Thank you for allowing me to provide my testimony.

Our factory had to shut down for 2 months in the spring of 2020. This mandated shut down cost my division of promotional sales \$143,000 in lost revenue. We must stop Gubernatorial overreach during times of emergency. This usurping of the Legislature will not stand.

Also, the Governor's mask mandate is unlawful. He has asked small business owners to harass their own customers to wear masks, despite the clear wording of the American's with Disabilities Act which protects those that cannot wear masks. How can he enact a mandate, and then ask a small business to enforce the mandate, or face fines themselves for the behavior of patrons?

Please vote YES on SB22, and continue to uphold the legislative process in this state.

Cheers,

Joel
