

Ohio Veterans NOW

Neuromodulation – Operation Wellness

Are you a veteran struggling with chronic stress and sleep, or mood or focus problems? Or are you struggling with substance use? If so, you may qualify for a treatment program at The Ohio State Wexner University Medical Center Department of Physical Medicine and Rehabilitation.

To qualify, you must:

- be a U.S. military veteran (active duty, National Guard or reserves)
- be a legal resident of Ohio
- be experiencing chronic stress, sleep, mental health or substance use issues

The program uses **data-driven transcranial magnetic stimulation (TMS)** to target the areas of the brain that control mood, attentiveness and craving. Other supportive therapies and peer mentoring will also be provided based on your needs.

No referrals are required to participate, and all treatment is provided at no cost.

For more information, contact the treatment team today:

(614) 665-7905 or **(614) 293-4840**
