Testimony regarding H.B. 110

My name is Theresa Reynolds. My family and I live in Cincinnati. I very much support additional state funding for high-quality Charter Schools like ReGeneration Bond Hill. I've been a parent of Regeneration Bond Hill since its opening here in Cincinnati and I've loved it ever since! Honestly, I've loved its ideals and concepts long before I enrolled my children. When I enrolled my first child she was already on a pretty good track with her educational level, but I knew that ReGeneration's curriculum and learning concepts were much different than most schools we already and that she'd thrive there. Also, the fact that they had two teachers in the room everyday was one of the things I appreciated most, along with the fact that they even have uniform for gym!

Upon the enrollment of my second child I was worried he wouldn't do well starting out because he didn't really receive the same educational growth from his previous head start as his sister did before him. On top of that fact, he was starting at the age of four because of the way his birthday fell. Through all of this ReGeneration assured me that this wasn't a problem at all and that I had nothing to worry about and they meant every word! My children have done better than great since having become a part of this school and will remain with ReGen until graduation! ReGeneration Schools goes ABOVE and beyond for both its students and its parents regarding any issues we may have. I've never had a bad experience with anyone on their staff! For as long as ReGeneration remains, any child of mine will CERTAINLY start there!!

I believe every child should have the opportunity to attend a quality school like ReGeneration Bond Hill. Please continue to support school choice and fully fund charter schools.

Thank you.

Theresa Reynolds
